One Bridge Site for the Rock Island and Milwaukee.

EIG DEAL IN SOUTH OMAHA PROPERTY

The Companies Will Build or Buy a Bridge - Ed Dickinson at His Desk Again -Other News.

The location of the bridge across the Missouri, to be built and used jointly by the Rock Island and Chicago, Milwaukee & St. Paul roads, has been decided upon. The bridge will be built about on the boundary line between Omaha and South Omaha.

About a year ago the Rock Island, through an agent named Phelps, purchased from Henry T. Clarke and others land for depot grounds and tracks, extending from Albright

to the river, at a cost of \$200,000. Yesserday the Rock Island deeded to the Milwaukee road a half interest in this land

for a consideration of \$100,000.

Nothing will be done in the direction of building a bridge until the case of the Rock Island against the Union Pacific is decided in the United States court, but it is probable that the construction will be com after that case is ended, whichever way it goes, as a bridge will render these roads en-tirely independent of the Union Pacific and its peculiar system of contracts.

Dickinson on Deck.

Assistant General Manager E. Dickinson of the Union Pacific arrived in this city yesterday morning and within ten minutes he was seated in his old place in the general office and handling matters brought to his attention as though he had not been

His arrival was bailed with delight and like wildfire the word flew from mouth to mouth "Ed has come." "Ed," as Mr. Dick-inson is familiarly called, is a great favorite with all the employes, in the offices and on the road, and all were glad to know that he was once more at the head of the operating

The first thing which occupied Mr. Dickin son's attention was the request preferred by the committee from the Fort Worth division of the Union Pacific for an increase in pay for the brakemen and conductors on the coa runs on that division and an allowance for all overtime over twelve hours. The request was also coupled with other matters of greater importance to the company than the few dollars involved in the granting of the increase asked. The committee is still here, and superintendent Duncan of the Fort Worth division was sent for and arrived this

morning.

A consultation was held this morning in A consultation was held this morning in which Messrs. Clarke, Dickinson and Dun-can and the committee took part and the matters presented by the committee were gone over at length.

Mr. W. H. Holcomb was at the office this morning closing up matters connected with the road with Mr. Clarke and left at 10 o'clock. He declined to state his future

The Tourist Rate.

"The people out in Colorado want the earth," remarked a railroad official in a tone of disgust as he read the dispatch from Denver stating that the residents of that state had requested a radical reduction in tourist rates to Colorado common

"The tourist rate between Omaha and any point in Colorado is \$29, which is one dollar less than the rate last year," he continued. 'This is a reduction of 20 per cent from the regular rate. It is made, as all tourist rates are made, by taking 80 per cent of the regular local round

trip rate over the shortest line.
"What the Colorado people want is a
round trip rate of \$22 or \$22.50 between
Omaha and points in Colorado. What a picomana and points in Colorado. What a pic-pic that would be for the scalpers! With a regular railway rate of \$18.15 and a round trip rate of \$20, wouldn't they have every-thing their own way! Well, I should

Mr. Leeds' Prospects.

A rumor is noating about in this vicinity to the effect that the lines in the Western Traffic association which insisted on the discharge of Traftic Manager Leeds of the Missouri Pacific will ask for his reinstatement, but no credence is given the report.

It is known that Mr. Leeds has received an

offer from the Merchants bureau of St. Louis of the position of commissioner of the bureau at a salary of \$12,000. He has the offer under consideration.

New Time Card

A new time card will be put in effect on the Chicago, St. Paul, Minneapolis & Omaha road on Sunday next. The only change will be in the St. Paul limited, which will leave Omaha at 5:45 p.m. instead of 6 p.m. as at present. The train will reach South Blair at 6:30 p.m. instead of 6:50. Except on Sundays the train will not stop between Blair and

OFFICIAL STATEMENTS.

What Authorities Say of the Stranded Insurance Company.

Lincoln, Neb., May 15 .- | Special to THE Bug. j-The failure of the Nebraska insurance company of Omaha, with Vice President G. W. Madden's criticisms of Auditor Benton. stirred quite a ripple of interest here in insurance and official circles. The auditor was in consultation with 'Attorney General Hastings when a BEE representative called, and at first he asked to be excused from making a statement because he had no desire to rush into print to defend his official actions.

"It is not necessary that I should make any statement for publication. I only acted in the line of my duty to protect the interests of the policy holders, and followed the law in overy particular. Mr. Madden, acting on the partial report of an examiner sent by this department to investigate the affairs of his company, asked to have a receiver ap-

pointed. When pressed for the facts in the case for the benefit of the public and particularly the policy holders of the defunct company, Auditer Benton gracefully yielded the desired information-or at least so much of it as his council thought proper to give up at this

stage of the proceedings. "The Nebraska insurance company changed ownership April 13. Previous to that date S. R. Johnson was president, L. B. Williams was vice president, and M. J. Burns was secretary. These gentlemen are wealthy residents of Omaha, and interested with them were other rich stockholders. Any statement they may make is entitled to confidence, and they are good for almost any

inancial obligation they are liable to incur

"Here is the annual report of the company for the year ending December 31, 1890, made to the insurance department of the state The assets, you will notice, were \$198,001.63. The liabilities, exclusive of the capital stock, were \$75,321.64, and with the capital stock were \$75,321.64, and with the capital stock included, \$175,321.64, leaving a surplus of \$23,696.99. The capital stock was \$100,000, one-half of which had been paid in in cash, and the other half was represented by \$50,000 in well secured notes given by the stockholders as provided by law. The report was regular in all respects, and from those figures it will be seen that the capital stock was not impaired. 'A short time after the change in ownership on April 13, reports about this company reached me that made it my plain duty to in-vestigate its affairs, and I proceeded to do so. An expert examiner was put to work on the books and found grave irregularities. For instance, on the day before the change the company had \$35,000 cash in bank subj There were also on hand the \$50,000 of stock notes signed by the old stockholders and backed by approved security. The day after the change the \$55,000 in the bank to

the credit of the company had disappeared and the concern bad less than \$20 in cash on hand. The \$50,000 of stock notes, signed by men of means amply good for the amount had also disappeared. In their place were new notes for only \$13,000, and as to their value I

viil not say at present. The auditor was asked if the old stockolders had been allowed in the deal to take back their stock notes and retain the \$35,000 in bank, but he declined to answer the Resuming the thread of his statement, he said :

"After the examination had progressed far enough to give an idea of the standing of the company I went to Omaha and called on the officers of the company in person. I notified them that their capital was impaired and that it was necessary under the laws to make it good at once. The company failed to make up the impairment, and I communicated that fact to Attorney General Hastings. He immediately took the matter up and ac companied me to Omaha. We called in the office of the company yesterday morning, ex plained the law on the subject and our duties under it. We adjourned at noon with under it. We adjourned at noon with the understanding that the meeting would be resumed at 2 o'clock. Dur-ing that interim Mr. Madden applied for the appointment of a receiver, thus waiving the service of notice which the attorney general would have had to give nim Here is a sample of Mr. Madden's statements. ecording to his interview in THE BEE: He speaks of the company's 'deposits in Lincoln and of '\$100,000 of securities on deposit. Inder the Nebraska laws no deposit with the insurance department is required. I have no desire to enter into a newspaper controversy ver this matter, and am only concerned in

following the law and doing my best to pro-tect the policy holders." The annual statement of the company for 800 on file in the auditor's office shows the ollowing facts:

The net cash received from premiums dur-ing the year was \$50,809.91; from interest on notes, commission earnings, etc., \$4,157.14. making the total income, \$3,957.05. The expenditures were: For losses, \$21,254.09; commissions, \$8,927.86; salaries, fees and all other charges of officers, clerks, agents and all other employes, \$19,872.91; taxes, \$211.66; all other employes, \$10,872.31 taxes. \$211.05; all other expenses (advertising, stationery, telegrams, postage, special agents, etc.), \$12,-596.80; total expenses, \$62,863.32. Risks in force December 31, 1889, \$12,603,117

Written during 1890..... 3,270,296

In force December 10, 1890......\$11,331,464

Reinsured...... 128,964 Net amount in force December 31, 1890. \$11,202,500 The assets on December 31, 1890, were

figured at \$198,991.63; the liabilities at \$175,-321.64, leaving a surplus of \$23,000.09.
The assets were: Mortgages, with interest, \$6,046.15; chattel loans and judgments, \$11,-339.02; interest due, \$6,418.60; gross premiums in course of collection, \$13,835.56; notes for premiums, not due, \$24,679.32; notes past due, \$42,231.14; cash, \$37,432.97; all other property, \$6,008.87; stockholders' notes, \$50,-

The liabilities were: Unpaid losses, \$6,275; reinsurance (40 per cent of gross premiums on unexpired risks), \$68,245.58; due for salaries, etc., \$801.06; capital stock, \$100,000. Since its organization the company had received for premiums, \$41,260.09, and had paid losses to the amount of \$170,137.64. No dividend was ever declared.

The President's Statement. President Emminger of the Nebruska in-

urance company yesterday said: "I want to inform the public that Auditor Benton has always dealt fairly with the Nebraska

"Vice President Madden labors under a misapprehension. It is true that M. M. White, Benton's expert examiner, had been working upon the books for twelve days, but his services would have been worth more than \$10 per day to any insurance company,
"Regarding the liabilities, I cannot say
what they will amount to, though they are
much more than stated by Mr. Madden. The assets are not as claimed by Mr. Madden. but at this time it is impossible for me to give anything like a correct report of their

condition. cannot blame the auditor, as I know had nothing to do with forcing us to the wall.

"Mr. Madden talks too much, when you take into consideration the fact that he knew but little about the management of the com-pany. He bought his stock, remained in Des-Moines, lost his meney, and now, I suppose, he feels sore. he feels sore. The affairs of the company are in bad shape, and in a few days I will be able to say

more about the failure." DeWitt's Little Early Risersforthe Liver.

SOUTH OMAHA'S NEW HOPES.

Packingtown to Have Two More Important Direct Railroad Connections.

SIGNIFICANCE OF YESTERDAY'S DEAL.

Rock Island and Milwaukee Roads Will Enter the City from East Omaha-Other Magic City News.

Railroad circles are all agog over the granting by the Chicago, Rock Island & Pacific railroad company to the Chicago, Milwaukee & St. Paul railway company of a right-ofway over the Rock Island right-of-way through the southern part of this city and northern part of Sarpy county. The grant by the Rock Island company, together with grants by individuals for right-of-way purposes is valued at above \$100,000.

Nothing definite can yet be learned about the matter, but a gentleman closely connected with the Rock Island road admitted of negotiations of some kind that would not be closed for a time yet, but was non-com mittal as to anything further.

A gentleman, thoroughly familiar with railroad, transportation and stockyards business, gave it as a plausible theory that the Chicago, Rock Island & Pacific and the Chicago, Milwaukee & St. Paul railroad companies had closed a contract with the East Omahaland syndicate company for bridge service over the new combination railroad. street car and wagon bridge being constructed by the syndicate company. As the syndicate has ample funds and is backed by the Drexels of Philadelphia and other wealthy eastern capitalists, and will have just such a bridge as these two roads want, with excellent terminals and direct routes and casy grades through this city to the Rock Island tracks at Albright, he thought it probable that this is the secret of the late

The roads crossing the river at East Omaha, with every convenience on both sides of the river, could construct a road bed through the Fort Omaha grounds and passing south through the western passing assing south through the western art of the city would have an asy grade and an inexpensive route to South Omaha coming, in just west of the Cudahy and Omaha packing houses, making direct connections with the Union stockyards, and passing south just west of the packing houses of Swift & Co., could connect with the new Rock Island extension at Albright. Thi would give much better terminal facilities than the Union Pacific could possibly fur-nish, would give ample grounds at certainly less cost than could be secured at any othe point in the city, would put the roads directly n the heart of Omaha, and give them unsurpsased facilities for reaching this point. Conceding that it is only a theory, it is at least much more plausible than to think the roads would pass by Omaha by building a bridge at the Sarpy county line, to say nothing of going to the expense of building a

Manager W. N. Babcock of the Union stockyards thought it a very important mat-ter. "It undoubtedly means," said he, "that these railroads will reach this market. And it means much more for us. If the ompanies cross at East Omaha, they will have the very best terminal facilities and running their trains through to this side will practically do away with the transfer delay that has been and is such a nuisance and such a hindrance to this market. More than that, with proper shipping facilities, the whole of western lows, extending from one hundred and fifty to two hundred miles, will be opened up to our jobbing trade. It would not then require twenty-four hours to deliver goods to western Iowa, as has been the case much of the time of late, practically cutting Omaha jobbers and the packing house job bing trade from all that territory."

Council Proceedings.

The city council met Thursday night to act on and granted sixty-five liquor licenses. The following persons were granted licenses Christ & Lowry, Thomas Healy, Henry Mar. tir, Martin Tighe, Henry Mies, George W. Ball, James Mangnoll, Hill & Dolozal, George Hofnel, M. J. Frank, F. J. MAYOR CUSHING'S VETO.

He Applies it Liberally to Various Councilmanic Actions.

There were fifteen members at the meeting of the city council last night, and among other things, they made Major Dennis, the plumbing inspector, bappy.

The committee appointed to investigate the charges preferred against the gentleman reported that Dennis Flizpatrick failed to make a case; that the presecution was malicious and vindictive. The report was adopted and the following good things said about the old man in a resolution penned by Morearty:

"The gratitude of the citizens of this city and the thanks of their representatives in the city council are likewise, due and are hereby tendered Major Dennis for the faithful discharge of his duty in carrying out the pro-visions of the ordinances as pertaining to the affairs of his office."

Mayor Cushing returned without his approval the resclution providing for the con-struction of a bridge over the creek on Lafayette avenue; to raise the present bridg on Nicholas street; to construct a wooder culvert across Forty-sixth and Izard streets. all at an expense of \$1,000; also to construe a drain pipe on Forty-third street. Hi reason was that the contract should be let to the lowest bidder instead of the work being done by instructions of the board of public works

The veto was sustained. The cess-pool ordinance was also vetoed. The mayor said that the ordinance should not have been passed until the office of saniary commisssioner, as created by ordinance and been abolished. He thought that with had been aboused. The office of sanitary commissioner in exist-ence that man would be able to exact any fees that he might see fit to lovy. The fees that he might see fit to levy. The mayor favored the ordinance, but wanted the office of sanitary commissioner abolished be This veto was sustained.

A veto was sent in on the ordinance pro-viding for the grading of Dorcas from Second o Tenth street. The mayor had doubts about the street having been legally opened. President Lowry took exception to the veto. He regarded it a personal thrust at him. A lengthy discussion followed and the veto was rejected.

An ordinance granting William Coburn the right to remove a frame building was vetoed. The reason given was that such permission would be an exception to the proisions of the fire limit ordinance. The veto was sustained.

The mayor also yetced the ordinance providing for repealing "chapter 68 of Cornwell's compiled ordinances, entitled city physician." The mayor said the chapter sought to be repealed is 48 and not 68, as 68 relates to the duties of street commissioner and not to that of city physician.

A raft of routine business was transacted. Among resolutions introduced and passed was one asking the clearing house to arrange

preport weekly the full volume of done by banks in Omaha and South Omaha. DeWitt's Little Early Risers. Best little

THEY WERE NOT MATES.

Joe Kloza Settles Family Troubles by Suicide.

Joe Kloza, a Bohemian laborer living near the corner of Twenty-sixth and South Locust streets, went home from work yesterday afternoon and after washing his hands and face sat down in a rocking chair and shot himself.

The weapon used was a 44-calibre revolver of the English bull dog type. The muzzle was placed directly over the heart and the heavy bullet tore a large hole through the man's clothing and flesh. It is claimed that the principal cause of the

man taking his life was on account of domes-tic troubles. There had been frequent family Kloza was an educated man, but his wife belonged to the lower classes, and they have never gotten along well together. Deceased leaves a widow and one child The coroner was notated and after viewing

body had the remains removed to Heafy & Heafy's morgue An inquest will be held by Coroner Harri-gan at 10 o'clock today.

Pozzeni's Complexion Powder produces oft and beautiful skin; it combines every element of beauty and purity.

Y. M. C. A. Directors. The following directors were elected at a neeting of the Young Men's Christian association last Tuesday: William Fleming, W. H. Russell, W. J. Van Arnam, J. H. McCullough, A. P. Tukey, J. F. Wilhelmy, C. A. Goss and M. A. Grant.

Constination poisons the blood: DeWitt's Little Early Risers cure Constipation. The cause removed the disease is gone. The colored barbers' union is after S. B. Smith, who collected dues for the organization, and, it is alleged, that he is

hort in his accounts to the extent of

\$1.50. An information filed by W. R.

Hickman charges Smith with embezzlement of that amount. St. Patrick's Pills give entire satisfaction I have used them in my family. They are the best I ever used for the purpose. Frank Cornelious, Purcell, Indian, Ter. For sale

DUN'S REVIEW OF THE WEEK.

Outlook More Favorable, Excepting the Large Exports of Gold.

BANK OF ENGLAND'S ADVANCED RATE.

Peculiar Action of the Speculative Markets, Wheat Advancing and Corn Declining-Trade Conditions in Various Cities.

NEW YORK, May 15 .- R. G. Dun & Co.'s Weekly Review of Trade says: In every respect the outlook is more favorable excepting the large exports of gold and the advance in the Bank of England's rate to per cent, obviously for the purpose of drainng more gold from this country. The re ceipts for customs duties at New York are largely in silver certificates and new treasury notes, no less than 6414 per cent for the first ten days of May, but it is proper to remember that the new treasury notes, being redeemable "in gold or silver coin," with a provision of the law empowering the secretary to maintain the parity of gold and silver paper and coin, are practically redeemable in gold and in value equal to greenbacks. It is a most favorable symp tom that the continued exports of gold causes no panie in this market, and it is a significant fact that the exports in April were about double last year's in value as to cotton and showing an increase in oil and provis-ions, but a decrease in cattle and in bread-stuffs. Yet in breadstuffs the decrease was wholly in corn, and the surplus of wheat available for export May 1 was about thirty

nine million bushels. The exports of wheat from Atlantic ports have been much smaller than a year ago until last week, when an increase of 10 per cent appears. In corn the decrease is heavy

The speculative markets have acted pe-culiarly during the past week, wheat ad-vancing 4 cents per bushel on reports not substantiated of injury to the crop in the northwest, while corn has declined 3 cents and oats 2^{1}_{2} cents on moderate sales. Pork, lard and hogs are also lower and a heavy decline appears in butter. Cotton, coffee and oil are unchanged, and this is the more re-markable as to cotton because much the larger crop ever produced is going to market more rapidly than ever before at this season. The foreign manufacturers appear to be laying in a large stock because prices are closto the lowest known for forty years, while the consumption abroad is enormous and

there are some signs that the production of goods exceeds the demand. Reports from other cities show a moderate distribution at Boston, with easy money. Lumber is more active and expected to rise unless strikes prevent. At Philadelphia combing wool is in fair demand and knit goods works full of orders, but the dry goods trade is limited. Bessemer iron is a little more active at steady prices at Pittsburg and glass active. Trade is only fair at Cleveland and Detroit, helped by activity in building at Clincinnati, good at Omaha and healthy at Kansas City, but at Milwaukee and St. Paul the need of rain for crops is felt. Chicago reports a third increase in receipts of corn and cheese compared with last year and 50 per cent increase in sales of dry goods, with very fair trade in shoes, but a decrease in

At the south trade is seasonably dull, with cotton in light demand at New Orleans and sugar inactive.

The iron furnaces in blast May 1 were of about two thousand tons greater weekly capacity than April 1—115,590 tons—against 113,448 a month ago and 180,090 a year ago. But trade is less depressed and the long delay in settlement of the coke strike tends to strengthen prices, The general industries are fairly active, ex

cept where interrupted by strikes in the building trades, as at New York. The final prospect just now turns largely on the export of gold. Merchandise exports are for the time comparatively small, \$13,140,-000 in two weeks from New York, against \$15,639,000 last year, while imports continue remarkably large.

The business failures occurring throughout the country during the last seven days number 237, as compared with a total of 242 last

For the corresponding week of 1889 the figures were 212. THREE ENTERTAINMENTS.

Places Where Pleasure Seekers Found Recreation Last Night. The seating capacity of the large concert room in the basement of the First Methodist Episcopal church at Twentieth and Davenport streets was severely tried last evening by the large audience that gathered to see the presentation of the "Temple of Fame" by ocal musical and literary talent. The pleasing programme was carried out with scarcely a perceptible hitch, and each participant was liberally applauded. Where all did so well criticism would certainly be inviduous. Some of those who made their premier public appearance last night showed histrionic talen that was indeed surprising, and gives rise to hopes on the part of their friends that they will not fail to grant this natural ability at

opportunity to develop itself. The young addes of the church netted a neat sum from the entertalament.

Unity assembly No. 5141, Knights of Labor, gave its fifth annual ball at Metropolitan hall last evening. The large crowd expected was probably kept away by the threatening weather. Still it was a very the entertainment. pleasant party and was greatly enjoyed by

ose present. Twenty-five dances were on the programme. The Ancient Order of Hibermans, division 1. gave their fifteenth annual ball at Washington hall last evening. There was a large crowd in attendance. Fully one hundred couples occupied the floor. The programme consisted of twenty-four numbers of the latest dances. Music was furnished by the Ancient Order of Hibernian band and was very acceptable to the dancers. Under the very acceptable to the dancers. Under the able management of Albert Adolphus Kaiser, the master of ceremonies, and the committee of arrangements everything went off smoothly. When the "Home, Sweet Home" was rendered by the band everyone was choroughly tired out, but all declared that

they had spent a very pleasant evening. St. Patrick's Pills have given me better satisfaction than any other —M. H. Proudfoot, druggist, Granada, Colorado. For sale

Om tha, Neb., Oct. 25, '89, I feel it not only a privilege, but a duty to say a good word for Dr. J. B. Moore's Ca tarrh Curs. Have been troubled for years with catarrh. Frequently had to resort to that disagreeable hawking and spitting to clear my throat of a tough, stringy mocus that lodged there. Had tred different remedies without relief. A few applications of Moore's Catarrh Remedy almost entirely relieved me. I recommend it whenever an opportunity presents itself.

J. N. MOORE. Moora's Tree of Life, a positive care for Kidner and Liver Committed and all blood disease. Doe: it as to suffer when you can be cared by asing Moore's Tree of Life, the Groat Life Remedy?

Notice.

The annual meeting of stockholders of the Frement Eksborn & Missouri Vallely railroad company will be held at the office of the company in Omaha, Neb., on Friday, May 22, 1891, at 2 of one p. m. for the election of directors and for the transaction of such other business as may be presented. Dated May 8, 1891.

J. B. Esprisco, Secretary.
