

## THE CITY.

Albert Bierstadt, the celebrated artist, will arrive in Omaha from Denver Monday or Tuesday and will remain here a few days.

The Omaha street railway conductors and motor men will give their first annual ball at Exposition hall Friday evening, the 19th inst.

The funeral of the late Henry Scroggin will take place from the St. Phillip chapel, corner of Twenty-second and Nicholas streets at 2 o'clock this afternoon.

County Judge Shields absented himself from the bench long enough yesterday morning to unite in marriage Bernard Anderson and Anna Carlson. The ceremony was performed in the judge's private office.

A reception will be given this evening by the members of the First Christian church, in the church parlors, corner 20th and Capitol ave., to their new pastor, Rev. Thomas E. Cramblett, recently from Salem, Ohio.

Mrs. Fisher and L. C. Morrison, who were arrested upon a charge of larceny preferred by George Duncan, were arraigned for trial yesterday, but on account of the non-appearance of the complaining witness they were discharged.

H. B. Smith has filed a complaint charging Edward Rich with embezzlement. Rich is a teamster in the employ of Smith, who delivers lumber for John A. Wakefield. It is claimed that Rich absconded with \$2.00 for lumber which he delivered and failed to turn over the money to Mr. Wakefield.

The funeral of George Rung, who recently committed suicide, will take place today at 2 o'clock, from the residence of Mr. W. A. Watson, No. 2921 Harney street. The deceased was a member of the horseshoers' union and that organization will have charge of the funeral. The body will be interred in Forest Lawn cemetery.

The roller skating season at the Coliseum is in full blast and the large building is well filled every afternoon and evening with young and old lovers of the exhilarating exercise. Good music is in attendance. This affords an excellent diversion for both young and old, and the large attendance shows how the opportunity is appreciated. The prices are very reasonable and the pleasure of the patrons is carefully looked after.

The Rev. Wm. Stout, Warrenton, Ont., states: After being inefficiently treated by seventeen different doctors for scrofula and blood disease, I was cured by Burdock blood purifier. Write him for proof.

## HER OWN EXECUTIONER.

Useless in Life: Fannie Billups Ends Her Career.

The inquest over the remains of Fannie Billups was held yesterday morning.

Mrs. Elizabeth Martin and Mrs. Rebecca Martin, the grandmother and aunt, respectively, of the deceased, testified that the girl had had a severe attack of spinal meningitis when she was about ten years of age which shattered her nervous system, so that she was not only of an irritable and nervous disposition, but was also unable to do anything but her household duties. Being a domestic this last affliction operated against her and caused her to be very dependent. Her brain also seemed somewhat affected.

The parents of the girl live about eight miles south of Hay Springs, in this state. As far as these witnesses knew no further cause existed for the actions of the deceased.

Dr. Sommers testified that he had been called to see the girl Tuesday evening and found her in a very bad condition, as if poisoning by some corrosive substance. She died soon after he reached her, but refused sufficiently before death to say she had taken poison.

The jury returned a verdict that death ensued from the effects of poison taken while temporarily insane. The parents of the dead girl have been notified and the remains await their orders.

## Children Enjoy

the pleasant flavor of the new and soothing effects of Syrup of Figs, when in need of a laxative, and if the father or mother be constipated or bilious the most gratifying results follow its use, so that it is the best family remedy known and every family should have a bottle.

## UNION PACIFIC ENGINEERS.

They Will Assemble to Discuss Grievances in Convention Today.

The annual convention of the Brotherhood of locomotive engineers of the Union Pacific will assemble in this city today. It is expected that there will be about fifty delegates in attendance.

The object of the convention has not been announced but it is thought to be to settle the old question of dissatisfaction which has existed for some time on the branches of the roads south of the main line.

A shade of this dissatisfaction has been noticed among some of the engineers on the main line, and they are mostly of the class who are to suffer by the cutting off of the southern branches from the first division. Under the old plan, the engineers of both these sections were promoted in the order of priority. As it is now, the separating of the divisions will retard the advancement of some men and unduly advance others. The men who expect to be advanced ahead of their time are pleased with the situation, while those who have in effect lost time by the change are displeased.

How the difficulty can be adjusted cannot now be foreseen. Some of the men favor deferring consideration of the matter until Mr. Clark arrives, for the reason that no other official would be likely to take cognizance of or at least act in the case until the new general manager arrives.

## COMBINE ECONOMY.

The Worthless Steam Fitting Done in the City Jail.

Another sample of the combine's "business methods in city affairs" has come to the surface in the city jail.

Some time ago it was found necessary to place a number of radiators in the cell room and the janitor's office. Half a dozen plumbers were kept at work for a week changing steam pipes and setting the new radiators. Now that it is completed, it is found that the radiators were all set below the water line and they fill with water, and such a degree of heat will add to the temperature. They will have to come out and the work must be done over again. The work was done under the supervision of Mr. Davis of the Ninth, the "watch dog's" right bower, and chairman of the committee on public property and buildings.

Gesler's Magic Headache Wafers. Cure all headaches in 20 minutes. At all druggists.

## THE SLUGGERS ARE IN LIMBO.

Happy Termination of the Reign of Terror They Occasioned.

In the arrest of J. Lockwood and J. Brown, there is no longer doubt that the police have caught the scoundrel who for several weeks past have been assaulting honest citizens in various parts of the town.

Lockwood was suspected of having stolen Warren Switzer's coat and the suspicion has been well founded.

Yesterday a handkerchief belonging to Mr. Switzer was found in Brown's pocket and this fact unquestionably connects him with the robbery.

Some of the people who were assaulted have identified these fellows as the men who did the slugging, and it is likely that they will pay the penalty.

## ANNOUNCEMENTS.

The set used by the Hanlon, Volter & Martinetti company in the pantomime of "A Terrible Night," which opens at the Boyd Sunday, is one of the most complete ever placed upon the stage. It weighs over two tons, and requires the service of five expert carpenters for four hours to put it in shape for the performance.

## MORSES.

Dolls, Toys—On Sale Today.

We have about 250 to 300 dolls sent to us from Sonneburg, Germany, last summer as samples; it was impracticable, having paid the duties, etc., for us to return them, and as they are odd lots we shall place them on sale at three prices today.

50C AND \$1.

The 50c lot, worth from 75c to \$1.50, and the \$1.00 lot worth from \$1.75 to \$2.50. Don't miss these. They are bargains, and nice, clean styles; on sale today, we will also give you your choice of a lot of 50c dolls at 25c.

25 CENTS.

Largest stock of desirable toys in the city; fifth floor; all new goods.

THE MORSE DRY GOODS CO.

Dr. Birney cures catarrh, Bee bldg.

Christmas J. weiry at Auction.

The entire stock of diamonds, watches, silverware and jewelry of the Diamond Parlor at 14th and Farnam streets having been purchased from the receiver, it will sell the same at auction between now and January 1, 1891, commencing Thursday, December 11, at 7:30 p. m., and continuing afternoon and evening until the entire stock is sold. These goods were purchased for first-class trade, and parties desiring to buy holiday presents can procure the finest articles known to the trade at their own figures.

This is a bona fide auction sale of jewelry, and all goods are warranted to be as represented.

JEFF W. BEDFORD.

Diamond Parlor, 14th and Farnam sts.

Charley Clinched.

Charley Fanning, of the sewer contracting firm of Fanning & Slavin, was here Judge Healey, having been arrested on complaint of Frank Johnson, a Swede, who claimed that Fanning had slugged him. His face was badly bruised and his testimony, and Fanning was fined \$5 and costs.

S. A. Orchard.

Has a fine line of reception chairs, fancy rockers, ladies' desks and ladies' glove cases, and the thing for an elegant Christmas present.

All Music at Half Price.

6,000 pieces only 10c a copy at Meinberg's, 16th st. bet. Capital ave & Dodge.

The Winter of Our Content.

Is the title of a recent charming paper by that brilliant writer Charles Dudley Warner, wherein the glories of the Pacific coast, as a winter resort, are most graphically described. The American people are beginning to understand that the Puget Sound country is one of our most splendid possessions and that the name of the "Mediterranean of the Pacific" is a happy title not misplaced.

In speaking of Mount Tacoma, Senator George F. Edmunds says: "I would be willing to go 500 miles again to see that scene. The continent is yet in ignorance of what will be one of the grandest show places as well as a summer resort. Switzerland is rightly called the playground of Europe. I am satisfied that around the base of Mount Rainier will become a prominent place of resort, not only for America, but for the world, with thousands of sites for building purposes, that are nowhere excelled for the grandeur of the view that can be obtained from them, with topographical features that would make the most perfect system of drainage both possible and easy, and with a most agreeable and health giving climate."

Thousands of delighted tourists over the Union Pacific the past year bear ample testimony to the beauty and majesty of this new empire of the Pacific northwest.

Weather Probabilities.

For December—Indications point to cold, frosty weather. That, however, with no difference in the weather, travel in the steam-heated and electric-lighted, limited vestibule train which is run only by the Chicago, Milwaukee & St. Paul Ry. between Omaha and Chicago. This elegant train leaves Omaha at 9:30 a. m., in time to make all eastern connections. For further information apply at city ticket office, 1501 Farnam st., Omaha.

F. A. NASH, General Agent.

City Passenger Agent.

PHILADELPHIA WINS.

Judge Caldwell's Decision in the Well Known Title Case.

Judge Caldwell handed down a decision yesterday in the case of Theodore M. Delaney and others of Philadelphia, against the Nebraska title and pottery company, an Omaha concern. The case was a foreclosure of three mortgages aggregating \$9,000, which was contested by the stockholders. The decision of the court was in favor of the Philadelphia parties, according them the full amount of the mortgages and ordering the mortgaged property sold by a special master in order to satisfy the claim of plaintiffs.

Judge Caldwell will hear the case on Tuesday, where he will hold court. He will return to Omaha during the May term, and will hold court if there is anything demanding his attention at that time.

Just before departing for his home Judge Caldwell handed down a decision in the case of the Nebraska telephone company against D. C. Dunbar. Shortly after the telephone company established its exchange in this city it commenced the work of getting out monthly lists, showing the names of the subscribers and the office number of the phones. This practice has been continued up to the present time. Some months ago D. C. Dunbar conceived the idea of an advertising scheme, which was to duplicate the numbers given in the telephone books and then fill the remaining pages with the advertisements of business houses. The telephone company sued for an injunction, which was granted. Yesterday, when the case came on for hearing, Judge Caldwell decided that as Dunbar has not used any of the property of the telephone people, the numbers being public property, he is not liable. The telephone company will appeal.

## DO NOT BE DECEIVED.

A Matter in Which Newspaper Circulation Plays an Important Part.

Wednesday evening The Bee showed up a flagrant case of imposition on the part of the World-Herald. In a few words it was this: Liquor dealers must publish their notices of application in the newspaper having the largest circulation in the county. The World-Herald sent a private letter to every liquor dealer in the county, in which the claim was falsely made that that paper had the largest circulation and consequently would be entitled to the publication of the notices.

The Bee Wednesday evening published a sworn statement of circulation of its evening edition in the county, viz: 9,274, but did not give the circulation in the county of both morning and evening editions.

The World-Herald decided to meet The Bee with a sworn statement of circulation, but expects the public to be satisfied with the following statement, which that paper printed yesterday morning:

"A local paper betrays considerable agitation because the World-Herald is securing from liquor sellers in Omaha the notices which they are by law required to publish."

"The facts in the case are that the law requires the publication of liquor notices in the paper having the largest local circulation."

"The World-Herald's Omaha circulation has averaged over nine thousand for the last month, and not a single sample copy has been issued by the county."

The Bee's figures of circulation were given on its evening edition only, while the World-Herald gives above the alleged circulation of both its morning and evening editions. But it wisely avoids swearing to the figures given.

The Bee herewith gives another sworn statement covering its entire daily circulation in the county:

State of Nebraska, ss. George B. Tishbeck, secretary of The Bee Publishing Company, publishers of The Omaha Bee, being duly sworn according to law, deposes and says, that the actual average daily circulation of The Omaha Bee in the county of Douglas for two weeks ending December 10, exclusive of sample copies and copies on sale, was 11,000.

Sworn to before me and subscribed in my presence this 11th day of December A. D. 1890.

N. P. Felt, Notary Public.

## APPROPRIATE \$100,000.

Gov. Thayer Requested to Recommend that Sum for the World's Fair.

Yesterday this communication was mailed to Governor Thayer:

OMAHA, Dec. 10.—Hon. John M. Thayer, Governor of the State of Nebraska—Your Excellency: The undersigned members of a special committee appointed at a recent meeting of the Omaha real estate exchange, pursuant to resolutions then adopted, do hereby earnestly request that your excellency incorporate in your forthcoming message a recommendation to the legislature of the state of Nebraska that the legislature make provision for the appointment of a state bureau of immigration, and that they appropriate the sum of \$100,000 to be expended under the supervision of said bureau of immigration, for the purpose of making known the wealth and growth of the state of Nebraska, her vast resources and the facility of her soil at the World's Columbian exposition, to be held in Chicago, Ill., from May to November, in the year 1893. That the state bureau of immigration should be organized and maintained for the purpose of expending above appropriation as to induce a healthy immigration from all states of the union, and from foreign nations to our great commonwealth.

It is our firm belief that the establishment of such a bureau of immigration would be conducive to a great future of power and prosperity to our state and her citizens. It is also our belief that such a recommendation from your excellency to the legislature will more speedily make such property attainable.

Protest! Change! Gray and faded boards made to assume their original color by applying Buckingham's Dye for the whiskeys. It never fails to satisfy.

## A New Pastor.

Rev. T. E. Cramblett, of Salem, O., has accepted the call to the pastorate of the First Christian church of this city. He has already arrived in this city, and tonight will be tendered a reception in the parlors of the church, corner of Capitol avenue and Twentieth street.

Mr. Cramblett is a young man of ability, and his coming will have a beneficial effect upon the church over which he is to preside.

On December 5, when the Disciple church of Salem, O., in which Mr. Cramblett had officiated, heard of his proposed retirement, the official board and members adopted the following:

Resolved, That we deeply feel the loss we shall sustain by his removing from us; that we shall ever recognize him as a devoted Christian ever ready to advance the interests of the church, devoted to its welfare and prosperity, an honest, upright man, whose virtues endeared him not only to his brethren in the church, but to his fellow citizens. The best wishes of the membership of this church go with him and his family to their field of labor in the Master's cause, and may God's blessings rest and abide with them is our prayer.

## THE LATEST DISCOVERY.

What the Greatest of All Modern Scientists Has to Say Upon the Most Important of All Subjects.

Professor Koch, the great German physician who discovered the microbes which cause cholera, claims to have discovered a way of curing consumption by vaccination. As more than half of all the deaths which occur every year are caused by consumption, if Dr. Koch's claim is true, it is the greatest discovery of the nineteenth century. But there seems to be some doubt as to whether it can be made practicable in all cases, while in every case it is certain to be a very expensive cure and one that can only be indulged in by the very wealthy.

In the course of his remarks on the subject, however, Professor Koch makes a most wonderful statement, which is as follows: "Alcohol is a food in consumption. It does not destroy it, it sustains it, but it is an absolute food, sustaining the life building up the strength and restoring the health. This is a most important statement and proves beyond question the great value of alcohol in the treatment of disease. It should be remembered, however, that alcohol is never taken in its natural form and that whiskey is the finest manner in which alcohol is ever combined. Even then it must be pure beyond question, or it is a temporary aid, but an absolute food, sustaining the life building up the strength and restoring the health. This is a most important statement and proves beyond question the great value of alcohol in the treatment of disease. It should be remembered, however, that alcohol is never taken in its natural form and that whiskey is the finest manner in which alcohol is ever combined. This is a most important statement and proves beyond question the great value of alcohol in the treatment of disease. It should be remembered, however, that alcohol is never taken in its natural form and that whiskey is the finest manner in which alcohol is ever combined. Even then it must be pure beyond question, or it is a temporary aid, but an absolute food, sustaining the life building up the strength and restoring the health. This is a most important statement and proves beyond question the great value of alcohol in the treatment of disease.
