They Will Not Be Cared for at the County Hospital. "No doubt there are some people who think that we made a great mistake when we refused to accept the county's offer to take care of our sick," said Councilman Specht, chairman of the committee on police.

THE MORSE BRY GOODS CO. P. S. In going over the stock yesterday, the Morse Bry goods company, a complete assortment of Priestley's celebrated black goods. There is a magnificent stock of all kinds of dry goods, corsets, collars, trimmings, and gloves, etc.; a beautiful collection of fancy handkerchiefs, lace and embroideries—all the newest goods, mostly full price, never out. The corsets are all the best makes—P. D. Warren's, Wm. H. Harris's, Schilling's, etc.

THE CITY'S SICK. They Will Not Be Cared for at the County Hospital. "No doubt there are some people who think that we made a great mistake when we refused to accept the county's offer to take care of our sick," said Councilman Specht, chairman of the committee on police.

THE HORSE.

THE HORSE. Sale of the Entire Hymen & Deibes Bankrupt Stock Monday Morning. Nearly \$50,000 for \$20,000.

We purchased this entire stock, not in a day, but in a long time, at a store in Omaha, the Northwestern bank. The first National bank, Messrs. May, Meyer & Co., Mrs. Amy Hoffman, New York, represented by Dr. O. S. Hoffman, Omaha.

It is interesting to note the presence of all the above parties by Mr. Herman Kuntze, president of the First National bank, and the entire stock of goods, first, second and third hand, being sold to our other dealer in the city. It was sold to us at the lowest price that any goods stock ever sold for in the west. Nearly \$50,000 worth of goods at not less than New York, and we purchased the whole thing for a little over \$20,000, a little over half price.

We will sell it at the same proportion and we expect next Monday morning, March 16, a rush from all over the state and low country of corn, wheat, etc.—we want your mail orders.

The stock of black dress goods is without doubt the largest and best in Omaha—no other store pretended to show so complete a stock of corsets, collars, trimmings, and gloves, etc.; a complete assortment of Priestley's celebrated black goods.

BOY'S INSURANCE.

Amount Carried on Building and Stock Destroyed Thursday. The ruins of the Bohm manufacturing company's plant were still burning yesterday morning, though four streams of water had been playing on them all night. Those companies 1 and 6 were still on the ground at noon, directing attention to the burning lumber in the basement. Despite the thousands of gallons of water that had been thrown upon it, the material continued to burn, and occasional fits of flame could be seen, although the dense clouds of evening smoke from the basement obscured everything therefrom, except when blown aside for a moment by the wind.

The insurance on the destroyed building and stock amounts to \$50,000, and was placed as follows: ON STOCK. New York Underwriters' \$20,000 New York City 5,000 N. B. & M. 5,000 Chicago 5,000 New Hampshire 5,000 Syndicate of Minneapolis 5,000 Total \$50,000

REPORTED TROUBLES DENIED.

Union Pacific Telegraphers Have No Intention of Inaugurating a Strike. MEN DISCHARGED ONLY FOR CAUSE. Beatrice After Better Freight Rates—La Grange Phys Have in the Banks of Soldiers and Police.

Reports from Denver to the effect that a strike was being among the operators on the Union Pacific, is not given any credence here either by officials or operators. Superintendent Kory is confined to his home by illness, but the chief operator denounces as false the statement that men were being discharged because they belonged to the Order of Railway Telegraphers. Several men have been discharged, he said, but they had been found to be implicated in the strike. The fact that these men had been discharged, he said, had admitted the charge. He said that these men had been discharged whatever it was to their discharge.

An operator who has been in the service of the company for several years was spoken to by the superintendent of the order, who was the idea of a strike as being impossible. He stated that there were about five hundred operators on the system, and that the number of operators who had been rapidly withdrawing. The speaker said he had been in telegraph office and had been informed by the operators there that there were no indications of a strike.

Beatrice will be benefited. A prominent freight official yesterday morning that the effort of the Burlington to obtain a reduced freight rate between Chicago and Beatrice would probably be successful. The attempt on the part of the Burlington to secure this change through the Western Freight association was chronicled in the Chicago Dispatch, which also stated that Chicago freight men had decided to support the new Western Freight association that govern the western freight. These rules require unanimous consent to change in rate. The request of the Burlington received a majority of the vote, but was not adopted, but there were some roads who voted against it.

The rate of the western freight, allowing for road mileage, is a change in rate by a few cents per ton, but is not a strike. The rate of the western freight, allowing for road mileage, is a change in rate by a few cents per ton, but is not a strike.

MEN WHO MAKE

Men who make. Clothing to-day for the class of people who wear "ready-made," make a far different class of goods from what they made twenty-five years ago. Then pants were cut with a buzz-saw, coats were made in a harness shop, vests were simply a pair of arm holes with some cloth around, and it seemed as if the whole suit was made to see how much of a "guy" a man could be made to look. Men bought a ready-made suit then only when compelled to. Gradually this has changed. People liked the idea of buying a suit Saturday and wearing it Sunday. Manufacturers were not slow about taking in the situation. They employed better help, used better materials, and turned out better work year after year. To-day there are manufacturers of ready-made clothing who employ the best workmen that can be hired at any price. They buy the best cloths that the mills make. They use the very best trimmings. There are clothing concerns to-day who make up "ready-made" clothing in far better shape than the average merchant tailor turns out "custom work."

It is about that sort of clothes we want to speak today. We have bought a much larger assortment of extra fine suits and overcoats for this spring's trade than we have ever before shown. Goods that fit, hold their shape and would be taken for "custom work" on any man's back, and we don't ask "custom" any prices for them, either.
