# THE CITY.

A marringe license was issued yesterday to William R. Meadows and Jonnie Brawloy, both of this city.

Frank Maores, clerk of the district court, who has been ill for several days. sent word to his office, last evening that he would be at his desk this merning.

At the temple on Harney street, near Twenty-fourth, Rabbi Rosenau is at present dolivering a course of loctures on Agreements and Disagreements Be-tween Moses and Molimanned, Judaism and Islam. The third of the series, en-titled, "Egypt Reflected in Arabia," will be taken up Friday evening. Servlees commence at 7.30 o'clock sharp and all are cordinaly invited to attend.

The revival meetings at the South Teuth Street Methodist church, conducted by Rev. N. L. Hoopingarner, have been very successful notwithstanding the rough weather. Good congres-gations have gathered from night to night and everything points to a great meeting. The singing, led by Mr. Hoopingamer, assisted by a full choir, is of the very best type. Wednesday night's meeting showed a very marked interest by all those present, some of which came from distant parts of the city.

On next Sunday the German Dramatic nesociation of this city will give a repro-sentation of the celebrated comedy, "Du Solist Nicht Begehren Deines Naechsten Hausfrau, Oder Das Neunte Gebot," ["Thou Shalt Not Covet Thy Neighbor's Wile and the set of the s nssociation of this city will give a repre-sentation of the celebrated councily, "Du-to see them. Wife, or the Ninth Commandment" The committee having this matter in charge have spared neither time nor expense in their efforts to make this performance a brilliant success, and have secured Fri. Ida Cordt, who will, of course, take the leading part. Mr. W. F. Stoccker is the responsible head of the German theater.

# RYANAND WALSH'S CLAIMS.

#### County Attorney Mahoney Argues Before Judge Hopewell.

County Attoracy Mahoney took the floor yesterday before Judge Hopeweil and the jury in the case of Ryan & Walsh against the county. As he took up the long bill presented by plaintiffs for over \$30,000 for extras, for which they are now suing, he fixed his eyes upon the jury, smiled sarcastically, and said "I'm inclined to believe that if John Dil-

"Im inclined to believe that if John Dil-lon, who for so many years has annised the public could read this bill, he would drop his stage role and adopt the name of Ed Waish." Judge, jury, counsel for plaintiffs, specta-tors, everybody in the room, came near laughing entright. They also laughed again, a little later on, but this time at the expense of the speaker bimself what indiversity of the speaker himself, who madvertantly observed that he, Mr. Mahoney, sprang from the same ancestry that FiC Walsh did. Continuing, the county attorney poured forth a choice lot of scathing argument cal-

cullated to show the utter groundlessness and insincerity of the plaintiffs in making the enermous claims which they had against the county. He reviewed every particle of the evidence, pleking it to places with a merci-lessness evidently bern of a determination to win the suit for the county at all except lifegal hazard. "One of many remarkable things con-

needed with the manner in which Ryan & Walsh milt that hospital," said the speaker 'was that they made the windows to fit the mult panes of poor glass they had ordered in y snap sort of way, instead of ordering the a snap sort of way, instead of ordering the gauss to lit the windows, as specified in the poutrack for it's cheaper: there's a mighty big saying in building small windows around little panes of glass than building big windows and getting glass to fit them." In referring to how the plaintiff's charged for correcting their own blunders, counsel for the county observed that if they had been a little bricking they and a building window they are the second brack with the second bra

a little brighter they would have put up the entire building so that it would have all fallen down and then they could have ex-actly doubled the contract price on the

#### Cushing, Gilbert and Smith Favor Advertising for Unds.

At the last meeting of the fire and police commission it was decided that some new hose was needed, and the committee recommonded that the board purchase 8,000 feet, 2,500 for immediate delivery and the balance as needed. This report was adopted and the matter referred to the city council with the recommendation that the board be authorized to make the purchase. At the meeting of the council this communication was referred to the committee on fire and water In an informal conversation after the fire and police commission had adjourned some and points commission and adjourned some of the members suggested the advisability of not advertising for bids for hose, but fav-ored notifying the hose dealers who handle the best grade of hose to appear before, the board, in case the action of the council is favorable, and submit their prices. No action was taken on the matter, however, by the

Mayor Cushing and Mesars Gilbert and Smith of the commission were seen in regard to the matter and denied that there was any intention of the board to purchase the to the matter and denied that there was any intention of the board to purchase the bose without asking for bids. They stated, however, that there were only about half a dozen brands of hose which h would be policy to buy, and they thought it would be uscless to have forty or fifty hese men come to this city and show very inferior grades of goods which the board would not purchase in any event. All three of the gen-tlemen were in favor of advertising for bids and specifying the grade of hose desired, This, they thought, would do away with the noyance of looking at poor grades and and bring the dealers of the best goods a competition.

The fast purchase of hose was made two years ago, 2,000 feet of various brands being purchased for the purpose of giving their wearing qualities a practical test. The comssion will consult with Chief Galligan on

He Insists that she is Both Hornless and Harmless.

Just an ordinary, low grade cow has caused a good deal of amusement for the stuid and dignified members of the city council. The matter was referred to the committee on police and Chairman Specht presented a report, which was adopted, delogating Mr. James Donnelly, sc.,

Specific presented a report, which was adopted, delogating Mr. James Donnelly, sc., the veteran member from the Second, to in-vestigate the matter. At the meeting Tues-day evening Mr. Donnelly made his report. It was a gem in its way and was as follows: OMARA, Neb., Fcb. 24 – Mr. President: Your committee to whom was referred the report of the committee on fire and police in relation to a vicious cow, would respectfully report that I have carefully investigated the same and find that only two of the committee performent their duty. One a clerical looking gentleman, the other of Scotch-Irish descent. Mr. Specht, the real party wanted, failed to show up for reasons best known to himself. I also find that the bovine complained of is innocuous for the reason she is hernless (commonly called a mooley). I therefore re-commend that Mr. Specht, the junior mem-ber from the Sixth, make a pair of galvanized from horns and place them on the head of the inoffensive bovine at as early a day as possible, and that all uppers in relation to the matter be placed on mile and not again urought before the council. The report was recommitteed on motion of Mr. Snecht, who invisited that Mr. Donnelly

The report was recommitted on motion of Mr Specht, who insisted that Mr. Donnelly should state from what fund the pay for the horns should be taken. Mr. Donnelly promises another report at the next meeting of the council.
