Chicago Resumes Business with Lower Prices for Wheat and Corn.

SMALLER RECEIPTS AT MINNEAPOLIS.

Range of Leading Grain Futures—New York Produce Values—Stocks and Bonds—Mining Quotations.

CHICAGO, June 2.—After an intermission of three days, brought about by Memorial day on Saturday and the judicial election yesterday, with Sunday intervening, the tendency on the board of trade at the opening this morning was toward lower prices. This was especially true of wheat, which opened 1¼@1½c lower than it closed Friday afternoon. Trading in this cereal was light and fluctuations were narrow, being confined to a range of ⅝c. There was a further decline from the outside figure of ⅛c after the opening, an advance of ⅛c, another recession and the close was 1⅛c lower than Friday's close for July, while June and August each closed ⅛ lower. The early weakness and decline were attributed to weak cables, increasing supplies on ocean passage and in the United Kingdom, good rains and favorable weather for the crops, and the report that the German government would not make any reduction in the duty on wheat. Thereafter the fluctuations in the market were in the main controlled by local scalpers in their operations against privileges bought or sold on the curb since Friday. There were so many puts bought and sold that the market though very heavy was not heavy enough to break down the barrier which purchases against the privileges involved. Pardridge, who had sold a large quantity of puts, was buying azainst tuem on each break in order to prevent the privileged buyer from getting action. It is estimated that he took about 1,500,000 bushels at from 98⅛c to 98¾c. Schwartz, Dupee and McCormick sold freely around 99c.

Corn opened weak with wheat and about ⅜c lower than the close on Friday. The accumulated receipts for three days were an added element of weakness, and the abundant rains which, with favorable reports in regard to the lately planted crops, were arguments. Local bulls, however, were undaunted and quickly absorbed the offerings. The tide once stemmed, they pushed their advantage, putting the price to a point 2c above the inside figure, holding the advance to the close with only a shade of recession, the close being ⅛c better than on Friday.

Oats were moderately active but unsettled early, but became firmer and advanced moderately and remained steady the rest of the day, closing at the last figures of Friday for July and August, though June was ⅝c lower.

Stocks of lard, as shown by the monthly statement, were much larger than the trade expected, while stocks of pork and ribs were less. The decrease in pork stocks was not sufficient to prevent its declining with lard, while stocks of ribs were small enough to cause a slight advance.

STOCKS AND BONDS.

NEW YORK, June 2.—The dealings on the stock market today retained their late progressive character and the movements after the close of the first hour were generally insignificant. The foreign operations are insignificant again, but further engagements of gold for export were made, and a great scarcity of commercial bills in the market is reported, so that notwithstanding the large amount of gold sent out in the last two months, the rates of exchange are kept up to a figure where gold may be sent without loss. The market today continued materially higher on a demand from the shorts in the room who had become imbued with the idea that the decline of the last few days was the result of bear tactics only, and the apparent covering by the leaders, following suit. The opening gains extended to ⅝ per cent, with St. Paul and Louisville & Nashville and Union Pacific leading both the advance and the business done. This demand was met, however, by a denial of the selling pressure and all of the opening gains were wiped out with small fractions in addition among the leading shares. Louisville being most prominent on the downward movement. The depression was evidently made to buy up on, for a cessation of the pressure was followed by more quiet trading and a slow but steady advance in prices, which soon brought prices up to and beyond those of the opening, and the upward movement started continued without a break during the remainder of the day. Besides the purely speculative causes of the rally in the market, a further reduction in the premium of gold by the Bank of England of ½d and the reappearance of the noted bear leader as a bull on the market were powerful to make a general buying movement among the professionals. St. Paul, Union Pacific and Louisville attracted most attention, and after those Rock Island and Chicago gas. The dealings in the market after the first hour were quite devoid of special features, but the steady advance lifted everything but Jersey Central, which dropped 2 per cent and recovered only a small portion of the loss. The close was fairly active and strong at these prices. The final changes of note include an advance of 1¼ in St. Paul, and 1 per cent each in Missouri Pacific and Rock Island, and a loss of 1½ in Jersey Central.

There was the usual quiet business in railroad bonds, which, however, was more widely distributed than was usual of late, though in only a few instances was there any close sympathy with the strength displayed in the share list. The sales reached only 562,000, and the final changes as a rule are insignificant.

Government bonds were dull and firm.

State bonds dull and featureless.

Petroleum opened strong and advanced slightly on a few buying orders from the west, but reacted ⅛c later, then became dull and remained so until the close.

Pennsylvania oil, spot, opened at 68¾c; highest, 68c; lowest, 68¾c; closed at 69c. July options opened at 69¾c; lowest, 69¾c; highest 69c; closing at 69½c. Total sales, 25,200 barrels.

Financial Review.

NEW YORK, June 2.—The Post says: Notwithstanding the impression created by the proposal to increase the Louisville stock so that it would pay a stock dividend instead of cash in July, a well known director is given as authority for the statement this afternoon that the dividend will be paid in cash, and in this way the stockholders will be given the option of taking the increase of stock at a fixed price as they were on the occasion of the former increase of stock. After 11 o'clock the market was dull through the remainder of the day but also very strong, owing to the encouraging reports from London. The Bank of England reduced the price it would pay for American gold to 76s 5d per ounce, and on this £90,000 of the gold engaged for tomorrow's steamer was withdrawn. Private cables were received here saying the belief in London was that the Bank of England would reduce its rate of discount on Thursday to 4 per cent if the discount banks would agree not to discount at lower figures than that.

New York Dry Goods Market.

NEW YORK, June 2.—Business in dry goods was less active than yesterday as is usually the case on Tuesday, because there are no western mails. There was no change, however, in the tendencies of the market as lately. The market maintains a good tone on the basis of supplies which are relatively light for this period. Goods purchased are being called good and deliveries are urged.

Traders' Talk.

ST. LOUIS, Mo., June 2.—Langenburg Brothers to Cockrell Brothers: The following was the range of prices paid for the July option on this market today:

COMMODITY	Open.	High.	Low.	Close.	Yes'y
WHEAT—					
July	94⅞	95	94⅜	94⅝	94⅞
CORN—					
July	52⅜	53⅜	52	53¾	51⅞
OATS—					
July	40	40½	40	40½	39¾

CHICAGO, June 2.—Logan & Co., to Toneray & Bryan: The wheat market has been quiet, July selling as low as 98⅝c, and up to 99⅜c. English cables are lower and weather fine, considerable talk of damage to the growing crop in Ohio. The decrease in our visible supply is lighter than looked for, but there appears to be confidence in present prices. Until more is known of the new crop we think purchasers on weak markets will make money. Corn has been active, ranging from 52½@53¾c for July. Receipts are light and the shipping demand is good. Unless receipts increase we will have some improvement in the price. Not much doing in oats. Provisions inactive.

CHICAGO, June 2.—Schwartz, Dupee & McCormick to F. G. Swartz & Co.: The bears availed themselves of the three days holiday to have a regular picnic which was rendered easy by the fact that the majority of the local shorts had evened up Friday. Everything seemed to favor lower prices. The hope which was entertained last week that Germany might reduce or remove her import duty was dispelled by cables received Monday. Good rains noted in the northwest. Carloads on passage showed an increase of 2,750,000 and its effect was shown by declines of 1½d in Liverpool today. Decrease in visible amounting to about 700,000 was not unexpected. Receipts at eleven primary points for three days were large, being 1,766,000 as against only 1,250,000. London and Paris cables were lower and the advance of 5 marks on cash wheat in Berlin had no effect as that market is known to be manipulated. The local market has been dull and trading chiefly of a scalping character. The close is very tame and we see nothing to encourage the hope for higher prices as the mainstay of the bulls seems to be passing away in weakness of the foreign markets. The rains and warm dull weather caused a lower opening in corn, but a sharp reaction took place on an active demand from shorts. Receipts of corn for three days, 1,956,000 bushels, and shipments only 534,000 bushels, but our best informed receivers say that receipts will diminish sharply during the next fifteen days and that the cash demand, which had fallen off, will again increase. If this information is correct we expect somewhat higher prices and advise caution in short selling. The trade today has been rather dull, largely local, within a range of 56@55¾c for July. Oats were dull, following closely fluctuations of corn. There was no trading worthy of note during the morning. Provisions opened slightly higher but soon lost their strength and under free selling by packers were very weak. Stocks of pork showed 334,-000 barrels, ribs 81,000,000 pounds and lard 181,-000 tierces. These figures were very discouraging to the bulls, as the cash demand is at a minimum and shows no signs of increase. We see nothing hopeful in the bull side of provisions.

OMAHA LIVE STOCK.

OMAHA, June 2, 1891.

CATTLE—Official receipts of cattle 1,345, as compared with 338 yesterday and 1,223 Tuesday of last week. The market was active and strong on good shipping steers, other grades slow and unchanged. Good butcher stock was active and steady, common grades slow and 5 to 10c lower. Feeders were unchanged.

HOGS—Official receipts of hogs 6,800, as compared with 1,067 yesterday and 5,000 Tuesday of last week. The market opened active and steady to a shade higher on good light and shipping hogs, with all others slow. Later the market became active and stronger, but before the close broke and closed 5c lower and practically flat. Light $4.25@4.35; heavy $4.30@4.45; mixed, $4.30@4.35. The average of the prices paid was $4.31½, as compared with $4.31¼ yesterday and $4.21¾ Tuesday of last week.

SHEEP—Official receipts of sheep 408, as compared with 601 yesterday and 912 Tuesday of last week. Market unchanged. Natives, shorn, $3.00@5.25; westerns, shorn, $2.75@5.25.
