THE OMAHA DAILY BEE: SUNDAY JANUARY 18, 1891-SIXTEEN PAGES.

A memorial service in honor of the late Dr. C. M. Dinsmoor was held in Pythian hall in the Paxton block Wednesday evening. The doctor was an enthusiastic member of Nebraska lodge No. 1, and was also surgeon on the staff of Brigadier General Dayton. During his lifetime he was a zealous Pythian and an ardent supporter of the uniform rank.

The meeting Wednesday evening was un-der the auspices of Nebraska lodge and the uniform rank. The hall was appropriately decorated for the solemn occasion, the charters on the wall being draped in black and the station pedestals being craped in black and black and white. The altar was tastefully draped in black and white cloth and crepe, and on the open bible rested a wreath of im-mortelles. The swords, which usually lie crossed upon the holy book when the lodge is in session were resting at one side of the in session, were resting at one side of the altar, draped in black. About the altar chairs were arranged to form a double trian-gle. On one of the chairs were placed the sword and helmet of the deceased brother. The members of the Uniform Rank present were in tull uniform and occupied seats at Une side of the triangle and members of the lodge not in uniform occupied the other seats. Among those present as spectators were Colonel Harvey of Boston, on the bri-gade staff, and Mrs. Harvey. A number of the wives of members were also present.

During the progress of the exercises brief addresses were made by Past Grand Chan-cellor Goas, Dean Whitmarsh, Colonel Harvey and Mr. Isaac Adams, a member of Nahwaba lates ebraska lodge. At the conclusion of these addresses the

members of the order moved in line past the altar and deposited thereon sprigs of evergreen in token of remembrance

True Knightly Herolsm.

The real spirit of Knightly chivalry was illustrated at the conclave of St. Bernard commandary, No. 35, of Chicago, held last Wednesday evening, better than ever before, when 150 of the members offered to yield themselves to the surgeon'e knife for the purpose of saving, if possible, the life of an aged and honored officer of the commandery, says the Chicago Times. Sir John O. Dickerson, whose name is a 'household word' in every Masonic body in the city and state, was recently prostrated by a cancerous growth on his leg, which rendered him totally unfit for business aud unable to discharge the duties as recorder of St. Bernard commandery, an office which he had held for many years. The members of the comman-dery insisted on an operation being per-formed, and Dr. Leonard, who is a member of the commandery, and Dr. Fenger, a specialist in such cases, undertook the opera-tion which proved successful so for us retion, which proved successful, so far as re-moving the tumor was concerned. But in order to heat the wound it was found,

after numerous experiments, that only a transfer of sufficient human skin from healthy bodies to cover the wound would effect the necessary cure. This condition of affairs was reported to the commandery at a regular conclave. Since weeks ago, and it was at once proposed that the members of the comman-dery, to the number of 150 or 200, if required, should each contribute a portion of skin, making in the aggregate enough to cover the wound. A personal circular was sent to each member of the commandery last Saturday, in which the eminent commander, Jesse Mead,

Tailors' Troubles Ended.

For several weeks the manufacturing tailors of New York and the members of the tailors' unions have been at war. The tailors have been locked out, and they have in turn boycotted the manufacturers. Matters had reached the point where many of the largest shops had closed down and were rapidly becoming bankrupt. The journeymen were in even a worse condition, as they were out of work and their children were crying for bread. At last the difficulty has been settled, by the signing of the following agree-ment by the clothing manufacturers and the executive board of the National Tailors' association : Clothing manufacturers, called employer

The Letter Carriers' Ball.

A pleasant social event will be the letter carriers' ball, which has been fixed for Tuesday evening, February 4. Last year the annual ball was given at Exposition hall, and as the boys sold nearly one thousand tickets, they found the quarters altogether too crowded. This year they are bound not to be placed in a similar position, and for this reason have rented the coliseum.

The work of canvassing for the sale of tickets began only a few days ago, but up to

the present time nearly twelve hundred have been sold. The proceeds of this ball will not be used in fitting up lodge rooms or making a display, but will go into the beneficiary fund of the mutual insurance company that is main-tained exclusively by the mombers of the National Lottee Carriers' association National Letter Carriers' association
