CONGRESSIONAL PROCEEDINGS

Heated Discussion of the Cases of Mizener and Commander Reiter.

HITT OF ILLINOIS WAXES ELOQUENT.

Elg Guns Occupy the Attention of the Senators-What New Orleans Panks Think of Free Coinage.

Washington, Feb. 3.-After the approval of the journal the house proceeded to dispose of various matter of private business on the speaker's table.

After a long session the house coinage committee decided to grant the request of St. Louis people for a hearing on the free coin-

On motion of Mr. Caldwell of Ohio the senate amendment was agreed to to the house bill granting a pension to the widow of the Inte General Moyes.

On motion of Mr. Crain of Texas the senare amendment was concurred in to the house bill to promote the construction of a safe deep water harbor on the coast of Texas.

The house then went into committee of the whole on the diplomatic and consular appropriation bill. Mr. McKenna of California, replying to Mr. McCreary's criticism a few days ago of the Barrundia case, defended the tion of Minister Mizener in the matter. It (McKeena) understood Mizener's situa ion he was supported by every publicist of pute. Mr. Daizell of Pennsylvania came to the de-fense of Commander Reiter. In due time he proposed to submit some remarks in support of the proposition that the secretary of the treasury had no right, under the law, to ad-minister a public reprimand to Commander Reiter, as he had done by the insulting letter published in the press.

Second, that Reiter and Mizener followed international law as practiced in the last

international law as practiced in the last fifty years of the country's history.

Mr. Hitt of Illinois made a most eloquent defense of the state department. He reviewed the case at length and said in closing "God grant that no man, of any party, shall be ever the secretary of state, who will not disayow the act of the minister who orders the surrender of a political victim who trusts to our protection and the act of the commander who sits supine with two war vessels at his back and permits such a cloody tragedy and disgraces our national name."

After further debate the committee, without disposing of the bill, rose and the house adjourned.

Senate.

WASHINGTON, Feb 3 .- In the senate today among the petitions presented is one from the banks of New Orleans, deprecating any further discussion of the free coining scheme. The house bill to amend the section of

the revised statutes with reference to temporary designations to fill vacancies in case of death, sickness or absence of heads of departments was reported back with a substitute. The substitute amends three sections on that subject and limits to thirty days the period of such designation, except where the duties are exercised by the assistant secretary in which case there is no limitation.

After some discussion the substitute was

rejected and the house bill passed. Consideration of the fortification bill was

The first item that attracted attention in The first item that attracted attention in the fortification bill was one appropriating \$1,000,000 for the purchase of oil tempered and annualed steel for high power coast defense guns of 8, 10 and 12-inch calibre. The committee on appropriations recommended the reduction of the amount to \$800,000 and Gorman moved at 11 further adjustices \$250,000 After a a still further reduction to \$550,000. mittee on appropriations was to insert: "For breech loading sea coast mortars, cast iron hooped with steel, of 12 inch calibre, \$400,000, nooped with side, or 13-inch callibre, \$400,000, provided, that contracts may be made for not more than one-half of them to be constructed on the Pacific coast, in the discretion of the secretary of war Chandler moved to amend the paragraph to read: "For breech loading rifled stee moveture of teathy and a salibre." etc. mortars of twelve-inch calibre," etc.

No action was reached.
The senate bill to confirm certain entries on Otoe and Missouri reservation lands in Kansas and Nebraska passed.

The senate concurred in the house amend-

ment to the senate bill for a public building at St. Paul, Minn., reducing the amount from \$1,500,000 to \$800,000. The military academy appropriation bill was reported and the senate adjourned.

A MOUNTAIN ON FIRE.

Lisastrous Explosion of Gas in Colorado Mine.

DENVER, Colo., Feb. 3.-[Special Telegram to THE BEE. |-There is a monster conflagration raging in the mines of the Grand River coke and coal company at Newcastle, this state, about three hundred miles west of this city on the line of the Midland road. It broke out last night in the following manner; At about 6 o'clock, the supper hour, two of the miners on the day shift placed a shot in room No. 4 to let down the coal which was caught above. During the meal hour the shot went of, which ignited the gas therein and consequently set fire to the entire room. This fire had spread to rooms Nos. 2 and 3, and by the time the night shift was ready to go to work at 7 o'clock the whole community was aroused by the continuous and unearthly screech of the engine at the mines calling for

help.
Soon everyone, men, women and children, were on a rush towards the mines, where could be seen an immense volume of smoke as black as jet arising out of the mountain, about haif way up, and the inquiry was constantly and anxiously being put, "Was any one hurt!" The people having in memory the sad catastrophe which occurred in December two years ago in the destruction of life and limb to thirteen poor

miners by an explosion.

No one was burt, as fortunately the explosion occurred at an hour when the men were at supper and every one was out. Rooms 5 and 6 are also on fire and old miners state that there is nothing to prevent the balance of the sixteen rooms from joining the conflagration, twenty-two rooms in all. The fire in the rooms is about one hundred feetfrom the bottom of the slope, and upon reaching there a person can see nothing but a vast seething mass of fire. A large fire broke out at the southwest banks of these vast mines early last fall.

This fire has ever since been smouldering and gathering gas, which is liable to blow out the wall built across the entry so as to out the wall built across the entry so as to stop the air from getting to it. The whole face of the mountain is seemlagly a mass of fire on the inside. At intervals smoke can be seen arising therefrom continuously, a fact which has never been explained and has existed for all time as far as the memory of man or the aborigines knoweth. Active efforts are being made to subdue the fire. The mine is the most extensubdue the fire. The mine is the most exten-sive in the western slope.

Canadian Parliament Dissolved - A Proposed New Treaty.

TORONTO, Feb. 3 .- The Empire, the chief organ of the dominion government announces this morning that the governor general has dissolved the house of commons and issued writs for a new parliament, The Empire says: "It is understood the dominion government has, through her majesty's government, made certain proposals to the United States government looking to the extension of our commerce with that country. These proposals have been submitted to the president for his con-sideration, and the Canadian government is of the opinion, if these negotiations are to result in a treaty which must be ratified by rliament, it is evident the government should be able to deal with a parliament fresh from the people, rather than with a moribund house. It is understood Canada will send delegations to Washing-ton after March 4, the date on ton after March 4, the date on which the life of the present congress expires, for the purpose of discussing informally the questions of extension and the developement of trade between the United States and Canada and the settlement of all differ ences between the two countries. A transcript of the bills on file in the office of Mr. Ludden, general manager of the Nebraska state relief commission, shows bills rendered by H. P. Lau amounting to 83,982.55; Hargreaves Bros., \$4,702.12; Raymond Bros., \$4,954.63, making a grand total of \$13,639.40. The transcript shows the date of shipment and the county and town to which the con-

signment was made. In some instances the freight on flour is included in the totals returned by Hargreaves Bros., but no mention of the same is in-

cluded in the statements of H. P. Lau. Raymond Bros. send in a special statement regarding freight. The total expended by from total shows the total value of goods for-

This meal and flour were shipped from Greely Centre. The rate from that town to Burwell is only 16 cents per hundred weight, while the rate from Lincola to Burwell is 38 cents per hundred weight, a difference of 22 cents. This difference in freight Lau has added to the price per hundred weight of the flour and meal and included it in the footings. A note is ap-pended to the invoice setting forth this fact, which concludes with the statement that the which concludes with the statement that the flour and meal at this excessive rate does not cost the state any more than it would have

of the shipper.

It is said the purchasing committee will send orders to Omaha jobbers if the latter will agree to furnish the goods pending the appropriation and advancing the freight charges, as the Lincoln merchants are doing. The committee was instructed to send out \$50,000 worth immediately, but Mr. Meyer, a member, says he thinks less than one-third of that amount has been sent. Compared With Omaha Prices. The above list of prices was submitted to several Omaha jobbers yesterday morning who made a careful examination into the prices charged the state by Raymond Bros. As the quality of the goods furnished is unknown it is very difficult to give an exact statement of what the prices ought to be, but assuming that the various articles were all of good grade the prices are considerably above the market price.

Take for example rice at 634c—a good article can be had for 534c and possibly for less money. Hominy can be bought at any wholesale grocery in Omaha at \$3.50 per bbl of 200 lbs. For beans, 4c per lb is not too much for a good article. As there are so many different grades of tea and coffee nothing can be said as to the prices charged in the above list only this, 20 @5c will buy a grade of tea in Omaha equal to what the people in the western part of the state are in the habit of sing. Dwight's soda is charged for at the list price but other manufactures of soda could have been supplied at \$3.00 which would have hanswered the nurpose just as well. answered the purpose just as well.

After reviewing the prices the jobbers generally expressed themselves of the opinion that under the circumstances they were not exorbitant, as the money had not yet been appropriated, and no firm could afford to take chances without some remunera tion. One firm declared that it would not furnish the goods under the conditions at all. All agreed, however, that if the legislature had appropriated the money and the purchasing committee could say to the jobbers "we are prepared to pay cash or we can pay cash in thirty or sixty days" they could buy the goods way below the prices charged in the above bill and even below the list price. One house said that as a matter of charity, and to make the money of the state do as much good as possible, they would be in favor of selling the goods at just encugh above cost to pay the actual expenses of han-

THE M'CARTHY-DIXON FIGHT. It is Attracting Great Attention in

Sporting Circles. NEW YORK, Feb. 3 .- [Special to THE | prepared in Bre.]-The coming pugilistic event which sufficient is now surnishing food for gossip and quantities to speculation in sporting circles is the meetand George Dixon, the colored featherweight | gered in."-Page 80, Vol 1. before the Puritan club at Long Island City. It will be a twenty-five round bout, at the end of which it is expected thereferee will be able to give a satisfactory decision. The men will wear five-ounce gloves, which will be weighed by the chief of police before they

are permitted to put them on. The battle is for a stake of \$5,000 and a purse of \$4,000, the loser to receive the sum of \$200 out of the purse as compensation for his trouble and expenses. If the management live up to their agreement the men will be in the ring at 9 o'clock sharp, when the club-house doors will be locked.

This is the largest purse money that was ever fought for by little fellows. The battle promises to be one of the greatest that has ever taken place between feather-weights. Both pugilists have been training hard for weeks past, with the hope of being in the best fix imaginable on the eventful right. The little Jerseyman had to do considerable more hard work than Dixon, for the reason that he weighed fully ten pounds more than did the Bostonian when they started in to

train. McCarthy was trained very hard for this contest over in the Scottish-American club rooms in Jersey City. He has been as-sisted in his work by Jack O'Mara and Tom-my Collins, who have trained him for all his mportant batties Dixon, with his manager and trainer, Tom O'Rourke, has been working slowly but sure ly, down at Revere Beach. Dixon trains more for wind than anything else, as he needs to take off but very little flesh. He only weighed 11916 pounds three weeks ago, and he is to weigh in at 114 pounds six hours before

entering the ring.

Sporting men are discussing the outcome of the battle with more than the usual amount of interest. Several large wagers have already been made at odds of \$100 to \$80 on Dixon. The McCarthy supporters won't have to go about hunting for bets when the Dixonites get to town, as they have lots of money that they are only too anxious to put up.

Over in Jersey City McCarthy has a thousand and one friends who will back him to a
man, and should be meet with defeat the
whole town will go in mourning. The splendid showing that the little Jersey champion made against vig odds when he last met the "chocolate" boy is still fresh in the minds of

the followers of pugilism.

With both in good condition it should prove to be one of the best and most evenly-contested affairs ever witnessed. Both men are determined, and no gamer little fellows ever stepped into the arena to do battle. The tickets, which are selling at \$10 a piece, are going very well. It is expected that fully 4,000 people will witness the contest. The club's seating capacity is said to be 6,000.
