DIVORCED THROUGH DEATH.

Mrs. Bertha Hirsch Takes Strphonine to Free Herself from Matrimony.

SHE ATTENDED A DANCE BEFORE DYING.

Deliberate Preparation For and Consumption of Her Suicidal Poison—She Did Not Like Her Husband.

Mrs. Bertha Hirsch, aged 30, committed suicide early Sunday morning by taking poison.

Sometimes Saturday Mrs. Hirsch, whose residence was at the corner of Twenty-fourth and I streets, South Omaha, went to a drug store near by and purchased a bottle of strychnine.

Saturday night Mrs. Hirsch, accompanied by her husband and her sister went to a dance. On returning home, between 4 and 5 o'clock Sunday morning the deceased went to her room alone and took the fatal dose.

The action was not discovered for some time, when a physician was at once summoned. Every effort was made to save the woman's life, but assistance came too late and the doctor's patient died at 9 a. m.

Before dying Mrs. Hirsch stated to the physician that she could not get along with her husband and she decided to put herself out of the way. The couple had only been married five months.

Hirsch has relatives in Nebraska City who have been notified of her death.

The body lies at the undertaking rooms of Healy & Healy in South Omaha, where the inquest will be held at 3 p. m. today.

What a debt of gratitude the world owes to such men as Drs. Ayer and Jenner—the latter the inventor of the smallpox vaccine, and the former for his Extract of Sarsaparilla—the best of blood purifiers!
