# CHRISTMAS, 1890.

DEAR SIR:

As usual we have taken special pains to help the gentleme, out of their dilemma. We know every gentleman has been racking his brains for weeks to think of something that would gladden the heart of his lady for Christmas; something at once delicate, useful and ornamental; something of which Madame Stael said that she could tell the wearer's taste by its pattern, her habits by its color, her station in life by the way it was displayed.

And in fact there is not an article in the ladies' toilet, in the manufacture of which more taste, more skill or more refinement is displayed than in the HANDK ERCHIEF. If you come and inspect our line you will find everything possible in Silk and Linen Plain Hemstirched and Embroidered Real Lace Handkerchiefs. It is a regular art exhibition.

known as the Concordia singing society, the energies of the Turnverein lay dormant for a long time, survived the shock. New members infused new life into the organization, and effective reorganization took place in 1868, and the Omaha turnverein was admitted to membership in the Nord-Amerikanischer turnerbund, in other words

Amerikanischer turnerbund, in other words the National Turners' union.

The membership at that time did not ex-ceed thirty-two. It now has a membership of about one hundred and forty. Ever since its reorganization competent instructors in calisthenies and gymnastics have been em-ployed, and the membership has been steadfly increased. Since the year 1876 the society as employed successively the following in structors in the art of physical culture: Messrs. Philip Andres, Paul Witte, L. Dam-mann, H. Kummerow, and at present, Mr. E. Bennefeld. The training in the different forms has been so efficient in these years past that the Omaha team of active young turners has been successful in every competi ive gymnastic tournament, defeating Kansas sity, St. Joe, and indeed all who came

It must be understood that the turners do not indulge merely in the art of physical training. The Turner Quartette club has been, for years, actively engaged in cultivating the German folk-lore. The club is a part of the turn verein, so is the dramatic club, which has of late been revived, since the society rebuilt a stage for that purpose. There is a library connected with the associa-tion for the benefit of all the members. The turnverein maintains a school for boys and girls who receive all the benefits of a sytematic training. A young ladies' class has been conducted the past three years and some of its members have formed a ladies' anxiliary ociety to the turnverein. The latter organ zation meets in Germania hall corner of Eigh-teenth and Harney, the title to which they hold and control under the name of the

Deutsche Gesellschaft.
The Deutsche club, which was organized a ew years ago, is purely social in its charac-ter and is composed mostly of the German business men of this city. It has its headquarters in Germania half and may justly be called an offspring of the Turnverein. The Omaha Turverein stands at the head all societies of similar character in the

Recently the Omaha Liederkranz was or ganized. It is one of the most flourishing of singing societies. It does not confine its efforts to cultivating the male voice, because it also has a large number of young ladies with well trained soprano and alto voices and many a creditable effort—have they made or their public rehearsals and concerts. The Liederkranz, with its large membership, will take an active part in the coming Sacagorfest. The energy displayed is suffi-

cient guarantee that the undertaking will be s composed of German business men whose is to give the members an opof rifle shooting and marksmanship

lichkeit or sociability. One of the youngest, but in point of mem-bership the strongest society is the Platt-deutscher Verein, or society of north Ger-mans. It numbers 275 members. The idiom used to carry on their business in the meetings of the society is Platt-deutsch, a kind of Angio-Saxon, the progeni-tor of the queen's English. The society was

tor of the queen's English. The society was organized to aid its members in sickness and distress, but has branched out lately, and has a chorus of about twenty-five mare singers, who are cultivating their native song. The Plattdeutsche Verein is energetically at work raising funds for a \$50,000 hall, to be built the coming year. When one knows the tenacity with which a Plattsdeucher devotes himself to business, it will create no sur-prise if the society succeed in its undertak-

There are a few other German societies, such as the Schwaben Verein or Swabian socity, the Bayerischer Verein, Bayarian so The last named in a singing society and counts among its members some of the best amateur talent in the city. There are several others of minor impor-

tance, whose character is either that of charity or benevolence with a strong eye to sociability and the nursing the cherished traditions of the fatherland. An old cathedral is still standing about

seven miles from Tucson, where it was erected by the first missionaries over three and a half centuries ago.

### HOLDS HER PROUD POSITION.

As Queen City of the Great and Rapidly Developing West.

OMRHA'S YEARLY IMPROVEMENT RECORD.

An Increase in Realty Deals and Buildings-The Phenomenal Clearance Record-Plans for Buildings Next Year. A review of the city's improvement record for the year just drawing to a close will fur-

nish abundant cause for congratulation and

satisfaction on the part of every person whose interests are identified with the growth, development and general prosperity Conditions prevailed at the beginning of the year that made it doubtful whether the city would make any material progress in keeping with her past record and her promises of certain future greatness. The pendency of the prohibition issue and the depression in the financial markets of the east combined to

make capital more than characteristically cautions and many improvements and enterprises that had been planned and promised for 1890 were with-held or abandoned. In the face of these unfavorable conditions however, remarkable progress has been made in every line that tends to the permanent advancement of the city in her onward march toward the goal of industrial and commercial supremacy of the Missouri valley and the great and rapidly developing west. The depression that wrought financial ruin other western cities, only proved that naha's growth has been on a legitimate

inflated, and that her commercial and financial institutions are protected by the con-servatism that is essential to success. With the happy disposition of the prohibi-tion issue, and the indications of a better feeling in the financial centers, the prospects are more than favorable for a continuation and increase of the prosperity of the past

basis, that her realty values have not been

and present.

Material advancement has been made in waterial advancement has been made in every line of business during the past year. Millions have been added in private business blocks and residences; the corporations have invested largely in the enlargement and ex-tension of their plants; the stockyards and packing house industries have been largely increased; bank clearings, real estate trans-fers and building pagnits rile with the researfers and building permits, pile up big percentages over the business of last year; the city has made material additions in every e material additions in every of its permanent improve-in short the work but s; in short the work has kept up that has made and will maintain Omaha as the best paved, best graded, most substantially built, most prosperous and pro-gressive city of its size on this or any other

The Year's Buildings.

Omaha has reached the point where a great deal of building may be done without the general public being posted in regard to the improvements in progress. The record of the past year is a proof of this assertion. Accepting as true the current report and opinion that "times are hard" and "there won't be much done this year," the average citizen has gone along in the belief that building opera-tions were very slack. When as a matter of fact the records show that fully as much if not more money has been spent in building improvements during the present year than improvements during the present year than was invested in the same work in 1889.

Every one is familiar with the progress of the work on the city hall, the new operation of Morse's block,

house, the completion of Morse's block, McCague's new bank, Sweesy's block on Six-

durit g the year in business blocks, stores and manufactories. To this must be added nearly \$2,000,000 invested during the year in resi-

teenth street. Dr. Mercer's hotel, and so of the big improvements that have been or are being made on the principal streets; yet there are but few, perhaps, who are aware that nearly \$3,000,000 have been expended

The character of the buildings erected during the year has been a great impro over the work of previous years in many respects. The business blocks have been better rooms and office buildings than has been de The number of residences costing from \$5,000 to \$15,000 has been very large, and a score or more have been built each at a

### cost of \$30,000 or more. Many handsome and finely appointed flats have also been erected.

Next Year's Work. ors long before their intentions are ing line next year will be an exceedingly active one. Of course only the most important

form a healthy basis for a big year's busi-The postoffice is one of the big improve-ments on which it is thought a great deal of work will be done next year. It is expected that the appropriation will be increased, so

million dollar investment

The Nebraska Telephone company will build a permanent headquarters building at the cornor of Eighteenth and Douglas at a cost of \$150,000 at least. The company will also carry out its expressed intention of put-ting all its wires in underground conduits in the business portion of the city. Most of this work will be done next year at an immense outlay of money.

The site at the northwest corner of Six-

teenth and Douglas has been leased for twenty years at \$10,000 a year and will be im-proved by the erection of a handsome dry goods building which will be conducted by a big Chicago firm.

story office building on his lot adjoining the Merchants' national bank on Farnam, east of Thirteenth street.

If certain conditions are compiled with Mr. B. F. Smith will build an office and store

dences, and the total gives an increase over the business of last year. The city's im-provements, too, may be classed with these expenditures, and in paving, curbing, grad-ing, sewering and sidewalks would round up more than another million to be added to the

built and better finished in response to a demand of tenants for a better class of store nded or furnished in years past, residences and flats the improvement has been still more noticeable. A few years ago, and even last year, there was a great number of cheaply constructed cottages, run up, costing from \$800 to \$1,200. During the present year the majority of the residences built have been supplied with modern im-provements and conveniences, and there have been more houses built at a cost of \$4,000 than

Mr. George C. Whitlock, the superintendent of buildings, in a conversation a few days ago, expressed his opinion to the effect that there would be more money expended in building improvements in Omaha in 1891 than there has been in any other year of her history. Mr. Whitlock has facilities for knowing of the plans of prospective investors four belong permits, and, as he is very public in building permits, and, as he is very conservative in his estimates, he probably has very good information on which his has very good information on which his predictions were based. But there are improvement plans enough in sight to convince those less fortunately situated than Mr. Whitlock that in the build-

portant improvement projects have been publicly discussed, but their completion will

cost complete with equipments over \$700,000, and with a freight depot at \$200,000, and other needed and necessary adjuncts will make a Two big brewery deals are assured. The Storz-Her plant completed will cost \$1,000. 000, and a company with that capital stock has already been formed for the prosecution of the work. Frederick Krug has already purchased, at an outlay of \$150,000, the site for a brewery on which he will expend \$500,-

that a building costing \$1,600,000 will be

John A. McShane will invest \$200,000 in an office building at the southwest corner of Fifteenth and Harney streets. The East Omaha Land company will build a bridge from its property to Council Bluffs and make improvements that will call for the investment of an immense amount of money. The bridge alone, for which plans have been accepted, will cost \$1,200,000 and another \$500,000 will go in building and equipping the motor line and in grading and paving several

A fine five story store and office builing, to cost \$150,000 will be built on Karbach corner of Fifteenth and Douglas, where Raymond's jewelry store new stands.

Mr. B. F. Smith will build a four or five

B. F. Smith will build an office and store building on Farnam street, just west of the

FOR CHRISTMAS.

WE HAVE RECEIVED A SMALL

Open evenings until 9 o'clock.

RELIGIOUS. Jacob's well and the plot of ground surrounding it have been sold by the Turkish government to the Greek church for £4,000. The marquis of Queensberry, of prize ring fame, approves "General" Booth's scheme for darkest London and gives him \$500. He describes himself as a "reverent agnostic" Bishop Galloway is reported to have said

Episcopal church, south, that the interna-tional Lessons are running the bible out of the Sunday schools of the church, and causng the children not to read the bible. Every stone in the tower and spire of St. John the Baptist's Catholic church, on West Thirtieth street, New York, was hoisted to ts place by a derrick the motive power of which was an old white horse. The congre-

efore the Texas conference of the Methodist

The sufferings and death of Osiris were the great mystery of the Egyptian religion; and some traces of it are perceptible among other people of antiquity. His was the abstract dea of good, his manifestations upon earth (like an Indian god), his death and resurcetion, and his office as judge of the dead in a future state.

sisters and one of the monks died from want and ill-treatment. Among the most successful women

and local assemblies should be prevented The Salvation Army has money and property in the different countries where it is established valued at \$3,218,630. The trade effects, stock, machinery and goods on hand

The chief religions of the world may be classified according to the number of adhor-ents as follows: Christianity, 450,000,000; Confucianism, 300,003,000; Hindonism, 190,-000,000; Mohammedanism, 11,000,000; Fetich-

from seventy congregations has been re-ceived. Of 12,811 members entitled to vot a 3,314 exercised the privilege. Of these 2, 51 voted in favor of the admission of women and 1,263 against. -
