

DR. A. T. McLAUGHLIN,
President of the Omaha Medical and Surgical Institute.

Dr. McLaughlin was for many years the manager and confidential adviser of Dr. McMenamy, and to him much of the success and prominence of the institute is due. It was the dying wish of the doctor that Dr. McLaughlin should conduct the institute and manage it in the old way. Dr. McLaughlin is a close student of modern methods and advances in medicine and surgery, and is a great believer in electricity as a curative agent, and since his inauguration as president several thousand dollars worth of electrical appliances have been added. He is now engaged on an elaborate work on electricity and electro-magnetism and its successful application in preventing and curing diseases of the human body, which is to be sent free to all persons applying for it by mail.

Omaha Medical and Surgical Institute

NINTH AND HARNEY, STREETS,
—) FOR THE TREATMENT OF ALL (—

Chronic and Surgical Diseases.

Manufactory of Surgical Braces and Appliances of all kinds for the cure of deformities.

EYE AND EAR DEPARTMENT.

We have the facilities, apparatus and remedies for the successful treatment of every form of disease requiring either medical or surgical treatment, and invite all to come and investigate for themselves or to correspond with us.
Patients visiting us can order their baggage sent direct to the Institute. We have hotel accommodations by the day or week. Open day and night.

THE LATE DR. J. W. McMENAMY,
President and Founder of the Omaha Medical and Surgical Institute.

Dr. McMenamy was a man whom every one admired for his many sterling qualities. He was a quiet and unassuming gentleman, with an undercurrent of decision and fixity of purpose, which was the ground work of his character and the great cause of his splendid success. He started out well equipped with a thorough medical education and practiced in the usual way for a number of years, but seeing the necessity for an institute where all forms of disease and deformity could be scientifically treated, he founded the Omaha Medical and Surgical Institute, and at his death left it to his co-laborer and efficient lieutenant, Dr. A. T. McLaughlin, to win new laurels in the noble and humane field of ministering to the sick and afflicted.

The Omaha Medical and Surgical Institute.

Beware of
Frauds.

There are unscrupulous persons representing themselves as conducting branches of the Omaha Medical and Surgical Institute. There are no branches of this institute, and all persons claiming to represent the institute who have not the proper credentials, signed by the president, are frauds, and if persons whom they attempt to deceive will have them arrested and notify us we will pay all expenses and prosecute them to the full extent of the law.

If all we say of our institution and our advantages and facilities for the successful treatment of disease is not found, on your arrival and investigation to be just as we have represented them.

WE WILL PAY
All the Expenses
Of Your Trip,
And you can return home
at once.

How to Reach
the Institute.

The Institute faces Ninth street and corners on Harney, and can be reached by nearly every street car line in the city. The cable and horse cars from the Union Pacific, Chicago, Burlington & Quincy, Burlington & Missouri River, Kansas City, St. Joseph & Council Bluffs; Chicago

& Northwestern; Chicago, Rock Island & Pacific; Omaha & St. Louis; Chicago, Milwaukee & St. Paul depots all past up Tenth street within a block. While those who come to the city on the Chicago, St. Paul, Minneapolis & Omaha; Fremont, Elkhorn & Missouri Valley; Sioux City & Pacific, or Missouri Pacific can easily reach the institute building by taking the Sixteenth street electric motors, one block west of Webster St. depot, and asking the conductor for a transfer check to Dodge street cable, which runs down Tenth street one block west of the Institute.

OUR CARRIAGE
Will meet all persons at the train, FREE OF CHARGE, if a letter or telegram is sent us giving us the time and train by which they will reach the city. Look out for the carriage with the name "OMAHA MEDICAL INSTITUTE" on the door, or ask a policeman to show you where it is. We meet all trains reaching the city in the daytime.

QUESTION BLANKS.
We have carefully prepared a list of questions which, if properly filled out by patients, will give us a perfect understanding of the disease or condition. Write for list of questions, and also in your own language tell us anything further that you think is necessary.

SPINAL DEFORMITIES.

Treated by our New Method of
Suspending.

We Have Just Added a New
Apparatus.

WRY NECKS CURED

In a Short Time by
our New Apparatus.

OUR
Braces
AND
Appliances
FOR
Curvatures of
the Spine
ARE
Unexcelled.

BEFORE TREATMENT. AFTER TREATMENT.

PARALYSIS.

What more pitiable sight can be imagined than the poor paralytic—helpless, deformed, deprived of locomotion and self support, of the pleasures and enjoyments of life? Every impulse or desire for usefulness to himself or society is a failure; hopes blighted; the future but a long weary life in deformity—to be called and known to others and himself as a cripple—a maimed and useless creature; and when he contrasts his lamentable fate with those blessed with sound limbs and body, enjoying life's pleasures and usefulness—free to move, think and act—how his very soul must recoil and how sad his heart must be, and how anxiously he must look for medical aid and a cure.

Club and Crooked Feet.

By our new mode of treatment, club, foot or crooked feet, can be made as perfect in appearance as though no deformity ever existed. This may seem mysterious or doubtful to those unacquainted with the new discoveries in surgical art.

We effect a cure in one-fourth the time usually occupied in the treatment of such cases with the best treatment the old method ever did or can afford.

We do it with one-tenth the pain and suffering. We care not how careful the physician may be or how well padded the apparatus, for the old principle is radically wrong and is a painful failure.

In many cases no surgical operation is required; but should it be necessary, it is so simple as not to shed a drop of blood, or cause any swelling, pain or soreness afterward.

The treatment never, in any way, interferes with the health, or causes the loss of a meal, or the loss of a night's sleep—the skin never becomes sore from chafing or pressure by the apparatus.

The deformity never returns after the treatment is concluded. The motions of the joints are perfect, the gait natural, and all hobbling is removed.

We manufacture surgical braces for deformities, trusses, supporters, electrical batteries, and can supply physicians or patients any appliance, remedy or instrument known. Call and consult us, or write for circulars upon all subjects, with lists of questions for patients to answer. Thousands treated successfully by correspondence. We have superior advantages and facilities for treating diseases, performing surgical operations and nursing patients, which combined with our acknowledged ability, experience, responsibility and reputation should make the Omaha Medical and Surgical Institute the first choice.

Before After Before

Appliances Adjusted.

Cases treated by correspondence receive the most careful attention.

Ours is the Most complete
Department in the
United States.

We cure polio, wens and all tumors by electricity.

Laboratory and Drug Store.
