NEWS FROM COUNCIL BLUFFS.

United States Court Opened with Plenty of Work Before It.

ONE MAN HAS ALREADY BEEN INDICTED.

Suits Against the Railroads in Several Forms-On a Quest of Vengeance-That Slow Ininnetion.

The federal court convened yesterday forming with Judges Love and Shiras on the sench. There were a large number of attorneys from other cities in the state, as well as a large number of laymen, who have come for the purpose of serving on the juries, or have some personal interest in the outcome of the trials that are to be had. The first done was the empanelling of the grand jury, which consists of the following gentlemen: F. Saytor, Des Moines; W. A. Richards, Stuart; A. P. Black, --: James Folton, Adair; A. W. Coffman, Avoca; Warren Hough, Crescent; L. M. Hadley, Oskaloosa; M. A. Knight, Winterset; John N. P. Pickett, Oskaloosa; J. J. Mills, Stuart; Sam Wright, Clio; T. M. Cosad, Corydon; D. A. Wheeler, Corning; Joe Spoor, Keekuk; and W. A. Richards, Stuart.

Immediately after the empanelling the jury retired to its room and went to work on a arge batch of business that has been ac umulating for the past six months. By far the greater part of the business that will come before this august body will be with ef-reace to the bootleggers, more technically known as illicit dealers in firewater,

One of the most important features of the norning session, at least so far as public interest is concerned, was the argument of the attorneys in regard to the removal of the cases which have been begun by the commissioners to compel the railroads to conform to the orders of the commission in the matter of joint rates. These suits were brought in the district court of this county but were re-moved on motion of the defendants to the federal court. A motion was then made by the commissioners to remand them to the state court, in accordance with the decision which vas rendered some time ago by Judge Shiras n Dungque in a similar case. It is this mo-tion which is now pending and which was argued at some length yesterday morning. Judge Shiras stated, in reply to the argunents, that he did not believe in encouraging the use of the process of removals as means of obstructing litigation, and that a the question had been decided once he did not think it necessary to wait for a decision from the whole court. He did not decide the question definitely, but it is evident from what he said that he was very much inclined to grant the request of the commissioners and have the case remanded to the tate

In the afternoon the case of John Grant vs the Union Pacific railway company was taken up. The jury was empanelled and the opening speeches were made by the attorneys. The case is one which is brought by the laintiff to recover damages for injuries as the result of an accident which took place November 17, 1887. The plaintiff at that time was a switchman for the railway comth his bendquarters at North Platte, Neb. He was thrown upon the track directly front of the engine, breaking his shoulder one and crushing his foot so as to render its amputation necessary. He demands damages n the sum of \$25,000.

In the afternoon an indictment was returned by the grand jury against William Joyce, charging him with breaking open Uncle Sam's mail sacks. Joyce is now in jail in Keokuk, but has been sent for and will have a trial at the present term.

Will have a trial at the present term.

That Slow Going Injunction.

The contractors who are working in the western part of the city, and notably the one who is grading North Twentieth street, kept steadily at work yesterday, in spite of the inclemency of the weather. The report that the Twentieth street contractor had been enjoined from carrying on the work turns out o have been a mistake. The announcement that they had been enjoined, which was heralded through the papers, caused the contractor some uneasiness about the matter. but he was reassured when he went to the authorities and was told to keep on with the work until he received orders to stop, and it would be time to then it would be time to think about stopping. Accordingly the work has been progressing steadily, and it is now stated that unless the attorneys for the kicking property owners, who, by the way, do not own any property on the street in question, get a move on them in the course of the next day or two the work will be all done and as himselfon will be a property of the course of the next day or two the work will be all done and an injunction will be a useless luxury. City Attorney Stewart states that he has been ready to have the case presented to the court for some time past, and is confident that he could beat it after a fair hearing. The attorneys for the other side have not been in any hurry, apparently, and the filing of the petition for the injunction the other day is the first sign of animation that has

been noticed for a long time. Do you want an express wagon or boy! Ring up the A. D. T. Co., telephone 179, No. 11 North Main street.

Lipkeris Wanted.

Mitchell Hank of Sioux City was in the Bluffs yesterday looking for a man named J. C. Lipker, whom he wants to straighten out a little business affair which he left unsettled when he left that place. Lipker was formerly employed by the Sioux City t lephone company as lineman, which position he held intil a short time ago. During his residence in Sioux City, he became acquainted with Miss Mary Jane Hank, a sister of the gentleman who was looking for him yesterday, a buxom young woman of about twenty years of age. The ac-quaintance ripernot into something more serious, and all was apparently on the high road to matrimony, when Lipker suddenly amounced that he was about to leave the city. This announcement caused consternation in the young woman's

heart, for she was in that condition in which heart, for she was it had condition in which a husband is a very convenient possession. Lipker went, however, and was trucked by the irate brother to Council Bluffs. When he arrived yesterday he looked over the ground and found that Lipker's parents were residing here. He won their confidence by telling them that he had a position which h wanted to offer their son, and gained from them the information that he had gone to Lincoln, Neb., where he was in the employ of the telephone company. He started at once for Lincoln with the determination of

He was standing on the rear platform of the front car, talking with another passenger, when, as they were passing Twenty-second street, a gust of wind came along and took off his hat. Acting on the impulse of the moment he seaped off the train to catch it. The step of the car hap-pened to be icy, and in jumping he missed his footing and was hurled off the car so that the wheel passed over his right leg, breaking it a short distance below the knee. The train was stopped and the injured man was picked up and carried in side the car. He was then brought up town and carried in a hack to the Woman's Chairties beauting the way to the was the way to the man's Christian hospital, where a surgeon was summoned to care for him. An exami-nation showed that from the ankle down the limb had been literally broken to pieces by the wheel in passing over it. It was decided that the only way to save the rest of the limb was by amputating the part which had been crushed, and this was done during the night. Foster has a wife and three children in Greely. They were notified of the accident to the husband and father last night. Foster was on his way to the east and was only stop-ping off in the Bluffs for a day or two, So

A Trespassing Railroad. A suit was commenced in district court yesterday afternoon by L. Everett and Mary L. Everett, executors and trustees of the estate of the late Horace Everett, to enjoin the Union Pacific railway company from using an alley in the rear of two lots in Flemming & Bryant's addition for railway purposes. The lots which are mentioned in the petition are on Tenth avenue near the corner of Sixteenth street. The plaintiff alleges that the company laid its tracks in the alley in the year 1887, without permission from the plain-tiff, and that no effort was ever made by the company to ascertain the damages which were due the plaintiff, nor to ray the same. He claims that he has suffered damages to the amount of \$500 by reason of the use of the alley for railroad purposes, and he asks for a judgment for the amount against the company, and for a temporary writ of in-junction restraining the company from run-ning their tracks through the alley any more. The case will come up for a hearing at the coming term of district court. J. J. Stewart

The records of the postoffice department show that during the two years of the present administration ended March 4, 1891, there were 2,754 appointments made of presidential postmasters. Of this number 478 were made upon resig-nations: 965 were made upon the expiration of the commissions of the incumbents; 778 were made upon removals; 74 were made to fill vacancies caused by death, and 459 were made at offices which were raised from fourth to the presidential class during this two years' term, making a total of 2,754 changes. The whole number of presidential offices in operation on March 4, 1891, was, however, 2,899. At 200 of these offices no changes have yet been made. The apparent discrepancy which a comparison of these figures shows is accounted for by the fact that in some cases presidential offices where appointments had been made were afterwards relegated to the fourth class, some failed of confirmation, necessitating two appointments, and at other offices two appointments have been made during the present administration on account of death.

of all blood-purifiers is Dr. Pierce's Golden Medical Discovery. But it's different from all of them. Whatever is claimed for this, it's guaranteed to do. The money is refunded in every case where it fails to benefit or cure. It's because it is different that it can be sold so. All diseases originating from a torpid liver or impure blood yield to it. It cleanses and purifies the system, freeing it from all manner of bloodpoisons, no matter from what cause they have arisen. For Dyspepsia, Biliousness, Scrofula, Salt-rheum, Tetter, Erysipelas, or any bloodtaint or disorder, it is an unequaled remedy. Nothing else can take its place.

"Golden - Medical Discovery " contains no alcohol to inebriate, and no syrup or sugar to derange digestion.

It's a concentrated vegetable extract; put up in large bottles; pleasant to the taste, and equally good for adults or children; works equally well all the year round.
