

BATTLE CREEK'S BROKEN BANK

Depositors and Stockholders Actively Engaged in Winding Up the Institution.

SWARMS OF LAWYERS AFTER THE DEBRIS.

Norfolk Creditors Attack Maxwell's Elegant Residence, to Satisfy Claims—Receiver's Idea of the Situation.

BATTLE CREEK, Neb., July 23.—[Special Telegram to THE BEE.]—The town has been crowded with attorneys today looking after the interests of clients having claims against the Farmers' and Drivers' bank of this place. Sheriff Losey attached today the fine residence of Robert Maxwell, that was in his wife's name.

The receiver's deed was brought by the Norfolk National bank of Norfolk to recover something over \$3,000 that Maxwell was surety to them. The property is valued at \$5,000.

Receiver Edgcomb today said that there was enough money and good paper left in the bank to pay all depositors of dollar for dollar and something would be left for the stockholders.

John F. Tiedgen, one of the stockholders of the bank, will be the least loser as he was a large stockholder and the only one that is responsible and from whom anything can be made. Mr. Tiedgen is a honest, hard working farmer that has accumulated considerable wealth by hard labor and has the sympathy of the entire community in his loss by this bank failure and the people are commending Maxwell, Sharpe & Ross Co. for his loss.

Begin the Inquest.—[Special Telegram to THE BEE.]—The scene of last night's explosion was visited today by vast crowds and the ruins showed what terrific force the explosion must have had. The outside wall of the round house was completely blown out and six stails were utterly destroyed.

The coroner's inquest was held this morning, but after a little unimportant testimony had been heard adjournment was had until tomorrow morning at 10 o'clock. The jury then visited the scene of the catastrophe to enable them to understand the exact situation.

The body of Charles Hasomeyer, the man who was killed in the explosion, will be shipped to Louisville, this morning. Dr. Hasomeyer, the brother of the deceased, taking charge of the remains. The deceased was an old employe and had been in the employ of the mill for several years. He was a member of the Burlington voluntary relief fund of the Louisville lodge of the Ancient Order of United Workmen.

The body of the man who was injured, has been turned over to his relatives, and his remains will be buried tomorrow. He was also a member of the Burlington voluntary relief fund of the Louisville lodge of the Ancient Order of United Workmen.

Frank Mauer, the man badly injured, was resting easily this morning, and the physician believes that unless he takes a turn for the worse he will recover. The exact cause of the catastrophe can only be a matter of conjecture. As the explosion was of boiler explosion, the cause may be found by a public benefactor by attempting to buldize the patentright man into leaving town. A recent windy passage-at-arms occurred between the day and night of the explosion. At Peterson's arrogant and totally uncalculated action, since he was not an interested party nor had he ever been approached by any person of his acquaintance. Several purchases of the patentright man have been made by moved men of the county and John J. Jennings, prominent in stock in the company, is inviting ridicule by his foolishness.

Opposed to Patentright Pleads.

LYONS, Neb., July 23.—[Special to THE BEE.]—Lyons was thoroughly stirred up yesterday over the antics of N. P. Peterson in a patent fight. The man who has been publishing his invention here during the past two weeks, Peterson is a pronounced crank on the subject of patents, life insurance, lightning rods, etc., which he classes together as "vitality." He has been trying to get a public benefactor by attempting to buldize the patentright man into leaving town. A recent windy passage-at-arms occurred between the day and night of the explosion. At Peterson's arrogant and totally uncalculated action, since he was not an interested party nor had he ever been approached by any person of his acquaintance. Several purchases of the patentright man have been made by moved men of the county and John J. Jennings, prominent in stock in the company, is inviting ridicule by his foolishness.

Talmage Citizens Enjoy a Picnic.

TALMAGE, Neb., July 23.—[Special to THE BEE.]—Yesterday was a gala day for the pleasure-seekers of Talmage and vicinity. A "harvest home" picnic has been so extensively advertised and notwithstanding the heavy rain of the day before almost every mode of conveyance was pressed into service and the roads were packed with a population about this date of fifteen to twenty miles west of this city. Lawn tennis, croquet, boat riding and other amusements were resorted to and the day was a very successful one. The picnic was held at the residence of the order came more particularly to hear the speeches, one of which was to be of a political character, by Senator Charles W. Williams, and the other by the pastor of the church. Mr. Williams held the attention of his audience for more than an hour with an exposition of the money question from an alliance view.

Made a Hit.

LINCOLN, Neb., July 23.—[Special Telegram to THE BEE.]—"Tuxedo" made a big hit tonight at the Funk opera house, and gives brilliant promise of being one of the great successes in the world of farce comedy. It was the first "first night" Lincoln has ever had and per consequence the representative of the beau monde came out in large numbers. From an artistic standpoint the comedy is very clever. The misral features have been very much curtailed, a short first act only being given. While the comedy was when the last curtain fell it was the unanimous expression that "Tuxedo" was a pronounced success.

Organized a Savings Bank.

BATHURST, Neb., July 23.—[Special Telegram to THE BEE.]—The Union savings bank of Bathurst filed its articles of incorporation with the county clerk this afternoon. The capital stock of the new institution is \$30,000. The incorporators are: J. H. Williams, president, and will begin operations September 1st. The incorporators comprise a number of the solid financial men of the city. The following directors were elected: J. H. Williams, W. G. Washburn, H. L. Ewing, Thomas Vule, A. J. Bumpster, Nathan Blakely and Jacob Kline.

They Will Do Omaha Today.

FREMONT, Neb., July 23.—[Special Telegram to THE BEE.]—Four pickpockets were captured by the police during the exhibition of Forepaugh's circus in the city today. They were each fined \$50 and costs by Judge Williams, amounting to \$240.

Could Not Produce a License.

ABERDEEN, Neb., July 23.—[Special to THE BEE.]—Yesterday a fellow by the name of Brown was arrested by the sheriff. He has been traveling around the country in company with a young girl, whom it was suspected

TEMPORARY TRUCE FIXED UP.

Tennessee Miners Agree to Kesp the Peace for Six Days.

LEGISLATURE TO BE CALLED TOGETHER.

Convicts Will Be Permitted to Return to Work Pen Itng the Modification or Abolition of the Lease System.

KNOXVILLE, Tenn., July 23.—This morning the miners' committee left Knoxville for Coal Creek with the decision of the governor that the convicts were allowed to be placed in the mines from which they had been withdrawn and the legislature would be convened in extra session for the purpose of taking such action as it saw fit on the convict lease system.

HERREW IMMIGRATION.

Plan of Action of the Jewish Alliance in America.

PHILADELPHIA, July 23.—An appeal and plan of action with regard to Russian Jewish immigration was today issued by the Jewish alliance of America. It is in part as follows: "It may be stated beyond question that if the annual influx of the many thousands of immigrants could by some effective system be made to contribute to the betterment of the interior of the union they would prove a desirable acquisition to the respective localities in which they settle. It is, however, manifest that the assimilation of these immigrants is retarded through their concentration in the larger communities and particularly in the seaboard cities.

The purpose of the plan in general may be stated as follows: The entire country shall be divided into districts. Each district shall be directly controlled by the branch organization of the Jewish alliance in that district. All other branches in the same district to cooperate under the direction of the principal branch of the district. All measures of general policy are to remain subject to the committee of the central committee. The board of officers of each of the branches of the alliance shall have the duty of finding locations where one or more families may be settled under circumstances affording them a reasonable opportunity of making a living. The duty it shall be to find locations where one or more families may be settled under circumstances affording them a reasonable opportunity of making a living.

One little incident noticed by the Associated press man will show the discipline in effect and explain how well the miners were kept in hand. The leading miner, Joseph P. Minter, stepped up to one of the leaders and said: "I want to change the number of my card." Immediately out came a long list of names, opposite to each of which was the number of the Winchester rifle which had been assigned to him.

The conference held tonight lasted three hours and ended without any visible result. Governor Buchanan declines to consider the proposition for an amnesty. On the ground that it would be an implied compromise with a violation of law that might attract the attention of the courts. The miners were renewed with impunity. The representatives of the miners disclaimed any charge and proposed to accept the terms of a promise with an explanation which would relieve it from any such construction. The miners were renewed with impunity.

There is no longer any doubt but that the governor will retain the convicts in the mines from which they have been withdrawn. The miners were renewed with impunity. The representatives of the miners disclaimed any charge and proposed to accept the terms of a promise with an explanation which would relieve it from any such construction. The miners were renewed with impunity.

DIED IN HORRIBLE AGONY.

Fate of a St. Joseph Man Bitten by a Cat.

ST. JOSEPH, Mo., July 23.—Sherman Hartor, a robust man who died seven years ago of a giant in stature, died at the city prison this morning in horrible agony from hydrophobia. He was bitten over the eye two years ago while playing with a kitten and suffered no trouble from it until last Sunday morning, when he felt a pain near the eye, which was followed by the sight of water he was seized with convulsions. Yesterday afternoon he was taken to the city prison, where he died after he had endured a fearful struggle between him and five attendants, who tried to control him. He was finally strapped to a bed, but not until he had attacked two of his attendants. Injections of morphia seemed to have no effect on him. Later he was released from the prison, but he died in a convulsion this morning.

WEATHER FORECAST.

For Omaha and vicinity—Fair; stationary temperature.

WASHINGTON, July 23.—Forecast till 8 p. m. Friday: For North and South Dakota—Fair Friday; slightly warmer Friday night; variable winds.

For Iowa and Nebraska—Fair till Saturday night; stationary temperature; light winds.

For Kansas and Missouri—Fair Saturday night; stationary temperature at Dodge City; north winds.

For Colorado—Fair Friday and Saturday; stationary temperature; east winds.

After a Excitement.

VIRGINIA, Wis., July 23.—An officer was sent from here to serve papers on Secretary Rusk in the suit brought by the democratic state administration to recover money alleged to have been received by ex-state treasurer as interest on state deposits. It is estimated that the suit would cost the administration \$30,000 was left on deposit in a Virginia bank, and he is to be examined as to the amount of the interest on the suit on the state against the ex-state treasurer.

Shipping News.

New York, July 23.—[Special to THE BEE.]—Among the arrivals from Europe on the Spreck of the North German Lloyd line were Mr. V. Danpert of Omaha and Mr. Hans Fendler of Wichita, Kan.

At Southampton—Arrived, the Fuerst Bismarck, from London. Arrived, the Minnesota, from Amsterdam.

At New York—Arrived, the Amsterdam, from Amsterdam.

Wants His Promised Boodle.

CHICAGO, July 23.—Suit for \$3,000 damages was begun in circuit court today by Edward S. Richards against Thomas B. Bryan. The plaintiff alleges that he secured the franchise for the West Side elevated railroad and that Bryan and his partner, John D. Jennings, promised him stock in the company for his efforts. He claims this stock has not been turned over and hence the suit.

Accepted the Amendment.

CHICAGO, July 23.—The Chicago economic fuel gas company today filed its acceptance of the amended ordinance as passed by the city council last week. The company is said to have been in the city for some time and materials and will commence work on the illuminating lines at once.

NEW FIELDS IN THE WEST.

Eastern Manufacturers are Taking the Advice of Horace Greeley.

MEXCO TIRED OF REVOLUTION.

A Statement from Minister Guenther—Why Gotham is Democratic—Omaha-Helena Road.

CHICAGO, July 23.—[Special Telegram to THE BEE.]—The fact that the great eastern manufacturers are developing a marked interest in the west was strikingly illustrated in the organization of the Waterston land and improvement company, an extended account of which was published in THE BEE a short time ago. Mr. A. B. Tower of the great manufacturing center of Holyoke, who is at the helm, confirms the statement as to this tendency.

"I am on my way home from Denver," said Mr. Tower, "where the company of which I am a member is putting in a plant for the manufacture of printing paper. We expect to be running in a short time. We will employ 150 men and will have a plant of about four to five acres. Manufacturing capital is being attracted westward more and more every year as your resources are developed and the population increases. Of course we can produce goods cheaper by making them near the western markets than if the material were shipped east and then returned again in the shape of the manufactured article. By the statement that capital is being attracted westward I do not mean that manufacturers are transferring any part of their investments from the east to the west, but that while increasing numbers of men are going west to establish branches in the west, I know of several contemplated moves in this direction, but as they have not taken final shape I am not at liberty to give any details."

Mexico Tired of Revolution.

"The stories which have recently appeared about a threatened revolution in Mexico are made out of whole cloth," said Richard Guenther, minister to that republic, while in his home in Oshkosh. "Just why they should be set at naught I do not know, but it is pretty well understood that the government has no intention of allowing a revolution to break out. The fact is that Mexico is perfectly peaceful and a revolution or any slight danger of one is not to be thought of. The Mexico of today is not the Mexico of ten years ago, when an uprising could take place in some remote section of the country and the government would be unable to control it. The present means of communication any attempt at revolution could be suppressed in a few days. The standing army of 30,000 men which would be more than ample for any such emergency.

Republicans Will Organize.

MITCHELL, S. D., July 23.—[Special to THE BEE.]—The S. D. Republican party is organizing a convention of the county editors of this state to be held in order to secure an effective organization for the campaign next fall. The outside papers in this section have spoken favorably of the scheme, and the standing army of 30,000 men which would be more than ample for any such emergency.

EXEDED IN MURDER.

Result of a Prize Fight in a Pennsylvania Mining Town.

MONONGAHELA, Pa., July 23.—This city is in a state of excitement over a prize fight that turned into a murder. Harry Boyd and John Myford, living in the city, were engaged in a prize fight just outside the city limits, and a quarrel several days ago about some trivial affair, though it is supposed jealousy over a girl was the real cause of their differences. Both men came up for the fight, and were constantly bickering and today it was decided that they should fight it out according to prize ring custom. The fight was a ring and stripped for the brass, pitched on a counter. They were both young fellows and almost clumsy exercises. It is a mistake to suppose that Germans regard this sort of military service as a hardship. If a young man is compelled to serve for three years in the army, he has a very good thing with his business, but if he can pass a satisfactory examination in his studies he is only required to serve for one year and this is the case with the young men of Germany. Little children have their military caps, their guns and sabers and when they are called up to the colors they are means to serve the fatherland long forward with eagerness to the time when they can enter the army. You may also deny the reputation which has been given to the young men of this country, that the present emperor has made himself unpopular by his treatment of his army.
