

THE CITY.

You can improve your complexion wonderfully by using Spanish Court Face Powder.

Sergeant Whalen has returned from Chicago, where he went in charge of Clara Smith, the young incorrigible, who was sent there to be placed in a reformatory institution.

A fire at the D. & S. collar and cuff factory on St. Mary's avenue, between Seventeenth and Eighteenth streets this noon did about \$150 damage.

The dilapidated matting with the cholera germ border that has laid undisturbed on the floor of the police court room for many months, has given way for a brand new linoleum, and Judge Helaye is giving bigger odds than ever that he will live to complete his term.

Emory Wagner and W. C. Davis are under arrest for stealing a lot of brass valued at \$150. Complaints of thefts of this kind are constantly coming in. It is impossible to leave engines, boilers or any machinery with brass trimmings out of doors without having them denuded by the thieves.

What a debt of gratitude the world owes to such men as Mrs. A. G. Jones—the mother of the great discovery of vaccination, and the former for his Extract of Sarsaparilla—the best of blood purifiers! How can estimate how much these discoveries have benefited the race!

KEPT HIS HAREM.

Four Wives Brought to America by an Uxorious Turk.

It was a queer looking party of five that went west over the Union Pacific Sunday afternoon. One was a man, bearded and turbaned Turk, and the others were four closely veiled women, his wives. It was, in fact a genuine Turkish harem on route to the Sandwich Islands.

The party came from a little town in Galicia, Asia Minor, called Mion, where the Soyman Gaidjhan, sheik, had been engaged in the manufacture of sugar and Turkish confections. He is going to a new home on the islands of the Pacific, where he has purchased a sugar plantation. The man was dressed in a richly embroidered Turkish costume, his jacket being sky blue cloth, braided with gold.

About his waist he wore a broad sash of white silk, through which was stuck a Turkish yatagan with a richly jeweled hilt. On his feet he wore embroidered slippers of red leather, while on his head rested a turban of white silk, in the front of which blazed a tassel as large as one's thumb nail. The turban waved a plume of fine white hair.

His wives were dressed entirely in white, their clothing being of the same material, and being of the same color generally worn by Turkish ladies, with loosely flowing trousers. They were veiled to the eyes, but it was seen that they had on blue and straw-colored hair. Two women had flashing blue eyes and were undoubtedly women of Armenia.

In conversation the sheik said that although he had four wives he was a Christian. He did not think it wrong to have as many wives as he wanted as long as the laws of the country allowed it. He said that all Christians who could afford it practiced polygamy in Armenia. He said, however, that they could have only one lawful wife, the others ranking in the household as companions to the wife.

He said he had no children except one son by his lawful wife, and that the young man, now nineteen years of age, was attending school in England.

"What would the women of Turkey do if they were allowed to marry only one wife?" he continued. "There are three times as many women in Turkey as there are men, and they have to care for them. We have no old maids in Turkey, because when a girl reaches a certain age, if she is not already betrothed, she is sold by her father or her uncle in that way all the girls get husbands."

When asked if he was aware that he could not have four wives in Hawaii he said that he was aware of that, and that he would declare his lawful wife, but he intended to keep the other women with him and look after them as long as he lived.

"Something Just as Good." "My horse was just injured. I called for 'Haller's Barb Wire Liniment' my druggist was out, but sold me 'something just as good,' now my horse is a cripple, while my druggist, who was injured as badly as mine, refused all substitutes and bought a bottle of 'Haller's Barb Wire Liniment,' and his horse is sound and well."

Has it on setting the genuine—all druggists have it.

The Omaha Rubber and the Nebraska Rubber company have consolidated their wholesale and retail stores and moved the entire stock in the store lately occupied by Heyman & Deiches, nos. 1918 and 1623 Farnam St., Paxton block, where they have the largest and most complete rubber store in the west. Every one is invited to call and inspect their immense stock.

VILAS ESCAPED.

Detective Dempsey Loses His Prisoner in Iowa.

W. F. Vilas is very bashful about coming back to Omaha, even on a requisition, to answer to the charge of grand larceny.

object of which is to teach independent politics in all of their original purity. After warm weather sets in the club members of the club will go to the woods to get their rooms and hold the meetings in Hanscom park, where prominent speakers will always be in attendance.

Forty members joined the club and elected officers as follows: T. C. Kelsey president and D. C. Deaver secretary.

A TAX NOT A LICENSE. Revenue Circular of Interest in Prohibitory Communities.

Mr. John Peters, collector of internal revenue has received an interesting circular relative to the sale of liquor licenses in states where there is a prohibitory liquor law. The commissioner of internal revenue requests that the matter be given as much publicity as possible.

There seems to be some misunderstanding among taxpayers and citizens as to the authority acquired by a taxpayer by a payment of the special tax required by the United States of retail liquor dealers, in view of which Hon. A. B. Nettleton, acting secretary of the treasury, has written the following letter:

"Sir: Letters are frequently received at the department stating that in many parts of the country retail liquor dealers claim to hold a permit or license from the United States for carrying on their business; that in many cases where local law prohibits public drinking places, the law is openly violated by persons who claim to do business under at least the moral sanction of a 'federal license,' and that this fact, together with the belief, common among many good citizens, that the United States government does in fact issue such licenses, greatly retards the enforcement of more restrictive laws and promotes disorder."

"It should be unnecessary to state that the United States government does not issue a license or permit of any nature to any person in any state to carry on the business of retail liquor dealer, and it is difficult to imagine how any intelligent citizen can be imposed upon by the opposite claim. Congress has levied a revenue stamp tax of \$5 per annum on the business of retail liquor dealers, the commissioner of internal revenue endeavors to collect this tax wherever and by whomsoever this business is carried on; but no semblance of permission, expressed or implied, is given by the United States government in its revenue laws or otherwise to begin or continue such business in any place contrary to local legislation."

"It was to make clear this purpose of carefully respecting local laws and police regulations that congress enacted section 5343 of the revised statutes.

"In order that this purpose as thus embodied in law may be authoritatively announced wherever the tax is collected, a change has been made in the form of the United States stamp issued to retail liquor dealers as evidence that they have paid such tax. The new form which will go into use July 1, next, reads as follows: 'UNITED STATES STAMP FOR SPECIAL TAX; INTERNAL REVENUE.'"

Received from ——— the sum of ——— for special tax on the business of retail liquor dealer, as provided by section 5343 of the revised statutes. The receipt is represented by the coupon or coupons hereto attached.

"And across the face of the stamp is inscribed the following statement embracing the substance of said section 5343 of the revised statutes: 'This stamp is simply a receipt for a tax due the government, and does not exempt the holder from any penalty or punishment provided for by the law of any state for carrying on the said business within such state, and does not authorize the commissioner or the continuance of such business contrary to the laws of such state or in place prohibited by any municipal law. See section 5343, revised statutes of the United States.'"

"It is believed that this action will leave no ground for further apprehension."

Leading doctors throughout the country are recommending Haller's Sarsaparilla and Burdock, as a blood purifier and to build up the system.

CHICAGO PLAYING PORKEE. The Windy City Wants to Run the World's Fair.

Hon. Euclid Martin returned from Chicago yesterday morning with his eyes in a sling, but that was not in any way connected with the rather inharmonious session of the world's fair commission.

He was troubled with a cyst on his right eye, and Chicago surgeon put it out Sunday just before Mr. Martin left for home.

The Omaha member of the commission expressed satisfaction with the result of the meeting, and said he was better pleased with the outcome than at the close of any previous session.

"The Chicago papers haven't given fair report of our meeting," he declared, "as they have all along stood up for the board of control. The fact of the matter is that Chicago wants to run the whole thing their way, and they will have it if they can get it. When the board of control was appointed it was understood that they were to take the active management of the affair off the hands of the commission, and they have done so to such an extent that the rest of the commission was practically ignored. Chicago wanted to ignore the national commission, and that is why they asked for the board of control. The members of the commission started to attend this meeting, but some of them felt that they were about this sort of thing, but as it is now fixed think matters will progress satisfactorily."

"If there were there have been eight members of the board of control, but it was decided to increase this number to sixteen. The new members will be appointed by President Palmer. Who the new members will be I am not prepared to say, but I think it is understood that the appointments will be satisfactory to the commission."

Mrs. Briggs Honor'd. Mrs. John S. Briggs of Omaha has been appointed as one of the executive committee of the ladies' board of the World's Columbian exposition commission. Nebraska has, therefore, been honored by the appointment of one of its commissioners, Mr. Euclid Martin, and one of the ladies from this state to positions upon the executive committee.

Mrs. Briggs left yesterday for Chicago to attend a meeting of the executive committee of the ladies' board in Chicago next Wednesday. In all probability there will be a clash between the board of control and the ladies' board for the members of the latter feel that the board of control has been overstepping its authority.

STANDING IN WITH THIEVES.

Serious Charge Against Union Pacific Employees at Green River.

TICKET AGENTS START A RATE WAR. A Former Omaha Railroad Man in Jail at Denver—Railroad Collectors—Railroad Notes and Personalities.

It is reported from Green River that the Union Pacific officials have discovered a man's nest and the discharge of several employees is likely to follow. It appears that a large amount of freight has been disappearing from cars and a detective and deputy sheriff located some of the stolen property in the possession of some of the employees of the company. Several arrests will be made soon.

Ticket Agents Have a Hit. The railway ticket agents in this city have an idea that they have the laugh on the Rock Island representatives.

About two weeks ago the Rock Island people commenced selling unlimited tickets from Omaha to Mineral Point, Wis., for \$12.75 via Chicago. As the rate between Omaha and Chicago is \$11.75, and that between Chicago and Mineral Point is about \$5, the ticket scalpers lost no time in loading up with the tickets. A cut rate to Chicago followed, and a howl went up from the other agencies.

The western passenger was appealed to, and Mr. Sebastian, the general ticket agent of the Rock Island was called on the matter, and laid the blame at the door of the agents in Omaha.

What assumes the city agents of the other lines, though, is the fact that the agents of the Rock Island had to do some powerful coaxing to get the tickets back from the scalpers. Threats, entreaties and tears were resorted to and the market was finally, on Saturday, cleared of the objectionable tickets.

The Rock Island people say now, however, that they are not so much to be worked on the part of some of the other agents and propose to make things lively for some of them.

New Ticket Collectors. The Southern Pacific, on the last, put a new system in effect on its line regarding the collection of tickets and fares. This is a change in law, and does not exempt the conductors but the increased amount upon various lines operated by the company is given as the cause which necessitates the division of his officers. After the date mentioned a new official will be found on the trains who will be known as the train ticket agent. He will collect and sell tickets and see to the general welfare of the traveling public, leaving to the conductor solely the direction of the train's movements. The new official will probably only be put on the heavier passenger trains, the lighter ones being operated as at present. This arrangement is an innovation on this coast, but has been in use for some years upon eastern roads. It gives the public greater assurance of safety, in that one maintains the entire duty of seeing that the time table is properly observed, as to arrivals and departures from stations, without any distraction of his mind in the pursuit of the mumble dollar and the evasion of "spotters."

Charged With Embezzlement. Frank K. Hoffer, alias E. L. Cook, who is wanted at Portland, Ore., on charge of embezzling a large amount of money from the Union Pacific railroad company, has been arrested in Denver. Hoffer was formerly employed as clerk in the Union Pacific office at Portland, but left the city in 1898, and an examination of his books proved him to be a defaulter. He went direct to Denver and was stopped at the Markham hotel, where he was arrested while engaged in a game of billiards.

Another Bridge Case. The trial of the case of S. S. Curtis against the Omaha and Council Bluffs bridge company was commenced before Judge Doane this morning. The case is an effort to secure a jury. In this case the plaintiff is the owner of a lot on lower Douglas street, between Ninth street and the river. He claims that by the construction of the bridge property has been damaged to the extent of \$100,000, which amount he now seeks to recover.

Uncle Sam's Timber. Andrew Richardson and W. G. Barnes of Daves county and they have been arrested by State authorities for cutting timber on government land and gave bonds for their appearance at the next term of court.

A Brain and Nerve Food. Horsford's Acid Phosphate. Dr. O. Worthy, Lancaster, N. H., says: "I have used it in requiring brain and nerve food as a result of my nervous system, with exhaustion and loss of strength, with impaired digestion, with good results."

C. S. Raymond, jeweler, removed to temporary location, N. E. cor. Douglas & 16th.

April Weather Predictions. If a peck of March dust is worth a kiln of ransom, and April showers bring forth May flowers, it is not difficult to predict that every day in every month of the electric-lighted, steam-heated, vestibule limited trains of the Chicago, Milwaukee & St. Paul railway will continue to run on the short line between Omaha and Chicago. The electric reading lamp in every berth of their palace sleeping cars is their own patent and cannot be used by any other company. Ticket office, 1501 Farnam street, Omaha.

BUILDING TO BENSON. Work Commenced on Two Important Motor Extensions.

Work was commenced yesterday on the Walnut Hill motor line, which will be extended from its present terminus on Hamilton street near Forty-second, in a northerly direction, along the old military road, to the intersection of that road and institute boulevard, a distance of about half a mile.

About seventy-five men were put to work on the construction of the line, and as rapidly as possible. Superintendent Smith announced that the line would be extended to Institute boulevard, in Clifton Hill addition, and in full operation by May 1.

The construction of a motor line will be commenced at once. Material for the line has been purchased and a force of men will be put to work on the line in a short time. This line will connect with the Walnut Hill line with a transfer of passengers, giving a through line to a point nearly five miles from the center of the city.

No gringing, no nausea, no pain when De Witt's Little Early Risers are taken. Small pill. Safe pill. Best pill.

streets yesterday. They are visiting Douglas, Fifteenth and Sixteenth streets for the purpose of deciding whether these streets shall be repaired or resurfaced.

WEIGHING THE MAILS. Method Used to Determine Compensation for Carrying.

Commencing the 1st inst and continuing thirty-five days the mail carried on the following roads between the points named will be weighed for the purpose of fixing the compensation of the carriers for carrying the mails: Between Missouri Valley and Fremont on the Sioux City & Pacific, Platte, Kansas City and Union to the B. & M., Kearney and Callaway on the Black Hills road, Sioux City and O'Neill on the Pacific Short line.

This weighing of the mails takes place once in four years and upon the results obtained are based the compensation allowed the carriers of the mail. A representative of the government and an employee of the railroad stationed upon each train carrying mail. The weight of all mail taken on or put off the train is carefully noted and tabulated. These weighings, which commence on the 9th of March, are to continue for thirty working days. The mail carried on Sundays on any line is included in the weights of the other days. From the results of the tabulations an average of the amount of mail carried daily over the whole line is calculated. Upon the average weights so found the yearly compensation is reached by the scale of payments provided by law. The detail of getting up blanks and attending to the weighing, involves the use of a considerable force at the time the work is done, though the period is short.

The minimum amount paid for the transportation of the mails is \$4.75 per mile, which is based on an average weight of 300 pounds daily over the line.

"An ounce of prevention is worth two or three pounds of cure," is the motto of the original saying slightly changed but none the less true.

Do not wait to be taken down with the grip, but take Haller's Sarsaparilla and Burdock, the most thorough prevention of this dread disease, when taken in conjunction with the Sarsaparilla and Burdock, that has ever been introduced.

The programme has been announced for the Interstate Athletic association exercises for field day at Iowa City, June 5. A cup will be given to the college association winning the most points in all the sports. Exhibitions will be held in the afternoon, including, horizontal bar work, acrobatic club swinging, sabre drill, pyramid building and handling heavy dumb-bells.

AMUSEMENTS. BOYD'S TODAY. Tuesday, April 7. Last Two Performances of the Great Actress, Mile RHEA.

In her new historical play, JOSEPHINE. Matinee at 2:30 This Afternoon. Evening Performance at 8.
