Cards were produced and every game from to hold out if it took all night. It was gener-ally understood that Senator Taylor could not be found.

Thetactics of the opposition were surgested by a desire to induce the independents to recommit the bill, so as to admit of its being amended as to maximum rates on coal, grain, lumber, live stock and several other important commodities. The independents objected, because they claimed they had sev-enteen men and with them they could carry the bill

"What is the pleasure of the senate" asked the chair. "The order is to bring the

absontees before the house." No answer was made. The chair and the sergeant-at-arms conferred. The latter latter sergeant-atarms conferred. The latter donned his overcoat again and pulled the col-lar up around his cars, jerked his bat down over his eyes and went forth to find Taylor and the storm. He was headed for Omaha and stated to THE BEE that if he could not catch the passenger train on the Union Pa-cific he would hire an engine to rush him thit her

At 9:30 o'clock Senator Beck moved to dis pense with further proceedings under the call, but only to find the same objection here-tofore referred to.

Senator Smith rose at 9:45. He is a man who seldom asks the floor. He wanted to in-troduce a resolution. The chair ruled him out of order.

The opposition to the independents at 9:45 clock were jubliant. They claimed they would hold out until the close of the session, if necessary. They are all the more delighted because the motion for the call of the house was made by Senator Warner of Fillmore, who has been voting with the independents

who has been voting with the independents on the motion leading up to the call. At 10:25 the gallery had become almost de-populated. Among the few who remained was a young colored man with a face as black and glossy as anthracite. At midnight the sergeant-at-arms returned again, after having searched the lown fruit-lessly for Senator Taylor. He is satisfied and so seems everybody else, that the ab-sentee is in lowa. The question was discussed, without a conclusion being reached as to whether the sergeant-at-arms should get a requisition from Governor Boyd and bring Taylor back from the sister state.

Trade Experiencing a Feeling of Confidence . in the Inture. PROSPECTS FOR THE COMING SEASON.

A slight improvement in Business Reported, and the Money Market is Generally Somewhat Easter.

NEW YORK, March 20.- [Special Telegram to THE BEE, |-R. G. Dunn & Co's, Weekly Review of Trade says :

There is found in almost all quarters feeling of confidence and helpfulness as to the future. Though the present effect of short crops is felt in the northwest, the prospect for the coming season is exceptionally bright, and while in some of the chief manufactures operations are checked by the uncertainty regarding prices, it may be expected that the relations between materials and finished products will soon be adjusted to the new conditions.

The sales of wool at Boston, New Yors and Philadelphia this year thus far shows an increase over last year of 30 per cent, and still continues large. The dress goods makers have closed the most prospered season known and hope for better prices presently. In knit goods some complain that they are arrying too large stocks and that margins or profit are close, but a great many orders are still received. The for many expansion and diversification of the manufacture leaves for foreign supply only the finer grades of worsted that are not made here, and even in men's wear woolens there is seen some improvement, though the de-mands look to styles rather than quality. The boot and shoe business is relarded by speculation in hides, as the prices of goods are no higher than a year ago, but while buyers are cautious they are numerous, and

the shops are fairly well supplied with orders. The iron trade shows no change, buyers pelieving that as soon as the demand for consumption increases again no strikes nor shut downs will restrict production. Rails are stiffer, and the demand for structural iron a trifle better. The giass trade is fair, with prices un-

changed, and lead is firm, but copper weaker. The general average of all prices, is still ad-vancing, having risen half of 1 per cent for the past week Reports from Boston are that the general trade in merchandise is not - active, the

weather hindering. Interruption from strikes is feared in the boot and shoe manufacture. Leather is quiet, buyers having supplied their needs, and hides are dull, as consumers

At Philadelphia the iron trade is duth, and the trade in liquors and to bacco quiet. In jewelry, paints and glass, trade is light with small collections, while in printing and leather the manufacture business is better, and in observations. and in chemicals fair. Pittsburg notes as change in iron, except a

growing scarcity. The Monongaheta coat mines are busy. At Cincinnati trade is quiet and collections

fair, and at Detroit trade is very fair, equal-ling last year's, though country collections are slow. Chicago reports a decrease, compared with butter, and a decrease of half in dressed beef, but an increase in oats, rye, cured meats, hides and wool. In dry goods, clothing, and boots and shoes, trade is larger than a year ago, but collections not so good as they were

The Keystone National Forced to Close Its. Doors.

PHILADRIAPHIA, March 20.-Shortly after the Keystone Nutional bank opened this morning the iron doors were lowered and the following notice was placed on them :

This bank closed by order of the comp-troller of the treasury. N. P. DKEW, National bank examiner. The closing of the bank was a surprise to

most of the creditors. During the financial stringency last year there were rumors af-fecting the bank and a heavy run was made on it, but the institution was tided over and was thought to be is a good condition. The largest depositor was the city of Philadel-phia, which has there about \$400,000. The authorized capital of the bank was \$1,500,000.

A surplus of \$100,000 is claimed. No statement of the bank's liabilities and assets is obtainable. It is said that the bank was clossed by the comproller by reasons of its reserve fund having fallen below the amount required by the national banking law. The bank has deposits amounting to \$1,400,000 and it is claimed it has assets sufficient to meet this amount. It is said that the bank owes the Clearing

House association about \$40,000, which was part of the money advanced by the associa-tion to assist the bank when the run was made on it December last. All information regarding the closing of the bank is withheld by the bank officials beyond that con-tained in a letter signed by the president, which said the payment to the clearing house of a very large amount of loan certifi-cates kept the legal reserve of cash below the average required by naw and that the insti-tution still suffered from the recent run. Investments of deposited money exceeded 75 percent and the totals of late deposits are believed to have been insufficient to swell the reserve fund to the required 25 per cent. These facts were reported to the comptroller of the currency by Bank Examiner Drew yesterday and the former promptly ordered the bank closed.

The president of a prominent national bank said today: "I thiss the bank examiner did the right thing in closing the Keystone bank. Heought to have done so some time ago. Theoredit of the bank was impaired during the panic and it was impossible to keep it affoat. The closing of the doors saves the bank from further embarrassment. It seems thecommons

He then threw open the door and at-tempted to jump out. He was met by two masked men, who held revolvers to his head and forced him back into the cab, they following. They then bound, gagged and blindfolded him, the cab keeping on, and Perrine was un-able to keep any idea of the locality in his mind. Finally be was removed to a room, where his captors released him from his bonds and covering him with a revolver, forced him to write the check, prominisory note and letters. The latter were dictated from typewritten copies in the hands of his captors, who remained masked and disguised. Perrine was not further disturbed till late this afternoon, when his captors informed knocked out on the floor of the house. The committee have discovered that C. W.
