Working for a Second Term for Nebraska's Military Instructor. WASHINGTON BUREAU THE BEE,)

513 FOURTEENTH STREET, Washington, D. C., June 24. Senator Paddock called at the war department in the interest of Lieutenant Griffith. who wants a detail for another year as military instructor at the Nebraska state university. Secretary Proctor is out of the city

and will not return under a week or ten days, and no action will be taken upon the various applications for the detail till he returns, although Assistant Secretary Grant has the matter in charge. The senator talked to General Grant about it, urging the detail of Lieutenant Griffith for another year, oa the ground that he had not had a fair chance to show his abilities during the past year, as the university had not till now a chancellor, and the institution had been in somewhat of a chaotic condition. General Grant said that all other applications for details for a second year had been declined and there was no disposition to make an exception in this case. Senator Paddock will see Secretary Proctor when the latter returns next week. Senator Manderson and many others are working for Lieutenant

WIDOW'S CLAIMS WILL BE PUSHED. The widows of the country will soon be blessing General Raum, as he has just made it understood throughout the pension office that nearly all the time for the next six weeks will be devoted to the settlement of the widows' pension claims. O WROTE Michael Angelo Lane the other day when Anson and his colts dumped a game, and as it fits Omaha's case yesterday it comes in handy here.

The Lambs were simply flagellated out of their boots and that is all there

s to it. And they deserved the licking, for a rockier exhibition of the great national sport hasn't been stacked up in these parts for

many moons. The day was fine and the attendance good but a more disgusted crowd of spectator never left the park.

And they had a right to be, although there were some extenuating circumstances. Paper McCauley was indisposed and said off, and any ball crank can tell you what that means Allen stands today as the first baseman with

out a peer in the Western association. Mac's absence put "Old Cy" on the initial bag and Billy Traffley behind the bat, Then Dad Clarke, who has grown rusty by his long enforced idleness, was put into pitch, and while his vulnerable twirling wen a long way toward insuring defeat, he did not lose the game alone and single handed by a long shot.

His support was majestically bum! In preliminary practice the Lambs cavorted

upon the tender green sward just like so many three-year-olds at play. They labored under the idea that the Minnies were relics of the stone age, and that they could grab the game by the fundamental

basis of the pantaloons and yank it out when ever they felt like it. But there is many a lip between the slip and the dipper, isu't there!

While the Shannon family romped about in flendish glee the Minnies looked on sad and subdued, but with a revengeful glare in their eves that said as plain as words:

"We may fool you a trip." Fourteen to seven, that was the size of it, From the very start the Omahogs batted something after the fashion of Rena Frankin's female team, and fielded and ran bases

like so many cove oysters.

Nobody dreamed that the Lambs could lose; their work has been so grand, so reful-gent for the past ten days, and the crowd actually expected to see 'em knock out another victory big enough to eat hay! But the lightning don't most aiways some-

imes strike in the same place every day in the week, does it!
The Omaha crowd, too has become a trifle flossy, and it was high time Mr. Hollow Eyed Luck was taking in a reef or two. The bleachers "pulled" hard, but it was no go. Even Dan Honan's coaching seemed to have lost its potency. Even Colonel Strief was slightly tinged

with canary, too, but it was a wretched game to umpire, and his greatest deficiency lay in his allowing the Harrington gang to delay

They are the laziest lot of players who ever donned a uniform, and the hustle they got on themselves in one or two innings yesterday was something wholly unaccountable.

In the first Manager Dan walked right up to the plate and stood there until Mr. Juke gave him his base on balls. Donnelly sacrificed and Dan went to second. Then O'Hooligan made a hit and Daniel reached third. With the speed of an ice wagon Jocko broke for second, and although he was going at the rate of a mile a month, he could have made it easily, but he stopped to pull up his socks, and Darling and Hengle killed him. A moment later Manager Dan came in on a fantastic throw by Darling, "Old Cy" furnished the third out.

The Minnies, for some occult reason, re-fused to tie the score, and in the second the

Then the circus opened in both rings.

As a sort of bluff Darling permitted
Traffley to fire him out at first. Then "Old
Cy" dropped Walsh's assist, and Shugart was safe. Minnehan popped up a fly that should have been eaten alive but it wasn't. Hengle's long one was captured by the Commodore, then Treadway made a hit, and so did Marting Duckelet; B. H. Ward took his base as a present, McGlone crowded a safe one to center and McQuaid hammered out a wo sacker, and there was an even half

dozen on the half shell. Wasn't that tough, though? The second was barren of results for both

des, and so was the third. In the fourth Donnelly got first on four vide ones, and then after Jocko and "Old Cy" had been retired, the Deacon hit the bail at the base of the spire, and by the time Colonel Treadway had fished it out of the weeds 'way out on the Washington county line, both the Professor and his ecclesiastical brother were sitting on the bench.

Twitchell's out ended the inning.
All the Minnies could do was to add one ore single tally to their string on hits by McQuaid and Darling and a brace of recherche steals. Again Omaha got what the boy shot at, but the Minnies made two more, which was again

duplicated in the sixth. In the seventh Walsh's three-sacker and Traffley's single netted one, while five singles and a two-bagger rolled up three for the visitors, which were their last

The eighth developed three more for the Lambs, then they threw up their tails and went to the stable.

"Be sure to make it a cinch," said Ed. Brandt to Uncle Dick McCormick as the iatter climbed out of the directors' box at the ball grounds Tuesday afternoon. "You bet I will," and the chief owner of the Omaha base ball team disappeared,

the impression that he was going after the much needed pitcher.
But yesterday it transpired that St. Paul, Minn., was the end of Mr. McCormick's journey, and that the sale of the Omaha team ntact to some of the capitalists of that city was the object. It is not known whether the intended sale

contemplates the transfer of the Omaha team to St. Paul or not, but it is known that a deal for the sale of the McCormick interest is under way. Several financially responsi-ble gentlemen discussed the matter yesterday, and expressed some surprise that any deal looking to a transfer of the team would be considered for a moment. "If Mr. McCormick wants to sell out," said a well known capitalist, "let him make known his desire, and he can find a purchaser in Omaha. I'll gubrantee that the club will be well sup-noted here." ported here."

This sentiment was endorsed by others, and the belief that Omaha should not be deprived of representation in the Western asciation was strongly expressed. Until Mr. McCormick's exact intentions are manifest it will be well to suspend judgment. It may be said, though, that a short can-

STILL PURSUING THE ALTON.

Strenuous Efforts to Make Effective the Boycott Against That Road.

OTHER ROADS URGED TO THE BATTLE

Prediction that the Alton's Victory is Close at Hand-Lake and Rail Competition - Passenger Rates Must Drop.

Circago, June 24 .- Evidence is not wantng that the board of rulings of the Trans Lines Central Traffic association are still pushing forward more strenuous efforts to make effective the boycott against the Alton. The following is a copy of a circular that has been sent to the general managers of the eastern and western roads: "Information from foreign lines has been received by the board to the effect that certain companies, parties to the joint commission agreement of January 9, are not maintaining it in all particulars. The board will feel obliged if you will kindly inform it of the present attitude of your company upon the following points: "1. Is your company paying passenger

commissions at any point within or beyond the territory of the joint commission? If so, will you kindly say where?
"2. Has your company issued, orders to its agents not to accept a commission on tickets sold over the route of the railroads which continue to pay such commission!

"3. Have you directed your agents to discontinue the acceptance of commissions, moneys or rewards for the sale of tickets? "4. Do you continue to sell tickets over the route of the Chicago & Alton ! "5. If you have not aiready discontinued

the acceptance of tickets sold in or by the Chicago & Alton, will you not kindly advise us that you will discontinue such interchange of business? "It seems desirable to the board that orlers which have been issued by the majority of the joint commissions providing for non-payment and non-acceptance of commissions, as well as the discontinuance of passenger re-lations with the Chicago & Alton, shall now be made general. We have fully reviewed

our former correspondence on this subject, but the purpose of this inquiry is to still further endeavor to induce you to conform to the policy of the joint commission and give as final details upon the points indicated. The above letter is of course a private, con-idential communication to those to whom it is addressed. Many of the managers who have received it regard it as the end of the poycott. They look upon it as the expiring

kick of the boycott and predict that the Al-

ton's victory is close at hand.

LAKE AND RAIL COMPETITION. Another break in eastbound lake and rail rates was inaugurated by the Ogdensburg transit company of the Central Vermont line. T. B. Liusteed, the agent of that line, says from the day he advanced rates in acc ance with the agreement of the Trunk Line association he has not been able to get a car load of freight from the west of Milwaukee. "On even rates this line always gets its share of the traffic, he said, but the two weeks we have been frozen out. When the other lines are willing to make an honest advance the Central Vermont will be with them but we want no more such frosty deals in hot weather as we have had this time. While no open reductions have as yet been accounced flour and other sixth class freight is going forward to New York at 15 cents a reduction of 5c. Provisions are also reduced. Now that the Central Vermont has made an open reduction from 25 cents to 20 cents on New England traffic the other lines will no doubt issue the same tariffs. In the meantime railroad men are encouraged to hope that a restoration of west-bound rates may be effected soon. Advices from New York today say that the Lackawanna has consented to temporarily withdraw its \$120 scale of rates to St. Paul by way of Green Bay, pending the consideration of the matter by the different companies.

RATES MUST DROP. It is expected that Chairman Finley will give his decision today on the question of whether the passenger rate may be reduced from \$12.50 to \$10 between Chicago and Kansas City. The Alton, which asked for the reduction, fully believes that the ruling will be in its favor, but whether it is or not that road will most certainly reduce the rates to the basis proposed, pleading justification in the evidences of a regular complaint laid before the chairman vesterday.

CUT HIS THROAT.

Edward Harrington Ends His Wasted

Lafe in Suicide. Edward Harrington, a waiter at W. A Morrell's boarding house at the corner of Tenth and Capitol avenue, committed suicide last evening.

Harrington had been in the employ of Morrell for two years past. Of late he had been drinking so hard that he could do but little work. For the last week Harrington had been drunk every day, and for three days and nights past has had the tremens. He got so bad that a man had to be employed to watch him every night. In passing through the halls of the lodging

rooms upstairs about 6:30 o'clock last night Mr. Morrell saw Harrington standing in the door of his room. Supposing that his man was better the proprietor passed on, only stopping to tell him to go down to the dining A moment or two after Morreil heard a shriek and hastened up the stairs.

Lying on the floor of the room he had but a

ment before left by Harrington with old jack knife in his hand and surrounded by a pool of blood. For some months past the dead man had been living with Lucy Leo, a fallen woman. She was asleep in the bed where Harrington took his life. The fall aroused the sleeping

woman, and it was her scream which brought others to the door. A great gash was cut in the neck fully two inches long and over half an inch wide, Some one telephoned for Dr. King, and he responded at once, but by the time the phy responded at the man was dead. The doctor telephoned Coroner Harrigan, and that official notified Undertakers McCarthy & ouroy, who took charge of the body. It is not known whether the deceased had

any relatives or not. He never spoke of any. It was impossible to find Coroner Harrigan

last night after he viewed the body. He did

not leave word with the undertakers when he would held an inquest, but it will probably be held today.

saught a horse Tuesday night, but he dropped

the animal in short order. Councilman Specht is the owner of a horse that he keeps fastened to one end of a ploket rope. Tuesday night the animal was quietly grazing on a vacant lot in the vicinity of the eouncilman's residence. Shortly after midnight one of Pulaski's men happened to be passing that way. He saw the animal and also saw the glimpse of \$2 if he landed the stead in pound. Quietly sneaking up, he was just in the act of untying the rope when one of Specht's men appeared on the scene, and t the point of a revolver made the assistant boundmaster hastily depart from that section

This little incident promises to play an important part in the Pulaski investigation that being conducted by Councilman Specut chairman of the committee on police.

present distinguished chief executive, Hor-Second, we demand the repeal of the prohibitory liquor law, and in the interests of true temperance we favor the passage of a carefully guarded license tax law which shall provide for the issuance of licenses in town, townships and municipal corporations and which shall provide that for each license an annual tax of \$600 be paid into the county treasury, and such further tax as the towa township or municipal corporation shall provide, the proceedings thereof to go to the of such municipalities.

3. We favor such changes in our laws as will insure, under stringent penalties, full and equal taxation of every species of property after allowing the present exemptions as fixed by law and we favor strict economy and honesty in the expenditure of all public moneys taken from the substance of the people under any form or guise of taxation. ond, we demand the repeal of the prohib-

4. We favor the Australian system for voting to the end that we may have an honest ballot, no control or bribery of employers. We denounce the requibican party for the defeat of this salutary reform in the Twenty-third general assembly, in defiance of a popular vote in its favor and in the face of its adoption by sc many of our sister states, with the undeniable resulted ceriving and securing a pure and untrammeted ballot.

5. We reaffirm our adherence to the doctrine of the control and regulation of railronds as now enasted into a law, and we favor such changes as experience may show to be necessary to protect the people from the evasions of law; from encroachments and extortions through imperfectness of the law as will establish just and equitable relations between the people and railroad corporations in all travel and traffic over railroad lines. We call for statutes which provide stringent safeguards in the organization of all corporations protect the people from fraudulent and bubble concerns, provide that when any such artificial creation of the law is found to be engaged in harmful practices, the law shall promptly put an end to its existence.

6. We denounce all trusts or pools and combines, and we favor such action, state and national, as will forfelt to the public all franchises and property made use of by corporations or others to form trusts in manufactures, trade or commerce to the lajury and spoliation of the produce of labor and capital labor does not receive its proportion.

7. On behalf of our laboring and producing classes we renew that resolution to their interests in denying that which has always been a fundamental decrine and particle of the democratic party declares that in the division of the produce of labor and capital labor does not receive its proportion.

States senators by a direct vote of the people, and until an amendment to the national constitution can be secured requiring their election by such direct vote, their nomination by state conventions or individual proference. We hold in detestation the alarming corruptions which are so widespread in senatorial elections by state legislatures and which have defeated the will of the people in the United States senate as now constituted.

9. We reiterate our demand of one year ago for the free coinage of silver, and that it be made full legal tender for all debts, public and private, and denounce as unjust and dishonest the provision of law recently enacted allowing parties to stopulate against payment in silver and silver certificates, thus setting up one standard for creditor and another for debtor; one for the boor man and another for the rich man.

10. We acknowledge the great debt of gratitude the nation owes to the soldiers and saliors of the union, and we declare in favor of just, liberal and equitable pension laws for all invalid and dependent soldiers and saliors, their widows and orphans.

11. We denounce the McKinley bill, its motives, its authors and defenders and the theory under which it was submitted for approval to the American people. Such legislation increases the cost of the necessaries of life, promotes dishonest manufactures, trusts and combines, creates sectional envy, despoils more for the benefit of a few, threatens the country with an aristocracy based on ill-goiten gain, and above all corrupts the politics of the country so as to seriously endanger the perpetuity of a popular government. We demand equal opportunities for every section of our country, and for every eltizen, and we insist that every oppressive feature of the tariff be elliminated to the end that our merchant marine may be restored to the sea and the markets of the world opened to the producing classes. Sugar bounty is no tariff. It is the spoilation of the treasury for special classes and interests, which are no more centile

or the ploneer settlers on the frontier in their hardships and sufferings as the vanguard of civilization.

12. We denounce the wasteful and lavish appropriations of the last congress, which in time of profound peace, expended an amonnt equal to one-third of the total public debt incurred in four years of unparalled wars for the preservation of the union. This billion dollar congress marks the final effort of desperate politicians to perpetuate themselves in power by subsidizing classes, communities, special interests and privileged individuals from the public funds, which should be a sacred trust to be administered solely for the necessities of government.

13. While we concede the right of relations of our naturalized citizens to inherit lands and the right of foreign investors and creditors to hold for a reasonable period lands acquired in the collection of debt, and while we welcome an actual settler as an owner opon his filing a declaration of his intention to become a citizen, we are, nevertheless, unalterably onessed to the non-resident alien owner-

we welcome an actual settler as an owner upon his filing a declaration of his intention to become a citizen, we are, nevertheless, unalterably opposed to the non-resident alien ownership of lands and of foreign syndicate ownership of our industries; and we also demand that all unearned railroad land grants be reclaimed by the general government and held for actual settlement.

14. We tender to the Irish people our profound sympathy in their struggle for home rule, that safeguard of freedom which the infamous Force bill attempted to take from the American people in the congressional clerations. We abnor the persecution of Russia toward the Jewish people, and we believe that all civilized nutions should protest against such barbarism and impunity.

Resolved. That we are in hearty sympathy with the efforts being being put forth to make a creditable exhibition of Iowa's resources at the world's Columbian exposition, and we favor a liberal appropriation by the next ceneral assembly that our prosperity may be fully exemplified at the great gathering of nations of the world.

For the endorsement of these uringings and

f the world. For the endorsement of these principles and for the election of state officers and a legisla-ture in support of them we appeal to the con-science, intelligence and judgment of our felow eltizons, irrespective of their former party affiliations,

Not Yet Ready. CEDAR RAPIOS, In., June 24.- | Special Telegram to THE BEE. |-The prohibition question was the cause of a hot discussion at the republican county convention at Marion today. M. P. Mills of this city offered a set of resolutions among which was a plank declaring that "we favor the immediate repeal of all existing laws that are obnoxious to a majority of the people and the enactment in fleu thereof of such laws as the requirements of the prople from time to time demand." Johnson Brigham offered a substitute which protested against the democratic policy of nullification as directed against the law for the suppression of the saloon in lowa and declaring in favor of a continuance of the law and its vig-orous enforcement. A spirited debate for lowed and on a vote being taken the Mills

resolutions were tabled by a vote of nearly two to one. To Debate on Silver.
