HERE AND THERE. Commenting on the Indian scare the other day a gentleman said: "I don't believe there will be any bloodshed. The Indians know too well that they would stand no chance in a contest with Uncle Sam."

LET THE CITY BE ELECTRIC. The city council held a special meeting this morning to consider the matter of electric lighting. The contract was amended so as to read as follows: "The city of Lincoln shall purchase of the Lincoln Electric Light Company...

OMAHA LOAN AND TRUST COMPANY. Subscribed and Guaranteed Capital, \$50,000. Paid in Capital, \$25,000. Buys and sells stocks and bonds; negotiates commercial paper; receives and executes trusts; acts as executor, administrator and trustee of estates; takes charge of property, collects rents.

FROM present indications railroad competition will soon be numbered among the lost arts. The franchised corporations will presently discover that they have paid an exorbitant price for the combine whistle.

Public duty is higher than party oblation. Duty to Omaha demands the defeat of every member of the boodling combine. Every good citizen of the Ninth ward, regardless of party, should take an active interest in the retirement of Davis and the election of Paul.

THE BEE entertains no unfriendly feeling toward any of these corporations or their managers, but it warns them now to desist from their infernal machinations unless they want to arouse our citizens to organized resistance and want to invite an appeal to the courts that will soon show them the boundary line between their rights and the rights of the taxpayers.

AN EDUCATIONAL INNOVATION. A meeting of distinguished educators was recently held in Philadelphia to consider a plan designed to extend among the people the usefulness of the universities and higher institutions of learning. The movement is designed to benefit the large class of persons in the cities and towns of the country who have the leisure and inclination to study, but lack guidance, instruction and the sustained endeavor which comes of associated effort under proper regulations directed toward a certain end.

THE EAST OMAHA LAND COMPANY adds another splendid project to many others under way for the development of the property. Plans have been accepted for a railroad and wagon bridge over the Missouri river, and work will begin on the structure as soon as a charter is obtained from congress.

AS BETWEEN Mr. Thomas Tuttle and D. H. Wheeler in the Fourth ward, republicans who want honest government will give Mr. Tuttle the preference. He is a clean man of undoubted integrity and entirely free from entangling alliances with contractors and tax-eaters.

THE whole debacle of the primaries and the stifling of public sentiment by the cohorts of the combine, absolves republicans from every obligation to support the nominees. Without money or patronage Chaffee, Davis and Wheeler could not muster a corporal's guard of republicans.

WHEELER, Chaffee and Davis should be defeated at all hazards. They represent the worst elements in our city government and are responsible for the enormous waste of the people's substance during the past two years. They have been the head and front of all the plotting and scheming in connection with public improvements and have given countenance and support to the various rackets that have been made on our city treasury by the franchised corporations.

THE scandalous partiality of Chaffee's primary election judges can readily be accounted for. A few months ago Mr. Quenley had a claim against the city for grading damages. The appraisers awarded him eight hundred dollars. Mr. Quenley declined to accept and appealed to the combine for a higher award. A more accommodating set of appraisers was appointed and Quenley was allowed eighteen hundred dollars. This was like finding a clean thousand dollars. Mr. Quenley is a grateful man, and Chaffee knew he could count on him to count him in. Mr. Quenley has paid his debt, but the taxpayers of Omaha are not likely to applaud Mr. Chaffee's generous methods of dealing out other people's money.
