## MISLEADING OFFICE SEEKERS.

Nebraska Alliance Leaders Convey Wrong Impressions to Constituents.  
NO FEDERAL POSITIONS TO DISPOSE OF.

Senator Manderson Calls a Meeting of the Joint Committee on Printing to See About Reducing Expenses.

WASHINGTON BUREAU THE BEE, 513 FORTY-SEVENTH STREET, WASHINGTON, D. C., April 4.

Word has been received here to the effect that Congressman-elect Kem and his other farmers' alliance associates in Nebraska are trying to make the farmers of their state believe that all they have to do to get a few offices is to ask for them. Already petitions for the removal of republican postmasters and the appointment of third party men as their successors are in circulation, and the alliance members are busily engaged in propagating the idea that they will influence with the administration which will result in getting their constituents good places provided they are properly endorsed by other alliance people.

Weekly Weather Crop Bulletin.  
WASHINGTON, April 4.—The weekly crop bulletin says: The season continues late, and owing to excessive rains, muddy roads and cold weather little farm work has yet been accomplished in the northern states. Cold weather has retarded growth in the states of Ohio and the upper Mississippi valley, but generally throughout the winter wheat, winter wheat, fruit and pasture continues in good condition. The ground is in excellent condition in the spring wheat region of Minnesota and the Dakotas. Excessive rains also retarded work in Kentucky and Tennessee, where the season is reported from two weeks to a month late. Grass and wheat in these two states are doing well, but snow and the freeze of last night will injure fruit, as the trees are reported in bloom. It is also probable that damaging frosts will occur tonight as fair south in the northern portion of the Gulf states.

## IMITATING ELDER'S CREW.

County Commissioners Act Like the Nebraska House of Representatives.  
BERLIN COLDLY DECLARES HIMSELF.

O'Keefe and Corrigan Get Warm About It—Discharge of Webb Causes the Row—How it Came About.  
The county commissioners held an old-time circus yesterday afternoon and for a couple of hours parties about the county court house enjoyed the inmates, by living over again the wild and warlike days of two years ago.

Who is that person? asked O'Keefe. "The states plainly state that the county clerk or his deputy shall be the clerk of the board of commissioners." "The county clerk has stated to this board," said O'Keefe, "that the salary allowed for that office will not permit him to do the work or to hire a deputy to do the work required of a secretary of this board. It requires the time of one man to do this work."

Resolved, That this board has always found them both loyal, reliable and efficient secretaries and such clerks carry with it no reflection upon either their honor or character.  
The resolution was adopted without discussion and the business proceeded.

## STORMING OF FORT THABAT.

Nine Hundred Manipurs Fly Before Eighty Indian Troops.  
CALCUTTA, April 4.—Fresh details concerning the capture of Fort Thabat, near Manipur, the scene of the recent massacre of British troops by the natives, have been received. The British force which carried the works by assault numbered only eighty Indian troops. The garrison of the fort was composed of 900 Manipurs, but the onslaught of the British was so fierce that the Manipurs fled in wild disorder. ## FOR CANADA'S DEFENSE.

A Movement That Looks Like a Preparation for War.  
OTTAWA, Ont., April 4.—[Special Telegram to THE BEE.]—Two important announcements confirm the previous statement that General Herbert, the new commander-in-chief of the Canadian militia, brought special instructions from the English war office to speedily strengthen the defenses of Canada and prepare for the necessity of putting a large force in the field. First is his request to the government, which has the force of command, to double the usual appropriation this year for drill, so that the entire force of 60,000 men can be thoroughly drilled in June. Never before has the number of men drilled exceeded 20,000 men. Secondly, General Herbert left today for Halifax to confer with General Sir John Ross, commander of the imperial troops in Canada, with respect to the defenses of the Atlantic coast, particularly at Halifax, where the new fort has been constructed. One thirty-two-ton gun has recently arrived at Halifax from England and three others are about to be shipped. These are the largest guns on this side of the Atlantic and will add greatly to the defense of Halifax.

## ANOTHER EYRAUD CASE.

This Time a Guatemalan Banker is the Victim.  
NEW YORK, April 4.—From San Jose, Guatemala, come the details of a murder similar to the celebrated Eyraud case at Paris. A wealthy banker, Carlos Santillan, in November was called to a house on the outskirts of the city for the purpose of purchasing a large amount of American exchange. He had a large sum of money and jewelry on his person. The assassin's mistress inveigled him into a compromising position, when an assassin, a Spaniard named Gonzalez, rushed in, stabbed him to death, robbed the body and shipped it to the United States. The facts have just been brought to light by the confession of Gonzalez when drunk. Gonzalez, with the woman and another conspirator, are under arrest, and will doubtless be punished.
