As fast as the injured were taken from the wreck they were carried to houses near by, where every attention was given them until arrangements could be made for their removal to the hospital at Richmond.

Killed the Engineer.

Evansville, Ind., Feb. 25.—The Rock Island freight train, consisting of a Wabash engine and wrecking the engine, Engineer Damp was killed.

CHILD REVOLUTION.

Success Attends the Fleet in several Hard Skirmishes.

Chicago, Feb. 25.—On the 15th inst. a battle was fought on the national floor and the government was defeated with a loss of 300 men. On the 16th the fugitive surrendered to the fleet. A riot the same night, caused by an incendiary mob, was quelled by the fleet and the foreign residents. One hundred and seventy-five of the mob were killed and wounded. On the 17th the opportunity was seized to check on the opposition near Havana.

On the 18th the fugitive was surprised by the fleet and the opposition was defeated. There was hard fighting from morning till evening. Captain Lambert of the U. S. S. Warrent, landed under the arrangement and the children and children from the town. The armistice was declared till the noon of the 20th.

On the afternoon of the 20th the government troops were surrendered to the fleet by Colonel Soto, who had fought gallantly. The town is in possession of the fleet. No fighting will be decisive battle north of Pinarua son.

Governor Bulkeley to Governor Hill.

HARTFORD, Conn., Feb. 25.—Governor Hill of New York, yesterday refused to honor a requisition signed by Governor Bulkeley of Connecticut, on the ground that he did not recognize Bulkeley as governor. Today Governor Bulkeley writes to Governor Hill saying:

"Understanding from your official action that criminals from sister states, and especially Connecticut, are safe from arrest and return to their proper homes when they have entered the cities of this state of refuge, embraced only in your jurisdiction. I desire to inform you that many of the criminals who are now in your custody are fugitives from the state of New York and the protecting arms of its executive. Every citizen is requested to bring your orders to forward such available reinforcements for your service, I have the honor to remain, etc."

Riot at the Rainey Works.

SEATTLE, Pa., Feb. 25.—The strikers made hostile demonstrations about the Rainey works again today, driving a number of men at the works away from the place. Miss Ross McClellan and Secretary McCracken of the Knights of Labor assembly were unmercifully beaten by the mob and several others received slight injuries. If the trouble is resumed tomorrow there is danger of a serious riot, as the special police will make a vigorous resistance.

To Eject Strip Boomers.

ARIZONA CITY, Kan., Feb. 25.—People continue to point the Cherokee strip, though a small number. The following dispatch has been received from the acting secretary of the Interior: "Settlers in the Cherokee strip there at their peril." Troops will tomorrow begin the work of ejecting the boomers.

Hard on the Boomers.

KANSAS CITY, Mo., Feb. 25.—The severest blizzard of the season prevails in Kansas tonight. A further is raging in the Cherokee strip and the boomer boomers who invaded that country will suffer terribly. There are fully three thousand of them and the best shelter they have is their covered migrant wagons.

The Fire Record.

MINNEAPOLIS, Minn., Feb. 25.—A fire which started in the lumber exchange after 1 o'clock has spread to the Edison and another adjoining building. Losses will probably reach \$200,000.

Liebreich's New Remedy.

BERLIN, Feb. 25.—Prof. Liebreich's new method of treating tuberculosis was described by the discoverer today. The substance used is a combination of potassium and sodium iodide in a special form. It is administered in the form of a medicinal wine. It is still in the experimental stage, but the discoverer has been most successful.

ONLY STRAIGHT BUSINESS.

Congressional Legislation Will Be Limited to Undeletable Measures.

BUFFALO BILL ON THE LATE CAMPAIGN.

He is Lobbying for the Friendly Indians—Colonel O'Brien's Services—Hitt and Canada—Washington News Notes.

WASHINGTON BUREAU THE BEP., 25 FEBRUARY 25, 1891. "It is very safe to say that any measure which will provoke debate that will not pass the senate," said Senator Allison, chairman of the senate committee on appropriations, when asked this afternoon if he thought the shipping bill could get through the senate with the house amendment. Mr. Allison is in a position to know more about the possibilities of legislation than any other man in congress.

He continued: "I have figured that it will take almost every hour of the remaining six days of this congress to get the appropriation bills through the senate, even with night sessions. It is possible of course to run through measures which can be finished in a very few hours, but it is out of the question to get any bill through if a single senator offers serious objection. You see, we have indicated the date yet in the senate. The closure resolution is yet pending. Had we such a provision we could do a great deal for the country before next Wednesday."

It seems to be the general impression on both sides of the capitol. There is no doubt that the house will pass the shipping bill, but that the senate will not. Mr. Allison will do all they can under the rules to adopt the amendments of the house, but as Senator Allison has said, a single senator can defeat the measure if he wishes to push his opposition to the point of making a lengthy speech. The appropriation bills must all be passed, whether or not there is anything done in the district of the legislation. It looks now as though the Paddock patent bill, the Connor bill and a large number of other bills will not pass.

It is thought that the bill will be passed, possibly with the shipping bill, notwithstanding the fact that the session from this time on will be adjourned on Wednesday. It will probably be continuous, night and day, right through Sunday.

CONGRESSIONAL PROCEEDINGS.

HOUSE. WASHINGTON, Feb. 25.—In the house, Mr. McKinley, from the committee on rules, reported a resolution providing that tomorrow the house shall meet at 10 o'clock and immediately proceed to the consideration of the shipping bill, the general debate to close at 5 o'clock. Friday the house shall meet at 10 o'clock and proceed to the consideration of the bill by paragraphs, the previous question to be considered as ordered at 5 o'clock. Adopted—yeas, 189; nays, 13.

The committee on the bill, which was taken up in the morning, reported a bill, which was rejected. The bill then passed.

The house then went into committee of the whole on the agricultural appropriation bill. In the course of the general debate Mr. Furber of Kansas, in charge of the bill, and Mr. Burdette of Ohio, led off. Mr. Burdette, who greatly outdid the other members on both sides.

Mr. Furber said if Mr. Burdette had taken as much time to forwarding his anti-protection bill as he had to drawing his salary as secretary of the world's fair directory the measure would have passed.

Mr. Burdette charged Mr. Furber, as chairman of the committee on agriculture, with having done nothing for the farmers. Mr. Furber had not moved in the direction of consideration of the anti-protection bill, but had stood trembling like an assenial under the eye of the farmer.

Mr. Hatch of Missouri deplored the condition of farmers, made a speech in favor of the bill, and the committee on agriculture reported the majority of the committee on agriculture for not acting on the anti-protection bill. The committee on agriculture reported the majority of the committee on agriculture for not acting on the anti-protection bill.

Mr. Cannon having suggested they could pass the anti-protection bill next session, Mr. Burdette moved to suspend the rules, and every other bill that is constitutional and demanded by the people.

After considerable discussion the committee voted without dissenting to the bill. The death of Senator Wilson was announced, and after the appointment of a committee to take action in regard to the funeral, the house adjourned.

The house held an evening session, making for the first time in its history two distinct legislative sessions in one day. The speaker submitted a report from the silver pool investigating committee, and it was ordered printed. Mr. Burdette said that he would call it up tomorrow, as possible.

SNOWS, FLOODS AND WINDS.

Colorado Railroads Barred Under Slides and Drifts Many Feet Deep.

MOUNTAIN TRAINS ALL ABANDONED.

A Number of California People Reported to Have Perished by Drowning—A Disastrous Tornado in Indiana.

Denver, Colo., Feb. 25.—(Special Telegram to The Bee.)—The heaviest snowstorm of the winter has been raging in the mountains between Denver and Leadville for the past week. The snow has been falling almost without cessation, and as the usual wind which accompanies the storms did not prevail the snow piled up to six feet on the mountains. It has proved very obstructive to railroad traffic on both the South Park and the Rio Grande. The ordinary push plows were sufficient to keep the track clear of snow until yesterday, when dangerous snow slides began. The South Park was the worst sufferer and acres of snow were piled on the track this morning.

Denver, Colo., Feb. 25.—(Special Telegram to The Bee.)—A disastrous tornado morning near Gunnison and continued at intervals during the day at several points on the line.
