Venality of the Hastings Asylum Officials Has Been Too Long Tolerated.

EARNEST DISCUSSION OF THE AFFAIR.

Board of Public Lands and Buildings De ides on How to Proceed-

Public Notice of the Hearing Given.

Lincoln, Neb., June 23 .- [Special to THE BEE. |- Late this afternoon the board of pubic lands and buildings assembled, it was thought, for the purpose of discussing the irregularities of the hospital for chronic insone at Hastings. There were present Chairman Humphrey, Attorney General Hastings, Treasurer Hill and Secretary of State Allen, The gathering, however, was an informal one

General Hastings said that he and Treasarer Hill had seen the governor and that the latter had requested that the investigation of the charges against the hospital officials be postponed until after he should return from Chicago, Thursday next.

Mr. Hill said that he had told the governor that the examination of the reports of the officials in question which was being made by the secretary of state would be con-

A question was then raised as to whether or not the investigation should then be un dertaken, or whether the board should ad lourn till tomorrow

Mr. Hastings said it was the duty of the board to take cognizance of the charges made against the Hastings official and at a regular meeting to give the officials in question a chance to answer such charges, and to report to the governor within six days after the conclusion of such hearing the evidence that had been adduced and the recommendation which the board might see fit to make. He then quoted section 11, also of chapter 7, re-lating to the duties of the board of public lands and buildings in matters of investigation. This section prescribes as has already been shown in Tur Brr that the president of the board shall have power to call a meeting of the board for any purpose by a written notice for what purpose the meeting is

Mr. Allen said the matter had gotten within the province of the state board of publie lands and buildings, and the investigation should be commenced by an examination of the vouchers. While the investigation night not be finished that afternoon the board should take official action. With due respect for the governor, the case should be inquired into without submitting the matter until the proper time to him. Mr. Hill said the governor had nothing to

o with the investigation. Mr. Allen could see no reason why they

should wait till Thursday.

Mr. Hastings said it was due to men who
were suspected to have them cited to appear before the board to defend themselves. He did not want to pass final judgment upon them until after they had been given a chance to defend themselves. They might say that the vouchers in question were for-geries, or that at the time irregularities had been committed they (the officers) had been in California or some other place.

Mr. Hill said his impression was that the officers in question should be summoned to appear before the board as in a court of justice, and if they let the matter go by default to have the board examine the vouchers enyway. They could then go to Hastings and examine into the other claryes.

Mr. Allen here interjected the remark that the Hastings end of the claryes in the Hastings end of the claryes.

the Hastings officers had already b come before the board twice, and explain their conduct, and they had not come. Mr. Hastings thought it would be unfair to go to the hospital. He had received letter

from people in the southeast whom it would not be so easy to meet as in Lincoln. He had also received letters from people in the west and these people should be met. The principal thing was to go to the bottom of the vouchers. There had also been charge of immorality made, but it was a question a to whether the board would take cognizance of them. The attorney general then sug

Mr. Hill said that the attorney general had said reputable people had made charges t him concerning the asylum officials and that all of them should be investigated by the

Mr. He tings said that he stood by what he had said.

Mr. Hill said they couldn't overlook those charges. It would be unjust to the governor, it would be unjust to the people and to the board itself. They couldn't be ignored. If there were no funds to make the examination with, then let the department responsible for that stand it. But he thought there were

Chairman Humphrey and Attorney General Hastings then tried their hands at drawing up an official call for a special meeting of the board and the following was the result:

Lincoln. Neb., June 23, 1891.—To Hon. George
H. Hastings, Attorney General: J. E. Hill,
Treasurer, and J. C. Ailen. Secretary of State.
Members of the Board of Public Lands and
Buildings: Gentlemen—You are hereby notified that the board of public lands and buildlugs is called to meet in special session at the
office of the secretary of state on the 34th day
of June. 1891. at 9 n. m., for the purpose of inquiring into and investigating the following
matters:

natters:
1. Compil. Ints that have been made to the board of irregularities which are alleged to have occurred in the management of the hospital for chronic insane at Hastings. Neb.
2. Compilants that have been made relative to neglect and unsconduct on the part of officers and employes of said institution committed to their charge.
3. Compilants that have been made detrimental to the good management and good name of said institution.

name of said institution.

Dated this '3d day of June, 1891.

A. R. Humphrey.

Accepted service of this notice this 234 day of June, 1891.

George H. Hastings, Attorney General, J. E. Him, Treasurer.

John C. Allen, Secretary of State.

Then arose the question as to when active work under this call could be begun. As the board cannot assemble till 9 a. m. temorrov the accused officials at Hastings cannot b summoned until after the opening of the meeting. If the accused should respond im-mediately they could not reach here until Thursday morning. That would be the time desired by Governor Thayer. In the meantime, it is not likely that the board will take

any action in the matter.

Mr. Allen was auxious to have the investi gation proceeded with immediately. The matter had been hanging five so long that the people were tired. He had already gone over nearly all the vouchers of the insane asylum on file, had tabulated his findings and wanted to place them before the board. Mr. Humphrey wanted to know if article

of impeachment would not have to be filed against them as if against a county official. The attorney general did not think that

was necessary.

Mr. Allen still thought there ought to be a preliminary hearing that afternoon.

Mr. Hill then wanted to know how charges

were to be filed against the officers in ques-Mr. Hastings said that this was a court of inquiry, and not a court of impeachment. It was finally agreed to adjourn till to-

Attorney General Hastings informed The Ber man that the court could not impeach or discharge the accused. It could simply report with its recommendation to the governor, and there the duty of the board

Day by day brings to light new features which it will be difficult for the accused officials to answer. Today a comparison was made which shows either the corrupt methods of the accused or thoir gross incombetency to manage so important an institu petency to manage so important an institu-tion. The cost of supplying groceries to the Hastings asylum from October 1, 1890, to March 31, 1891, was \$3,818.97, while the gro-cery bill of the Norfolk asylum for the same period was only \$2,776.40. There is a differ-ence of \$1,042.57 in favor of the Norfolk asylum, and yet that institution has 206 in-

nates while that at Hastings has only 166, or forty less than those of Norfolk.

Today a leading citizen of Hastings appeared before the board of public lands and

buildings and gave them an idea of the feel-ing at the place.

"You will strengthen the party down there," he said, "if you remove those men. Five nundred republicans will raise up their hands and say you have done well. We don't want to be dragged in this mire any lorger. Our people are against them. We take a pride in our hospital. We want it pure. These men are new importations. They do not belong to us. Nobody supports them except the men they patron-ize. They are only few. Give us a change,"
These words had a decided effect upon the board, although it will not prejudice them against the accused.

Secretary of State Allen has almost completed his examination of the vouchers of the insine asylum deposited with him, having insine asylum deposited with him, having gone over the coal bills this afternoon. He has tabulated the totals and discrepancies, but will not make them public until after they shall have been brought before the board of public lands and buildings. The members of the latter have examined them as individuals and are pleased with the manner in which the work has been done. The impression newsalls that this showing independent sion provails that this showing, independent of anything else, will render it necessary to inspense with the services of the accused.

BARDSLEY'S SENTENCE,

It is Indefinitely Suspended Pending an Investigation. PHILADELPHIA, June 23.-John Bardsley,

attorney sentence was suspended indefinitely. The district attorney opened the proceedng by stating that he wished to call some vitnesses so that the court could get some information on which to pass sentence. Taylor Faunce, an expert accountant, testified that Bardsley, in his two years and a half-incumbency of the office of treasurer, received \$250,000 in interest on public funds; that Bardslev had used \$500, one banking firm and \$200,000 to another. He also loaned \$400,000 to to the Bradford Milis company of which he was owner. Bardsley also sold and converted to his own use \$57,000 worth of government bonds which he held for the city, but this

money was subsequently returned. The expert found that Bardsley's stock operations cost him in the neighborhood of \$100,000. Bardsley made his promised statement in the court today. A summary of the item ized statement shows a net balance due the city of \$191,061.68 and a net balance due the state of \$1,092,769.64, making a total due the city and state of \$1,194,631.32. The balance is accounted for as follows: Clearing house due bills from the Keystone bank, \$025,000; receipt of the president of the Keystone bank for 100 bonds of Baltimore traction company \$1,000 each, \$100,000; notes taken from Granville B. Haines for cash given him to assist the Keystone bank, \$25, 000; 750 shares of stock in the Farmers' and Mechanic's bank, \$100,000; cash in the Farmers' and Mechanic's bank in connection with 750 shares of stock, \$308.43; cash in the hands of assignee, \$5,000; total, \$1,155,806.43; balance due the city and state, \$38,822.89. This latter amount, says the statement, is many times overcome by the property and claims he has made over to his assignee, all

of which are subject to the disposition of city and state.

In conclusion he said: "I have accounted for every dollar of the money collected by me and I have shown that I did not spend a dollar of it for my use. Having accounted for all the moneys collected by me or entrusted to my care I cannot be called dishonest; it cannot be said I have robbed or embezzled, cheated or defrauded either the city or state, and when I have made all reparation in my power by turning assistance to both city and state, what more

At the conclusion of his statement Distric Attorney Graham asked the state to postpone sentence indefinitely so as to allow the ex pert accountants to pursue their investiga ons further. This the court agreed to and Barasley was taken back to prison.

KANSAS ALLIANCE.

Official Declaration Showing the Plan of Future Operations.

TOPEKA, Kan., June 23,-Von Burer Prather, state lecturer of the Kansas alli nce, has addressed a communication to the congressional alliance setting the plan for organization in compliance with the plans the national council formulated at Washing-

ton last February.
The address is important in that it gives the first official declaration showing that the system of operation is to hereafter form a sub-structure of the afliance movement. On his point the address says:

"We have been working upon the competitive plan until we are nearly a nation of wealth producing paupers. Others have been working upon the co-operative plan and are wealthy. Show the difference to our people. We are the masters of the situation, not only oth in buying and selling, if we will only learn he great lesson of co-operation. I would ad ise no less than two days for a lecturers neeting and schooling upon the different opics for discussion. Present an unbroken rout and march on to victory by following he principles of co-operation. Then millions of wage slaves will soon be emancipated and prosperity will be our reward. > DAKOTA CITY, Neb., June 23 .- | Special to THE BEE. |-Attorneys M. F. Harrington of O'Neill and Jav & Beck of this place, have commenced attachment proceedings in the district court in behalf of the pontoon bridge company of South Sioux City. The property attached was that belonging in Railway ad-dition to South Sioux City. The case is against the company and stockholders; also against the Wyoming and Pacific improve-ment company. The petition filed alleges that the statement pub-lished by the Short Line com-pany in June, 1800, was false by \$500,000 and consequently under the Nebraska statute the stockholders are individually liable. It is claimed that there are about \$200,000 worth of unpail accounts against the company, and should the stockholders lose this case the balance of the creditors will no doubt bring like actions. Mr. Jav savs that it can be positively shown beyond doubt that the pub-lished statement was false as alleged, and that the stockholders will be held for the bridge company's claim, and the debts owed to many other creditors.

More Trouble Over the Short Line.

Street Railway - Enjoined. BEATRICE, Nob., June 23.—[Special Telegram to THE BEE.]—The injunction proceedings against the motor line to restrain it from running across the Sixth street bridge will be heard before Judge Appleget tomorrow morning. The Beatrice street railway company started this morning to lay a section of track at the lower end of Court street to connect with, and hold its franchise over that bridge. Mayor Fogg at once issued an order directing the work to cease. The company persisted, however, and the police authorities arrested the working gang and took them be-fore the police judge to answer to a charge of obstructing the streets. The track were torn up by the city authorities and after some y agreed to suspe the work until formal permission was ob-tained from the council to continue the same, and the workmen were released.

Crop Prospects.

BLUE HILL, Neb., June 23 .- [Special to THE BEE. |-For at least 175 miles west of the Missouri river the crop prospects are immense. All in all they were never better along the B. & M. railroad, so far as noted. Small grain is doing finely. Corn is a trifle backward, owing to the late season and the unusual quantity of rain that has fallen since the planting begun, but is not really suffering anywhere. It is in good condition at Ashland. From near Greenwood to Lincoln, along the Salt Creek valley, most of the corn was "listed." As a rule the listed corn this season is the weedlest and the poorest, although some of the listed corn looks well. Opened Under Favorable Auspices.

POLITICAL DRIFTWOOD.

Bits of Gossip Congerning Conventions and Possib'e Candidates. Lincoln, Neb., June 35,-[Special to THE BEE. |-There is a move on foot among republican politicians to get the state convention held in Lincoln. This scheme is being industriously but quietly worked and will, it is said, succeed if Omaha people don't wake up and hump themselves.

It is reported here that the people's corention is to be held at Grand Island in

August. Regent Gere may decide not to run for re-election, it is said. He is expected to retire in favor of Regent Morrell, who has recently taken up his residence here and will make the fight for re-election. It is thought that the convention will refuse to nominate two Lincoln men for the regency, especially in view of the fact that Judge Cobb is to be urged for a renomination to the supreme bench. A politician said here today that this opens the way to an Owaha man if any

this opens the way to an Obaha man it any there be who may aspire to the place of regent of the university.

There is quite a nice little fight going on here over the military instructorship of the university. Lieutenant Griffith, a democrat, was detailed here for three years, and his time is out. There are many people here who want a change, and these people are pushing the candidacy of Lieutenant Persing with some hope of success. The present regents are all secretly in favor of the latter and want to unload Griffith, it is said. A paper was circulated among leading politicians here endorsing Griffith for an extension of time and this paper has gone to secretary of war. It is that Regent Gere signed paper, but is being besieged by influential riends of Persing to recall his endorsement. The fight is on and reaches to Washington The outcome will be watched with no little

interest. Friends of Judge Mason still insist that he will be appointed world's fair commissioner and that Hotchkiss will be appointed as his deputy or assistant. Because of the judge's failing health Hotchkiss will be expected to do the work. This report is denied, of course but it is definitely known that the B. & M. railroad managers want these two men appointed and rumor bas it that their wishe

will in this case be respected.

GOES TO THE MANUFACTURER.

Bounty on Beet Sugar Does Not Reach the Producer Directly.

APPOINTMENT OF SUGAR INSPECTORS.

Cabinet Meet'ng to Be Held for the Consideration of Financial Questions-Lond Extension Probable.

WASHINGTON BUREAU THE BEE, 513 FOURTHENTH STREET, WASHINGTON, D. C., June 23. The officer in the internal revenue bureau, who explained the matter of paying the bounty on domestic sugar productions, and which was night before last reproduced in these dispatches, said today: "I fear I may have misled you. It is true the bounty goes to the producer of the beet, provided, of course, he makes the sugar, but if he prefers to not go to the trouble and expense of manufacture he does not get the benefit of the bounty directly. It is then paid to the manufacturer, but of course the beet producer, knowing of the existence of this bounty, will only sell his beets at a figure which is higher by the amount of the bounty than the price

otherwise would have been, so that he re

ceives the bounty just the same. "It was the intent of congress to develor the culture of the sugar beet and the only practicable way of doing this was to place the bounty on the manufactured result, as it would be insuffestly impossible to devise any other method of paying the bounty, such as by the acre or ton of beets. The only equitable method was to pay the bounty on the concrete manufactured results of the beets raised by the farmer. That is on the sugar produced therefrom. Therefore the bounty s paid by the government to the person who produces the sugar, be he the original producer of the beet or the sugar itself. In either case it is the producer from the soil who is really the beneficiary, whether in the first or second instance."

Secretary Foster is expected to name the ten or twelve sugar inspectors within the next week, as they are to begin work on July 1. There has been a great deal of fric-tion among the politicians over these places, which are worth probably \$1,600 a year and actual traveling expenses. Several states which do not produce sugar of any kind have demanded one or more of the inspectorships, and two or three of the sugar producing states think they ought to have all of them; notably Louisiana and Nebraska. At the office of the commissioner of internal rev-enue today, the information was vouchsafed that no stats not a sugar producer would get an inspectorship, and no state would get more than two of them. It is believed that Vermont, Indiana, Nebraska and Kansas, producers of maple or cane sugar, will each get an inspectorship and that Ohio, Louisiina and California will each get two, making in all ten. Several politicians have urged the appoint-

ment of either old or inexperienced men for these piaces and they have all been turn ed down. Young, active, hard working and ex-perienced men are wanted, and all have, in fact, been selected several days ago. fact, been selected several days ago.

The matter of paying, a bountyt, n'k rs of sugar in this could ry has to be establish. The machinery of the office must be created and put in motion. There will be a lot of honest, diligent, progressive and creative work to do and some ingenuity will be required. Inspectors will often have to get on horses and ride like circuit preachers through mud and rain and meet and deal with all mud and rain and meet and deal with all sorts of people and questions. These places will not be sinecures and defective men wil

be unfortunate for the service. EYTENSION OF BONDS PROBABLE. It is stated by treasury officials that the meeting of the cabinet on next Friday will be devoted to financial questions, and that among the conclusions altogether probable will be the extension of the 414 per cent bonds at 2 per cent interest. The president, it is said, believed that these bonds would be carried as security for national bank circula-tion at 1% per cent interest, but Secretary Foster, after a visit to New York, and correspondence with holders in the west con-cluded that unless the interest was fixed at 3 per cent the extension plan would be a failure. It is also likely that it will be determined that hereafter the subsidiary coin, aggregating about \$23,000,000, shall be counted as available cash or surplus, as it really is, and that it shall be paid out as fast as it can be used. The surplus has already increased so that on July I, when the fiscal year ends and there will be a final settlement, it is believed there will be over \$5,000,000 of available idle money, besides the \$34,000,000 or threabouts deposited in national banks in open account, which is really surplus. It is constantly available, being deposited for the lecting and depositing or paying out funds

daily.

Impressive Ceremony

[Copyright 1 91 by James n Bennett,1 London, June 23.—[Ne.: York Herald Cable-Special to THE BEE. | - Excited crowds gathered in the neighborhood of the great synagogue at Oldegate this afternoon all agog to see something of the pomp surrounding the installation as chief cabbi of Rev. Dr Harman Alger. The chief rabbi of the United Hebrew congregations of the British empire is a personage of great importance, hence the desire of the Jewish quarter to take part in the picturesque ceremony. Within the synagogue, almost directly it was thrown open, many points were noted of lavish and tasteful floral decorations throughout the building, which gave an impression of light and galety. The floor of the synagogue was reserved for the male sex. Ladies were only admitted to the galleries, whence they peered with interest on the chattering and animated crowds beneath, every member of which, according to Jewish custom, wore his hat, Priests in their quaint garbs also caught the eye. The order of service, which was distributed throughout the building, was printed in Hebrew and English, page for page. The proceedings began with a procession, and the chief rappi was conducted to his seat by the president and honorary officers of the synagogue, while the choir, with orchestral accompaniment, sang "Blessed be He That Cometh in the Name of the Lord." Among those present were the best known and most highly respected members of the Jewish faith in London. June 23, 1891, will

ANOTHER KANSAS MURDER.

One More Tragedy Added to the

Stevens County Seat War. KANSAS CITY, Mo., June 23 .- A special rom Hugoton, Kan., states that Colonel S. N. Wood, the most noted man in western Kansas, was brutally murdered by James Brennan. The murder of Colonel Wood is only one of a long list of tragedies that have resulted from the notorious Stevent countyseat war. Today's tragedy resulted directly from the one immediately preceeding it, which has become known the country over as 'the Sheriff Cross murder case." The county seat war was waged between

the towns of Hugoton and Woodsanle. The latter was founded by Sam Wood, the victim of today's murder, who was the leader of that faction which held that in the county seat election that the the territory had been obtained by fraud by the adherents of Hugoton. Several ineffectual attempts had been made by the Woodsdale people to remove the county records from Hugoton to Woodsdale and establish the county seat there. One day about twenty-five Woodsdale men armed Hugoton. They were met by Sheriff Cross of Hugoton with a posse. In a parley which onsued the Woodschile people said they had no belligerent intentions and were going down to the Indian territory hunting. They marched down into the territory and Sheriff Cross and his posse followed them. That same night a battle ensued between the two parties in which the sher ff and five posse were killed. Most of the Woods dale party were arrested on a warrant issued from the United States court at Paris, n the criminal jurisdiction of which Indian Territory. The trial resulted in con-viction. The case was appealed to the su-preme court, where the verdict was reversed and the case remanded for trial still pending. During the trial at Paris, Tex. Brennan was one of the principal witnesses for the state. Sam Wood was one of the de-fendant's counsel and during the trial handied Brennan without gloves. swore revenge, and when he heard today that Woods was in town he armed himself, and after a search found Wood standing on the court house corner. Without warning drew his revolver and fired four shots his victim's heart. Wood expired without uttering a word.

Sheriff Cann attempted to arrest the murderer, but Brennan stood the officer off with his revolver. Finally he surrendered to Sheriff Weir of Morton county, who turned him.over to Sheriff Cann. Sam Wood was very popular in Woodsdale,

and when the news of his murder reaches Woodsdale it is feared the people will seek revenge, and that the war between the two towns will be renewed. The dered man was prominent in the farmers alliance and was clerk of the legislative com mittee in the lower house of the last legisla-ture. He was also a whole "steering comnittee" in himself and was about the only 'fine worker'' the lower house boasted of.

Not Guilty of Bribery. New Onleans, La., June 23.—Edward White was put on trial for attempting to persuade a witness, Leon Burthe, from testifying. After hearing the testimony the judge said: "The state has not made out a case and the only verdict that can be ren dered is one of not guitly. The only evidence is that of the prosecuting witness and his testimony and his reputation are of such a character that no jury could safely rost a verdict on his testimony alone in this or an ther case."
The verdict was recorded and the jury dis-

charged. The result in this case will probably cause an abandonment of the case against Arment. Responsible for the Wreck. NEW ORLEANS, La., June 23 .- The coroer's jury of Jefferson Paris investigated the cause of the accident on the Illinois Central at Sauve station by which six men were killed. The verdict of the jury was that the death resulted from gross negligence and criminal cariesaness on the part of F. G. Tennant in leaving the switch open and Con ductor Isam as accessory in the act of negli-gence. Charges of manslaughter were pre-ferred against both men before Judge Rost and bond fixed at \$3,500. Isam furnished bond and Tennant was sent to jail.

Confession of a Murderer. RICHIAND CENTER, Wis., June 23.—Irwin Fowler of Viola, Richland county, has con fessed that he had a hand in the murder of old Reubon Drake, his wife and two grand-children in May, 1888, for which Androw Grandstaff was lynched three days after ward. It is reported that Fowler implicates Keff Bowker and Frank and Elijah Carey, who were under suspicion at the time of the

> Regular Jury Panel Soon Expansed -Discharge of Plenty Horses Will Probably Prove to Be a Precedent.

STURGIS, S. D., June 23 .- [Special Tele-

gram to Tue Bee, |-Developments in the Few Tails murder case today disclosed none of the details of the matter, most of the time being consumed in making an effort to select a jury that is acceptable to both sides. Out of the regular panel of twenty-four men only eleven passed, nine being excused for being prejudiced against the Indians, and the prosecution and defense each challeaged two. The judge issued a special venire for thirty more jurymen returnable at 10 o'clock tomorrow morning and it is believed a jury can be chosen from this number, when business will begin in earnest, Attorneys for the defense were somewhat surprised and slightly frustrated for a few noments this morning when the presecution moved to enter a nolle prosequi in the case of James Julps, the only reason set forth being that it was not desirable to prosecute this man. The court entertained the motion and Julps was therefore discharged. The first impression was that he would turn state's evidence, but that was erroneous. The racts

are that Julps is a well-to-do stockman and

an influential citizen and the prosecution thought it policy to quash the indictment

against him, although the evidence of his guilt is the same as that against the other four men. The defense displayed no uneasiness

in this turn of offairs, as they claim to have ample testimony to show that the necused were justified in killing the Indian, and can

prove conclusively that the Indians fired first and there were at least a dozen warriors in ie band. Mr. Sterling stated in court today that the prosecution had two more Indian witnesses subpooned from Pine Ridge, an admission on the part of the state that there were five Indians in the party, while it appears that at

first they claimed there were but Few Talls and One Feather. Much difficulty is experienced in finding Much difficulty is experienced in finding men that will show no partiality, as many believe, as one juryman stated today, when asked by the court if he did not hold to the opinion that there were no good Indians except dead ones, replying, "That's about the size of it." Another did not believe that any Indian ever born was guilty of telling the truth. Pieneers to the guilty of telling the truth. Pioneers to the Hills have not forgotten the many depredations committed in the early days by some of these same Indians who were never punished or even called to account in any manner for their internecing deeds. The account of Planty Horses has deeds. The acquittal of Plenty Horses has created much favorable impression in behalf of these men now on trial for killing Few Tails. The Bee correspondent predicts that the boys will never be convicted.

Receiver is Appointed. Hunon, S. D., June 23 .- | Special Telegram to THE BEE, |-An application to State Auditor Taylor for the appointment of a receiver for the Fidelity fire insurance company of this city, resulted in the appointment today of General Marcs Taytor of Huron, his bond being placed at \$100,000 for three years. The Farmers' Ailiance with Alonzo Wardeil as president, but who owned no stock. Its liabilities exceed assets nearly \$24,000. On June 11 the cash on hand was less than \$400 instead of \$20,000, as required by law, The court has directed the receiver to complete arrangements with the Hecla Fire in-surance company, St. Paul, for reinsurance of Fidelity policy holders, thereby protecting them against loss. The affair has caused some excitement here and throughout the

state. Kick Against the Quality of Beef. CHAMBERLAIN, S. D., June 23 .- [Special Telegram to THE BEE. |- The Sioux Indians have declared war on the quality of beef furnished them by the government during the last beef issue at Crow Creek agency. White Ghost, the head chief of that tribe, positivery refused to accept his portion of the beef, claiming that the cattle were in too poor condition when killed and make steak that even an Indian cannot master. He further citims that the cattle weigh much loss when issued to the Indians than they do when delivere to the government and wants it distinctly understood that his people cannot be fooled in any such fashion. The fact that poor grass is responsible for the poor condition of the cattle does not seem to enter his mind.

North Dakot (Alliance. GRAND FORKS, N. D., June 23 .- The state farmers' alliance convened here this morning at 10 o'clock, with delegates in attendance from all parts of the state. Radical and conservative views are both strongly represented. Intense interest centers in the question of Walter Muir's elegibility to re-elec-tion as president. Muir represents the radical men, who wish to endorse the Cincinnati platform favoring unlimited coinage and government 2 per cent loans. There is strong opposition to Muir on the Cincinnati

Cash in the Treasury. Washington, June 23 .- A statement prepared at the treasury department shows the net gold in the treasury, coin and bullion on the 20th inst. was \$121,333, or \$11,878,824 iess than was held on the 1st inst, and \$68,809,085 less than was in the treasury June l, 1890. The statement only goes back to January, 1888, which time the net gold in the treasury amounted to \$202,905,184, or \$81,621,-845 more than at present. Gold holdings were the greatest in March, 1888, when they

were \$513,518,253. Insane Mother's Deed. Hunson, Wis., June 23 .- Mrs. Don Lar-

on, wife of a farmer living in the town of Troy, near this city, drowned her three children in Lake St. Croix during a fit of insanity last evening. Her husband, on finding her absent from the house, began a search and found her at the lake shore wading and two of the children lying on the shore dead. The third could not be fored. Mrs. Larson imagines that devils pursue her. She was taken to the asylum this morning.

Furniture Workers' Troubles. GRAND RAPIDS, Mich., June 23.-This city is interested over the prospect of a big furniture strike. The employes of the Grand Rapids school furniture company claim that they are locked out and that the employers intend using non-union labor. The furniture workers' union may support them by going

Jury Bribers Granted a New Trial, NEW ORLEANS, La., June 23.—On application of counsel for a new trial for McCrystol and Cooney, two of the jury bribers, Judge Marr today, after reviewing the testimony of the witnesses in the case, decided to grant the accused a new trial on the ground that the testimony did not warrant the verdict.

Kansas trops.

TOPEKA, Kan., June 23.—The secretary of the agricultural department this morning said he has no information to indicate the condition of crop changes from what it was a week ago and ne thinks there is no foundation for the many alarming reports which
