

HER LONG JOURNEY ENDED.

Little Tillie Hammond Found Dead in the Sand Hills.

WANDERINGS OF THE LOST CHILD.

Overflow of an Irrigation Canal—The Country Flooded—A Little Boy Fatally Scalded—The Weekly Crop Bulletin.

Thereupon, Neb., May 17.—[Special Telegram to THE BEE.]—Tillie Hammond, the lost child, was found dead today about ten miles northwest of Dunning. An average of seventy men have searched for her constantly since last Monday. The rain obliterated her trail and she covered a distance far greater than what was thought possible. The most conservative say she traveled seventy-five miles and a part of the time carried her little sister, without food, water or shelter. Her heroic effort for life is deserving of a monument.

Weekly Crop Bulletin.

CRETE, Neb., May 17.—[Special to THE BEE.]—The signal service has issued the following weekly weather and crop bulletin for Nebraska:

The past week has been rather warmer and more sunny than average and generally favorable to farming interests; but prevailing high winds have dried the surface of the ground somewhat and rains would have been beneficial. Crops are reported generally in good condition, but in some localities small grain and grass are in need of rain.

The rainfall is reported as everywhere below the average, except at Alliance, where 1.0 inches fell on the 14th. Throughout the central part of the state there has been none or a trace; in the southeastern part showers have been general, amounting in some cases to nearly an inch, which is almost the normal amount, but averaging only about half that much elsewhere.

A frost was quite general on the 11th, the temperature in some localities falling below 32 degrees; strawberries and grapes were injured, but the wheat and corn were everywhere straight and nowhere are the larger fruits or crops reported injured.

Corn planting has progressed rapidly during the week, and is about half completed in most localities. More ground is reported as under cultivation this year than in any previous year, owing to the unusually early start in coming up slowly and unevenly in the southeast.

Too Much Irrigation.

GRINING, Neb., May 17.—[Special to THE BEE.]—The Chimney Rock irrigation canal which was almost completed, had its headgate washed out by high water this week and the ditch has been filled with an immense current of water ever since, not only flooding the country, but doing a great deal of damage to the banks of the canal. The mouth of the ditch where the headgate was situated is about 175 feet wide, and there was at least accounts from three, no definite plan decided on for closing it. It may be that sand bags will be used out with the current, and that plan is likely to be tried. The Chimney Rock canal was begun last season, and the farmers worked upon it more or less all winter, having just about completed it for use this season. If the washing ruins the banks of the canal, it will be a serious catastrophe to them. The headgate is 175 feet from the mouth of the flooded strait resembles an immense lake, and the people are thoroughly excited.

Ditch Matter Settled.

FREMONT, Neb., May 17.—[Special to THE BEE.]—The injunction which was issued from the United States court on application of the Union Pacific railway company to restrain the contractor from exercising his right of way near North Bend within the large extent of ditch which the county is constructing there, has been withdrawn, and those who are interested in the improvement are rejoicing over the fact that the work is not to be delayed. The necessity of the injunction is about the same as it was before General Attorney Thurston of the Union Pacific, and he yesterday consented to the withdrawal of the injunction suit.

Fatally Scalded.

FREMONT, Neb., May 17.—[Special to THE BEE.]—A little son of Mr. and Mrs. L. A. Davison, last evening, seriously and probably fatally scalded by the large amount of small hot water on his chair, and while she pulled one into another room the child came in, had the tub over and spilled the contents on itself. It was so badly scalded that portions of the flesh dropped from the little creature's body. The child is a year and a half old.

Traveling Men's Banquet.

FREMONT, Neb., May 17.—[Special to THE BEE.]—The Fremont Traveling Men's association held its first public meeting and gave its first banquet at Frab's hall last night. There was a limited number of outsiders present, and the meeting was a most enjoyable literary program was rendered and an evening of unalloyed enjoyment was had.

ANCHORED AT ACAPULCO.

Charleston and Esmeralda Near the Entrance of the Harbor.

CITY OF MEXICO (via Galveston), May 17.—The American warship, Charleston, and the Chilean man-of-war, Esmeralda, are lying at anchor near the entrance to the harbor of Acapulco. The Chilean captain says that his vessel has not called at any American port, consequently, he says, it is not probable that the United States authorities will interfere with the movements of either himself or his vessel. An officer of the Esmeralda, in reply to a question put to him in the telegraph office at Acapulco as to the probability of an armed clash between the two ships, said the Esmeralda and the Charleston are in a jocular and rather ambiguous way. "Oh, the Itata is already on the way," she has plenty of coal and provisions to carry her to her destination." This remark has given rise to the report that the Itata called at Acapulco and proceeded to the entrance to the harbor where she was steamed for Acapulco, to show the United States authorities off the track.

El Universal, the only government organ that has so far been mentioned in connection with the Esmeralda at Acapulco, says that in addition to the Esmeralda other Chilean war ships are expected to arrive at Acapulco. A telegram from Guatemala states that a schooner captain, just arrived, reports having seen two strange vessels under full sail proceeding in a southerly direction.

SAN FRANCISCO, Cal., May 17.—The Chronicle has received a dispatch from Acapulco from a naval officer on board the Charleston. The dispatch says that the ship anchored Saturday and says in part: "The Charleston arrived early this morning, passing close to the Esmeralda, which was at anchor in the harbor. The Charleston is ready for action, to be ready for emergencies. Late in the day a formal invitation took place between Captain Henry of the Charleston and the captain of the Esmeralda, the latter stating that the Charleston should never take the Itata until the Esmeralda was ready to take the Itata. The fact that the Esmeralda is present will make no difference in the course of the Itata. A fight is expected if the Itata appears."

CHARLESTON WILL GO TO WAR.

WASHINGTON, May 17.—No information has been received at the state department regarding the Itata, or the Charleston. Further orders been sent to the Charleston. Secretary Tracy said tonight that he expected nothing new from the Charleston for at least twenty-four hours, and that the situation remains practically the same as it was yesterday. Commander McCann, he said, would remain as the senior officer in command of the naval force on the Pacific until the Chilean difficulty was settled, and would ultimately return to his command of the South Atlantic section, when Commodore Brown would assume command of the Pacific station.

It is thought the Charleston will take at least two days and perhaps longer to coal, as ships of her class cannot load fast, owing to the location of some of the coal bins. This will mean that the Charleston will be in the vicinity of the Itata for the next two days, the Charleston will likely remain at Acapulco, in the meantime keeping a lookout for the Itata and watching her consort, the Esmeralda. An official of the navy department said tonight that it was not likely the Esmeralda would seek to procure coal at any of the sea coasts on the Central American or Colombian coasts, as these countries would undoubtedly act as the Mexican authorities have done in trying to curtail the neutrality laws by aiding the insurgents to replenish their coal supply or procure munitions of war.

Esmeralda Was Short of Coal.

SAN DIEGO, Cal., May 17.—Purser Walter of the Pacific coast steamship Newburn, when interviewed today, said the Chilean man-of-war Esmeralda was short of coal when the Newburn passed her on the 14th of San Lucas. Officers of the Esmeralda visited the Newburn at San Jose del Cabo next day and said their destination was some port in the United States where they could get coal. They also inquired as to the quantity of coal the Newburn carried, and were informed that the steamer had only a small quantity. Walter says he has no doubt the purpose of the Esmeralda in passing the Newburn up the sea and up the coast from her, but she gave up the idea when she found that the amount carried by the Newburn was so small. The purser corroborated the captain's story about seeing another war ship much larger than the Esmeralda on the night of the 1st. He said that he saw a factory in the distance, for the officers of the Esmeralda kept her whereabouts and did not appear to be in any hurry to leave the coast, as if the ship had been Balmain's Imperial. The officers of the Esmeralda refused to tell the name of the other ship when asked.

LAST WEEK'S BUSINESS.

What the Returns from the Various Cities Show.

SHIPPING GOLD TO EUROPE.

Millions of Dollars in American Coin Exported Weekly.

EFFECT OF THE HEAVY TRANSACTIONS.

Alliance and Labor Leaders Opposed to the Cincinnati Convention—Will Try to Prevent a Nomination.

WASHINGTON BUREAU THE BEE, 513 FOURTEENTH STREET, WASHINGTON, D. C., May 17.—There is a good deal of talk just now around the treasury department about the exportation of gold which has been going so heavily for the past few weeks. Over \$7,000,000 in gold was shipped across the Atlantic last week. The total exports for the year aggregate something like \$37,000,000. This was all in our coin and is to be reckoned into the imprints of other nations. Most of it will soon appear with the mint stamps of Alexander III, and will pass current as the coin of Russia. The Russian government is not, as reported, trying to get her finances upon a gold basis, for it has long been upon that basis. Russia with her vast territory, extensive military and naval equipment, and constant necessity of making large payments for armament, etc., in all parts of the world, has for many years kept on deposit in the three or four principal money centers of the world gold aggregating on the average at \$100,000,000, and so much of our gold has gone to that country of late for the purpose of recoinage to maintain the Russian deposit. The exports of gold have been through the means of foreign governments purchase these certificates at the banks in New York and take them to the sub-treasury there, where the coin is paid out upon demand. The certificates are bought from letters of credit purchased in London, and the effect of the transaction is a constant draining of New York's gold coin supply and an increase of her paper money in London. We do not receive any real money in London. We simply accept London exchange. This would tend to decrease the rates for London and continue to exchange at a premium. The value of the coin and also our interest. It also has the effect of dumping in upon us some of our securities sold in European markets. It is not desirable. It doesn't require a philosopher to foresee from the events in this line during the last four months what the result of the unlimited export of silver would be. We would soon have foreign coin instead of our own gold, gold certificates, or legal tender, and our money would be impossible if we would avoid bankruptcy. To undertake to pay in gold when it could not be commanded, would be ruinous and simple. To permit our money to be the world to exchange silver for our legal tenders redeemable in gold, or our gold or silver certificates, would be disastrous. All of our customers and other users would have a short time to be paid in the silver or foreign countries, and our gold would be under foreign impress. All our money would be from us at the rate of \$75,000,000 a year, and the silver coin is pouring in from every direction and no one wants it. And yet silver is not received in any other way than as a bad or undesirable money. On the contrary it never had a higher standard than now, and never had more respect from the hands of its friends. The lesson being taught this country at this time is that it should throw around its gold vaults and supply of silver tenders such a protective shield as will retain them for the people they were created for, and not lay down the bars and invite the spoliators of Europe.

Representatives Jerry Simpson and Featherstone, Senator Peffer, Dr. McCune and Secretary Beaumont, farmers' alliance and labor leaders, are expected to attend.

They will keep on the outskirts of the national convention which is to be held there beginning on Tuesday. They attend the convention, not for the purpose of securing presence toward its success, but to try and still the life which begins to carry the farmers' alliance into it and commit it to a third party movement. It is a nominal convention which is to be held there beginning on Tuesday.
