NATALIE DRIVEN FROM SERBIA

The Ex-Queen Expelled by the Ministry After a Stubborn Struggle. SHE FINALLY YIELDED TO FORCE.

She's 'o' live—d' complexion kims a' beautiful complexion what's dis he a' blood am pure 'Boto' d' Lo'd dat am salvation fo' Am't Sophy."

All we claim for it is an unequalled remedy to purify the blood and invigorate the liver. All the year round you can depend on Dr. Pierce's Golden Medical Discovery in all cases of blood-taints or humors, no matter what their name or nature.

It's the cheapest blood-purifier sold through druggists. No matter how many doses of other medicines are offered for a dollar.

Why? Because it's sold on a peculiar plan, and you only pay for the good you get.

Can you ask more? "Golden Medical Discovery" is a concentrated vegetable extract, put up in large bottles; contains no alcohol to inebriate, no syrup or sugar to derange digestion; is pleasant to the taste, and equally good for adults or children.

The "Discovery" cures all Skin affections, and kindred ailments.

INDIANA'S STATE POLICE BILL DECLARED TO BE LEGAL.

TERRE HAUTE, Ind., May 19.—Judge Mc Nutt, in the superior court yesterday, held that the state police bill passed by the last legislature applying to Terre Haute, was unconstitutional for two reasons.

The first is because of the five-year residence clause in the eligibility of members of the police department, which the court holds is a violation of article 23 of the bill of rights, which provides that one class of citizens shall not enjoy rights to which other citizens are not entitled.

The second reason is because of the clause providing that the police force consist of an officer on the state police force and the old heads of the city police will remain in charge unless a stay is granted, pending an appeal, which is doubtful.

The decision is awaited with the greatest interest and will be the end of the complicated police muddle which has been existing here for several months.

FRENCH SAVANT'S HORRIBLE DEATH.

ALBANY, May 19.—The French savant, M. Kunkel Herculani, the president of the Ethnological society, who was employed on the government mission of investigating the locust plague in this province, has met a horrible death.

While examining a deposit of locust eggs at the village of St. Didier he was overcome with fatigue and the locusts fell asleep on the ground. While sleeping he was attacked by a swarm of locusts. On awaking he started to rise, but all his efforts proved ineffectual and when finally he was able to rise he found his body covered with locusts. He was a member of the French academy and the author of several valuable works on insects.
