Statesmen Clamoring for the Pater nity of the Newberry Rate Bill. LINCOLN, Neb., March 24. - Special to THE BEE. | - Some men are born great and others have greatness thrust upon them. Now that the so-called Newberry pili has passed both housesit may be somewhat interesting to the people of Nebraska to know the paternity of this measure and how the bautling was palmed off as Newberry's baby.

At the very outset of the session Mr. Newberry, a man who knows nothing about railroads, transportation or commerce, for reasons best known to himself, asked that he be permitted to introduce the maximum rate bill in the house. This favor was conceded to him and he traightway proceeded to introduce the maxmum rate bill prepared two years ago by Hon, Charles Hall of Lancaster county. After a casual inspection and examination the bill was pronounced defective in some respects by several members of the railroad committee, especially Mr. Moan, who has taken a very prominent part in all railroad, telegraph and telephone legislation. Thereupon it was decided to drop the original Newberry bill and let out the job of drafting an entirely new bill to Lawyer Strickler, who thas gained some notoriety, if not fame, as one of the prohibition law-yers in the late contest. Strickler's experience in railroading is confined chiefly to his employment as a sleeping car conductor on a Pullman line, but what he lacks in knowledge he makes up in gall. Undaunted Strickler set himself at once to work, proceeding straightway to copy the schedules established by the Iowa commission. Those schedules divide into three classes the various railroads of lows, according to then length and volume of business. Strickle copied the lowest rate of the three classes and formulated the mass of figures into what is now known as the Newberry bill.

When the work had been finished Strickler When the work and been unished Strickler asked the committee to pay him \$50 for the job, which caused a great deal of indignation and kicking. Finally Mr. Moan forked over the \$50 out of his own pocket. But Strickler was not content with the money. He also wanted the glory and the renown that is wanted to be straph to this great measure in expected to attach to this great measure in

There is now said to be in course of publication in the city of Omaha an illustrated volume of eminent and pre-eminent Ne-braskans, in which Mr. Strickler is to be one of the most prominent figures. His biography is already in type and in the modest, retiring way peculiar to Mr. Strickler, he has inserted the fact that he is the father of Newberry's baby and prides himself upon the achievement of copy-ng from the Iowa schedule rates. When he handed this little biography to the printer ex-Puilman Conductor Strickler wrote: "The bill is now pending in the house, but is almost certain to go through the senate and will become a law." Ahem!

Strickler is determined that posterity shall not remain entirely in ignorance of the fact that he, and not Mr. Newberry, is the author of the bill. But meantime Mr. Moan insists that he is the sire of this bill and that he merely paid Strickler as a clerk to copy the Iowa schedules. Thus the plot thickens.

President Pro Tem's Perquisite. LINCOLN, Neb., March 24.- | Special to Tun Beg. |- Yesterday Senator Poynter presented his youcher to Lieutenant Governor Majors for his signature, granting him a part of his alleged salary as president pro tem over the senate. The voucher was signed by Mr. Majors, after telling Mr. Poynter that the demand was an illegal one. The amount covever in the vousher was \$150, which is only part of what Mr. Poynter thinks he is entitled to, claiming \$3 per day over and above what he receives as a member of the senate.

The illegality of the demand has been derendered to the state auditor. HE IS AFTER THE MISSOURI RIVER LINES.

The Rapid City, Missouri River & St. Paul Organized-End of the Passenger Rate War.

CHICAGO, March 21. - [Special Telegram to Cire Bee. |-Chairman Midgley said today hat the committee consisting of Chairman Goddard, Blanchard and himself had been appointed to look up dressed beef rate manipulations solely on business originating at Missouri river points. He added that the combined output of the Kansas City, Omaha and Sioux City slaughter houses was larger than that from Chicago, over five thousand cars having been shipped from these points since January 1. He refused to tell how the rates were manipulated, but from other sources it was learned that the Canadian lines were getting far more than their share and at rates far below the tariff. A large amount of the business was also going via St. Louis and the southern routes at cut rates and the balance was going over the Indiana, Illinois and Iowa. The national outlet for all this business is via Chi-cago, but it had all, or nearly all, been di-verted by cut rates. The total loss is a seri-ous one to the Chicago roads and it will be topped if the inter-state commerce commis sion will act on the information furnished them by the committee. The intention of the committee is to make the rate cutters in question think over their effenses in the pententiary.

A Threatened Boycott. CHICAGO, Ill., March 24.—The board of rulings of the Central Traffic and Trunk Line association have begun operations under the ecent agreement to boycott all connecting lines that continue to pay commissions. The board has sent two or three telegrams to the Chicago, Burlington & Quincy management within a few days, claiming to have satisfac-tory evidence that it has been paying commissions to eastern agents. The Burlington people have replied that as no specific charge is made, no specific answer can be given; that they have not intended to ig-nore the agreement and have paid no commission to persons not asking for them. They contend, however, that the board of rulings has no right to demad a discontinuance of commission paying without some guarantee that the Burlington will continue to receive an equitable share of the passenger business from the east. The latest dispatch from the board of ruings intimates that unless the Burlington begins March 81 to conform with the rules tickets of that road in eastern offices will be boy cotted. It is doubtful, however, if this threat can be carried out, as there is almost absolute harmony among the roads parties to the agreement. Another conference will probably be held.

A Railroad Sensation.

PITTSBURG, Pa., March 24.-A local paper will print tomorrow the story of an alleged project that will create a sensation in railcoad circles. It is a plan by which the Baltimore & Ohio proposes to parallel the Penn sylvania from one end to the other by an almost air line route from Balti-more and to reduce the distance from Pittsburg to the latter city by seventy-five miles. The Baltimore & Ohio road recently ourchased the Pittsburg & Western road and is now actively at work to secure a connec-tion through this city to that line. CHAMBERLAIN, S. D., March 24.-[Special Telegram to THE BEE. |-R. R. Wentworth and family passed through here today from Rosebud agency on their way to the eastern portion of the state. Mr. Wentworth was a teacher in one of the camp day schools there and gives an interesting account of the present Indian situation. He says some of the younger Indians are a little surly, but the wiser counsel of the older and more experi-enced members of the tribes will prevent any further disturbance with the Sioux. The disarming, however, was nothing but a farce and the Indians still retain their good guns, although they fully realize that they stand no show with the Hotchkiss and Gattling guns that would again be turned against them.

KICKED OVER THE TRACES

Carter Harrison Makes His First Public Ap . pearance in Chicago's Campaign.

MAYOR CREGIER BITTERLY DENOUNCED

He Pays His Respects to Senator Palmer and Says Federal Interference is Not Wanted in Local Politics.

CHICAGO, March 24. - Carter Harrison made his first appearance in public tonight since receiving the nomination for the mayoralty. It was at Central music hall and the place was crowded with his adherents. The meeting proved to be one that is likely to be memorable in Illinois politics and indirectly also in national affairs. Harrison savagely denounced his fellow-democrat and opposing candidate, Mayor Cregier, declaring the latter, not himself, was standing in the way of party harmony. The speaker declared that he had this morning written Cregier proposing that both withdraw and a neutral candidate be selected. In the morning papers, however, he had read that Senator-elect Palmer was coming to Chicago to assist Cregier. Under such circumstances, the speaker said, his offer to withdraw might be regarded as a weakening, and he instantly resolved "by the eternal to stay in the fight till the end." The people resented federal meidling in local concerns and John M. Palmer had no right to come to Chicago to interfere between the two sections of the democratic party. Harrison, in conclusion, emphatically denied intriguing in his own interest against Paimer's election as senator.

The resolutions, proposed by ex-Congressman Frank Lawler, were adopted with a yell man Frank Lawler, were adopted with a yell of unmistakable amanimity. They are:
Whereas, It is alleged that Senator Palmer is to be induced to come to Chicago to support Mr. Cregier in his candidacy for mayor as alleged representative of democracy, be it.

A copy of these resolutions has been telegraphed Senator Palmer.
