RAIN FALLS IN HORIZONTAL SHEETS.

A Building Blown Down in Brooklyn and One Man Fatally Injured -A Yacht Runs on a Rock and Sinks,

NEW YORK, Oct. 24 .- The city was pelted last night and today with one of the most pitiless storms which it has endured in many a day. A flerce northeasterly gale drove a heavy rain in almost horizontal sheets, readering umbrellas of little use.

This morning reports of damage along the coast began to come in; but it is feared the worst will not be known until tomorrow. Along the New Jersey coast the wires are down and several vessels ashore, while others have been driven from their course. Very high tides resulted from the storm. Several boats were capsized off Long Branch but the occupants were rescued. The storm did considerable damage in Brooklyn this morning. A four story build-ing in course of erection, was blown down and John Lindsay a passer by was buried in the ruins. His injuries are fatal. Damage to the building is \$5,000.

New Jersey Coast Towns Suffer. ASBURY PARE, N. J., Oct. 24.-New Jersey coast towns are receiving their share of th severe northeasterly storm. The damage done to shore towns from Sandy Hook to Barnegat inlet by the storm and heavy tides will amount to thousands of dollars. The most severe damage was done at Monmouth beach. The sea cut a targe gap into the bluff and made a clean sweep across the driveway thirty feet wide. At Scabright the waves dashed up over the breakwater and into the besements of houses. All along the Shrews-bury river the high tide has wrought sad Everything in reach was swept away Boathouses, summer houses and stables could all be seen in every drift or standing in from eight to ten feet of water. The New Jersey Southern road washed out so that traffic was suspended.

A Steam Yacht Sunk.

LOCUST VALLEY, L. L. Oct. 24.-E. D. Morgan's large steam yacht Katrina, bound from Newport, R. L., for New York, with the owner and crew of sixty on board, ran on a rock one hundred yards from Matinecock Point L. I., at 3:30 this morning and the vessel filled rapidly and sank. Morgan and all the others aboard reached Matinecock Point safely. Morgan's forty foot yacht, which was in tow of the Katrina with three rules on beaut sallors on board, was cut adrift and nothing has yet been heard from her. The accident was due to a heavy storm.

Violent Storm About Poston.

Bosrow, Mass., Oct. 24 .- A most violent northeast storm has been prevailing in this vicinity all day. At Revere Beach the wind and high tide played sad havoe. The Woburn house was lifted from its foundation and settled deep in the sand. Many other build-ings were partially wrecked. Several small vessels were driven ashore, but no fatalities are yet reported. Along the south shore the storm is reported as the most severe since 1883 and seems increasing in fury tonight.

Five Sloops Blown Away.

Boston, Mass., Oct. 24.-Five sloops brok from their moorings in Dorchester bay and were blown away tonight. At Scituate the wharfs were flooled and part of Front street

SPEAKER REED IN CHICAGO. NEBRASKA-IOWA BOUNDARY. Greeted by a Monster Audience at Battery DArmory. CHICAGO, Oct. 24.-Accommodations for one of the largest political gatherings ever held in Chicago had to be doubled to make room for the throng that attempted to hear Speaker Reed. The doors were locked at Battery D firmory fully as hour before the beginning of the meeting and over 6,000 people were then inside, while hundreds were patiently waiting in the Second regiment armory next door, where the overflow meeting was held. When several hundred members of the Union Veteran association with banaers flying entered the hall as escort to Reed, remarkable enthusiasm was manifested. He was accompanied by Senators Farwell and Cullom, Congressmen Mason, Adams and Butterworth and many other well known

The speaker further asserted that there is The spraker further asserted that there is nothing the republican party has done that has not within two to five years received eitheir the tacit or vociferous approval of the democracy. In view of this he thought we need not tremble for the future. The speaker also addressed the overflow meeting briefly.

Governor Hillat Wheeling.

WHEELING, W. Va., Oct. 24. -Governor Hill and party arrived in Wheeling this afternoon. On the way from Massillon, O., crowds thronged the stations and cheered the governor as he passed through. On his arrival here a large crowd met him, and escorted him to the hotel, where a reception was held, lasting three hours, during which prominent democrats of the state paid their respects. The governor spoke in the opera house to night to an audience only limited by the capacity of the hall, dwelling on the tariff and other issues of the campaign.

Poodler McGarigle Bounced. CHICAGO, Oct. 24.-[Special Telegram to THE BEE.]-After a three years' wait Sheriff Matson has had a little revenge upon the exchief of police, ex-county warden and boodler, McGarigle, who so meanly abused Matson's confidence by running away to Canada when the sheriff kindly took him home that he might take a bath. Since the compromise of the case and return of McGarigle to Chicage the two men have never spoken until last hight. Sheriff Matson had been attending the Twenty-first ward republican meet-ing at a ball on North Clark street. After the meeting he was standing with Congressman Adams and others in the saloon when in walked McGarigle. Th The boodler walked up to the sheriff and smiling bade him good evening and asked him to shake hands. Matson glared at him an in bade him good dynamic and him an in-shake hands. Matson glared at him an in-stant and his wrath overpowered him. "You miserable cur and thief," he yelled. "How dare you speak to me," and his huge fist flew out and struck McGarigle in the face. McGarigle went to the floor in a heap, but widdly areae and jumped behind a chair, quickly arese and jumped behind a chair crying, Shame, sname, Miatson; I never in "You lie, you did, and through you I have

Attorney General Leese Files a Bill in the Federal Supreme Court. THE BIG MUDDY'S MANY CHANGES NOTED.

No Cause for Alarm Among Farmers Ripper." Over the Results of the Me-

Kintey Tariff Bill-Miscellancous Matters.

WASHINGTON BUREAU THE OMARA BEE,) 513 FOURTEENTH STREET, WASHINGTON, D. C., Oct. 24. Attorney General Leese has filed a bill in the supreme court to determine the boundary line between the states of Nebraskaand lowa. The question disputable was occasioned, the bill recites, by the shifting of the bed and channel of the Missouri river. The document on file with the clerk of the supreme court contains sine pages of judiciary print and is occupied in the beginning by a description of the wellknown old boundary line recognized

by congress when Iowa in 1846 was admitted to the union of states and which is found in the law of the United States, revised statutes, containing the lowa admission bill. Then follows a recitation of the history of the work in the United States land office to mark the boundary lines, done in 1851, and which is a matter of record in the office of the state's attorney general and the surveyor. The boundary line recognized by congress when Nebraska was admitted to statehood in 1867 is then recited. There is given a statement of the changes of the

course of the current, bed and channel of the Missouri river which have occurred since Issi, when they began. A very minute de-scription of the changes of the river along and in sections 16, 17, 21, 22, 23 and 28 in lowa is made and it is alleged that they have, under the boundary lines now recognized by the United States, given the state of Ne-braska invisidition aver a work of them and braska jurisdiction over a part of them, and the supreme court is asked to grant the usual writ of subpoent commanding the state of lows to appear before this court and answer the premises and stand to perform and abide such order and decree as to this court as shall be meet and equitable. There

There is full and familiar reference made to the well known questions of jurisdiction and dis-putes which have for years arisen between the two states on the points named and the court is reminded that the lands in dispute "are adjacent to the city of Omaha and vari dispute ous large industries are being established and built thereon, over which each state claims urisdiction.

jurisdiction." The object of the proceedings, the attorney general states through the bill, which was filed by his representatives, J. M. Wool-worth and C. J. Green, counsel, is to forever settle the right of jurisdiction by determin-ing the present boundary lines. There will not likely be further proceedings under some months, as no answer has yet been filed by the attorney general for lowa the attorney general for lowa.

FARMERS NEED NOT BE ALARMED. There is no real cause for any agitation among the farmers and other purchasers o manufactured goods over what appears to b an apparent increase of prices as the result of the adoption of the McKinley tariff bill. Investigation by treasury officials and others in New York, Philadelphia, Boston and other great importing citles reveal the fact that all of the agitation about an increase of prices is the work of importers. So non-next of prices is the work of importers, so per cent of whom are British subjects and consequently demo-crats, and 15 per cent of the American citi-The Stars and 15 ber cent of the American citi-therefor selfish motives in the circulation of reports of manufacturers having advanced the prices of their goods incident to the adoption of the McKinley tariff law. British free traders have to been busy in some of their great eastern importing centers during the past six weeks builing the markets for manufactured been weeks builting the markets for manufactured goods, and especially everything that is im ported, their object being to prejudice the voter at the approaching elections against the McKinley law. If the prices have ad vanced for any cause whatever upon articles which go into common use they will go back to the old prices in less than sixty days after the election. One of the leading features o the democratic campaign this fall has been this direct movement against the authors of the McKinley tariff law through in porters and American free traders. special howl has been made upon it in Ne braska and some of the other northwestern states by democrats as to the result of the McKinley law, and direful predictions hav, been made freely by them, and in a few in stances they have been able to apparently show that prices have been advanced upon imported articles upon which a higher rate of tariff is fixed by the McKinley bill. On the other hand, these same men will hav difficulty to see how it is that the Chicage lumber dealers resteriary determined on an advance in the price of lumber notwithstanding the fact that the Mc Kinley bill reduces the tax on this article to the extent of 50 per cent, and that in doing it served to stimulate the Canadian in removing entirely the export duty on logs, which of course has been paid by the Ameri-can consumers if the ideas of the old tariff advocates are well founded.

THE NICKEL MARKET BOOMS. Recent Tests of Armor Plate at An-

napolis Stimulates It. WASHINGTON, Oct. 24 -- Additional results

of the recent tests of armor plate at Annapo lis are still coming to light. The demonstration of the superiority of nickel steel alloy and the immediate appropriation by congress of \$1,000,000 for the purchase of a quantity of nickel with which to alloy nickel steel has had the effect of stimulating the nickel market to as un usual degree. The navy department had hardly began to inquire into the amount of nickel on the market before it was found that the results of the tests had been seized upon abroad with remarkable celerity and that there was to be keen competition in and that there was to be Real Competensiand the market, already noted for vigorous and steady demand. In addition there was a rumor of "corners" that were discomforting to the officials, who expected to get to the officials, who expected to get an adequate supply of metal at fair prices. All of the nickel used here has been produced abroad, Canada being the nearest source of supply. From information coming in an unofficial way to the department it appears, however, that there is a probability that the metal exists in this country in considerable quantities. It is asserted that mines of great value exist i Virginia, although for obvious reasons the persons making the assertion refuse to definitely give their locality. One company is organizing to develop these mines, so the navy department officers are hopeful that any considerable enhancement of the market price of nickel will be met and counteracted by the increased supply from domestic sources

PRO-RATING ARRANGEMENTS ANNULED. Building Up to Tear Down Appears to

be the Business of the Northwestern Association-Who Take the "Soo."

Curcaso, Oct. 24.--[Special Telegram to Tax BEE.]-The last circular issued by Chairman Faithors before severing his connection with the Western Freight association embodies the most gigantic boycott ever known. The circular was issued today under instructions from the Western Freight association and annuls prorating arrangements on the part of every association road with the Union Pacific. This applies even to local and non-competive points on the Union Pacific. The Northwestern road made a mild protest over the assuance of the circular but it alone now prorates with the Union rado Springs. Pacific under their famous traffic agreement The objection was not considered. In the future every article of freight delivered by any western road except the Northwestern to the Union Pacific, will take full local rates from point of origin to destination. Through rates are absolutely wiped out except via the Northwestern. The consequence will be that the North western will take practically all business from Chicago and the east, destined to Union Pacific local points to competitive points such as Denver and Colorado points, Helena and Montana points and all Pacific coast points, All traffic will be diverted from the Union Pacific to competitive points. The programme was finally arranged today. All lines in interest have Missouri river and St. Paul ter mini or connections. To Denver and Colo rado points all traffic will be turned over to the Rock Island or Burlington. To Helena and Montana points the traffic will be taken to St. Paul and given to the Northern Pacific and Great Northern. To worthern Bacific and Great Northern Bacific and Great Northern. northwestern coast points the Northern Pa-cific will get it all. To California and south-ern points the traffic will be diverted to the Atchison, Missouri Pacific and Southern Pacific. The boycott originated from an at tempt of the Union Pacific to compet the pay ment of high proportions for its connecting lines. The competing through lines took ad-vantage of the situation and the result has shown how perfectly surrounded the Union Pacific is. The feeling is so intense that it is altogether likely that passenger business will be likewise diverted. General Passenger Agent Fee of the Northern Pacific was in Chicago today and did not deny that he had succeeded to a large extent in influencing the Chicago lines to route their passengers with ther freight.

Railroad Weathercocks.

Chicago, Oct. 24 .- [Special Telegram to THE BEE.]-Almost everything done at yesterday's meeting of the northwestern passenger men was undone today. Negotiations with the "Soo" line were definitely declared off and the "Soo" will keep in effect its present low tariff between St. Paul and the scaboard. All the Chicago-St. Paul lines agreed to ignore the "Soo" competion, but after the meeting none of them expressed any confidence that rates would be maintained. It is claimed that the "Soo" is now getting Chicago, and likewise that part or the traffer-ing public which has a predilection for cut rates. All Chicago passenger men agree that retes. All Chicago passenger men agree that the "Soo" must come to terms or that north-

Foul Play Feared. EXETER, Neb., Oct. 24.-|Special Tele-gram to THE BEE.|-A number of farmers today instituted a search of the farm of Thomas Dollison, two miles west of here who mysteriously disappeared last Tuesday night. He was just seen on that night about 8 o'clock by a neighbor's boy, who left him at that time, Dollison saying he had promised to help move a neighbor's barn next day. He failed to show up in the morning and later in the day the attention of his neighbors was attracted to his stock which was suffering from want of water. No trace was found of him and the general opimon is either temporary in-sanity or foul play. Dollison is a well-to-do farmer, a bachelor about forty years old, five I armer, a bachelor about forty years old, five feet seven in height, dark moustache and has no trouble tressing so far as can be ascer-tained. SIDNEY, Neb., Oct. 24.-[Special Telegram to Tun Brg. |-This city assumed holiday atsire today in honor of Governor Thayer and Congressman Dorsey. All the promineut buildings were beautifully decorated. A delegation of citizens, irrespective of party. met Governor Thayer and Mr. Dorsoy at the train and escorted them to the Metropolitan hotel, where for two hours streams of people called and paid their respects. In the afternoon, on an invitation of General Henry A. Morrow, the gentlemen went to Fort Sidney where a salute of seventeen guns was tried in honor of Governor Thayer. A dress parade and review of the troops foilawed. The school children participated. General Thayer delivered a beautiful address to the children, the officers and soldiers. It was a pleasure to see the children extend their hands to shake hands with Governor Theyer. A reception followed at the resi-dence of General Morrow. SALT LAKE, Utah, Oct. 24.-[Special Tele gram to THE BEE. |-A special from Payson, Utah, says: A terrible tragedy resulted in the death of John Bolton, who accidentally killed himself while going horseback from Payson to Salem. In the middle of the forenoon he left town to visit his sister in Salem. taking with him a double-barreled shotgun, with which he shot himself. The particulars came out in the coroner's inquest as follows James Husil testined that he was going to

his field with his sons Thomas ans Karl. On the way, about one and a half miles east of town, he saw a boy on a horse coming for-ward. Karl said: "Father, there is Johnny Bolton, and his nose is bleeding."

"I jumped out of the wagon and ran up and was horrified to discover Johnny with half the right side of his head blown off. He was sitting in the saddle, leaning his head over the horse's neck, I turned away horrified. The sight was terrible. Apparently the horse had not moved since the gun exploded. Be his feet lay a portion of the boy's That portion of the face and head the ranging from below the right cheek to the crown of the head and between the right eye and ear was entirely blown off. It was a ghastly spectable. I found brains and pieces of skull as far off as fifteen feet in different directions. His hat was blown to pieces. Officer Bingham and Dr. Shores came and took Johnny off the horse with some difficulty as his knees clamped the sad-

die, probably on account of paralysis. From other evidences it is concluded that Johnny fired a shot just before crossing the canal and then attempted to reload, as was his custom, in the saddle, putting the gan hammers on his toes. One of the hammers caught on the stirrups and discharged the gun. The boy was fifteen years old and the only son of an aged father.

The French Budget.

PARIS, Oct. 24.- Special Cablegram to THE BEE.]-In the chamber of deputies today Bishop Freppel made a severe attack upon the budget. He advocated a reduction of the staff of the civil service and a retreachment in the estimates for education. He approved the trans-Saharan railway project, but urged the trans-Saharan rail way project, but urged that the construction be left to private en-terprise. The budget, he said, weighed heavily on the financial condition of France, especially because it had become a weapon against religion. M Soubeyran declared that the budget was a fallacious expedient to avoid real reforms. He said that in view of the approaching expiration of the monetary convention of the Latin union, and also with an eve to the probable consequences also with an eye to the probable consequences of the new American tariff, it is necessary to effect a strict reduction in expenditures. voiding both fresh taxes and further loans. It would suffice to effect the optional conversion of the 455 per cent rentes, thus affect ing a saving of 64,000,000 franc.

BOGUS MINING QUOTATIONS.

Utah Speculators Taken in by a Neat Swindling Scheme.

SALT LAKE, Utah, Oct. 24.-[Special Tele-gram to THE BEE.]-The Wood river miners have been suffering considerable loss for a week past in ore sales. The truth regarding the matter has just leaked out and wide spread indignation is felt at the big swindle that has been perpetrated. All ores are sold on the New York quotations transmitted by wire each day. They are sent from Denver and are always signed "Dealy". Suspicion having been aroused as to their correctness. Colonel Bryan of the Red Elephant mine wired his associate, G. W. Venable of New York, and also the New York metal extora, and also the from for quotations on cer-tain days in the present month. The answer from both revealed the fact that Denver has been sending out false quotations. For weeks lead has been quoted at \$5.25. All this time the actual New York quotations have been sending from \$5.50 as been as been as been as been actual the sender when a set of the have been ranging from \$5.75 as high as \$5.90 This daring discrepancy has of course caused a heavy loss to Utah ore producers, and they are more forcible than elegant in marks regarding the fraud. Now their re marks regarding the fraud. Now that the matter has been traced up and the true situa-tion revealed, something will very likely be heard to drop in the neighborhood of Denver.
