TO THE CITIZENS OF OMAHA AND VICINITY.

Wonderful, Marvelous, Miraculous, have been some of the cures made by

ALL DISEASES OF

Men or Women

TREATED.

TESTIMONIALS:

Two years ago I was attacked with a severe cold which in my belief led on to consumption. I began to take physicians' advice, who said I could not last 6 months. Several others agreed with him. I became so weak that I quit work. I had heard about the Chinese doctor and his cures. He frankly told me that it was only a matter of time and I would get well. I took his medicine 6 months, and now I am perfectly well and hearty. I am working every day and feel perfectly cured. [Signed]
B. H. YOUNG, 2715 N. 24th St.

This certifies that I have been under the treatment of Dr. C. Gee Wo for sick headache and general debility. Could not do anything. I now feel, after 2 weeks' treatment, perfectly cured. I have previously tried all kinds of medicines and doctors. Always relieved only for a time. Anybody wishing to see me can see my healthy appearance by calling at 1502 5th St. [Signed]
MRS. H. LUGE, 1502 5th St.

For the last few years I have been a victim of chronic sickness of several kinds. My trouble began with rheumatism, then hemmorrage of the lungs and finally heart disease completely wrecked me. I sold my property and went to Europe. I spent most of my money trying to get well. At last I returned to Omaha and began to doctor with the Chinese Doctor. He has entirely cured me and today I am grateful in attesting to his skill. I will advise anyone suffering as I did to see Dr. Gee Wo. MRS. W. A. NICHOLSON,
907 18th St.

Dr. C. Gee Wo—Dear Doctor: I write this to thank you very much for your kind and efficacious treatment in my case during the last two months. I have not ever felt like I now do, hale and hearty. My disease, general debility, pains in the chest have all gone. My brothers, family are likewise in good health. I write this and you are at full liberty to publish it in order that my friends may find that I owe my good healthy to you. With best respects, I am truly. M. V. VAN WORMER,
1717 3rd St., Council Bluffs, Ia.

Who is He?

An eminent physician, whose relatives and ancestors, have held most important positions under the Chinese government. His father was a skilled physician, and his forefathers have practiced medicine from generation to generation.

His Training.

Rigid study in medical schools of China, commencing when he was nine years old. Eight years in medical colleges. A diploma of the first rank, from the national medical college, at Pekin.

Read and Consider

Since the doctor's advent in Omaha he has benefitted and cured thousands. Herewith will be found a few sample testimonials. He asks no one to take his word for his wonderful cures, but can refer those who call to hundreds of patients, who will attest his skill.

His Advice.

Never lose hope is his advice, no matter what others have told you. Call on him. He will frankly state what he can do for you. He speaks English fluently, and makes no charge for consultation or advice.

TREATED.

TESTIMONIALS:

Dr. C. Gee Wo—Dear sir: For the past 6 years I have doctored without success for heart disease, pain in the chest and kidney trouble, and since I have undergone a short course of medicine with you I can say I am almost well of them all. [Signed]
JOHN H. HAMMETT,
West Albright, South Omaha.

I have suffered for some time from female weakness and sick headache, and could not get any relief from any source whatever. I was asked by some friends to try Dr. C. Gee Wo, and now I am happy to say I am quite well again. I have, and will in future, recommend his treatment to all my friends, as his cure has been permanent and very much to my satisfaction. [Signed]
MRS. J. E. YATES,
2950 Q St., South Omaha.

To Dr. C. Gee Wo—To Whom It May Concern: I have been troubled with severe pains in my breast and generally feel weak. I was unable to do any work. An old friend recommended me to try your treatment. I am glad to say that I am perfectly cured. I never felt so strong before. My friend's long standing case has also been cured. For this reason I should like all my friends and acquaintances to try Dr. C. Gee Wo. My children and about half a dozen friends have already called to tell me about the good that was done them. I write this without any coercion or request. [Signed]
MRS. J. VAN BUSHKIRK,
328 25th St., South Omaha.

South Omaha, Oct. 14, 1890.—Dr. C. Gee Wo—Dear Sir: I feel very grateful to you for the good you have done for me in the past seven weeks. I am feeling well and strong again, after being treated by some of the best physicians for 8 years and receiving but little benefit. I am willing that you should use my name in any way you see fit if it will be of any benefit to others. I shall always remember you for the good you have done me, and shall always speak a good word for you. [Signed] MRS. T. G. RICE,
Albright's Addition, South Omaha.

Medicines for those Who Cannot See the Doctor in Person.

Dr. Chang Gee Wo.

These rare Chinese prescriptions are put up in bottles for the benefit of those who cannot come to Omaha and see the doctor. For sale by

The Chinese Medicine Co.,

Or any first-class druggist in your town.

Since the doctor has been practicing medicine in Omaha he has received every day letters from all over the country begging him to treat at a distance, or send medicine. He now consents at last to give every one, no matter where he lives, the chance to take his remarkable medicines, consisting of Chinese chemicals, minerals and vegetable substances.

The cost will be insignificant considering the value of these medicines, which for the last two years have cured so many chronic and stubborn diseases that you have only to read the testimonials and be convinced.

The Doctor does not put up one remedy to cure all diseases, and each disease has its own separate medicine, which is perfectly harmless and safe to take.

THE FOLLOWING ARE THE DIFFERENT REMEDIES.

FIRST—
DR. C. GEE WO'S
BLOOD PURIFIER.

SECOND—
DR. C. GEE WO'S
RHEUMATISM CURE.

THIRD—
DR. C. GEE WO'S
CATARRH CURE.

FOURTH—
DR. C. GEE WO'S
Indigestion & Dyspepsia CURE.

FIFTH—
DR. C. GEE WO'S
Sick Headache Cure.

SIXTH—
DR. C. GEE WO'S
Lost Manhood Cure.

SEVENTH—
DR. C. GEE WO'S
Female Weakness Cure.

EIGHTH—
DR. C. GEE WO'S
Kidney and Liver Cure.

If those suffering from other diseases will write to the Doctor at Omaha, enclosing 2-cent stamp for a question blank and book, fill out the same and the Doctor will forward the proper medicine to suit their case.

Remember, he treats all diseases of whatsoever nature.

The price of the medicine is $1.00 a bottle; six bottles for $5.00.

The Doctor charges nothing for consultation or answering a letter telling you all about your case. If he can cure you he will tell you so; if not, does not want your money.

The Chinese Medicine Co., will soon send agents to your city and will give FREE CHINESE CONCERTS.

Look out for their wonderful exhibition on peculiar Chinese instruments.

For medicines or information address,

DR. C. GEE WO, OMAHA, NEB.

Headquarters and main office, Omaha, Neb. Chinese office, Pekin, China.

THE LAST OF MAY'S SPORTS.

A Breezy Batch of Gossip About the Great National Pastime.

WHISPERINGS FROM THE WHEEL.

Turf and Pugilistic Notes—The Kennel Club—The Trap and Gun and General Miscellany.

The Omaha kennel club held their meeting as announced Tuesday, to complete unfinished business left over from the regular monthly meeting held Tuesday, May 12. Treasurer Max J. Baer handed in his resignation much to the regret of the club. Mr. Baer still retains his membership, however, but could not give his time as treasurer on account of his absence from the city. In resigning Mr. Baer reccommended John H. Short as a worthy and capable man as his successor.

John T. Evans, president, put the resignation before the club which was accepted and John H. Short was elected to fill the vacancy by a unanimous vote.

In the new treasurer the Omaha Kennel club has secured a thorough fancier and gentlemen, who has been connected with dogs and dog shows for many years. His fancy runs to Beagle hounds and Cocker spaniels, in which he has already made a success. Many good ones having been bred by him at Rockford, Ill. Mr. Short has also officiated as judge several times at bench shows in the east and is a good all around dog man. He has taken up his home here in Omaha, being proprietor of the Grand bakery, and it may be hinted that "Jack Short" will stop work any time "to talk dog." It would be more than unjust to pass over without mentioning Mrs. Short, a lady who takes as much pride and interest in fine dogs as her partner and by whose care and attention some of Jack's good ones were saved.

The last number of the Canine World received at the Omaha kennel club room has a beautiful colored portrait of Cyril Jackson, secretary of the Bath, England, show—always a successful fixture. Last week this doggy paper had a picture of "Champion Buckie," a field spaniel. To say that these life-like portraits are interesting is not enough. The club is preserving them in a scrap album, receiving one each week, will soon make a collection. These pictures can be seen at any time.

The secretary wishes to say that the constitution and by-laws of the Omaha kennel club are now ready for distribution and he shall be pleased to mail a copy to any person upon application. Address, Secretary O. K. C., 213 South Fourteenth street, Omaha, Neb.

Meeting of the Poultry Club.

The Omaha Poultry, Pigeon and Pet Stock association holds its regular monthly meeting Monday evening, June 1, at 8 o'clock sharp, and as there is important business to come before the meeting the president calls on all members to be present, so that they may vote on all questions to come before the association. Any now members wishing to join are cordially invited. Rooms 213 South Fourteenth street.

That Wonderful Struggle.

The story of that great twenty-two inning battle out at Tacoma has arrived from the northwest. It was the longest championship game on record, although Harvard and Manchester played twenty-four innings without a run in 1877. Before this last remarkable contest the longest championship match was played at Providence August 17, 1882, between the Providence and Detroit national league teams, eighteen innings, score 1 to 0. This 0 to 5 conflict was no pitchers' battle, as one would naturally suppose, although the work of little Neal Donaghue has never been equaled by any pitcher under any circumstances in a professional contest. Time and again singles and doubles were cut off by the outfielders. There were no circus catches, but honest put-outs after hard sprinting and excellent judgment. This kind of play was not confined to any individual player. The hitting was as great a feature as the fielding. Look at the twenty-three put-outs by the Tacoma outfield and the sixteen by the Seattle outfield. The excitement was intense, and at each meeting of the ball and bat the crowd would arise as one man and stand with open mouths until the man was disposed of. The score:

TACOMA.	R.	B.	P.	A.	E.	SEATTLE.	R.	B.	P.	A.	E.

Seattle.... 2 1 0 0 0 0 0 0 0 0 0 0 1 0 0 1 0 0 0 0—5

Earned runs: Tacoma 3, Seattle 2. Two-base hits: Routeliffe, Fuller, Maskrey, Shoeneck, Zimmer. Three-base hits: Donaghue, Keenan, Sacrifice hits: Cody 2, Fuller 2, Herman 2, Shea, Powell, Newman, Zimmer, Keenan. Double plays: Shea, Zimmer and Shoeneck 2. Struck out: Tacoma 3, Seattle 5. Stolen bases: Tacoma 5 Seattle 5. Base on balls: Tacoma 13, Seattle 4. Left on bases: Tacoma 22, Seattle 11. Passed ball: Cody. Hit by pitched ball: Routeliffe. Umpire Ed. S. Hengle. Time of game: Three hours and thirty-five minutes.

Breakfast for the Cranks.

Sioux City is playing a very stiff game in the field.

Tommey has a game leg, but he plays ball all the same.

Old "Cy." Sutcliffe is a western favorite all along the line.

John I. Rogers was anxious to keep Husted when it was too late.

Kid Baldwin is catching as well as ever. He is also as fresh as ever.

Watkins' "Apostles" want to brace up. It's never too late too mend.

The Sleepy Hollows intend to have as good a team as there is in the city.

It is about time the Eden Musee "freaks" were making their appearance.

Jack Pickett's arm is getting all right again, and he can throw overhanded.

The West Omahas have a great infield in Kleffner, Patterson, Bolan and Camp.

Kennedy and Peterson are doing the pitching for the Shamrocks and doing it well.

Chub Collins, the Western association umpire, has been sued for breach of promise.

Kansas City released Webber after a trial of one game. Ae has signed with the Joliet team.

Hogriever is learning to pitch. He is said to be able to pitch a ball through a six-inch plank.

The Shamrocks give a benefit ball Wednesday, June 3, at Forest Hall, Sixth and Pierce streets.

President Speas says he saw Shugart play ball in Joliet last summer and wanted to buy him then.

Elmer Smith is doing the hardest hitting in the Kansas City team, and Pickett is close up to him.

Kansas City is in the soup. Manning's crack pitchers are an easy mark for opposing batsmen.

The slugging that has been going on in the west lately is something to make a man's hair stand on end.

Big Billy O'Brien is doing great work for Denver. He is fielding well and his hitting is immense.

Connors, pitcher of the Union Pacific team last season is playing right field for the Shamrocks.

Conley continues to put up a good second base game for St. Paul. His batting is his weakest point.

Pitcher Buckley has been released by Milwaukee, and Pitcher Dalton of the St. Pauls has been let go.

Fournier's time came and he was pounded hard. Well, it comes to all of them if they'll only be patient.

Why don't some team secure "Spud" for a pitcher. Spud has good curves and a drop that would fool any batter.

The Shamrocks secured a good one in Moore, first baseman. He is a good all-round player and a splendid batter.

Billy Van Armen, the shortstop of last year's Eden Musee team, will leave the city shortly for Washington territory.

The Western association sluggers like to run up against sweet, juicy pitchers. All the boys are fond of Kansas City Pears.

A meeting will be called shortly at which it is desired that every team in the city be represented. Notice will be given in THE BEE.

Buckenberger's Sioux Citys are no snap for any team. The team is drawing great crowds, considering the misfortunes of the team.

Red O'Rourke is fielding well for St. Paul, but he is away off in his batting. He was always considered a heavy hitter till this year.

Hart has pitched another great game for Sioux City against the Denvers, letting the Mountain Lions down for four scattering hits.

A great many of the clubs think the are the Tennys in the Western association race. But they are all pretty good horses, rain or shine.

"Rabbi" Clark says he is in it this season harder than ever. Here is a chance for a team wanting a hard-working player and a good batter.

The race is a great one in the west, and the fellow who thinks he can pick the winner at this stage of the game has nerve enough to rob a coach.

Tebeau is a great deal like Anson; when the umpire doesn't give him the earth, he is satisged with two-thirds the best of it and what's left over.

Minneapolis has resurrected Billy Burdick. He was buried pretty deep, but the demand for a semblance of a pitcher induced the Minnies to dig him up.

Umpire Knight seems to be doing nicely. Alonzo is an educated man, having received a fine education during his term in Girard college, Philadelphia.

Johnny Sowders is not pitching with the speed he used last year, but Manning thinks he will come around all right. He has been overworked thus far.

The West Omahas have lost the last three games played not on account of poor playing, but a little hard luck. When they get round to it look out for them.

The Kansas City players are away off in their team work. If Manning doesn't make his boys take a brack pretty soon his reputation will suffer.

Old Norman Baker, with the Omahas this year, seems to have caught his second wind. There is not a pitcher in the Western association doing better work than he.

Did you see Lincoln take off its coat and sail into Milwaukee and Sioux City? And did you notice the further? Davo is a b-a-a-d man when he gets riled. It was a case of root hog or die, and he rooted.

The way little Shugart hits the ball is a caution to snakes. He seems to get anywhere from three to a dozen hits in a game, and doesn't seem to give a continental whether they are singles or home runs.

Big Swartwood of Sioux City is no young blood. He played with Hollinger's Detroit team twelve years ago—1879. Em Gross, Saulisbury, Libby, Barclay and others were members of Hollinger's band the same year.

Oh, Jackey, Jackey Rowe, if you could only throw you'd be up on top as a good back stop and get a rattling show. But, Jackey, Jackey Rowe, you gave out years ago; you were then in your prime, and caught sublime in dear old Buffalo.

McClellan is playing well for Denver, where they give prizes for home runs. Tebeau won a hat for the first homer, Curtis received a handsome cane for the second and Short Stop White received a silk umbrella for scoring the third four-bagger.

It's rather amusing to hear Denver enthusiasts speak about "Fournier's wonderful command of the ball." In a recent game Fournier topped the record of the season by giving seventeen men bases on balls. Wonderful command, indeed!

In Jim Manning the Kansas Citys have a bustling, active, ambitious, enthusiastic captain, and one of the most intelligent and gentlemanly ball players in the profession. It takes a good many hard knocks to down that kind of a player, and he is bound to keep his club "in it" to the very end.

Husted has signed to play with Kansas City on Jack Pickett's recommendation. They played together in the Philadelphia Brotherhood team last season, and Pickett says that Husted will make a good man if given plenty of work. The Philadelphia league club had its net stretched to corral Husted, but Kansas City gave up the most money and bagged the game.

Whisperings from the Wheel.

Have you looked in at the library lately?

Holyland Smith, the Safety King, reels off a mile in 2:20 this year.

Run to Calhoun today. Start from the club house at 7:15. Roads are in fair condition.

There is about $15,000,000 worth of 'cycle property in the United States. This is a recent estimate.

Willie Windle rides a pneumatic ordinary racer this season, the first one brought to the United States.

Have you seen one of the new dog paralyzers? They are just what 'cyclists have been looking for for some time.

Helena, Montana, has twelve lady riders, Omaha has six, just half the number, yet we are called a progressive city.

Minneapolis has the bike fever bad. The latest is a permit from the mayor allowing cyclists to use the sidewalks during muddy weather.

The house committee ought to make some changes in the club house. Siefken and his bugle ought to be abolished or locked up in the wheel rooms.

At 10 o'clock this morning S. J. Black of Cleveland, O., starts on his trip around the world. He will ride from Cleveland to San Francisco and take the steamer from there to Tokio.

The new membership committee are hustlers. Come around and attend the next regular business meeting and listen to the long list of new members they have secured.

We will have a state meet this year, probably about July 4, or later in the month. How does Columbus strike you? It is "right in line," and the hotel accommodations are "out of sight."

H. H. Rhodes, the local consul for Omaha, has returned from an extended trip through the state. Mr. Rhodes has been hustling up league memberships and has added quite a number to his string.

Heyn, the photographer, has been having a siege of it the last few days on account of the club members who were desirous of posing as Greek statutes, should not wonder but more than one lease has been broken in the operation.

The bones of Baron Drais, the man who first concieved the idea of a bicycle, were exhumed several days ago and placed in a marble tomb in one of Germany's largest cities. 400 cyclists of both sexes followed the remains to its last resting place, mounted on their wheels and wearing the uniform of their respective clubs.

Nebraska division has the following new members this week: S. R. Cooke, Omaha, No. 24,317; R. H. Calkins, Omaha, No. 24,443; H. H. Meehan, O'Neill, No. 24,444; R. M. Thompson, Wilber, No. 24,446; Joe Melcer, Wilber, No. 24,445; W. W. Bonnor, Wilber, No. 24,447; M. W. Cochran, Wilber, Mo. 24,448

The lamp ordinance is being rigidly enforced by the authorities in Washington, Buffalo and Boston. Wheelmen using their mounts after dark are compelled to carry a lamp or lay themselves liable to a heavy fine. It is a good thing for both pedestrian and cyclist. Many narrow escapes are had nightly right here in our city which in some cases might result seriously for the parties concerned.

Movements of the Amateurs.

The Falconers play at Blair again today.

Kid Miller strikes out from eight to fifteen men every game.

Bolan is covering shortfield for the West Omahas in great shape.

Grandjean will be seen in the box for the West Omahas before long.

The West Omahas play their second game at Missouri Valley today.

Williams is pitching a good steady game for the Crane company team.

Visiting teams get a hard deal when playing at Plattsmouth, so it is said.

The Cranes and Nonpariels play today, and Carrigan says he is bound to win.

It is said that Missouri Valley will lose the services of pitcher Beymer this season.

What has become of that great catcher, Bittenger, who was to join the Crane company team?

Creighton's back-stop work is fine. He has seven offers to join other teams, but will not leave Omaha.

Kleffner is the slickest first baseman in Omaha. The West Omahas made a great find in him.

Lou Camp is putting up a great third base for the West Omahas. He is by far the best third baseman in the city.

The West Omahas would like to hear from Fremont, Nebraska City, Plattsmouth and other towns having ball teams.

Blair seems to be in it this season. It is a good thing they are. They support a winning team, but a losing one draws nothing.

"Win" Camp, Omaha's kid pitcher is pitching a great game for the Seattle team. Win would be a good man for next season's Omaha team.

Plattsmouth has a good team this season, but they need a catcher. Sam Patterson is pitching a strong game, and the rest of the team hold their end up in good shape.

Stephenson seems to be pitching in hard luck. No team this season has secured over eight hits off him, but he seems to lose the game in the last two or three innings.

The Cranes and West Omahas will have a go shortly at the ball park. The West Omahas have defeated the Cranes once this season, but Carrigan's lambs are in fine condition now, and the game should be a hot one.

The West Omahas would like a game at McCormack park with the Nonpareils, winner to take all gate receipts, loser to pay expenses. The Nonpareils have defeated the West Omahas once this season and the latter team say they can't do it again for money, marbles or chalk.

Miscellaneous Sporting Notes.

Matsada Sorakichi, the Jap wrestler, is lying dangerously ill of bronchitis at the Roosevelt hospital in New York. There are but slight hopes of his recovery.

Prof. John A. Whitman, better known as "Ajax," the Police Gazette champion heavyweight tooth lifter, is to attempt to push a freight car, weight between 34,000 and 36,000 pounds, at the Hudson River railroad freight depot in New York at 10 a. m. on Thursday next.

John Teemer is following up Jake Gaudaur and writes to Richard K. Fox: "I have repeatedly challenged him to row me for $2,500 a side on any terms that are satisfactory to him, but he has kept still for reasons best known to him, but I am of the opinion that he is afraid to meet me."

The body of Boron Drais, who is supposed by some to have invented the bicycle, and who died some thirty years ago, was removed the other day from an obscure resting-place and given burial among the tombs of illustrious Germans at Carlsruhe. A funeral cortege of about four hundred persons of both sexes, mounted on bicycles of all classes and wearing the uniform of their respective clubs, followed the body to the grave.

The directors of the California Athletic club held a meeting last night, at which the award in the Corbett-Jackson contest was again under consideration. The directors refused to amend the resolution adopted after the fight by which the men were each awarded $2,500. The directors also offered to give a purse for another contest between Corbett and Jackson. Jackson expressed his willingness to fight again and offered to cancel his arrangements for a match with Goddard in Australia if necessary. Corbett refused the offer and said he did not want to fight again under the auspices of the California Athletic club.

The prize fight which came off here yesterday between Choynski and Tooley was one of the shortest combats ever recorded in the history of the ring. The result showed that Tooley was no match for Choynski, for the latter knocked him out in a minute and eleven seconds. From the moment the men entered the ring Choynski adopted bustling tactics and in a short time he drove Tooley to the ropes. When the men faced each other in the second round it was further demonstrated that Choynski was the superior of Tooley. The latter was completely overpowered, and when eleven seconds of the time allotted for the second round had expired Choynski made a dive at Tooley and knocked him completely out. Choynski, who was the favorite in the betting at odds of five to four on him, received no punishment at all.

An Eminent Authority.

"I believe the Ferro-Manganese water of Regent springs to be the best tonic in the world." Dr. W. P. Mason, Prof. Chemistry, Rensselaer Polyt. Inst. Troy, N. Y.

SINGULARITIES.

A boot sole, the bottom covered with iron, was found imbedded in a chunk of coal at Benton Harbor the other day.

French scientists are puzzling over a spider which was discovered in a cavity in a stone. It is estimated that the stone must be at least 4,000 years old; this notwithstanding, however, the spider is quite lively and very youthful in its antics. It is blind and has no mouth.

Nancy Hatch, a Yazoo, Miss., negress, began to turn white seven years ago, and now she would almost be taken for a woman of Caucasian descent. Almost the only remnant of her former black skin is a dark line about her neck.

Two months ago Mrs. William Deninger Watson of Jeffersonville, Ind., gave birth to a son. He weighs now only two pounds, is sixteen inches tall, his arms are eight inches in length and his head ten and one-half inches in circumference. His face looks like that of an old man and is covered with hair. The child is healthy.

A Baltimore mulatto girl is turning pink in spots, and has gone to a hospital for treatment. The spots increase in size in the spring and fall, at which time the girl says she feels very languid. At these periods she also loses her appetite. Her hair is also undergoing a change, but here the colors, which appear in spots, are pure white.

A curious phenomenon has been reported from the village of Kirnujarwi, near Paja, Lapland. During the winter the earth became spontaneously heated in many places to such a degree that the snow and ice melted at those places, and it was impossible to touch those spots without burning one's hand. The cause of this phenomenon is not yet explained.

There is a horse on James McCloud's farm in South Dakota which has eight feet; otherwise it is perfectly formed in every respect. Not until the fetlock joint is reached in the descent from the shoulder to the foot is there any difference between this horse and any other. At the pastern joint, however, the branch begins, and two perfectly formed hoofs are found on each of the four legs.

A curious phenomenon is reported from Jewett City, Conn. George Rood was recently struck by a thunderbolt and badly burned, and suffers intensely still. His whole body is so charge with electricity that when he puts his hands together they stick, and only by violent rubbing can they be separated. If his feet touch it is the same. The severe burns are beginning to heal and his appetite is good, but he cannot stand up.

A lobster recently caught in Belfast Bay, Me., weighed twenty-three pounds and measured thirty-seven inches from the end of his tail to the end of the longest claw, twenty inches around the body and seventeen inches around the large claw. Barnacles adhered to the claws and body. The monster was too large to enter the trap, but as the trap was drawn up became entangled in the heading, and was safely landed in the boat.

A well known family in Minneapolis are distinguished by a similar birthmark, said to have been borne by every member of the family for the past two hundred years. It is a small gash like a knife wound at the base of the neck narrowly escaping the spinal cord, which resembles a fresh stab, with raw lips, refuses to be healed, and at times bleeds profusely and even alarmingly. It is about three inches in length and varies in depth from an inch to an inch and a half, and as the bearer grows older and becoming more angry and occasions greater loss of blood. Physicians pronounce it to be of a cancerous nature, hereditary and remarkable in the history of medicine.

The rotifer, a microscopic animal, was first discovered by a Russian microscopist, next found twice in Philadelphia, once in Illinois, and some years ago in Trenton. It has now been rediscovered in New Jersey. The creature is blessed in having two stomachs, which it can fill with other animals, and apparently enjoy itself by digesting them in spite of their wriggling. The rotifer can only rest on a small leaf or other object, hold its mouth widely open, and waits for Providence to fill it by means of some wandering animal that shall blunder into the trap and be done for.

EDUCATIONAL.

There are 40,000 women studying in the various colleges of this country.

America has 441 educational institutions with the right to confer degrees.

Of the 363 colleges of the United States 204 are co-educational. Women at present constitute 56 per cent of the under-graduates in this country.

The student's yearly expenses at Stanford university, Cal., will be less than $300.

The oldest college in North America was founded in 1531—the college of St. Ildefonso, in the city of Mexico. The next oldest is Laval college, Quebec.

Among all the colleges for women in this country the aggregate sum expended annually for needy women is but $53,000, while Harvard alone expends $70,000 per annum in assisting its boys.

The agricultural experiment station of Delaware college conducts a fruit farm adjoining the college at Newark. Australian peach trees are being distributed throughout the state for propagation.

The Harvard semitic museum is a new department founded by J. H. Schiff of New York, with a gift of $10,000 for the purchase of casts, manuscripts and other objects illustrating semitic literature and history.

The total number of pupils enrolled in the public schools of Canada is 468,0.5, average attendance 235,790, percenage of average attendance 51. In 1879 the average attendance was 45 per cent of the registered attendance, in 1888 it was 50 per cent, and in 1889 it was 51 per cent.

Yale university selected Prof. Edward L. Curtis of McCormick Presbyterian theological seminary, Chicago, as professor of Hebrew language and literature in the Yale divinity school, and Frank C. Porter as professor of biblical theology. Prof. Curtis is a graduate of Yale in the class of 1874.

Bowdoin college is to send an expedition of students and teachers to Labrador under the direction of Prof. Leslie A. Lee, who a few years ago conducted a similar expedition to the straits of Magellan. The object is the collection of birds, fish, and lichens found only in high latitudes, and the specimens are to be added to the Cleveland cabinet in the college.

The London board of education has appointed six women, at a salary of $400 each, to visit schools. Heretofore lady visitors have been regularly employed but without remuneration, the position being honorary. The visitors will be expected to put in as many hours' work as the teachers and to furnish weekly reports to the board accounting for every hour of service during the session.

Prof. Harper states that the building fund of the Chicago university has been enlarged recently by $500,000, making a total of $1,250,000. In addition to its building fund is the endowment fund of $2,000,000 for the support of professors, scholarships, etc. The trustees have decided to purchase additional land. The Morgan Park theological school is to be made a part of the university. The erection of buildings for the academical department will be begun at once, and the classical, theological departments will be open in 1892.

President Horace Bumstead has issued an appeal in behalf of Atlanta university. He states that 600 colored pupils are being trained this year in the university, not in the branches of the higher education, but in English studies, mechanical arts, in household industries and in Christian living. They are being trained, the majority of them, with special reference to service as teachers and missionaries among their own people. The university needs at least $40 for each student to cover the cost of educating them. At the present time 150 students are unprovided with these scholarships.

It is intended to make the work of this summer at Chautauqua thorough and scientific throughout. About half the courses are arranged for ten hours' recitation each week, and the rest for five hours; some classes meet twice a day and others once. The purpose is that as much shall be accomplished in the six weeks session at Chautauqua as is usually accomplished in one subject during a college term. This is to be done by concentrated study, no student being expected to take more than one or two courses. The work in the college includes the English language and literature, German, French, preparatory and college Latin, preparatory and college Greek, physics and chemistry, mathematics, history, political economy, geology, etc. In the schools of sacred literature instruction will be given in the bible in English, Hebrew, Greek and the ancient versions; and in the N. T. Greek, Hebrew, Arabic, Syriac and Assyrian languages.

Mothers will find that Haller's Pain Paralyzer is a sure and pleasant cure for diarrhoea.
