Garrison bus for a long time been infested Garrison bus for a long time been infeated with tramps and suspicious characters, much to the annoyance of the people there. The other morning about twenty tramps took pos-session of Lincoln park, built camp fires and proceeded to make themselves otherwise at home. They were surprised while at break-fast by a party of citizens armed with shot-guns, Winchesters, etc., who demanded their immediate absence from the premises. They did not stop to argue the matter, but va-cated in all haste. The citizens are deter-mined to rid the country of such characters, who will doubtless give Garrison a wide who will doubtless give Garrison a wide berth hereafter.

The Ætna Fire.

We call the attention of the public to the annual statement of the Ætna Fire Insurance Co. of Hartford, Conn. This company have established their northwest branch office on the first floor of the New York Life building in Omaha, under the management of W. H. Wy-man, general agent (brother of A. U. Wyman, banker and ex-treasurer of the United States), and C. W. Potter, assist-ant general agent. Omaha should feel flattered that she is selected from among so many rivals as the headquarters for the branch office of this, the largest fire insurance company in the United States, with assets of \$10,500,000 in cash and a

loss paying record of \$66,000,000.

It was after mature delibera-tion that Omaha was selected as the most central point of the present and coming insurance field of the great northwest. This act of the management of this great fire insurance company is in keeping with their progres-sive spirit and in line with the leading ideas of Omaha. The Aetna Insurance company requires no introduction, having been represented in this city for nearly thirty years by Messrs. Murphy & Lovett, the oldest fire insurance agency in the state of Nebraska.

County Attorney Mahoney informed a Ban reporter yesterday that he was hastening Sheriff Joe Hamilton has arrived in Great Fails from Wyoming with the horse thieves, Hanion and Davis, in custody. The prinoners are charged with stealing several horses from Will Siefred of Bell about three months ago. The sheriff has been trailing them ever since the crime was committed and a couple of weeks ago located them in northeastern Wyoming. On a requisition from Governor with the preparation of a petition instituting suit against the bondsmen of Register of Deeds Megeath for that \$4,000. He thinks he can bring the case to trial much earlier than might ordinarily be expected. Chairman O'Keefe of the commissioner board was closeted with Mr. Mahoney most of the morning regarding the case.

"The statutes are very unreasonable on the matter of these reports," remarked his honor. "They provide that the reports must be published on or before February I. It is next to an impossibility to get them ready by any such time. The man who had the framing of the law on the subject must have come from some little village where the officers can make up their annual statements in a night. I should have at least a decent length of time to examine them in, but as it is I won't have opportunity to do much more than barely glance at them. I wonder if some of our independent friends down at Lincoln wouldn't have that law changed if I were to sail a fica into their car? Guess **PI** try 'em."

Several years ago Chamberiain & Co. of Des Moines, I.a., commenced the manufacture of a cough syrun, believing it to be the most prompt and reliable preparation yet produced for coughs, colds and croup; that the public appreciate true merit, and in time it was cor-tain to become popular. Their most sanguine hopes have been more than realized. Over three hundred thousand bottles of Chamber-lain's Cough Remedy are now sold each year, and it is recognized as "the best made" and it is recognized as "the best made" wherever known. It will cure a severe cold in less time than any other treatment. For sale by all druggists.

Endorsing Mr. McConnell. "An Old Engineer" writes from Rapid City to refute the statement of a Union Pacific official, quoted in a recent interview in The Bee, intimating that the new superintendent of motive power, Mr. J. H. McCon-neil, was not successful in his management of his office at North Platte. In reply to this the "Old Engineer" says the official

quoted was either ignorant or prejudiced. Continuing, he writes: "While Joseph H. McConnell was master mechanic at North Platte he had the reputation of being the best master mechanic on the whole line. His division was run more eco-nomically than any other between Omaha and Ogden. The engines on his division burned less coal and ran more miles to the pint or gallon of oil than other division en-gines on the whole line, and he had that rep-utation during his incumbency as master me-chanic at the above place and during the time that Mr. S. H. H. Clark was superin-tendent of the Union Pacific, and Mr. Clark, knowing his efficiency and recognizing his ability as a mechanic, as soon as he took hold of the Union Pacific, again rewarded him by appointing him superintendent of motive tion of being the best master mechanic on the appointing him superintendent of motive power for the road."
