THIRTY VICTIMS IN IOWA.

Orange City Men Invest Their Cash in Baldwin & Co.'s Timber Scheme.

TRAINMEN WILL TELL THEIR TROUBLES.

A General Strike Threatened on the Gould System—An Unsuccessful School Teacher Crazed from Disappointment.

Thirty men in Orange City, Ia., have each invested $25 with the firm of G. M. Baldwin & Co., an account of whose peculiar transactions occupied a column in THE BEE on March 6.

The firm at that time had a room in the Frenzer block and was advertising for men to go to Seattle, Tacoma and other Washington points and take up timber claims. The applicants were required to pay Baldwin and Co. a deposit of $25. For this the firm agreed to pay all of the applicant's expenses until his claim was finally proved up, when the firm would buy it for $1,000 in cash.

Applicants were plentiful in Omaha until the publication in THE BEE called the attention of the government authorities to the scheme of the firm. Then the office door was locked and nothing has been heard from the firm until today when the story of further deals came from Orange City.

P. C. Lankelman is a real estate agent at Orange City, a short distance north of Sioux City. He came to Omaha yesterday and told how at least thirty people living in Orange City and vicinity had gone into the schmee to the extent of $25 each.

"I had seen the article in THE BEE concerning Baldwin & Co.," said Mr. Lankelman, "and I cautioned some of the men about going into the scheme. Most of them were broke up, however, and expressed a willing ness to be a party to the firm's plans for gobbling Washington timber lands if they could get their $1,000 each out of it. Baldwin came up and talked the matter over and went away. Last Thursday he came again and only staid in the place an hour. He had notified the men to be on hand and he captured $750 from them in an hour and left the town. We have heard nothing from him since and I thought I'd come down and see what kind of a firm we were dealing with."

Mr. Lankelman's investigations satisfied him that the firm was not the kind he wanted to invest his money with, and he went home this afternoon to tell his thirty fellow citizens that they had been played for a certain kind of fish.

Members of the firm of Baldwin & Co. are lying very low, the office in the Frenzer block being locked up. The commercial agencies state that the firm has no standing in their reports.

TROUBLES OF TRAINMEN.

A General Strike Threatened on the Gould System.

E. E. Clark of Cedar Rapids, Ia., grand chief conductor of the order of Railway Conductors, is in the city, and is stopping at the Paxton. He was on his way to St. Louis on business connected with the order and left for that point last night.

News has been received from St. Louis to the effect that a strike is threatened on the Gould system which may assume the proportions of the celebrated blockade of five years ago. The Order of Railway Conductors has a grievance against the Missouri Pacific and a committee has been in conference with the officers of the road for several days. The brakemen have also become involved in the difficulty which arose from some real or fancied grievance among the men on the Iron Mountain road. The difficulty promised to assume a serious form and the dispatches from St. Louis stated that Grand Chief Clark had been asked to come to St. Louis and participate in the settlement.

Mr. Clark was asked as to the truth of the information and at first denied it, saying that the order which he represented was not involved in the difficulty and had nothing whatever to do with the troubles of the brotherhood. Later he acknowledged that he was on his way to St. Louis in response to requests from the brotherhood, and would see what was wanted.

The Order of Railway Conductors, Mr. Clark stated, had no connection with the order of which he is the chief, and is in fact, a rival organization. He had been in St. Louis about two weeks ago, he said, and had adjusted all differences which existed. He was ignorant of the nature of the present trouble.

The Brakemen's Grievances.

The committee of conductors and brakmen from the Pacific division of the Union Pacific is still in the city, and held another consultation with Mr. Holcomb yesterday. The committee had about concluded on Tuesday to return home, Chairman Palmer taking the stand that, as their schedule had been refused, the committee had no power to treat further with the company. The rest of the committee did not agree with him and he tendered his resignation. This was accepted and J. K. Miolt of La Grande chosen chairman.

The committee, in company with Superintendent McNeill of the Pacific division, went into another conference with Mr. Holcomb this morning, which resulted in what may terminate in a satisfactory settlement.

Both sides offered certain concessions and a schedule was partially agreed upon which will give the men on the Pacific division all they could reasonably expect. The details have not yet been arranged, but enough was practically decided upon to warrant the conclusion that the men on the mountain districts of the Pacific division will receive an advance which will give them much better pay than they are now receiving.

Mr. Holcomb was opposed to treating with the committee, on the ground that they did not represent any organization, and any agreement which might be made would have no binding effect on the men. For that reason he sent for E. E. Clark of the Order of Railway Conductors, but the latter declined to take any hand in the matter.

The committee have stated that any settlement which may be made will be with the understanding that it be submitted to the men on the Pacific division for their approval or rejection.

The committee and Mr. Holcomb held another consultation this afternoon, the result of which had not been announced at the hour of going to press.

The Engineers' Representative.

George W. Vroman of North Platte, chairman of the general board of grievances of the Brotherhood of Locomotive Engineers on the U. P. system, is in the city. He stated to THE BEE that his visit had no particular significance, but was merely one of his periodical trips.

Each season has its own peculiar malady; but with the blood maintained in a state of uniform vigor and purity by the use of Ayer's Sarsaparilla little danger need be feared from meteorological influences. No other blood medicine is so safe and effective.

Teachers' Examiners.

Prof. Lewis, principal of the high school, has signified his intention of resigning from the teachers' examination committee for the reason that the duties of the committee occupy a large portion of his time which he desires to devote to other pursuits. It is probable that his resignation will be accepted, as he has firmly declined to withdraw it.

Mrs. W. W. Keysor, at present the only remaining member of the committee, has also announced her intention of resigning, but the committee appointed at the last meeting of the board of education to report the names of an examining committee are of the opinion that Mrs. Keysor may be persuaded to alter that determination and continue on the committee. The members of the board constituting the committee to report on the matter are Messrs. Points, Smyth and Pompleton. No meeting of the committee has been held and no suggestions have been made as to the probable successors of Messrs. Lewis and Merriam.

Paid for His Fun.

Ernest Reynolds won't try to be funny again until the roses bloom. Judge Helsley gave him sixty days for vagrancy. "That's dead easy," declared Reynolds. "I can stand on my head for sixty days."

"Make it ninety," ordered hizzoner, glancing at the clerk, and the smart culprit experienced a rush of blood to his empty cranium as he faded into an obscure seat.

HIS OWN FAULT.

Responsibility for His Sanity Rests with Warbington Alone.

The interest in the Warbington trial continues, and at each session of the court a large crowd of spectators gathered to listen to the testimony offered to convince the jury that Cary Judson Warbington is a lunatic.

Warbington himself seemed to enjoy being arrayed as a man with a light head, and whenever a point was scored in his behalf, nodded his head in an approving manner.

There was but one witness examined, Dr. Aikin, who staked his reputation upon being an expert, owing to the fact that during a practice of four years' duration, three years of the time he had spent in the Iowa asylum for the insane at Mt. Pleasant. He had known Warbington one year. He had known him as a church member and an associate. The doctor on his direct examination knew all about the manifestations of insane people and was positive that the defendant was insane upon the subject of women and their purity. His insanity was of such a nature that should he see a nude female form the doctor thought the first impulse would be to destroy it, hence his actions when he gazed upon the "Return of Spring."

On cross-examination Aiken was terribly mixed, and admitted that he knew but little about Warbington or the case on trial.

The afternoon session was devoted to the introduction of medical expert testimony to prove that young Warbington is a lunatic and should be confined in the asylum rather than in the penitentiary. A score of doctors testified, and if the fellow is not crazy it is all his own fault.

Dr. Merriam and Dr. Jonas for the prosecution, however, saw nothing to indicate insanity. They regarded the destruction of the "Return of Spring" as an act of pure cussedness.

Arguments were commenced last evening and the case will be given to the jury today.

He was for some time engaged in teaching the sciences and literature in colleges in St. Louis, Mo., Chicago and St. Marys, Kan. About a year ago he came to this city from St. Louis.

Hungry Prisoners.

LONDON, March 19.—[Special Cablegram to THE BEE.]—A train loaded with provisions which had been sent to the relief of the prisoners and officials of Dartmoor prison, who had been cut off from their usual supplies by the terrible snowstorm which prevailed here recently, succeeded in reaching the prison yesterday after being snow blocked for nine days. In the meantime the rations of the inmates in the prison had to be reduced and there was considerable grumbling among the convicts because they were forced to subsist on salt meat, and one of the prisoners finally became so angered because his demands for other food were not granted that he stabbed and seriously wounded one of the wardens.

Will Resent the Insult.

VIENNA, March 19.—[Special Cablegram to THE BEE.]—During the height of the festivities at a ball given at the German embassy in this city in February last, the princess of Reuss, wife of the German ambassador, called aloud to M. Vacaresco, an attache of the Roumanian legation and son of the Roumanian minister, to leave the hall as he had not been invited to the ball. As a result of this insult it is now learned that the elder Vacaresco has resigned his position so as to enable him to challenge the prince of Reuss for the affront which the princess offered his son.

Dr. F. C. DILLINGS, 322 S. 15th St. Omaha, Neb.

What Can I Do to Get Well?

Is a question that daily presents itself to hundreds and hundreds of the readers of this paper. Many among this army of sick and suffering ones have been unfortunate in selecting their physician. Many have been misled, imposed upon, swindled and are DESPONDENT, DISCOURAGED and SKEPTICAL. They don't know who to employ or which way to turn to find the help they need so much.

Nearly all have probably noticed the advertisement of DR. F. C. DILLINGS that has appeared in this paper daily. Very many have read it carefully, noted the claims therein made, and have called for consultation or written a statement of their case. These have almost invariably become patients and are now his grateful friends. There are many others who know that such an advertisement has appeared in the paper, but have never read it, preferring to say to themselves: "O, pshaw! another quack doctor. He cannot catch me; I have been humbugged too many times. "This class are surely HUMBUGGING THEMSELVES for there are THOUSANDS of MEN AND WOMEN in the West who KNOW that DR. DILLINGS is the MOST SUCCESSFUL office practitioner and specialist west of Chicago. Then there is another class of sufferers who, reading the doctor's honest announcement will say: "Well, if I only KNEW that DR. DILLINGS could DO WHAT HE CLAIMS he can do here, I would go and try him at once." Thus it is that many are prevented from seeking help at the hands of one who is qualified to afford it. EVERY CLAIM made by Dr. Billings is HONESTLY MADE. He does not treat acute diseases, and if asked to treat a case of Typhoid Fever or Diphtheria he would refuse upon the plea of lack of experience in such cases. But the stubborn, lingering, dangerous and special diseases enumerated in his advertisements he treats with satisfying and often ASTONISHING SUCCESS.

THESE DISEASES may be briefly named as DISEASES OF THE BLOOD, including specific BLOOD POISON, ALL NERVOUS DISEASES, ALL DISEASES AND WEAKNESSES FROM WHICH WOMEN SUFFER, all troubles affecting the DIGESTION, ASSIMILATION and
