dered to Withdraw from the Prosecution.

SIGUX CITY, Is., Dec. 19 .- [Special Telegram to THE BEE. |- THE BEE was the only Omaha paper that gave any news concerning the appointment of a receiver for the Pacific Short Line, a subject that has been of absorbing interest here today. Some of the Sioux City stockholders believe that the move was taken by the New York men interested in order to crowd out the local parties holding stock. Others think differently and say that the appointment of a receiver will result in straightening matters out in a short time. Mr. Eierbower's first official act was to appoint Donald McLean general manager of the road and the two then went on a tour of inspection over the line. Mr. McLean said to a reporter:

"I know little or nothing about it and do not know who made the application. I am pleased to know that a receiver has been appointed, as it will now give me time to attend to the business of the road. For some time past 1 have been chased on every side by creditors of the road. There was no money to pay the claims and no way of getting it at the present time. As a result the road's couloment was being covered by liens and attached on every side. In a little while they would be taking our iron, ties, engines and everything we needed to operate the road. In fact the cred itors would have pulled the road to pieces is different. With a receiver ap pointed all claims will have to take their usual course. There is the United States court and in it they will have to be settled I am pleased to see it, for it means peace The warring of factions and creditors has had a bad effect on the road, and the appointment of a receiver will put a stop to it." "What will be the result of the move?

Does it mean the sale of the road!" "Not much. The road will be all right. As soon as the money market cases up a little in the east there will be no trauble about securing the funds necessary to set matters aright I will remain in charge of the management o the road, which is the order of the court, and propose to do what I can to straighten out the difficulties. "Do you think the road will be extended as

"I do. It may not be at once, as all west

ern institutions will be affected by the flurry in the money market, but it will be built, and I am going to build it."

#### Laurbertson Must Withdraw,

CHICIGO, Dec. 19.-[Special Telegram THE BRE.]-The railway press bureau says: A prominent railway official who has just returned from Washington brings the informa tion that Attorney General Miller has issued an order to the effect that G. M. Lambertson must withdraw from the prosocution of the alleged violation of the interstate commission, so far as the Burlington & Quincy railway is concerned. Lambertson is a lawyer of Lincoin, Neb. In the recent investigations by the federal grand jury in this state he was employed by the interstate commerce com-mission to assist the district attorney, and it is said that he was especially active in pro-curing the evidence against the Burlington by which the indictment of Thomas Miller, the general freight agent of that company was brought about. The Burtington peop were indignant at the part taken by Lambert were indignant at the part taken by Lambert-son in the prosecution because it happens that he is the attorncy of T. M. Lowrey, a grain merchant of Lincoin, in a suit against the Burlington company for \$41,000, alleged overcharges in freight rates. He Considers Him Unfit to Lead the Irish Party.

DUBLIS, Dec. 19 .- Canon Lee, dean of the Dublin chapter, writes a long letter denying that the chapter met in Duplin, as asserted by Parnell, and adds that he is convinced that Ireland should act in accord with the manifesto of the heirarchy. Parnell's character, as revealed in the divorce court, Lee says, speaks for itself, and since the verdict he has given further abundant proof of his unfitness for the leadership of the Irish party. Lee proceeds at much length to state his opinion that in view of the excited state of sublic feeling it is in expedient for the clergy to mix up with violent meetings. He is now clearly of the opinion that the clergy has a duty to perform in impressing on the people on every suitable occasion that despite his many precious services they find themselves forced to the conclusion that they must regard Parnell as a fallen leader, no longer worthy of the people's confidence.

#### Mnd Instead of Lame.

LONDON, Dec. 19 .- A dispatch received in this city from Michael Davitt states that the injuries' sustained by Parnell at Castle Comer were inflicted by women and girls, who pelted him with floar and mud. The story that lime was thrown in his face and eyes, the dispatch says is Parnell's latest disgusting dodge to evoke sympathy and di vert the people's mind from the real issue.

#### Enthusiastic for Parnell.

NEW YORK, Dec. 19 .- Two thousand Irish-Americans attended a meeting in Cooper Union tonight, called by the municipal council of the Irish National league. Michael Breslin presided. Wanhope Lynn, Mrs. Margaret Moore and others spoke. Resolu-tions of confidence in Parnell were adopted and cabled to him. Great enthusiasm pre-vailed vailed.

#### A Garbled Account.

LONDON, Dec. 19 .- Archbishop Walsh has telegraphed to London papers that the account of the meeting of the chapter of Dublin published yesterday by the United Ire-land is a shameful falsification. The article declared that the chapter adopted a resolu abstain from taking any action in the Parnell matter

Stanford Talks in Favor of His Measure for a Sound Circulating Medium.

DIVIDING THE SIOUX INDIANS IN DAKOTA. The House Agrees to the Conference Report and Adds an Appropria-

tion to Purchase Beef and Other Rations.

WASHINGTON, Dec. 19 .- Mr. Stanford addressed the senate on his bill to provide the government with means sufficient to supply the want of a sound circulating medium. In the course of his remarks he said that the scheme of the bill is to supply an ample amount of money for all business purposes. He mentioned lands as security because they appear to be the most certain of all security and are sufficient to furnish all the money needed. The people, he thought, will have more confidence in a financial measure that is new and radical if it has at present only land for a basis. The rate of interest in the bill is fixed at 2 per cent, but in time may be reduced as experience shall teach. The

rate of interest charged by the government under the bill will not necessarily fix the general rate of interest for business purposes. That will always be determined by its value in use. The farmer having the best security will berrow for his own use or the use of others who may be willing to pay him satisfactory interest. The banker borrows money from the government free of interest and loans it at such a rate as its use commands in the market. Mr. Stanford said the measure had been compared to the plan adopted in the Argentine republic and asserted that there was no analogy be

tween them. To compare the working of the measure of that republic with say 5,000,000 population to that of our country with its enlightened 60,000,000 is like comparing the methods of some irresponsible banker to those of the Rothschilds. In conclusion, he said that the foundation of the whole matter and the rea question to be considered is, that inasmuch as the government reserves the right to issue money it is its duty-the means being provided-to furnish what is necessary to

The bill was referred to the finance com mittee, as was also one by Mr. Ingalls to allow the exchange of interest-bearing debt The printing deficiency bill was amended and passed.

A resolution by Mr. Manderson was referred to the committee on Indian affairs, in-structing that committee to inquire into the

condition of the Indian tribes in North and South Dakota, Montana and elsewhere, the steps necessary to disarm them, etc. The elections bill was taken up and Messrs Bate and Gibson argued against it.

Mr. Stewart made an argument against Mr. Stewart made an argument against the bill on the ground that an attempt to exe-cute it in the south would be dis-astrous to both races. He was a friend of the colored man and deeply sympathized with him, but could not ask him to put his fife in jeopardy in order to fight a political battle for his (Stewart's) ad-vantage He was caully a friend of the vantage. He was equally a friend of the white man and desired to refrain from any act which might justify the white man in making war upon a defenseless race which congress enfranchised. Whatever was done in the matter of protecting suffrage in the south, unless done through the voluntary ac-tion of the people of that section, would have to result in one of two things. If the negro was protected by force the same force would incriming the balance is the magnetic of do inevitably be driven to the necessity of destroying his enemy. That involved the en-slavement and final extermination of the whites. The employment of force would result ultimately in the extermination either of the blacks or of the whites. Instead of protecting the colored man it would bring upon him persecution and miscry, if not death. No assumption of party necessity could justify such an act. ### CAPSISED THE CARRIAGE.

A Serious "Runaway Accident on Dodge Street Yesterday. About 4 o'dack yesterday afternoon frightful accident occurred on Dodge street near its intersection with Sixteenth. A wagon loaded with baled hay, drawn by two heavy gray horses, going east upset, breaking the coupling of the wagon and throwing off the driver. The team ran off with the front carriage of the wagon, and had not gone more than fialf a block till overtaking a fine, new close carriage in which sat Mr. Holcomb, the aged father of W. H. Colcomb, assistant general manager of the Union Pa cific railroad. The tangue of the wagon struck the right hind wheel of the carriage, smashing it, and the lead horse ran against the rear end of the vehicle with a plunge, capsizing the twhole cutfit, and both of the runaway horses feil. ASHEVILLE, N. C., Dec. 19.-The interstate mmigration convention concluded its business today. A resolution for closing the world's fair on Sunday was referred to the national commission. A resolution to recommend that the governor of each state represented in the convention appoint a committee to act in conjunction with another committee and to be known as the promotion committee of the world's fair, was adopted. The report of the committee on legislation says units of action by the southern states can best be secured by a concerted system of legislation, and requested the convention to provide for the appointment of commissioners of immigration whose duty it shall be to form a with the bureau in the upbuilding of the south, and that the executive committee pre sent to the legislatures suitable bills to carry this recommendation into effect, Adopted, The report of the finance committee recommended that the governors of southern states be requested to call on the legislatures for linan-cial aid and that an appropriation of \$35,000 from each state be asked for an exhibition at the world's fair, Adopted, Another com-mittee reported in favor of advertising by trains of cars filled with southern exhibits t be sent through the north, east and west. ### SENSATION AT YANKTON.

#### Arrest of a Prominent Citizen for Pension Fraud.

MINNEAPOLIS, Minn., Dec. 19.-The Tribune bas a special from Yunkton, S. D., which says a sensation was created there today by the arrest of a well known citizen for pension fraud. Early in 1861 George Weisle enlisted in the Fifth United States cavalry, served his term, re-enlisted and received a veteran bounty. After another year he secured the dis-charge papers of one of his comrades, Charles Loffler. Subsequently he came to Yankton and has gone by the name of Loffler all these years. The real Charles Loffler has been doorkeeper of the white house in Washington many years. Some time ago he concluded to apply for a pension, when it was found that one was already issued in his name. The secret service was put on the case and today Weisle was arrested here. He has confessed the whole matter.

NEW YORK, Dec. 19 .- [Special Telegram to to THE BEE. |-R. G. Dun & Co.'s weekly re view of trade says: Business continues large for the season, but there is a perceptible loss of the feeling of confidence. The causes appear to be: (1,) the prospect of important monetary legislation, the effects of which are not clearly forescen; (2,) the frequent failures and greater difficulties in making collections, and (8,) less satisfactory condi tions in some large branches of industry. Probably more people are affected as

business undertakings, often unconsciously, by the uncertainty of mancial legislation and its effects than by any other cause Though the rate for money on call is lower than a week ago, and money is lower at Bos ton and Philadelphia, there is still a stringency at most points throughout the country. Complaints of slow collections have rarely been more general, and in many cases settlements can be made only with notes or renewals. But in all quarters there is hope that after January 1 things may improve in this respect if legislative prospects do not mean-while cause greater shrinkage of credits and curtailment of purchases. Foreign influences are not now disturbing. Exports of products for the two weeks of December from New York show a gain of 8 per cent over last year and the total of last December was hardly ever surpassed. Though imports the exports at present. Exports of cotton thus far this month exceed last year and also of provisions, but there is a heavy decrease in grain caused by the speculative prices

Across the Mississippi, St. Louis has coider weather favoring all lines of trade, but at Kansas City the holiday trade is below the average. At Denver the trade is only fair. At Salt Lake it is improving some. At Omahait is fair. At Minneapolis it is steady for lumber and improving in prices for flour and at St. Paul confidence is returning. Collections in this region are only fair.

At Chicago the receipts of wheat and wool are a third below last year's; of hides larger and of other products about the same. The sales of merchandise exceed last year's doney is firm and regular, business is sup plied and there is confidence in the immedi-ate future. At Milwaukee and Detroit the trade is good. At Cleveland it is fair and at Cincinnati very quiet in wholesale lines. Pittsburg reports more confidence in the trade in manufactured iron and in glass it is slower and Bessimer blooms are lower. The banks are less apprehensive, but cautious.

Confidence improves at Boston. Though money is easier at Philadelphia, the note worthy feature is the general difficulty of collections, especially in iron, paints, oils, jewelry and glass. Trade is fair in all these lines and glass plates are stiffer, but lower prices are expected in wool, and the demand for tobacco is light.

Iron shows no improvement at Philadelphia or here. The demand for fin-ished products generally is slack and the closing of more furnaces is likely to be ferced. Copper is unsettled, but tin is a shade stronger at 20.85 cents and lead at 4.10. The dry goods trade feels the influence of recent failures and of the stringency in com-morrial bans.

GENERAL MANAGER AT HOME.

First Visit of Mr. S. H. H. Clark to Omaha Since His Reinstatement. Mr. S. H. H. Clark, general manager of the Union Pacific road, arrived in the city yesterday morning, accompanied by H. C. Town-

send, general passenger agent of the Missouri Pacific, of which road Mr. Clark is also first vice president and general manager. Mr. Clark traveled all night in his special

car and on his arrival registered at the Millard. He was called upon by a representative of THE BEE and was found quietly enjoying a fragrant after-breakfast cigar. He seemed to be in his usual health, though strange to remark, his features bere less of the troubled and tiresome expression which characterized

them when he bade Omaha farewell several years ago. It would be injudicious, he said, when asked whether he would call any of his old nids to nelp him on the road, to express an opinion on the subject. To do so would cause an uneasiness and anxiety which would be anything but beneficial to the road. It had

always been his custom to keep such mat-ters to himself until the time arrived to act regarding them, if indeed any action were contemplated. The Missouri Pacific, Mr. Clark admitted,

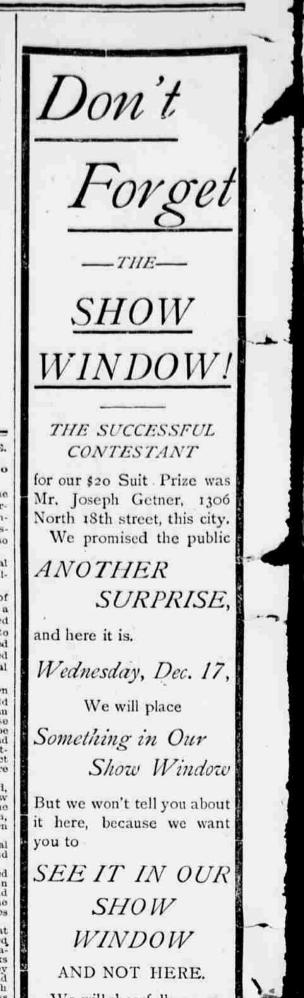

would run its passenger trains into the new union depot. This would give the road the benefit of about twenty-five miles shorter run, which he thought was the difference between the new and the old line. The Belt line would be used as a local

line and over it the freight trains into and out of the city would run. Mr. Clark said that he had not yet decided

whether he would take up his residence in this city, but would consider the matter and notify his superiors in the cast as to what he thought would be proper in the premises and would abide by their decision. These showed that there was a feeling of discontent among the men. What occasioned it, he did not know. But perfect satisfaction could not be given in managing a road unless the employes were perfectly contented and happy, and they could not be made contented unless the management got down as near as possible to them to understand their needs and demands. That had alwys been his policy and he had found it to result most satisfac torily. He was informed that there were in town two delegations, one of engineers, the other of firemen throughout the Union Pacific system; that they had been discussing some grievances which they had intended to place before the old manager, but that they had re

### House.

WASHINGTON, Dec. 19 .- The house today, after passing a District of Columbia bill, took up the conference report on the bill amending the act for a division of a portion of the Sioux . Indians in Dakota into smaller reservations. The only change made is the authorization for the expenditure of an appropriation of \$100,000 for the purchase of beef and other rations. In speaking of the measure Mr. Allen of Mississippi took occasion to criticise congress for doing nothing to relieve the financial stringency of the cona-try and expressed his belief that the presi-

dent had done wrong and shown his little-ness in attempting to buildoze the senate. He quoted the remark of a lady fond of decorating her parlor with sculpture, to the effect that she was going to secure a life-size statuette of President Harrison. The report was agreed to and the house adjourned.

Very Unique State of Affairs in

Sherman County Town. A very strange state of affairs exists in Litchfield, a little station on the B. & M road in Sherman county. Early in the week a stranger sick with mountain fever came to Mason City, Custer county, and died there. The citizens put the body in a box and shipped it to Litchfield. The Litchfield agent apprised his company of the arrival of the gruesome freight and asked them what he should do with it. He was instructed toturn it over to the authorities for interment When he attempted to carry out his instructions, however, the village fathers refused to receive the body on the ground that they were not authorized to use the public mone for the burial of dead bodies furnished b soulless corporations and placed a night watch at the depot to see that the corpse was not surreptitiously removed and placed i some vacant house. In the meantime the agent has notified the vailroad company that the depot is too small for two permanent oc cupants and that either himself or the stranger must go.

#### HE WENT OUT QUICK.

has intimated to the London committee that Pat Allen's Poor Showing Before Big will decline to receive an appeal on behalf Jack Davis.

The long-talked-of finish fight between Jack Davis, the local heavy weight, and Pat Allen, a St. Louis big 'un, took place at Vienna, Wooster, Longwy, etc., at cut Germania hali, South Omaha, last night in the presence of several hundred interested spectators.

Davis was esquired by Ed Rothery and Harry Gilmore, while Allen's wants were attended to by Arthur Rothery and Colonel Worthington of Denver. Ed Miller and Billy Hoover were the timers, and Jack Wil-

son officiated as referee. The fight consisted of three rattling rounds, in which, up to the knock-out blow admin-istered by Davis, at the close of the third. the honors were about even. Allen went out as if shot out of a gun, his head making a dent in the floor about the size of a disb-pan, liams, colored, was hanged at Traders Hill and several moments clapsed before he could be induced to rise to his feet and once more mingle with his fellow-men. Davis took the stakes and gate receipts, and its snowballs for Pat the balance of the winter. At Bremerhaven-The Saale, from New

The Burlington's New Flyer. The Burlington road is determined to hold a good share of the passenger business between Wymore, Beatrice, Lincoln and Omaha if rapid train service can do it, A fast train has been put on, leaving Omaha in the evening at 5 p. m and reaching Lincoln at 6:15. The train arrives in Omaha at 11:30 daily. This will be a great accommodation to the people who wish to do shopping or attend to other business in Omaha. The train will make but one stop between Lincoln and Omaha, and that will be at Ashland.
