Veracity of the Hastings Asylum Officials Has Been Too Long Tolerated.

EARNST DISCUSSION OF THE AFFAIR.

Board of Public Lands and Buildings De- cides on How to Proceed— Public Notice of the Hearing Given.

LINCOLN, Neb., June 23.—[Special to THE BEE.]—Late this afternoon the board of public lands and buildings assembled, it was thought, for the purpose of discussing the irregularities of the hospital for chronic insane at Hastings. There were present Chairman Humphrey, Attorney General Hastings, Treasurer Hill and Secretary of State Allen.

General Hastings said that he and Treasurer Hill had seen the governor and that the latter had requested that the hospital officials be postponed until after he should return from Chicago, Thursday next.

Mr. Hill said that he had told the governor that the examination of the reports of the officials in question which was being made by the secretary of state would be continued.

A question was then raised as to whether or not the investigation should then be undertaken, or whether the board should adjourn till tomorrow.

Mr. Hastings said it was the duty of the board to take cognizance of the charges made against the Hastings officials and at a regular meeting to give the officials in question a chance to answer such charges, and to report to the governor within six days after the conclusion of such hearing the evidence that had been adduced.

Mr. Allen said the matter had gotten within the province of the state board of public lands and buildings, and the investigation should be conducted by an examination of the vouchers. While the investigation might not be finished that afternoon the board should take official action.

Mr. Hastings said that he had been told by the Hastings officials that they had nothing to do with the investigation.

Mr. Allen could see no reason why they should wait till Thursday morning to be heard, and he thought it would be better to have them appear before the board in a court of justice, and if they let the matter go by default to have the board examine the vouchers anyway.

Mr. Hastings thought it would be unfair to go to the hospital. He had received letters from people in the southeast when it would not be so easy to meet as in Lincoln. He had also received letters from people in the west and these people should be met. The principal thing was to get the vouchers.

Mr. Hastings said that he stood by what he had said. He thought they couldn't overlook those charges. It would be unjust to the governor, it would be unjust to the people and to the board itself.

Chairman Humphrey and Attorney General Hastings then tried their hands at drawing up an official call for a special meeting of the board and the Hastings officials.

LINCOLN, Neb., June 23.—[Special to THE BEE.]—The Hastings officials were called to meet in special session at the Hastings asylum from October 1, 1888, to the present.

Complaints that have been made to the board of public lands and buildings are being investigated by the Hastings officials.

Mr. Hastings said that this was a court of inquiry, and not a court of judgment. It was finally agreed to adjourn till tomorrow.

Attorney General Hastings informed THE BEE man that the court could not inspect or discuss the Hastings asylum.

Day by day brings to light new features which it will be difficult for the accused officials to answer. Today a comparison was made which shows either the corrupt methods of the accused or their gross incompetency to manage so important an institution.

GOES TO THE MANUFACTURER.

Bounty on Beet Sugar Does Not Reach the Producer Directly.

APPOINTMENT OF SUGAR INSPECTORS.

Cabinet Meeting to Be Held for the Consideration of Financial Questions—Land Extension Probable.

WASHINGTON BUREAU THE BEE, 515 FOURTEENTH STREET, WASHINGTON, D. C., June 23.—The officer in charge of the interior department who explained the matter of paying the bounty on domestic sugar production, and which was night before last reproduced in these dispatches, said today: "I fear I may have misled you. It is true the bounty goes to the producer of the beet, provided, of course, he makes the sugar, but if he prefers to not go to the trouble and expense of manufacture he does not get the benefit of the bounty directly. It is then paid to the manufacturer, but of course the beet producer, knowing of the existence of this bounty, will only sell his beets at a figure which is higher by the amount of the bounty than the price otherwise would have been, so that he receives the bounty just the same."

It was the intent of congress to develop the culture of the sugar beet and the only practicable way of doing this was to place the bounty on the manufacturer, as it is in the case of the sugar cane, which is produced therefrom. Therefore the bounty was paid to the manufacturer, the person who produces the beet or the sugar itself. In either case it is the producer from the soil, and not the manufacturer, whether in the first or second instance."

Secretary Foster is expected to name the ten or twelve sugar inspectors within the next few days, and they are to begin work on July 1. There has been a great deal of friction among the politicians over these places, where the sugar industry is so important, and actual traveling expenses. Several states which do not produce sugar of any kind have demanded one or more of the inspectors, and the commissioner of interior has refused to give them, the information was vouchsafed that no state not a sugar producer would get an inspector, and no state would get more than one.

Several politicians have urged the appointment of old or inexperienced men for these places and they have all been turned down. Young, active, hard working and experienced men are all that are wanted, and all have, in fact, been selected several days ago.

The matter of paying a bounty on sugar in this country is a most important one, and it is being discussed in all quarters. There will be a lot of honest, diligent, progressive and creative work done in the sugar industry, and it is hoped that the government will be able to do it.

State Will Not Prosecute a Prominent Man Indicted for Few Tail's Murder.

CITIZENS FOUND TO BE PREJUDICED.

Regular Jury Panel Soon Exhausted—Discharge of Plenty Horses Will Probably Prove to Be a Precedent.

ST. LOUIS, S. D., June 23.—[Special Telegram to THE BEE.]—Developments in the Few Tail's murder case today disclosed none of the details of the matter, most of the time being consumed in making an effort to select a jury that is acceptable to both sides. Out of the regular panel of twenty-four men only eleven passed, nine being excused for being prejudicial against the Indians, and the prosecution and defense each challenged two. The judge issued a special venire for thirty more jurymen returnable at 10 o'clock tomorrow morning and it is believed a jury can be chosen from this number, when business will begin in earnest.

Attorneys for the defense were somewhat surprised and slightly frustrated for a few moments this morning when the prosecution moved to enter a nolle prosequi in the case of James Julps, the only reason set forth being that it was not desirable to prosecute this man. The court entertained the motion and Julps was therefore discharged.
