BAD BREAK IN THE STEELE BUILDING.

A Section of the North Wall Gives Way-A Number of Workmen Injured, But None Seriously.

Shortly before noon yesterday a section of thenorth wall of the D. M. Steele building,ab the corner of Thirteenth and Harney, feli to the sidewalk with a deafening crash, but very fortunately no one was passing at the time.

The building is being remodeled and another story added, and is to be occupied by the Lee-Clark-Andreesen hardware company. Preparations were being made to raise the roof, and it seems that too much weight was allowed to rest on one pier, causing the wall to bulge out and fall.

The section that tumbled was about thirty feet long and fifteen feet high and comprised the center of the front end of the top story. Fire large windows and about 8,000 brick went down in the crash and several floor joists that had been put in position for the fourth floor were torn from their places and splintered. Several workmen were struck and bruised

by the falling brick, but none of them reeived severe injuries. Guards had previouly been placed across

Guards had previouly been placed across the sidewalk to keep pedestrians out of dan-ger's way, although in this case they failed to enclose all of the dangerous territory, as many of the falling missiles landed in the middle of the street. The building is just being vacated by the Omaha Art Exhibition association and over \$100,000 worth of paintings were on the lower floor at the time of the accident, but none of them were injured. All of them would have

them were injured. All of them would have been removed but for the storm.

When I was in Denver and was notified of Wabington's destruction of the 'Return of Spring,' Mr. Alliot said to me: 'You made

Spring,' Mr. Alliot said to me: 'You made your contract with the Omaha association on Friday, you went to Omaha on Friday, you gave your opening banquot on Friday, and now you'll be lucky if you get out of Omaha alive.' It begins to look that war, but still I feel hopeful. I am preparing to ship about 100 of the pictures to Denver, and I have ai-ready sent home a number of them. "Neither the Omaha association nor the owners of the picture are willing to take the Bouguereau. I am endeavoring to get the consent of both sides to allow me to take the picture until the matter is settled. I hope to have it settled without going into court, and in the meantime I suppose it will have to be stored in an Omaha warehouse. The picture now has a national reputation, and it would now has a national reputation, and it would exhibit well anywhere. If I was to exhibit it I would keep it just as it is, as it would draw better in its present patched condition than after being restored." Building Inspector Whitlock examined the
