CHICAGO ELECTION FRAUDS. Warrants for the Arrest of Leading Democratic Participants.

HARRISON STARTLES THE NATIVES.

He Wants to Subscribe Ten Thousand Dollars to Uncover and Panish the Corruptionists of His Party.

CHICAGO, April 10.-[Special Telegram to THE BER.]-The official count of Tuesday's election is again decayed, the illness of one of the commissioners necessitating its postponement until tomorrow. Measwhile the republican managers are busily at work unearthing frauds. A warrant was sworn out today for the arrest of the democratic judge who smashed the ballot box in one of the precincts of the Ninetcenth ward in order that he might overhaul the certified tally sheets. Several other bench warrants are out and whether the official count of the she declined to talk to us, or at least would say very little. When not actually talking to "doctored" tally sheets elect Mr. *Washsay very little. When not actually taiking to us she walked excitedly up and down the room, giving utterance to incoherent words and phrases and acting in exactly the manner burne or not, the republican campaign committee will follow every case paign committee will follow every case of frand. Carter Harrison startied the Cregicites this morning by stalking into the election commission office and holding along conference with one of his campaign manag-ers and one of the commissioners. It devel-oped that Mr. Harrison has offered to sub-scribe \$10,000 to make part of \$50,000 to be used for the purpose of punishing the fraud and corruption practiced by the democrats at insane people are accustomed to not. Neither Mr. Barlow, Dr. Schultznor myself had the slightest doubt that she was deranged. From a perusal of her story and from a knowledge of her case I think she is entirely same now. I would not accept the office now even if I should be counted in. I don't want it. But I do want to see this gang utterly routed, and I will, too. Cortland.

She said that three years ago she was married to Jacoby, who is now about thirty-five years of ago. They lived for a time in the eastern part of the state, but later moved to the small town of Arcadia, some seventy-five miles west of Grand Island. Here a child was born to them, but a year or so after that interesting event her husband's love seemed to cool, and one day not long ago he told her that he guessed he would leave her and return to his other wife, which was the first intimation that she had that he was already married when sho met him. A few days before this, however, she had left the house to visit a neighbor living about a half mile away, leaving her eighteen mouth's old boy

sleep in his cradle. When she returned the child was gone and her husband did not seem to be very anxious to find it. She was almost wild for a time, but the crowning blow came when her husband cooly informed her that he intended to desert her. She then realized that the abduction of her child was simply a part of the plot by which he sought to get the little one without the aid of the law. He finally deserted her. Her means were limited, and she was not able to follow him. She returned to Cortland, near which place her parents reside. Her husband is the son, so she says, of Jacoby, a well known resident of Waverly for many years, but now living: in Lincoln. She heard recently that the son had returned to Lincoln to live

with his parents or visit them, and she had come to see if her child was also here. She says that the child was taken either to Colo rado, where her husband is now living, or to Iowa, where he has relatives. She left the hotel to secure the aid of Marshal Melick, but an inquiry almed at that gentleman developed that he had not yet seen

her. She has an aunt living in the extreme eastern part of the city, with whom she is low stopping. Developments are promised in the near future. A Swindter Foiled.

Barkdole claims that he received the wound from a revolver in the hands of his companion while on the way to a wolf hole. Young Brandley claims that Barketole shot himself. The facts cannot be ascertained till a legal investigation is held.

Trotting Horse Breeders.

DAVID CITY, Neb., April 10.- Special Telegram to THE BEE.]-The Nebraska Trotting Horse Breeders association, held at the Windsor hotel at Lincoln this afternoon, decided to hold the next annual meeting at David City next October, David City guar-antees the association \$2,500 in gate receipts, the free use of the track, and grounds and stalls for horses. This is expected to be the best meeting the association has ever held, there being 237 entries that have made the first payment. The citizens feel jubilant over the news tonight.

Impeaching the Sheriff.

NEISON, Neb., April 10.- [Special Telegram to The Ber.]-Sheriff Warden's impeachment trial is being held before the commistioners' court today. The charges of neglect of duty and drunkenness were proven today. The alliance people seem anxious to get the office, as the prosecuting witness on being cross-questioned admitted that he was one of being the candidates recommended by the alliance to be appointed as Warden's successor. The trial may last several days.

Ex-Governor Robert W. Farnas Selected as Commissioner-at-Large to the Columbian Exposition.

WASHINGTON BUREAU THE BEE, 513 FOURTEENTH STREET, WASHINGTON, D. C., April 10.

The president has at last filled the vacancy in the treasury caused by the resignation of General Batchellor to accept the mission to Portugal, and, as was excepted, Judge Lorenzo Crounse of Nebraska has received the appointment. Judge Crounse's fitness and qualifications for the position were first brought to the attention of the president by the senators some five or six weeks ago, and after he had made a careful investigation into Judge Crounse' qualifications the president decided to appoint him and gave Senator Manderson a hint of this character last week. It is expected that Judge Crounse will take the oath of office and enter upon his new duties immediately. Nebraska scored another point today when

the president appointed ex-Governor Robert W. Furnas to be commissioner-at-large to the world's fair and Columbian exposition. Ex-Governor Fureas was talked of for a cabinet position and the geographical question was the only thing that prevented his appointment at the time the cabinet was formed. NEW YORK, April 10.-|Speeli degram to Tur Beg.|-R. G. Dun & Co.'s kly review of trade says: It cannot be said that the busine f the

country is expanding when there is a decrease of nearly one-sixth within a single ionth in the output of pig iron. In nearly all quarterrs the admitted slackening of trade is attributed to merely temporary causes, but the state of the iron trade cannot be thus explained, and while it may at any time change for the better it is at present an unfavorble symptom. At Detroit charcoal iron is of

fered at \$15, the lowest price ever known. It is a hopeful feature, on the other hand, that stocks unsold have decreased during the month more than one-quarter, both of anthracite and coke iron at furnaces. But the trade is very dull, and at some southern furnaces is weakening as to price. The market for manufactured forms of iron and steel shows no improvement. It s said that the orders for ralis placed this year do not reach 400,000 tons. Another cle-ment which may prove of great, though tem-porary, importance is the decision of a great

body of minor at the state decision of a great hours a day. The castern coal trade is very irregular. Buyers are awaiting the effects of the Coxe interstate decision. Other industries show no material change, theore in the second second is more dout. The

though the wool market is more dull. The boot and shoe trade is uncommonly dull, with prices tending rather down ward. The sales of half a million pounds of lake copper at 13% cents are reported. Lead is weaker, but

tin has been advanced by speculation The outlook for the bailding trade is gen erally favorable, though labor troubles in some localities are still threatened. Reports from the various centers of trade are about the same as last week, but recognize the temporary slackcoing even more generally, while it is attributed mainly to bad weather and the state of country roads. Pittsburg reports lower prices for iron products, but glass prices are sustained with improving At Cleveland the general trade is fairly

active, in lumber especially. At Cincinnati machinery is very brisk, but other trade is only fair. At Chicago wheat, dressed beef

and wool show a considerable increase over lastyonr, but the sales of dry goods fall below those of last year, the first adverse re-port in that trade for many months. The clothing and shoe trade still show gains. Business at Detroit is dull, at Milwaukee and Kanase City and the first adverse of the sale for Kansas City only fair, and St. Louis not very strong, but at St. Paul the spring trade has been very satisfactory, and at Omaha and Denver fair. At New Orleans trade is quiet. At Memphis caution rules, but at Savannah the prospect is bright, and there is

an improvement at Jacksonville. Speculation in breadstuffs balts, though wheat is a fraction bigher. Corn is § cents lower, but oats § cent higher, and pork 25 cents higher. But lard and hogs are a shade lower. Coffee is \$4 cents lower, and action has declined a sixteenth.

has declined a sixteenth. Raw sugar has advanced a sixteenth under the very heavy demand since the duty was removed, but refined grades are unchanged as yet. In general the speculative markets are rather inert, and the general average of prices is now 2 per cent lower than it was two weeks are

Exports are fairly maintained in the aggregate, but the movement of wheat, floar and corn falls far below last year. The returns of foreign trade for March appears to indicate an excess of about \$7,000,000 in exports over the imports, but the exports can iot be expected to enlarge from this time forward.

Romm, April 10 .- It is reported that if the United States government does not answer the marquis imperiale's note by tomorrow, Porter, the American minister here, will be ordered to leave Italy, and the whole Italian legation in Washington will be recalled and Italian interests left in charge of the British minister.

BLAINE TO RUDINI.

The Secretary Has Prepared an Ans swer to the Italian Premier.

WASHINGTON, April 10.-It is known here that Secretary Blaine has prepared an ane swer to the message of Premier Rudini. The fact of the proparation of Secretary Blanne's reply is not only well understood, but it is stated, moreover, that the secretary's letter was submitted to the president and cabinet and found to be satisfactory. In view of circumstances it is asserted with consider-able confidence that the letter of Secretary Binine already has been sent to the Marquis Hudini, though whether it was communicate Rudini, though whether it was communicated by mail or telegraph is not known. If the former method were adopted the Italian premier, is is believed, was apprised of the fact. It is suggested also as very probable that infimations have been conveyed of the advisability of conducting the diplomatic negotiations be-tween the two countries with less publicity. For these reasons it is thought to be atmost impossible that teday's runnes, in Rome con impossible that today's rumors in Rome can be correct. No information could be secured in official circles here tonight relative to the eport from Rome that Italy would close all breet diplomatic intercourse with the United

States unless a reply was received to the hast message of Promier Rudini on the New Or-leans Italian incident. The Rome dispatch was shown to both the president and Secre-tary Blaine tonight and each returned word that he had nothing to say on the subject. There was a general disposition to discredit the report it unofficial circles.

Trial of the Italian Brigands.

ROME, April 10 .- [Special Cablegram to THE BEE. |-Mala Vita, the name borne by the secret society, the nembers of which are on trial at Bari, is the title of a once popular novel. The trial was continued at Bari today and during the proceedings the informers disclosed the curious Initiation rites of the order, in the dialect peculiar to members of the society. The applicants for memberof the society. The applicants for member-ship must first satisfy the officers of the Mala Vita that they have never been police-men, gendarmes or excisemen. When the oath is administered to the novices they are required to stand with one foot in an open grave. They are sworn in the most solemn manner to abandon all ties of kindred for the interests of the order, and the noorburgs are informed that all ties of kindred for the interests of the order, and the noophytes are informed that the most fearful penalties will be imposed on them for any betrayal of the societies' so-crets or for any disobedience of its decrees, especially when they visited judgment on an intended victim. Fantastic and obscene tattooing mark the members of the grade, "Cammoristo," the chief of which still con-tinues to correspond with the prisoners,

forced here by the city mayor and the polic for two years has brought about a new era of the bootlegger and the hole-in-the-wall keeper. Under the system of monthly fines about \$1,500 to \$2,000 was paid into the city treasury. A pretty orderly system of saloons was established, some of them being well kept.

Three weeks ago the law and order league after a long period of lethargy, suddenly instituted promiseuous prosecutions. Th principal satoons were enjolned and heavy fines were assessed upon the owners of the buildings as well as upon the saloonkeepers Then the city authorities said that they would keep hands off as long as the law and order league assumed to take charge of the enforcement of the law.

From that day the bootlegger began to multiply. They now swarm in the alleys. The 'joint' and the "speak easy" are spring ing up everywhere. There are half a dozen wholesale dealers who organize these illicit methods of irrigation. Some of the whole intended of regarding some of the whole sale dealers have each taken out as high as fifteen or twenty government licenses, and bealeggers and keepers of "speak easues" are merely their agents. The police are not interfering and the law and order league is powerless to stop the protean evil. There are now ever two hundred and lifty retail government licenses in force.

Competing for the Building.

SIGUX CITY, Ia., April 10 .-- [Special Tax Bas. |- There is lively competition for the location of the federal building for which the last congress appropriated \$250,000. The department has advertised for bids, and it is known that already six or eight tenders have been made. There have been formed pools of property owners interested in various localities. In some cases these pools will offer a location very low, and it is probable that the government will receive offers of a

number of free sites. Some of the free sites are at a great dis-tance from the business center, as those on Twelfth street. The competition may bene so hot that down town sites will be offered free.

Western Speculators Cause Excite ment Among New York Operators. NEW YORK, April 10.- [Special Telegram oTHE BRE. -Wall street gossips are busy just now with the probable sause for the presence in New York of several well known Chicago men who are identified with investment and speculative affairs. Rumors have been current for several days that western houses have been plunging or two on three vestern stocks which are not held in very high favor by New York operators and the statement was made that Union Pacific was grief. being absorbed by both London and Chicago in big lamps. Another report has it that a well managed corner in pork and corn is to be run in a weeks and that the plans for the deals have been arranged to the satis-faction of the people who are back of them.

The Chicagomen, whose presence is in a measure responsible for these statements, were Marshall Field, N.K. Fairbans, and Mr. Porter, and it was said that they came here to confer with some other men who are in the same deals with them. No reliable Information oncerning the occasion for their presence in New York can be learned, but it is known that New York houses made fre-quent inquiries of their Chicago corres-pondents for information. That the replies were unsatisfactory is orident by the fact that the New Yorkers are as much in the dark as they were a week ago, and that n corner in anything has sprung as yet. The Jews recognize, and in past times, like the present, they have publicly proclaimed that to the church they are indebted for assistance in repelling the persecution of Jews by the pensants. Were the govern-ment desirous of persecuting the Jews the church would be called to assist.

"What persecution there is of the Jews he went on, "is by the peasants. It is not a racical, nerther is it a religious one. It is an economical persecution. The Jews are not producers. They do not till the soil. They do no manual labor. They are usurers, brokers or saloonkeepers. They charge 400 per cent interest, and the peasants having no money to pay are compelled to work for them all the time. If they don't work they go to jail. At the beginning of the eighteenth century a 'persecution' ended by the peas-ants rising and exterminating amilion lews. May be another uprising will occur. There too many Jews to emigrate. GOLD FOR SHIPMENT.

Orders for Millions in Coin for Export to Germany.

NEW York, April 10 .- Special Telegran to THE BEE.]-Heidelbach, Ickelheimer & Co., have taken \$500,000, and Leadenburg Thalman & Co., \$500,000 of gold coin for ship ment to Berlin. Lazard Freres ordered \$1,000,000, and Kideler, Peabody & Co., \$250. 000 for export, making the total for the day \$2,250,000.

The Post, in its financial article, says "The unexpected taking of \$2,250,000 of gold for export before 10:30 o'clock this morning. notwithstanding the easier condition of the exchange market yesterday afternoon, was a surprise to the street, and gave the whole stock market a set back, which left the majority of active stocks 1/2 to 1/2 lower at 1 o'clock than they closed last night. Inquiry at the various gold exporting houses shows that at the present rates of exchange the export of gold would not yield a profit on the regular and usual basis. In short it appear that as all this gold goes either direct to Ge many or else goes there via Paris, Germany is paying something of apremium to accumu-iate a few millions of gold. Just what the in-centive is for this accumulation is not quite clear even to the bankers who are sending the gold. Possibilities of war may have some influence in that direction, but it is also believed that bankers and financiers in Ber lin are strengthening themselves in view of the still unsettled condition of confidence in financial affairs in Gormany generally, which has grown out of the Argentine and other

He has stronger hopes than ever that this first encourseement will lead to the quick extension of this service to all the important foreign ountries.

George Madison Drake of Tennessee was today appointed by the postmaster genera chief clerk of the foreign mails bureau of the postoffice department. To this office special interest attaches now owing to the activity due to the postal subsidy bill. Mr. Drake was a private in the confederate army during most of the war, and in 1864 was confidential most of the war, and in 1864 was confidential secretary to General Bragg. He was recon-structed in 1869 and in 1870 he edited the Journal, the republican state organ at Mont-gomery, Ala. In 1873 he published the Chat-tanooga Daily Commercial. In 1876 he was the republican candidate for congress in the Third Tennessee dis-trict, and from 1877 to 1884 was a valued clerk in various bureaus in the postedize denartment. many surprising things have been done, but the most unique and daring plan that has yet been envolved by that body is a reported scheme to build a trung railroad line across the state. This proposition will be made the issue of the next political fight in Kansas by the alliance. The plan is for the state government to construct a trunk line about two hundred and fifty or three hundred miles in length, and for the counties to build a net work of branches that will touch every im-portant point in the state. It is said that the right of way privileges would be donated in every instance and that the branches would probably be built on the section lines. There is more railroad mileage in Kansas than in any other state in the union outside of Illinois, and rail-road men are inclined to think that the plan will never be carried out. So far, it is said, talk of the scheme has been confined to the leading members of the alliance in the state and they refuse to say anything on the sub

Scene at a Funcral.

LONDON, April 10,-1 Special Captegram to THE BEE.]-A remarkable scene was witnessed at Pendleburg during the funeral of Mrs. Fielding Swinton, whose death was attended by circumstances which gave rise to suspicions against her husband. While the burial rites were in progress a crowd of fifty women, who were in attendance as mourners; attacked a woman who was known to have been criminally intimate with Mr. Swmton and who had defied public opinion by making her appearance at the funeral of the woman she had wronged. They drove her away and pursued her down the street of the village, pelting her with stones and mud gathered from the highway. As the angry women rushed past the mills, a large number of mill hands, attracted by the clamor, left their work and joined in the chase. In a moment, however, some of the leaders among the men raised the cry that they might better be after the woman's part, her in iniquity, who was the more guilty of the two. Acting on the suggestion the mais portion of the mob turned their attack upon the husband, who was close at hand among the mourners, who had followed the rioters.
