Some time age an article was published in THE BEE IN regard to a rumor that had A sacred concert will be given next Sun-day evening at All Saints' chapel ance with Attorney Scabrook's saloen war. It now transpires that wheever started the rumer was correct. Yesterday the appearance of ex-Atterney General A. J. Baker of Des Moines set the gossips in a flutter of excilement, not on account of anything particularly striking in Mr. Buker's appear Elenetal cosnell, No. 3, Daughters of lance, but from the fact that it is Pocshontas, will meet at Redmen's hall this | well known that he has been connected with the liquir prosecutions which have been The Indies of the Broadway Methodist church will hold a bezarin Masonic temple on the evening of March 19.

The Indies of the Broadway Methodist made by the state alliance in various parts of the state. Later in the day Mr. Baker was seen on the street in common with Attorney seen on the street in company with Attorney Seatrook and then it was regarded as pretty certain that his visit had something to do with the Injunction suit against Kink & Schultz, the trial of which was to come off

Areporter called upon Mr. Baker yesterday soon after his arrival in the city, but found him in a not very communicative mood. He admitted, however, that he was in the city for the purpose of looking t to the saloon-injunction matter, and might even go so far as to take a hand in the business himself if his services should be needed. He himself if his services about de needed. He stated, however, that he considered Mr. Seabrook able to manage the case alone.
All afternoon Baker and Seabrook were

closeted in the latter's office. A reporter called at the office, but was not allowed to enter from the fact that Mr. Baker was inside, and there was evidently something going on that the general public was not ex-pected to know. Mr. Senbrookadmitted that he was working for the alliance, and claimed that he had been ever since he commenced thejob of cleaning out the saleons. He did noteare to have his authority known at the start, but was perfectly willing to show it

now.
It was expected that the trial of the suit against link & Schultz would come up this morning in the district court, but on account of the illness of W. A. Mynster and J. N. Baldwin two of the attorneys for the defense, it had to be postponed until next

Friday. Apropos of the saloon injunction matter, it may be stated that an open letter from the citizens to Mayor Macrae has been circulated during the past few days among the business men, and the work of getting signatures was completed last evening. The letter is sub-stantially an endorsement of the policy which has been pursued by the mayor in the matter of the police regulation of the saioens. and an agreement to stand by him in oppos tion to all efforts that may be made to compel nim to change his policy. The letter contains the signature of almost every substanthe business man in the city, and is regarded as one of the strongest testimonials to the wisdom of the mayor's course that he could have.

Beautiful Pecorative Work.

J. B. Long has just finished a panel of decorative plastic work on the walls of his office and wall paper sales room, at No. 20 Main street, which will attract the attention of the levers of the beautiful in decorative art. The panel occupies a large portion of the south wall, near the door, and attracts the attention of the visiter immediately upon

entering the building and holds it, too, for the work is by all aids the finest of the kind ever done in the city. There is a great deal of such work in the better class of houses in town, but in it the decorators have depended upon the novelty for the effect, but Mr. Long has gone further, and produced a design that is nandsome and artistic. The plastic material is moulded into shells, which are further brought out by rich gilding and made to anpear as though they were carved out of the solid material of the walls. The frieze is another rich design of shell work. A dado of the same material completes the panel with the addition of the rich medidings which seem to be a part of the whole. Plastic work promises to be more fashionable than ever this season, and it is certainly more desirable than even the most expensive papers for sanitary reasons. When put on as Mr. Loar does his work it is as permanent as the woodwork of the building, and a recoloring with water colors or or dinary paint at little expense makes a com-plete change in the appearance of a room, as great as the most expensive new papering could make.

While this artistic plastic work will be one of Mr. Long's specialties for of Mr. Long's specialties for this season he will claim first place in the wall paper business of Council Blaffs, for he has put in the largest stock of fine grade papers in the city. The styles are very different from last year and much handsemer, and as they came direct from two of the largest manufacturers in the world tley will appear simultaneously in New York and Council Bluffs. Among the materials are the new anaglypta fabrics, which are equal to the post linerustas in material and designs, while they are cheaper. C. M. Harle, the attorney for the Mutua life insurance company of New York was seen yesterday afternoon with reference to the charges which are made against E. W. Kappell, the agent for the company in this city, by Nels Peterson, the Weston farmer who served an original notice on Kappell stating that a sait will be begun shortly to set aside the insurance policy which was issued by him a few months ago, on the ground that he was induced to take it out by means of false representations as to its terms. Mr. Harle stated that there were no representations made by Kappell which were not fully shown on the face of the policy. Peter-son had evidently thought he was to be made a rich man in a short time by taking out a \$5,000 policy. After he had had time to think

the matter over he had come to the conclu-

sion that it was not such a ponaura after all, and that he would therefore like to get his money back. The pilicy that was issued was exactly of the kinet that all other companies furnish, giving the holder the privilege, after buting paid three full annual presidents, of surrendering his policy and receiving back a purent ashure of the facevalue. He further stated that the Muhai insurance company was fully acquatited with the part Mr. Kap-pel had played in the matter, and that they had assured him that they would stand by him.

The case was taken to the supreme court by the lesing party on an appeal and since then nothing

has been heard of it. Yesterday afternoon it was resurrected by the attorneys for the defense, Messrs. Sims & Saunders, who filed a motion in superior court for a new trial. N. E. Tyson, now janitor of the Hill school, was a member of the jury which returned the verilet on the last trial, and it is Tyson's actions which are taken by the attorneys as their ground asking for a new trial. They can't that Tyson, when the jary was being examined preliminary to the trial stated under oath that he had so knowledge of the facts of the ease, that he was not acquainted with either the plaintiff or A. W. Etter, her husband, and that he had never heard of the case. On these representations the defendant claims that he waived his right to challenge Tyson,

and he was allowed to serve on the lury.

In the jury room Tyson's demeanor changed, it is alleged. He told some of the members of the jury that he was a friend of Etter's having lived in the same town with He said that Etter had told him all about the trouble, and that he be-haved that he had been greatly wronged. He further told the other members of the jury that he would sign no verdict except one which should award the plaintiff the full amount of her claim. He refused to take y must in the deliberations on the evidence ut told the jury men they might discuss i all they pleased, and when they agreed on a verdict for the defendant for the full amount of her claim, to bring it to him and he would

Two days ago he was served with a complaint and summons in a suit instituted against him by August Newberger of this city, who seeks to recover \$3,000, the amount of a check given by Goodwin to Bullard & Co. in December, 1889. It is explained that Goodwin lost the amount at issue in the gambling rooms of Bullard & Co about Christmas 1889. He began by "shooting craps" and won \$500. Fare was about Christmas 1839. He began by "shoot-ing craps" and won \$500. Fare was then proposed and he took a lively hand. When his losses had reached \$2,000 he gave a check for \$3,000 and continued to play and ose until that sum was reached. Bullard & Co. assert that on presenting the check a comedian having in the meantime stopped its payment. The claim has since been assigned to Newberger, who is the plaintiff in the

CHICAGO, March 6, -The general managers of the western and southwestern roads had a long session in Chairman Walker's office today to consider complaints that the Atchison is not turning over a proper percentage of its traffic to other lines, in accordance with the agreement. It is claimed its indebtedness to competitors now exceeds one thousand cars

of freight.

The Atchison claims it has been unable to fill the quota promptly, because of lack of business and furthermore charges underhand practices on the part of roads having lines via Omaha. The Santa Fe was urged, however, to di-
