Art Exhibition Open Free. 2 to 4 and 8 to 10 p. m., today, today and tomorrow. Special sales of curios, antiquities and paintings. 13th

and Harney. Cobb's Exciting Sleigh Ride. Silas Cobb indulged in a sleigh ride that was brief but extremely exciting yesterday afternoon. In company with Miss. Purcell, while driving along Harney street near Twenty-fourth, the horses became frightened and started to run. In his efforts to stop the animal Mr. Coob was thrown from the sleigh and at the same time the bridle broke, leaving the horse to pursue his own frantic course. He crossed over to Farnam nd tore down the street to Sixteenth, where

he ran against a telegraph pole, throwing Miss Purcell to the pavement. As strange as it may seem neither of the parties sus-tained any injuries other than some slight A School House in Dispute. Robert Patrick as attorney for the directors of school district No. 53, yesterday commenced a suit in the district court to recover \$557.27 from the directors of school district No. 46. In his petition he alleges that the defendants appropriated tax money from the Fifty-third district to erect a school building

J. R. Buchanan, general ticket agent of the Elkhorn, returned Thursday from a trip to the Black Hills.

#### UNION PACIFIC ENJOINED.

The Rock Island Secures a Restraining Order from Judge Doane. Judge Doane yesterday issued another re straining order enjoining the Union Pacific railway company and the Omaha& Republican Valley railway company from interfering

with the traffic of the Rock Island company between Council Bluffs, Omaha, South

between Council Bluffs, Omaha, South Omaha, Lincoln, Beatrice and all intervening points.

The application for the order was made Thursday. The proper papers were served on the Union Pacific officials yesterday at Lincoln and Beatrice last night and in Omaha this morning.

The order holds good until January 15 and restrains the defendants from interfering with the Rock Island on all switches, side-

racks and stations. In South Omaha the contract reads that the Rock Island is entitled to 3,000 feet of rackage. The freight trackage in Omaha is not limited, but extends to direct connection

with the stock vards, The order also restrains the Union Pacific from interfering with the use of tracks and building in Lincoln and from Lincoln to the connection of the Chicago, Kansas & Nebraska road at Beatrice, including the rail-

braska road at Beatrice, including the rail-way and appertenant property between Lin-coln and Beatrice, but excludes the yards and depot at the latter piace. In prief, the order means that the Rock Island, according to contract, must be permitted to run its trains from Council Bluffs across the bridge, through Omaha and Lincoln to Beatrice.

The contract between the Rock Island and Union Pacific is almost identically the same as the one between the Milwayles and the s the one between the Milwaukee and the

Union Pacific.

The Rock Island made no move to bring over any of their trains or to profit in any way by the injunction. It was given out by the local officials of the road that nothing would be done before today, and even then no physical demonstration will be made, although some formal move may be made the same as heretofore. This strengthens the the same as heretology. This strengthens the belief that a settlement will be made between the presidents of the roads, and that the final solution of the existing difficulty lies with them rather than with the courts.

#### Adjustment of Western Rates.

Chairman Midgley of the Western freight association has issued a circular giving the results of recent meetings to adjust rates on western business. As regards west-bound rates he says there was little difficulty in making the necessary advances January 1 and this was done both as to rates from Chi-cago and Mississippi river points to Missouri river points proper and to the points in the Trans-Missouri association. In the matter of east-bound rates there was some delay and in a few instances the new rates could not be made effective until January 15. This grew argely out of the difference maintained be tween the rates on the various kinds of grain. Early in 1830, before the emergency rates Early in 1830, before the emergency rates were adopted, the differences maintained between rates on wheat and other grain from points in western Kansas and Nebraska were thought to be too great in many cases, and that situation was aggravated when the emergency rates were put in force, because the reductions then made applied only to shipments of corn. A strict conformity with the rule to approximate the difference in effect prior to the adoption of the emergency tariff involved some lines in serious reductions from points in Nebraska, hence the delay experienced in reconciling the conflicting views held by manin Neoraska, hence the delay experienced in reconciling the conflicting views held by managers. The check in the main was on the basis desired by the Burlington & Missouri Rivea. It provided for the emergency cora rate to be approximately the basis for the new rates, and that the differentials formerly in effect should be applied. These rates, it was decided should we introffect formary is 1801. decided, should go into effect January 15, 1891.

Milwaukee Wage Workers.

The engineers of the Milwaukee have made a demand for an increase of wages and the demand is being considered by the officials. The engineers have been receiving \$1.70 per 100 miles on eight-wheel engines and \$3.85 on ten-wheelers, while the firemen have been getting \$2.20 on eight-wheelers and \$2.40 on ten-wheel engines. On an average the men work twelve hours a day, but are not allowed extra pay unless they work thirteen hours and thirty-five minutes as a minimum. The men's demand is \$3.70 and \$2.20 respectfully for engineers and firemen for ten hour's work, with a corresponding increase for all work over time. The St. Paul officials say there is no danger of a strike and they expect

an amicable settlement. Five hundred agents and telegraph opera-tors of the road have petitioned the company to restore the 15 per cent reduction on their wages recently made. If this is not done all will resign their positions.

#### War on the Scalpers.

John W. Scott, assistant general passenger agent of the Union Pacific, and John Francis, general passenger agent of the Burlington returned yesterday from Chicago, where they have been attending a called meeting of

the Western passenger association.

One of the principal objects of the meeting was the consideration of a plan of warfare was the consideration of a plan of warrare against the scalpers. A committee appointed some time ago to present a plan to the meeting reported in favor of the discontinuance of all unlimited tickets. While this plan met with general favor the association was not satisfied with the details and recommitted the matter for some modifications to be reported at an early meeting.

The association agreed to an advance of \$2 on the passenger rate between Chicago and Portland, making the rate \$43.50, the same as from St. Louis to Portland.

Notes and Personals. W. H. Reed, superintendent of the Pullman car company, Chicago, was in the city Thursday.

Thomas Thorpe of the Pennsylvania, L. S. Sessions of the Monon and M. S. Giles of the Lake Shore, are among the traveling passenger agents in the city. Ten men were let out at the transfer in Council Bluffs Thursday. This makes a total of seventy-five men, platferm workers, clerks, etc., discharged within the past month. A dropping off of business is the cause assigned.

Eighteen new Pullman cars of the latest pattern have been put on the Burlington system. Thursday's flyer had three of them, one from Omaha and two from Denver. They are finished in mahogany and satin and sup-

plied with all the latest conveniences and ac-commodations known to car builders. John Sebastian, general bassenger agent of the Rock Island, announces the following appointments and changes: C. A. Ruther-ford to be city passenger agent at Lincoln, Neb.; W. H. Wishart, to be city ticket agent at Wichita, Kas., to succeed C. A. Ruther-ford, transferred; Sam Charles to be travel-ing passenger agent to succeed W. H. Wis-hart, promoted.

Smashed the Cutter. Dr. Harrigan took advantage of the lim-

ted supply of snow supplied by the elements yesterday and drove down town in a fine, new cutter. He hitched his horse in front of his office on Sixteenth street and ten minutes later some careless driver ran into the sleigh and demolished it. The fellow escaped be fore Dr. Harrigan could learn his name.

Several members of the Bostonians are at

#### Each Season

Has its own peculiar malady; but with the blood maintained in a state of uniform vigor and purity, by the use of Ayer's Sarsaparilla. the system readily adapts itself to changed conditions. Composed of the best alteratives and tonies, and being highly concentrated. Ayer's Sarssparilla is the most effective and economical of all blood medicines.

"For some years, at the return of spring, I had serious trouble with my kidneys. I was unable to sleep nights, and suffered greatly with pains in the small of my back. I was also afflicted with headache, loss of appetite, and indigestion. These symptoms were much worse last spring, especially the trouble with my back. A friend persuaded me to use Ayer's Sarsaparilla. I began taking it, and my troubles all disappeared." - Mrs. Genevra Belanger, 24 Bridge st.,

#### W. S. ROBINSON

Chemist and Assayer.

Formerly in Chemical Laboratory of the Union Pacific Railway Company. pecial Attention Given to Ores, Waters and Oils. 1112Dodge St., Omaha, Neb

The month of January, from a purely business standpoint, is far different in the present day from that of a few years ago. Before the day of the elegant "vestibule train" which now enables the merchant to reach his market in a few short hours, the average storekeeper went to "the city" wherever that might be, but twice a year; once in the early spring and once in the early fall, each time buying goods enough to last him a full season of six months. He did little replenishing of stock in those days. When anything sold out, he was "out of it," that was all. When the first day of January came, business came to a standstill-"no use trying to sell any thing." He'd just get in the back end of the store by the old box stove, and sit, and soak in heat and wait for the customer that never came. The enterprising merchant of to-day has changed all that. Instead of letting his business run him, he runs his business. He rolls up his sleeves and pitches in, determined to make January's SALES good, even if he don't "lay up a cent."

#### TO-DAY,

We, the afore-mentioned enterprising merchant, begin our annual January

## Sale of Overcoats.

When we will put on sale in one grand lot between five and six hundred Overcoats and Ulsters that have formerly been sold at twelve, thirteen fifty, fourteen, fifteen and even sixteen dollars, all at the one uniform price of

## TEN DOLLARS.

Splendid all wool Chinchilla Overcoats, in blue or black, in all sizes, with Italian, Serge or Cassimere linings, with handsome fancy satin sleeve linings. Goods that are worth from two to six dollars more-AT TEN DOLLARS.

Great big Heavy Chinchilla Ulsters, goods that are right in every way, lined with splendid plaid cassimere. Coats that have sold for five dollars more all the season. They go in at the TEN DOLLAR rate too.

Great big piles of Irish Frieze Ulsters in Stylish Plaids, with splendid linings, with excellent sleeve linings; coats that ought to wear a man three or four years with any decent sort of handling. They go in under the TEN DOLLAR banner too.

When you take into consideration the fact that these garments at the original prices were the cheapest coats sold in Omaha, you can readily understand that at the present reduced price of TEN DOLLARS, there won't be many left at the end of the SIX DAYS which we in tend to devote to this great JANUARY OVERCOAT SALE.
