Rocky Islands Thrown Up in the Atlantic Ocean.

LAND OF MANY BEAUTIFUL FLOWERS.

An Omaha Business Man Tells of Houses of Rock, of Oleanders Sixty Feet High and Other Wonders.

O. H. Curtis, president of the Omaha rubber company, and Mrs. Curtis have just returned from a trip to the Bormuda Islands. They first visited Boston, Philadelphia and New York, and after spending two months in the Bermudas they returned, visiting Washington, D. C., and the eastern citles.

Mr. Curtas, in speaking of his trip, rematked: "I have found that in the east the feeling in business circles was not any better, if as good, as in the west. Money is rea-Bonably casy in New York, but prices are very close, and every one is complaining of small profits, due to the cutting in prices, on til nothing is left.

"It seemed to be the general opinion out side of the importing houses, which, of course, are foreign in their sympathies, that as soon as the McKinley bill gets to working and people can see its results that they will realize that it is a good thing, and that both laboring men and constimers will be benefited.

fited. "I noticed that New York city is rapidly developing in the way of autidings. In the upper part of the island especially a large number of high and substantial blocks are being built. In spite of their much talked of elevated roads, which carry a half million people daily, they are sadiy in need of better transportation facilities. The question of constructing underground roads was being discussed. discussed.

constructing underground roads was being discussed. "A steamer for Berminda leaves New York every week, the trip consuming sixty hours. During our trip from New York the weather was perfect, and, until we reached the gulf stream, calm. In crossing the gulf stream it is hable to be rough, but after that the bal-ance of the voyage wis very pleasant and the temperature gradually rise warmer. We arrived about 6 o'clock at the entrance of the narrow passage. The whole collection of islands is a series of coral reefs raised out of the water. These roefs extend under the water for a distance of twenty miles this side of the islands and at a depth of two to the feet below the surface, making it entirely unnavigable for ships except in one narrow passage. This gives peculiar seone narrow passage. This gives peculiar se-curity to the islands as a naval station and the English government appreciates the fact and prevents the improvement of any other channel. The channel is marked by buoys and a pilot is always required to take a ship in, and even the ships do not attempt to go in after dark. The channel is protected by submarine mines and by forts on the islands. The English government constantly keeps from two to three thousand soldiers on the islands. At present the grenadier guards are stationed there, where they were sent for insurbordination. They are a fine looking body of men.

'They have the largest floating dry dock wards in the world, which were towed over the water from England and which can take up the largest man-of-war in the navy. There are complete facilities for repairing ships and it is the coaling station for the English

It may be of interest to know that England has passed a law proventing the holding of property by any alien. "As regards the inhabited islands there are

"As regards the inhabited islands there are four situated something in the shape of a fish hook and joined together at the ends by bridges, so one can drive a distance of about twenty-five miles, which is the length of the fishbook. The width of the islands varies from a tew rods to three miles at the widest root at each of a substance shows that is water. point and as a rule the shore line is rocky. being honeycombed by the action of the

water "The formation of the islands is entirely of coral reefs of a white color, soft as chalk. In quarrying it for building purposes it is sawed out in blocks with a crosseut saw. These blocks after exposure to the air become harder, and all of the buildings on the islands

mon to represent their interests in the Real NIGERARA, Neb., May 31.-[Special to THE BEE -A new prairie country is never more so selected will then please call at the room delightful than in the months of May and of the association, No. 202 New York Life June. The prairies of green are gaily painted with innumerable flowers, exhibiting scription lists and authority for circulating the motiey confusion of colors of a Turkey and making collections under the same. All additions are expected to join in this great movement and owners should lose no carpet. The rivers have coased their wild fury, the beautiful spots along the great streams present the appearance of mingled grove and garden, and the trees are often a rolling. Who will the leaders be! Let reports of prompt and efficient action come in overed with clambering grape vines in plossom, which perfume the air.

GEORGE P. By order of the executive board. GEORGE P. BRAIN, Secretary. The object of the Real Estate Owners' as-sociation of Omaha will be found plainly The Ber correspondent, taking advantage of this glorious season, has just returned from an extended trip in Boyd county, situated north of Holt, west of Knox and formstated in article 3 of its incorporation papers. ing the northern boundary of Nebraska east of Keya Paha county to the Missouri river. The Niobrara river forms its southern boundary and the range line between ranges eight and nine, the northwestern portion of Knox and the Missouri river being its east-

as follows: The general nature of the business of said corporation shall be to secure the location of manufactories and other business enterprises in the oity of Omaha. to advertise the said oity with a view to increase thereto the influx of capital and citizens, and by organized ef-fort, through fair and lawful means, to guard against the perpetration of frauds in public office and extravagance and waste in public office and extravagance and expenses of civil plans for public improvements, and to ald in securing all just and needed have for the equal protection of labor, property and heath, and at all times and by all lawful means to advance the best interests of the city of Omaha. Knox and the Minsouri river being its east-orn boundry. Leaving Niobrara, crossing the combina-tion bridge built at an expense of \$8,000, the government road to Fort Randal and west-ern agencies is left, and the beautiful valley of the Ponca is taken. Indians who have secured their lands in severalty, thrown uside the weapons of war and taken quite apily to the hoe are seen busily at work planting core, and on one farm five Indians were putting in their best licks planting with DeWitt's Little Early Risers; best little corn planters. Passing up Ponca river the new farms that

ills for dyspepsia, sour stomach, bad breath are being opened up are truly surprising. It must be remembered that outside of the few Indian farms and the ones held by the must be remembered that outside of the few Indian farms and the ones held by the white relatives, this new country has been open to squatter settlement since last Augost only. The strip lying north of the Niobrara river has since 1882, when ex-Senator Saunders succeeded in getting the annexation bill through congress, straichten-ing the state's northern boundary, been in the ludian title and was not to be a part of the state until that title became extinct. The Great American Hog Takes Possession The concert at Hanscom park yesterday afternoon attracted the usual concourse of people. The roadways through the park were taxed to their utmost limits by the immense throng of vehicles and thousands of the state until that title became extinct. The last Indian treaty prought that about, and people stood or sat within hearing distance have not all reached the land office yet, four townships only having been declared ready to the selections of the survey have not all reached the land office yet, four townships only having been declared ready for films. A great many remarks were heard by THE Ban reporter with regard to the seating accommodations. The people would like to see about three times as many chairs or sottees near the band stand on the hillsides, where indies could sit and enjoy the music. Many indies were obliged to stand or sit on the

for filing. All along the route the industrious "new settler" is seen with his wife and big boys breaking, corn planting and pulverizing the new-turned sod. At Lynch, nine miles above Barker's, we find a good location for a town. It lies very pretty to the south for a town. It lies very pretty to the south, a beautiful creek, known throughout the reservation under the prohibition title of Whisky creek, flows from the north toward Fort Randail and it foll be incommendue project The source and is fed by innumerable springs. The coun try surrounding these valleys is beautiful, while the only passage way for the proposed extension of the Omahn line to Fort Randall s by this valley. The route from here is taken northward

over the prairies. A vast plateau stands out before us, with the earth of black, the house of sod or new lumber dotted in every direc-tion. We soon enter the Bohemian, Swede and German settlements. Here, as before, the old and young of both sexes are at work. Fencing is going on, tree planting has not been forgotten, and the thrifty wife has her garden and chickens at the door. The de-

broots water at nearly every house along the route is drawn from wells only from twenty-five to thirty-five feet in depth. From Lynch for about ten miles the route has been north of Ponca river, which passes uite in the center from east to west. Cross-

duite in the conter from east to west. Cross-ing this creek, it is found to be broken and divided quite naturally from the west por-tion. A great hill on each side of this crossing, with a dry creek running north and south and entering the Ponca valley,

the opposite hilitop a new prairie town meet

property.

the eye. It is Spencer. This town had last week a grocery store and a saloon. This week

The "CONTINENTAL" BOYS' DEPARTMENT.

This week you can buy better goods and at lower prices than at any time since we have been in business. Already many lines of fine cheviot and cassimere suits are broken in sizes and have been consolidated into one special bargain line at \$5.00, all sizes. At \$2, \$2.50 and \$2.75, we are showing goods which cannot be duplicated in this city.

In boys' suits, ages 13 to 18, don't buy until you have seen our all wool cheviot suits, in nobby mixtures, at \$7.50, \$8 and \$8.50. At \$10 we are showing the most complete line embracing fine styles which are usually retailed as high as \$15,00. Remember we sell the best.

# SHIRT WAISTS.

We will sell this week 50 dozen of Star Shirt Waists, all new patterns, at 75c. And a large line of waists, suitable for school wear, at 35c.

# Continental Clothing House,

this land lies too high for farming at present. but for cattle it cannot be surpassed. It is sparsely settled all along the county line unil nearing Niobrara. Exclosured here induced in the gubernatorial context while he ntill nearing Niobrara. Ex-Governor Boyd may look with pride upon Boyd county, which in all respects is one of the finest counties in northern Ne-braska, rivaling in fertility any of its western neighbors.

De Witt's Little Early Risers. Best little pill ever made. Cure constipation every time. None equal. Use them now.

## FOOTLIGHTS AND FOYEK.

The voting contest on the Thomas programmes proved to be quite a novel and pleasing scheme. Over one thousand votes were cast up to Saturday evening, when the contest ceased and, as given in the advortising columns yesterday, the number one programme will be rendered in the afternoon and number two in the evening, this being the final choice by quite decisive votes. Several of the disappointed ones, however, it is said, will endeavor to get one or two of the number three selections given, in addition to the regular programmes, and on Mr. Thomas'

arrival will send in a petition to that effect. The arrangements for ticket selling, taking, and ushering, as well as all details connected with the house, are in competent bands and the public can rest assured that every care is being taken to satisfy and fully accommodate the large numbers expected.

Miss Camille Cleveland will join "The Bottom of the Sea" here on Friday next Bottom of the Sea" here on Friday hext This celebrated marine speciacio will be seen at the Grand on Friday, Saturday and Sunday evenings next, with Saturday and Sunday matinee. The special scenery is far ahead of anything of the kind ever seen in Omaha. This first-class attraction will be seen at popular prices.

Jurymen Called for the Next Three

with the exception of two are built from this material, roofs as well as walls. They are all whitewashed, so that one would think from first glance that there had been a sno storm. All the water used for domestic pu poses is caught from the rainfall and each dwelling is required by law to have a cistern of a certain capacity and to keep it and the roofs periectly clean. These white houses, scattered among the green cedars, the tree of the islands, make a pretty appearance.

"The islands are cut up by roads which were made by the convicts sent out by England years ago and are cut out through the soft rocks, the same as our streets in Omaha have been cut in the past, only the banks at the side still stand in some places to a height of seventy feet. The sides of the reads have a weird appearance in many places owing to the irregular position of the strata of the rocks which slant in every direction. Most of the roads are lined by a hedge of oleander trees which grow to a height of fifty or sixty feet and when they are in blossom the sight is beautiful "Flowers of all kinds abound. The easter

1dy is the typical one and is raised in field of sometimes many acres in extent, practically supplying the world with bulbs. The blossoms are sent at onster time to the large cities of this country and England.

cities of this country and England. "They also have some of the finest roses to be seen any place. Geraniums attain an im-mense growth. When trained to a trellis they grow as high as eight or ten feet and when filed with showy blossoms of a propor-tionate size the sight is a beautiful one. "The principal industry is the raising of onlose notations towaters and the

of onions, potatoes, tomatoes and the easterilly, the importance of each being in the order named. These productions are most all exported to New York. A peculiar thing about this business is that the inhabitants export all their home grown potatoes t New York where they bring a big price and in return get New York potatoes for their own consumption. Bananas are raised to quite an extent, and of good quality for home

use. "The soil cultivated is almost all artificially

made and the amount therefore is limited. "Hamilton is the leading town, and the point where the ships land. There are several reasonably good stores of various kinds St. George is the next most important town St. George is the next most important town, and was the original settlement, being over 140 years old. The total population of the islands is about 15,000 of which two-thirds are of the neero descent. These colored people form an unusually bright and educated class, having been freed more than fifty years ago, since which time they have had excellent school privileges. "A large source of income to the residents is from the pleasure seekers from the United

is from the pleasure seekers from the United States, who visit there during the winter, it being quite a resort for New Yorkers. Something over a nillion a year is spent by Eng-land in paying its army there.

"During the winter season the town of Hamilton is very lively. In the way of minusements, regular weekly dances are given by the leading hotels, besides private parties afternoon teas, receptions, theatricals, etc. etc These receptions are liable to be full dress affairs, and the people there are very showy any stylish.

"The islands are upon the whole well worth a visit, containing so much to interest the visitor from the states."

Rolls, carbuncles and eroptions of all kinds are nature's efforts to throw off poison from the blood. This result may be accomplished much more effectually, as well as agreeably through the proper excretory channels, by the use of Ayer's Sarsaparilla.

#### Will Banquet,

The Club, which has met fortnightly at the Lininger art gallery during the past year, will close the year with a banquet at the Paxton on Tuesday evening, June 2.

Small in size, groat in results: DeWitt Little Early Risers. Best pill for Constipa tion, best for Sick Headache, best for Sour Stomach.

#### Sunday Morning Sneak.

Early Sunday morning sheak thieves en sered the residence of Meyer Hellman, 2405 St. Mary's avenue. A screen door was cut and the inner door was opened by means of skeleton keys.

Once inside the sneaks started to gather

Operatic Chorus-November 2, from 8 to makes this portion of the road the only unfa-vorable one along the route. After gaining 0 p. m.

The object of the National conservatory of nusic being the advancement of music in the United States through the development of American talent, applications for admission into the classes of the conservatory are It has two saloons, a feed store and a buffer ing for a printing office. It is owned by Hon, H. E. Bonesteel, J. A. Cooley. Henry Storm of Niobrara and Hon. Sanford Parker and Barrett Scott of O'Neill and Ed Whiting, a ranchman on the Niobrara river, being a sort hereby invited. It is expected that positive apitude shall be shown by the candidates for admission without regard to the applicant's stage of progress, and that her desire to receive the in of compromise town for county seat honors between Niobrara and O'Neill parties. While to receive the instruction imparted in the conservatory shall be the outcome of a serious and well defined pur-pose. The successful candidate will enjoy the tuition of the best teachers that can be engaged, and, after graduation, will be afforded opportunities of making known their accomplishments, thus securing engage-ments. The conditions of admission as to fees, etc., (varying according to the classifi-cation of the pupil) are determined by the board of directors. Instruction in all branches will be given free to students whose alent and circumstances warrant it. The course embraces tuition in singing, operatic and miscellaneous, solfeggio, stage deport-ment, elocution, fencing and Italian, piano, organ, harp, violin, viola, 'cello, flute, obce. bassoon, French horn, cornet, trombone, harmony, counterpoint and com-position, history of music, chamber music, For further particulars, address

CHARLES INSLEE PARDEE, A.M. Secretary, 126 and 108 E. 17th street New York.

#### To Dispel Colds,

headacnes and fevers, to cleanse the system effectually, yet gently when costive or bilious or when the blood is impure or sluggish, to ermanently cure habitual constipation, to waken the kidneys and liver to a healthy aclivity, without irritating or weakening them, use Syrup of Figs.

#### The New Temple.

The congregation of Israel held a business neeting yesterday afternoon at the temple on Harney street for the purpose of devising ways and means and plans for the erection of a new house of worship. After discussing the situation a short time the executive committee of the church board was instructed to move the present building back from the treet about sixty feet, raise it six feet higher by placing a good stone or brick foundation under it, and then to advertise for hids for the erection of an imposing brick temple to be built against the front of the old part. The committee was authorized to synend \$10,000 on the new part and work will segin upon it within two weeks.

Mrs. Winslow's Southing Syrup reduces

nfiammation while children are teething. 25 cents a bottle.

#### University of Nebraska.

As a result of the correspondence in regard to a summer school, the faculty makes the following announcement;

The departments of botany, art and probably history will be opened. In additition, instruction will be given in psychology, physics, algebra, geometry, descriptive geometry, Latin, German and English, provided that there are ten or more applicants for any subect at the opening of the school. The session will continue from June 11 to

Matriculation fee, \$5.00. Laboratory ex-posses and art fees, a few dollars per stu-dent. CHARLES E. BESSEY, Acting Chancellor.

#### Omaha and the Lutherans.

town, and the rival two miles above turned in and put a stop to these messages of LEBANON, Pa., May 29, 1891 .- To the Editor of THE BEE: On yesterday the general truth, using the captured weapon for their own boom. As no law, except the law of common duty, exists in this unorganized country, the editor awaits the arrival of orsynod of the Evangelical Lutheran church of the United States decided to locate at Omaha a theological seminary, Mr. Augustus Kountze generously offered to donate land country, the earlier awaits the arrival of or-ganization. The town has excellent drain-age, is on the survey of the Sioux City North vestern, and commands a good trade from the county and has many warm friends. The functions there for a batter of the valued at \$100,060 and give in cash \$50,000 towards the enterprise. Also to pay one-half from the church at large. This magnificent The frontier town thus far is Butte City. It has more buildings than Mankato, with two saloons running in pure frontier style, offer was accepted by the synod and in a short time over \$20,000 was subscribed by the and the second newspaper promises to spread its wings next week. The day of my visit found it filled with people who had come to individual members of the synod.

Never in my life did I see such a manifessee the Indians, the races and base ball. The saloons particularly had a lively time of it, and it reminded me much of the early days of tation of the presence of the Holy Spirit. Mr. Kountze was present and was deeply af fected with the manner in which his gener-ous offer was received. Thus, you see, an-other important enterprise has been located Long Pine and Valentine, except that the cowboy's pistol was not to be heard. A bitterness exists between the two towns of the The location of the buildings is west, and it is said "on the quiet" that Spen-cer hopes to keep this fire burning until after

In Omana. The location of the omaining is to be in Kourtize place, . The session of the general synod thus far has been one of the most harmonious and pleasant in its history. Omaha has been duly advertised. All of the members who attended the meeting four years ago in Omaha speak of the city and the manner of their set or synometry in the heat terms. the county seat elections with the hope of capturing the prize, which is surely the pol-itician's pride. And Spencer is not short on The country west and northwest from these towns is beautiful rolling prairie and well settled with the thrifty new settler. Toward the Keya Pana river and the Nioof their entertainment in the highest terms, and would not object to accept an invitation to meet in Omaha two years hence.

You no doubt have learned one this that the Women's Missionary society of the Lutheran church will meet in Kountze Membrara on the south the country is more broken. But the fractional townships lying between the Niobrara and the Keya Paba are garden spots and an old settled country. This portion was virtually within Holt county and not a part of the Indian country. orial church in 1893. They met in Canton O., this year, and agreed by almost unanimous vote to have their next meeting in Omaha. Soon our beautiful growing city will be named the city of conventions. It has been settled for a dozen years and the farmers are well-to-do. The Tienken Broth-ers, extensive ranchmen, have the distinction we cannot have too many of them. of shipping several car loads of their fat cat-tle direct to Germany this season. They started their ranch there in 1875. It will be Each one will impress upon the minds of tuose who attend, the wastness of our resources, and the promising outlook of our city and state. The west is being appreciatthe only portion of the county that will be taxable for several years outside of personal ed more and more, and Nebraska especially so. Many inquiries are made as to our soil. Returning, I came along the old govern

climate and business outlook, and no better ment trail along the Niobrara valley that was used in the early '50's for exploring expediopportunity is afforded to sound her praises than at just such meetings as that of the general synod. L .-

A very small pill but a very good one. De Witt's Little Early Risers,

# OWEN] M'CAFFREY'S CONDITION.

#### He is Still Unconscious from the Effects of the Fall.

At midnight Owen McCaffrey was resting considerably easier. During the evening he egained consciousness for a short time, but again dropped off into a comatose state.

Dr. Coffman, the attending physician, says that Mr. McCaffrey is suffering from internal injuries, but so far it has been impossible to ascertain the exact nature of the injuries. Unless something unforseen develops Dr. Coffman expects to have his patient out again before long, as he does not think the accident will prove serious.

accident will prove serious. Mr. McCaffrey was inspecting some plast-ering on the ceiling of his building at 111 South Sixteenth street Saturday evening and while on the top round of a ladder lost his balance and fell heavily to the floor. He was unconscious when picked up and taken to his home at 2126 Harney street, and has remained in that condition ever and has remained in that condition eve and has remained in that condition ever since with the exception of a few moments before midnight. A large number of friends called at the family residence yesterday af-ternoon and evening to learn the particulars of the resident and the condition of the are f the accident and the condition of the pa tient.
