

THE CLIMATE OF NEBRASKA.

Gen. Greely's Presentation of an Interesting Topic to This State. HE EXPLODES THE CYCLONE BUGABOO.

The Rainfall Compares Favorably With Eastern States, Considering Its Distribution—A State Phenomenon for Sunshine.

General A. W. Greely of the United States signal service has issued an elaborate report on "The Climate of Nebraska," in response to a resolution recently introduced into the senate by Senator Paddock. It is a most interesting document for Nebraska and interesting to the states abroad.

THE CLIMATE IS CONTINENTAL. With the geographical position of the United States it is nearly one thousand six hundred miles from either of the great oceans, removed from the direct climatic influences of the gulf and the windward of the great American lakes, it is needless to say that the climate of Nebraska is continental.

THE AVERAGE RAINFALL. The rainfall is what may be called accidental, rather than periodical, that is, it arises almost entirely from abnormal atmospheric movements in connection with the passage of low area storms across or near the state.

CONSIDERING its inland situation, far from the coast, and the average annual rainfall of that section of the country, yet Nebraska is usually more favored in this respect than is usually surmised.

DEATH OF HOLLAND'S KING. The Queen at the Bedside When the End Came. The King of Holland died at 10 o'clock this morning.

SEVERE ELECTRICAL SHOCK. SAN FRANCISCO, CAL., Nov. 23.—[Special Telegram to The Bee.]—L. W. Morgan, an employe of the California electric company, last night received the full force of 1,000 volts of electricity.

A Noble Woman's Accidents. NEW YORK, Nov. 23.—Mrs. Sarah E. Henslow, a well known church member and active in charitable works, succumbed today at her home in Harlem.

Two Thousand Out. INDIANAPOLIS, IND., Nov. 23.—A Sentinel special from Brazil says: The demand of the drivers and day men in the Block mines for \$3 a day has not been met.

NEBRASKA'S CLOUDLESS SKY. An important element in climate and weather, in relation to health and agricultural interests, is the relative amount of sunlight.

0.30 inch in amount during that month. The average cloudiness diminishes as the table shows, from its maximum of 54 per cent in May to its minimum of 27 per cent in September.

ABOUT TORNADOES. In the minds of many persons the whole trans-Mississippi region is considered to be peculiarly liable to violent atmospheric disturbances known under the name of tornadoes.

THE STATE OF NEBRASKA is rarely visited by tornadoes, and when they have occurred they have been almost invariably confined to the extreme eastern portion of the state, along the Missouri river.

THE DISTINCTION it draws between the reliable rain-bearing winds from the southwest and the cold winds from the north-northwest, shows that the greatest precipitation is in the southeastern portion, the next greatest in the middle and northern portions, and the least in the southwestern and western portions.

Judge Savage's Funeral. The funeral services over the remains of the late Judge James W. Savage will be held on Tuesday at 1 o'clock p. m., at the family residence, No. 413 North Twenty-second street.

ANNOUNCEMENTS. This evening the engagement of Gilmore's great spectacle, "The Twelve Temptations," at the Boyd.

A Day of Fires. The firemen had little reason to regard yesterday as a day of rest.

The French Tariff Bill. PARIS, Nov. 23.—[Special Telegram to The Bee.]—The subcommittee of the deputies, which is considering the important duties on certain articles, included in the new tariff bill, raises the rates proposed by the government as follows: On beef, from 30 francs to 25 francs per double 100 weight; on mutton, from 25 francs to 32 francs; on fresh pork, from 15 francs to 17 francs, and on salted beef and cured hams, from 22 francs to 27 francs.

Acton-Lewis Writing Match. SAN FRANCISCO, CAL., Nov. 23.—[Special Telegram to The Bee.]—Joe Acton and Evan Lewis wrestled here last night for \$500. The conditions were that Lewis was to throw Acton twice in an hour or lose the match.

Fish Commissioners Met. CHICAGO, NOV. 23.—Fish commissioners from various states and representatives of the United States commission held a meeting this afternoon to discuss the question of the exhibit at the world's fair.

THE TENTH STREET VIADUCT. Work on the Tenth Street viaduct is being rushed rapidly to completion.

AT KOUNTZE MEMORIAL.

Installation of the New Pastor, Rev. J. J. Turkle. Kountze memorial church, at Sixteenth and Harney streets, was well filled yesterday morning, the occasion being the installation of Rev. A. J. Turkle, the new pastor of this church.

Rev. H. W. Kuhns presided, and Rev. J. C. Jacoby, president of the Nebraska Synod, and Rev. J. A. Clutz, D. D., president of Midland college, acted as assistants.

THE MINISTER of God had the physical as well as the spiritual welfare of the people in his charge and they needed his prayers to sustain them. The pastor in his charge was far greater. He would probably find many members of his congregation who would need spiritual consolation and he was directed to afford them the same.

THE BRIDGE BOND INJUNCTION CASE. NEBRASKA CITY, NEB., Nov. 23.—[Special Telegram to The Bee.]—The somewhat famous bridge-bond injunction case, which was brought to prevent Nebraska City precinct from issuing \$100,000 in bonds to aid in building a highway wagon bridge across the Missouri river, will be argued before Judge Dundy tomorrow.

BOUND OVER TO THE U. S. COURT. NEBRASKA CITY, NEB., Nov. 23.—[Special Telegram to The Bee.]—Two tramps named Frank Clark and Charles Mont pleaded guilty last evening before United States Commissioner Seymour to the charge of receiving a reward from the government and were bound over to the United States court. A marshal took the men to Omaha this morning.

THEIR ENORMOUS MAJORITY THE SOURCE OF TROUBLE TO DEMOCRATS. WASHINGTON, Nov. 23.—[Special Telegram to The Bee.]—The democratic members of the Fifty-second congress are apprehensive of much trouble growing out of the enormous majority they will have in that body and will take all of the precautions possible to put the management of affairs into the hands of skilled men.

STEP TOWARD THEIR HELPER TAKEN BY OMAHA CITIZENS.

A fair sized audience was at the Boyd yesterday afternoon to hear the story of the condition of the unfortunate farmers in the western part of the state.

MAJOR CUSHING presided, and, after calling the meeting to order, said: "It is painful to think that relief meetings must be held, but they must and there must be something more than simply meetings. We know that in our own state there are many persons who are in need of fuel, provisions and clothing. Omaha has always had the reputation of being one of the most charitable of cities, and there is no reason why she should not at this time come nobly to the front and help sustain the unfortunate citizens of the state."

GOVERNOR THAYER said: "I regret more than you can imagine that I called upon to appear before you and ask aid for twelve of fifteen of the counties in the western part of the state. In many of the counties the people have nothing on which to subsist. It was my duty to take hold of the matter because, as governor of the state of Nebraska, appeals came to me from the people of the counties where crops had failed on account of the lack of rain and the visitations of the hot winds. During the past three weeks these appeals have become more numerous, all telling the same story. I can hardly trust myself to speak upon this subject. They write to me saying, 'Can you help us?'"

THE OMAHA CITIZENS OF NEBRASKA—I am not here to make a speech, but to give you some facts, some news, some news of the people, visiting seven counties, to see just the exact condition of the settlers. There are gentlemen here who know that the soil of these counties is such as can be made to grow anything in the state, but this year no corn, wheat, oats, potatoes or grass grew. It was not on account of lack of industry, but because of the drought. The soil is such that the prairies were as brown and bare as a floor. These people have no crops to sell and nothing to eat but corn bread, and very little of that. They are now on our hands and we have them to feed and keep warm during the next nine months. A careful estimate shows that there are eight thousand people in this condition.

A careful estimate shows that there are eight thousand people in this condition.

THE OMAHA CITIZENS OF NEBRASKA—I am not here to make a speech, but to give you some facts, some news, some news of the people, visiting seven counties, to see just the exact condition of the settlers. There are gentlemen here who know that the soil of these counties is such as can be made to grow anything in the state, but this year no corn, wheat, oats, potatoes or grass grew. It was not on account of lack of industry, but because of the drought. The soil is such that the prairies were as brown and bare as a floor. These people have no crops to sell and nothing to eat but corn bread, and very little of that. They are now on our hands and we have them to feed and keep warm during the next nine months. A careful estimate shows that there are eight thousand people in this condition.
