THE CAMPAIGN IN NEBRASKA.

Speeches of Governor Thayer and L. D. Richards at Kearney.

REPUBLICAN ENTHUSIASM AT HOLDREGE.

Fremont Listens to What General Webster Knows About Probibition -Parades, Rallies and Speech. making All Over the State.

KEARSEY, Neb., Oct. 22 .- Special to THE Ber]-A fine audience was present at the Model opera house last night. Hon. L. D. Richards was introduced by General A. H. Connor and spoke as follows:

Mr. Chairman, Ladies and Gentlemen: I am here tonight by accident. It is well understood that the issues of this campaign must be discussed by those more capable than myself. This campaign is a very peculiar one, in many respects the most important in the history of the state. With four tickets in the field the voter certainly ought to find one to sait him. The republican party has worked out all the great reforms. Its policy has made has the grandest nation on the earth. It is strong enough in the state to settle all questions, and all the great ques-tions of interest of the state are mutual questions before us, and must be settled on the side of right and justice to all, and unless they are so settled they will continue to perplex all politics and occupy the country until

Notwithstanding there are four tickets in the field the fight before us is with our old antagonist, the democratic party. It is the party opposed to pension legislation. It is the party that looks with suspicion upon our public school system which has been so largely instrumental in promoting the in-telligence of our people. It is a narry that has been and is now opposing all the meas-ures adopted by the republican party, and finally accepting them in later years, claim-ing the credit, and showing themselves the enemies of this state by magnifying our misfortunes in close times and creating dissatisfaction generally. I oppose the party that can find more evil and do less in suggesting remedies in political organizations than any that ever existed. We know that than any that ever existed. We know that there has been little money in farming. Very few lines of trade will show a gain during the last few years. This fact has been mixed upon by the democrats as their cam-paign cry against the republican party. That the people will be deceived for any great the people will be decrived for any great length of time is not to be believed.

In this district the independent party nomi nated a man who was a former republican-therefore could not be endorsed, and the democratic party placed a candidate in the field. It goes without saying that the re-publican nomines will be elected. Mr. Dor-sey will be found in the future, as in the past, working for the good of the people. I came to Nebraska twenty-three years ago and have seen it grow in population from about 100,000 to 1,000,000 today, with an assessed valuation of \$250,000,000, while the true value will approximate to \$1,000,000,000.

The population in 1870 was 38,500,000, today it is 64,000,000, and the wealth of 1887 was \$00,000,000,000 and today it is approximately \$70,000,000,000, accomplished under the wise protective policy of the republican party. I ask you if you think the democratic party or any other party could have made a better

showing.
The democrats have sought to make political The democrats have sought to make political capital by charging that our taxes are higher than in adjoining states, that money has not been well expended. In the consideration the relation of assessed and true valuation is never stated. The census reports give Nebraska and West Virginia as the only two states out of debt. Our people have built up a public school system which is the pride of every true Nebraskan. To accomplish this every true Nebraskan. To accomplish this a many cases they have taxed themselves voluntarily and cheerfully to the legal limit There is another institution our taxes maintain. I refer to the soldier's home at Grand Island where are gathered so many loyal old guards whose patriotism and heroic services won for themselves the united gratitude of all the people in time of peace. The republican party will assume all responsibility for providing a place where the aged veteran with sour and empty sleeve bear mute but cloquent witness of bat-tles bravely fought and duty nobly done, a place where he may enter not as a receiver of alms, but as the honored guest of a grateful people. The republican party has always been the friend of the so, dier, while on the other hand the attitude of the democratic party has been one of hostility. Has there been any doubt upon this question? The wnolesale vetocing of pension bills by President Cleveland is a fact showing the position of the democratic party on the question.
We pledge the Australian ballot system

where the voter may cast his ballot unseen by individual or corporation. We favor postal telegraph and a modification of the statutes that will give to the workingman his just dues, a modification of the tariff, which we have in the McK inley bill, more stringent usury laws and their rigid enforcement.

To all these things the republican party is pledged. The national congress has carried out the pledges made to the people in 1888, viz., modification of the tariff with the recipprocity idea, as advocated by our great com-moner, James G. Blaine; prohibition of trusts, the suppression of gambling in food products; the use of silver as money; for the protection of the voter in his ballot and the prohibition of contract labor. The Fifty-first congress will go down in history, under the leadership of that courageous man. Thomas B. Reed, as the people's working congress. Ladles and gentlemen, I thank

Governor Thayer was introduced and spoke as follows:

Mr. Chairman, Ladies and Gentlemen— You have had the pleasure and opportunity of seeing and listening to the republican candidates for governor, lieutenant governor and the present member of congress and candidate for re-election. I am glad you have had this opportunity of looking into their hearing their voices. has been a pleasure to me to be here and to listen to them You have heard the plain, unvarnished statements of privileges and news of Mr. Richards, your candidate for governor I was struck with the cumeration of the principles which are at present the principles and the policy of the republican party, and I am grad that he is the standard bearer of our party in this campaign. I know that he is making a most excellent impression upon the people and believe that when the 4th of next Novem ber comes the people will declare by their votes that he shall be your governor for the next two years. He is worthy of your confideace and support, an honest man against whose fair name not a breath of susp has ever entered in all the relations of He is, in the highest sense of the term, a good citizen, a brave soldier in defense of the flag in the hour of his country's peril, and having pursued the even tener of his way, has advanced step by step until he has reached the high position of nomince of the grand republican party. I trust that every one of you will stand by Your governor and see that he is elected.

I am glad to meet here my honorable and brave friend, Colonel Thomas Majors. He enlisted in the regiment which I had the honor to lead to the field from the then small territory of Nebraska—small in numbers, nean and I can bear testimony to his rai instry and heroic daring as a soldier, and I take unlimited pleasure in doing so. Enter-ing the service when but a boy, the proved himself a true and brave man. He was with my regiment in the front rank on the bloody field of Donnelson, where my brigade, in the center of which was my regiment, the First Nebraska, met General Buckner where he made his last efforts and defeated him. It was my regiment, which I had the honor to lead there, and with the First Nebraska I met General Buckner and drove him back into his works. It was the last attempt he made to escape, and it was then and there that General Grant recognized the valuable services of that regiment on that field. He was with his regiment through the long and bloody battle of Shilo, ever present at the post of danger illustrating his bravery, his during as a true and brave soldier. He has been an honored citi-

zen of this state, having the confidence of his people for whose good he has ever labored, making for binself an honoredname which slander cannot successfully assail. He is ander cannot successfully assall. He is our candidate for the second effice is your gift and I trust you will give himunited support. I have not one word to say against support. I have not one word to say against Dr. Bear. He is a pleasant gentleman. But just think of it, my friends: you are called upon to choose between one of two men who shall hold the second office in your grift. Can t be possible that a man who fought to deroy this nation can be elected to a gh office? No, never I say is meaning no disrespect to Dr.

Bear I say republicans can never submit to that at least they will prevent it from becoming a fact. Of course they will submit to the will of the people whatever it is, but Thomas J. Majors deserves better of is, but Thomas J. Majors deserves better of the people of Nebraska, for he was agailant and brave defender when the union needed defence, and Dr. Bear was fighting for the overthrow of that union. Now which will you take my friends! You will elect Colone! Majors as lieutenant-governor of this state for he deserved your support. You have also here your candidate for next

congressman. He has given you a plain statement of his stewardship and has shown you what he has done for his constitu I have been favorably impressed this course in congress and I to that there has been no man in my rescale tion who has served more faithfully than George W. E. Dorsey. He is one of the hard-working members of congress. No one has ever been more active or careful than he has been always at work in behalf people. It is impossible I say, but when they labor to do the beat they can for their people, they deserve the support of their consti-tuency. I believe Mr. Dorsey will be your next congressman, for he deserves your sup-port. I believe he will be re-elected and sent back by the vote of the people. This much I take pleasure in saying in behalf of these candidates.

This is a most remarkable campaign. I have never known one like it. This new ele-ment has entered into it which has been unknown herotofore. It has been thus far a campaign of misrepresentation, detraction and falsehoods of the principles of the re-publican party, of tiraces and misrepresentations by lying men. They traversed up and down the state of Nebraska trying to mispresent the sims, purposes and policies the republican party. Stander and false-hood have been their weapons. Why, if Ananias and Saphira had lived in this age of the world had been in Nebraska for the last two months and heard these speeches. Kem's Thompson's, McKeighao's and Powers they would have gone out and kicked themselves to death because they had failed to learn the art of lying in their age. [Ap-This is true in regard to the McKinley

tariff bill. I wish to add that the measures of that bill have been most grossly misrepre-sented and mis-stated to the people; it seems they would stop at nothing to accomplish their purpose.

There are two parties, one called the demo-

cratic the other called the alliance or inde-pendent. It seems they have different names to adapt to themselves in different places. It has been very interesting and amusing to observe how kindly the democratic party has been to the alliance party, how they have fondled and coddled them and said kind things to them for months past, keeping this party in line and using it to accomplish this burpose knowing that the existence of the alliance party must result, if it has any ef-fect at all, in the electing of the democratic ticket, if that thing is possible. That is the only way it can be brought about. The alli-ance people are used to accomplish that purpose and it is strange to observe the blind-ness of the alliance people and that they don't see it. They will find it out when the demo-cratic party passes into the promised land, if they ever reach there. The door will be shut against these alliance peo-ple who have helped them. They will be on the outside looking over into the promised land, while the democrats reign. But alliance friends, if there are any here, I hope there are, won't you feel a little mean then when you see the republican party depose and it is strange to onserve the blindthen when you see the republican party dewhose banners you have marched to victories in previous years when you were a mem-ber of that party that saved this nation in order that you may tive in it and enjoy the high blessing of American citizenship, when all that you have or hope to able to have came to you by the republican organization. When you see that party down and defeated through your instrumentalities won't you feel a little mean? Well, you ought to feel that way. But won't there be walling and gnashing of teeth among you when you see these old democrats enjoying the fat and fruit of the promised land and you are denied ad-mittance. Now there are vaquestions before you, but they ally turn upon national issues his cunvass. There are persons in this curvass. There are persons going up and down the state claiming to be reformers, neglecting state affairs, and discuss, or try to discuss, national issues—the tariff, banks and currency. When I have read some of the speeches made by these men— Kem, Powers and Thompson—I have been amazed to think that men in this enlightened age should proclaim such delusive theories. Here Mr. Powers proposes that the United States government shall issue 8,500 to the owner of 160 acres of land at 2 per cent interest. The sum of that would amount up to thousands of billions. A great money policy it is to issue money just as the money was issued in the confederate states without a dollar of gold or sliver to tack it. This is only a specimen of these vagaries, the worst defusion that one can congive of, and yet they are doing so. I am serry to see men who are supposed to be in-telligent, drink in these delusions. The Lord help those who are blinded by prejudice

and by ignorance. A bad crop year makes bad politics. Now, there are people who are ready to take up with any new theory, take tin, appland it, believe it; that seems to be the case with these men. My friends you have tried the republican party in the past, you know its record, you know its measures of public policy. I put to you this question for an answer: Can one of you in this audience point to one single action of the democratic policy during the long forty years be-fore 1861, one measure that lives and moves in the hearts of men or women today for good! [Applause] I challenge and defy any democrat to refer to any such measure that

an to be frank about it. I have studied up the history of that party, I have read it up the history of that party, I have read it to find something for which future generations would rise up and bless that party. I cannot find one before the law. You know, gentlemen, and others here, that the south controls the southern democracy just as directly and positively as the southern master controlled his slaves. The northern members of congress were controlled in the same way when

women and better men.

gress were controlled in the same way when the fugitive slave law was passed. Then it was that free trade prevailed in this country. Free trade was the child of southern slavery. They did not care to sell their produce to the people of the north, they preferred to sell it in England, Scotland, Ire-land and other nations of Europe. They preforred to buy over there because they did not want to encourage manufacturing in northern states, nor to help build them up. That was the democratic destrine then and

Therepublican party has mangurated every measure of public policy which has benefitted human kind today. It is true, not only of this people, but of the people of all lands without any exception, because all these measures are in the interest of humanity. They tend to rescue the poor and down trodden and elevate humankind and make better men and better women to diminish human suffering and increase human happi ness. Every one of these measures which our friend Dorsey has enumerated are of that character. You can not point to one which does not benefit numan kind. I challenge any democrat to soint one measure for which the people will thank God for the existence of the democratic party. But no, its record is covered all over and blotched with crimes against humanity and the government. people will thank God for the existence

The republican party will live in history as the grandest political organization that eves lived. It has redeemed its pledges, it har done everything which it promised and is trying to fulfill every pledge which it has made, but at every stage of progress it has been fought by the democracy

I have confidence in the ultimate triumph

of republican institutions for the government of men. Sixty-four millions of throbbing, beating hearts demand the redemption of every dollar of money that the United States has ever issued and they know every dollar will be redeemed. No redemption so grand, so glorious in its results and so mighty since the great God of the heavens in the form of man was suspended on Calvary creas for the redemption of the world. No such redemption has been known before or since this redemption. Remember you are a citizen of this great, noble country, one country, one this great, noble country, one country, one governor, one people, one flag, one national svereignty, independent and supreme over nil, save in allegiance to one King of Kings. This government will live on in the ages, every morning's sun shall greet. It and its glory shall surround the people forever and ever.

Webster's Facts at Fremont.

FRENONT, Neb., Oct 23. | Special Telegram to THE BEE. -John L. Webster spoke tonight against prohibition at the Love opera house to an audience of about six hundred Shervin, vice president of the Bankers' and for the facts, as shown by the official records of the various states, to prove that high license better promotes the interest of temperance and sobriety than prohibition. He first disproved the statements of prohibition. orators concerning the number of persons who die annually of drunkenness. He showed by statistics that instead of there being from 100,000 to 500,000 as claimed by prohibition stumpers the number does not exceed 3,500 at most This was submitted as a sample of the un-supported claims of prohibitionists. He then lowed that the asylums, pententiaries and anowed that the ayrams, pententiaries and jails of problettion states have a larger pro-portionate number of inmates than those of high license states. "Nebraska," he said, 'has 335 prisoners in its pentientiary, or one to every 3,360 of its population, while Kansas has 804, or one to every 1,000. As to the matter of saving the boys it was shown that the Kassas reform school is overflowing, when only boys who have been convicted of crime are admitted, while in Nebraska the number is much smaller and both sexes are admissible lupon proof of incorrigibility. It was also shown that in Omaha, as compared with Topeka, the proportionate number of arrests for drankenness is much maller. Kansas according to internal revenue reports, has 1,241 government licenses, while Neoraska has 1,50, these licenses be ing granted only to sell uncompounded liquors. In the year of 1889 the state of Maine arrested one of every 122 of its population, while in Omaha for the same year the arrests were one for upwards of every 300. Mr. Webster closed by pictur-ing a bright future for Nebraska if only the state is not blighted by prohibition, and appealed to the voters to bury the amendment too deep for resurrection. He was inter-rupted with frequent applause.

Turning to Van Wyck.

TECHMSER, Neb., Oct. 22 - Special to THE BEE. -The farmers are now taking sides against Dictator Burrows and in favor of Van Wyck. They believe that Van Wyck has been shamefully treated by the independent committee. The leaders of the alliance in this county are doing secret work for Bryan and working against Root, the independent candidate for congress. The ministers are waging war against C. W. Williams, the democratic alliance nominee for state senator, on account of his being an infidel. This asone will lose Williams not ess that three hundred votes in this county. His infidelity in connection with his theory of the government toming money direct to the people, without interest, is receiving much comment.

Stirring Up Pawnee.

PANNEE CITY, Neb., Oct. 22.-[Special Telegram to THE BEE. -The joint discussion of Conneil and Bryan brought out the largest years. On the Mills bill and all issues Mr. Connell put Bryan on the defensive and as usual Bryan dodred all issues. Mr. Connell county republicans are enthusiastic and will roll up the usual majority for him

The alliance had a grand parade and fine speaking here today. The organization man-ifested a weakness that surprised both of the old parties.

Spoke Fast and Long.

BATTLE CREEK, Neb., Oct. 23.-[Special to THE REE 1-A large and enthusiastic renullican rully was held here this evening lasting until after 11 o'clock. Maxwell's hall was filled to overflowing. Short speeches were made by J.W. Stir, candidate for representative, and Mr. Schwenk, candidate for sena-tor. Hon L. W. Osborn of Washington county spoke rapidly and eloquently for two hours, and pretty effectually cleaned out the other parties. The alliance in this part of the county is very weak, and the best of feering

A Rally at Holdrege.

HOLDERSE, Neb., Oct. 22.- Special Tele gram to THE BEE. | - A grand republican rally was held here list night, and unbounded enthusiasm manifested for the party candidates. The large crowd was addressed by Hon. L. D. Richards, Colonel Majors and Hon. J. Allen. This county is one of the strongholds of the alliance, but last night's meeting demonstrated that the republicans are gaining strength every day.

Instruction for Oakdale.

OAKDAIR, Neb., Oct 22 - Special to THE BEE .- Hon. Geo. H. Hastings and Hon. W. E. Summers addressed the people of this town and vicinity last night on the issues of this campaign. The large rink was nearly full, showing a disposition among our people to take a most serious interest in the present situation. Their interpretation of the Mc Kinley bill and of other matters, on which ful natruction was badly needed here, was clear and conclusive.

Niobrara All Right.

NIOBERRA, Neb., Oct. 22.-[Special Telegram to THE BEE. |-An enthusiastic republican rally was held here list night at which R. Gamble and L. B. French of Yankton, W. H. McNutta of Sioux City, and A. B. Holmes of Norfolk spoke and kept a large audience entertained until near midnight. Holmes dwelt thoroughly upon the republican ticket and met with favorable applause.

The injuries sustained by the three last

named are slight.

The burning of the train in the tunnel renders it impossible to clear the track as readily as it could be done on open ground, the smoke and heat preventing men from entering.

The initial cause of the accident was a wreck which occurred last night at Elihi station, two miles below. Somerset. The delay to passenger trains of this wreck caused the mistake of the engineer and conductor of the freight train by which the tunnel colli-sion occurred. Fortunately the passenger train had not entirely gone into the tunnel when the crash came, and so the three sleepers which did not leave the track served as a means of escape for the passengers. These sleepers were detached and drawn away from the burning train, but the bacgage and mail cars and two coaches burned. From the stories of milroad men who

arrived here tonight it appears that the wreck was due to the carelessness of the crew of freight train No. 22. This train was instructed to wait at Shan's Valley until passenger trains Nos. 9 and 5 had passed. The wait was a long one and all of the crew of the freight train weng to sleep. "Engineer Piniott awakened just after No. 9 had passed. Piniott awakened just after No. 2 had passed, and assuming that it was No. 5 and that the road was clear, arossed the crew and the truin west in. Strange Treatment of Western Union Telegraph Operators.

CHURGO, Oct. 22 - [Special Telegrate to Ton Bear |- The Western Union operators in Miscity are talking a good deal about the summary discharge of several of their colleagues. They wheet that the men were let go because they were too active in promoting at Lincoln as insuce and was 29 the interests of the new brotherhood that have turned as incurable but harmless, been forming for some time past. Superia- He then demanded damages from tendent Tubbs of the Chicago gistrict, when the officials who had sent hum to Lincoln asked this afternoon why the men were discharged, said that he had not told them the reason, and certainly would not inform the newspapers. The reporter then went to General Soprentendent Clowey for some information. Colonel Clowry said:

"Why or on what grounds these men were dismissed concerns only ourselves, and

cannot interest the passio," The colonel added that the company cared nothing about the men's organizations. but knows when men are not faithful to its interests and when they neglect their busimean. "We notice, too, he soid, "when men manifest a disposition to interfere with our business, and in fact to fun it themselves. We are winning the business of the company for the stockholders, and we don't propose to have anybody interfere with the company's
