CHICAGO OFFICE OF THE BEE,

Caticago, May The Herald calls the removal of Boyd from office by the decision of the supreme court, "Stealing a Governorship," It says: "The decision of the Nebruska supreme court in the case of Governor Boyd's title to office is shamelessly partisan through and through. The governor acted wisely in yielding without question to the court's decree, but his party should make his pattle its own and vindicate at the poils the right of the people to select their own officials. Governor Boyd has been displaced, not because he is ineligibie, but because he is a democrat. The justices of the supreme court who subscribed to the judgment of ouster against him might as well have said so. In considering this question it is well to know that if the positions of Boyd and Thayer had been reversed there would have been no contest. The decision of the people at the ballot boxes would have been respected."

EDISON TO VISIT CHICAGO. Thomas A. Edison will arrive in Chicago next Tuesday morning. No announcement is made of the purpose of his coming, but it is evidently to throw the weight of his in fluence in favor of a united exhibit in the electrical department. Edison is enthusias-tic for the success of the fair and is anxious that the electrical exhibit be undivided. He has said that he will make this the crowning effort of his life,

VICTIMS OF GREEN GOODS MEN.

The number of victims of the "green goods" swindlers whom the postoffice inspectors recently rounded up seems unlimited. Yester-day United States Marshal Hitchcock re ceived four letters from people asking about the prisoners recently arrested. The writers withheld their names, but said they had been made victims. The aggregate of their losses was placed at \$1,500. Mr. Hitchcock made some inquiries and learned enough to convince him that one of the people squeezed is none other than an employe of the postoffice department. After the receipt of the four letters the marshal had four visitors, three o whom confessed to being Chicago business men, and they admitted they had been taken in to the extent of from \$300 to \$800 each. Word has been received from New York to the effect that Thomas, the leader of the gang, has been safely landed in jail, and that several additional cases against him have come to light. f entertainment. The telegram was sent from Edison, Wash, be mayor and Secretary Nason of the board of trade held a short consultation and wired the following:

"A committee consisting of twenty-five

persons will meet the presidential party at Lincoln by special train. On the arrival of the train at Omaha the reception committee, consisting of fifty gentlemen and eight ladies, will escort your party to the grand stand at the court house square. The party will be welcomed by the mayor, the responses to be by President Harrison and Secretaries Rusk and Wanamaker. After this the party will proceed to The Bre buildng, where a reception will be held. balance of the programme will consist of a drive to the high school grounds, where the president will talk to the children. This will be followed by a carriage ride, beginning at 2 o'clock and terminating at 2 :30 at Governor Saunder's residence, when the president and such members of the party as may prefer will take refreshments. The residue of the party will be entertained at the Paxton hotel until the departure of the train at 6 o'clock." The carriage drive will be as formerly out-

The mayor has written the chairman of the board of public works requesting that all streets over which the presidential party will

pass be put in proper condition.

Mr. Birkhauser has replied, stating that
the entire route would be sprinkled early in the morning; that the pavement on Farnam, between Twenty-sixth and Twenty-ninth, will be repaired, and that Leavenworth from Selden to Twenty-sixth: Thirty-first, from Leavenworth to Pacific, and Jackson, from Twentieth to Twenty-ninth, will be cleaned and smoothed. city officials of Council Bluffs and

Secretary Nason states that all officials of outside towns, who expect to attend the re-ception, should send their acceptance of invi-tation at the earliest possible moment, that space may be provided on the platform.

The following ladies have been appointed members of the reception committee to en-tertain President Harrison: Mesdames A. S. Saunders, General Brooke, Frank Wheaton, Clark Woodman, Henry Yates, Edward Rosewater, Judge Dundy, S. S. Caldwell, George M. O'Brien.

Programme for the Schools.

The board of education committee appointed o arrange for the reception of President Harrison has completed all the plans and work will be begun Monday morning upon the decorations that will grace the high school building and grounds next Wednesday.

A sort of triumphal arch will be erected directly west of the High school building, over which the words "Welcome to our President" will be placed. There will be a platform built on the east side of the building in the open space be-tween the two walks. The presidential party will be driven around the building and will halt at the platform to permit the presi-dent to speak to the children. About the platform upon the esplande within the outer circle of the walk the children and teachers will be massed, each with a small fing in hand, with which the distinguished guest will be saluted.
From every window of the large building

the flag of the union will float, and upon the flagstaff on the main tower a beautiful silk flag will greet the eye for miles The children will sing three songs the president is their especial guest, will sing, first, "Hail to the Chief,"

"America," and after he has spoken they will sing "Home, Sweet Home." The school children and teachers are all expected to be at the high school by 1:30 p. m., on the day of the reception.

Will Meet the President.

Governor Thayer came up last evening to request the Burlington officials to provide his excellency and staff a special car with which to meet the presidential party May 13. It is said the governor's wishes were promptly and cheerfully complied with.

PLANNING BIG THINGS.

Grain Men Preparing to Open an Ex-

change Room. Although but little has been said through the papers during the past few days regarding the scheme to build up an Omaha grain market, the subject has not by any means been dropped by its promoters.

During the first two days after the books were opened to signers for stock in the proposed grain and produce exchange over fifty names were obtained, which included a very arge majority of all the grain men in the city, buyers, consumers and brokers.

At first it was thought pest to call a meet-ing of the stockholders at once and proceed o elect officers and complete the organization of the exchange. After the subject had been thoroughly canvassed it was decided to post one calling a meeting for a few weeks The present crop of grain is pretty wel exhausted in this part of the country and it does not seem advisable to attempt the open-ing of a market until after harvest, when there will be something to trade in and some thing to keep the market going.

There is no disposition on the part of the

gain men to try to establish an open board with a great hurrah and with the possibility of ending in a failure. Their idea is, as was outlined in The Bee a few days ago, to first possibility o contralize the grain business of the city on one floor in some suitable building. Each firm can have a private office and there will be one room fitted up for a trading or public room. After this is done the next step will be a very natural one. People having grain to sell will always seek the buyers. They bring their samples to the exchange room and the different buyers will be given portunity to make bids on them. transactions may be few and small, but there will be every opportunity for the business to grow. This appears to the grain men to be

In the meantime this action of the grain en looking toward the organizing of an exchange is producing some discussion among members of the old board of trade, who had expected that the market would be under the guidance of that body. Some board of trade members have talked of plans by which the grain men could be induced to come into the board and not organize a separate body. It is said that some of the officers of the old board are willing to resign to make room for any grain men whom the grain crowd may wish to place in the positions. Other schemes have been discussed by different members, and it is quite likely that some definite plan for a compromise will be presented to the grain men before they complete their new

he best policy to pursue.

Bids will be received by Arthur Johnson, 606 BEE building, until Thursday noon, May 12, for excavating cellar of Merchants Express Co.'s barn.

Constable Sullivan, acting as a special deputy, is enforcing an order issued from Judge Donne's court last February, and is ejecting five Swedish families from the land at the northeast corner of East Omaha, belonging to Byron Reed. The court decided that Quick had no title to the land and the tenants were ordered

At the conclusion of the third act there At the conclusion of the third act there were loud and prolonged calls for Mr. Hoyt. He promptly appeared, and after expressing the highest appreciation stated a thing or two that was altogether unexpected upon such an occasion. He said that members of his company had been assailed from the Omaha puipit. He and his wife were members of the company and he felt bound to protect the good names of his wife and of every member of his company. The charge had been made that on the train between Omaha and Kansas City his company had been seen been made that on the train between Omaha and Kansas City his company had been seen uproariously intoxicated. This charge was utterly without foundation as he was abundantly able to prove. He had studied the scripture some and had never read a line of holy writ in condemnation of the theater, but he had read the inspired injunction: "Thou shalt not bear false witness against thy neighbor."

As Mr. Hoyt bowed himself off the stage here was a buzz and a flutter throughout the house, which plainly evidenced surprise, ap-proval and sympathy for the man with sense of duty and justice enough to defend the fair names of his slandered co-workers publicly and emphatically.

Denies The Allegation. OMARIA, May 7 .- To the Editor of THE BEE

saw for the first time today in THE BEE of March 16 a report of a sermon by Rev. Harsha of the First Presbyterian Church, in which he is quoted as saying:

"He had traveled in the same sleeping-car with the Texas Steer company, and before they reached Kansas City he became con-vinced that if the real Texas steer himself had been a passenger aboard the car he would and could not have made more noise or disturbed other passengers more than the mem bers of this theatrical company. They were uproriously intoxicated.' I beg to state that we did not go to Kansas

City in a sleeping-car, but for a week previous did our traveling only by daylight and in a special chair car provided for our exclusive use by Mr. Lomax of the Union Pacific railway.

The statement that the company was intoxicated is unfounded, and I resent as false and malicious the charge Mr. Harsha is quoted as bringing against me and mine.

SOUTH OMAHA. Earnest Argument in Favor of the Paving Bonds.

Said one of the shrewdest and most sucessful business men of the city: "I would like to answer the citizen whose nterview on the paving bonds question appeared in THE BEE. In the first place the inaccuracy or indefiniteness of the statements made and the evident disposition of the antipaving-bond citizen would require answers and explanations seriatum, but believing it not necessary I shall content myself with controverting the principal causes of his ob-jection to issuing the \$50,000 paving bonds.

"It is true that the county commissioners passed a resolution appropriating \$16,600, no \$20,000 as stated in that interview, out of the road fund, but it was encumbered with this important and controlling condition, "to be paid out of the road fund when in condition to pay it.' Now the facts are that the road fund did not have a balance at that time and never since has, nor has it at this time, while the fund to be derived from the levy of 1891, not yet levied, is fully contracted for. But further, the commissioners could not give South Omana a single dollar for this purpose, and when the board of commissioners learned this from the county attorney, and other attorneys, this illegal resolution was promptly rescinded, and the whole matter was thus placed on the books as it had been in law all the time, just as it was before the resolution was passed.

"The statement that property abutting Twenty-fourth street alone will be benefited is simply ridiculous. Every lot in South Omaha will be benefited and every citizen in all the wards who has a team, and there are thousands of them, will be greatly benefited. Ninety per cent of the teaming done between the two cities is done on Twenty-fourth street, and the condition of that street in the last ninety days has cost the owners of vehi-cles thousands of dollars and inconvenienced citizens and business men beyond compute. Further, this is a complete answer to the insinuation of the interviewed citizens that only Twenty-fourth street property owners will be benefited. The bonds are to be issued only for alley and intersection purposes, and every real estate owner must pay for all paving directly fronting on his lot, and then the entire traffic between the two cities will go over this paving. And as one wanting to be fair and just, I submit that the city and citizens who use and wear out the pavement out down, kept in repairs and replaced when worn out by the abutting property owners should at least pay its fair share and no more

of intersection costs. "The bonds to be voted are not only fo Twenty-fourth street, but for Q. L. Twenty-fifth and Twenty-sixth streets. The city has a bonded debt of only \$257,000, of which only \$152,000 can be figured against the 10 per cent limit. As the assessed valuation be over \$2,000,000 this year the \$50,000 bonds can be legally issued.
