## NEWS FROM COUNCIL BLUFFS.

Would Like to Capture the National Grand Army Encampment

WILL MEET TO DISCUSS THE SUBJECT.

Fears Entertained that Lincoln Will Prove a Dangerous Rival in the Race for the Next Annual Event.

An effort is to be made to capture the national encampment of the Grand Army of the Republic in 1893. For the purpose of talking the matter over and seeing what there is in it, a meeting has been called by some of the citizens of Council Bluffs for this evening, in the superior court room in the county court house, at S o'clock. The call is signed by D. B. Dailey, John Lindt, J. J. Steadman, R. V. King, G. M. Bailey, Theodore Guittar and W. Scott Rice. An invitation is extended to all old soldiers and citizens generally, to be present and take part in the meeting.

In reply to a question as to the chances of Council Bluffs to secure the prize, Coionel Daily said last night:

"Our chances are good if we only do a little hustling. I have it from headquarters that we can rely on the assistance of Michigan, Wisconsin and Illinois, and I am sure we ought to have the co-operation of Omaha, it not all Nebraska. Lincoln will put in a bid I understand, but after we have declared ourselves on the side of Omaha in the race for the republican national convention, it seems to me that Omaha ought to do seems to me that Omaha ought to do far as I know now, Luccoln is the only city that has put in a word for it. The annual encampment will be held this year at Detroit August 4, and it will then be decided where next year's encampment will be held. From the present indications we ought to be able o capture it, provided we are enough in earnest to try for it.

A large meeting is wished for, so that the citizens in general may become interested in the movement. It is hoped that the scheme may be entered into with determination to win, as there is nothing to be lost, and the possibility of great gain

ABLE JURISTS, EXAMINERS AND EXPERTS.

Beneficial Effects on Claimants of Recent Congressional Action-How to Prosecute Claims of All Kinds.

About sixty days ago a new departure was inaugurated by the San Francisco Examiner, now the leading paper on the coast. Its proprietor, Mr. Hearst, son of the late Senator Hearst of California, who has a very large fortune at his command, conceived the idea of establishing a bureau of claims at Washington, manned by the ablest lawyers and specialists conversant with the routine work in the various departments and bureaus of the government.

When the announcemnt of this new departure was made negotiations were at once entered into between THE I . and the proprietor of the Examiner to join hands and muually share in the enterprise. These arrangements have been perfected and agreements entered into by which Tun Ban is to prosecute all ciaims arrising in the territory where THE BEE enjoys so extensive a subscription patronage. Under this agreement all applications for

claims, either for pensions, Indian depreda-

tions, land or mining claims, patent or postal claims in the states of Iowa, Kansas, South Dakota and Nebraska, will be taken in hand by THE BEE BUREAU OF CLAIMS IN Omaha and through it fowarded to headquarters at Washington where they will be prosecuted to a final and speedy conclusion, The Beg takes pleasure in offering to all its patrons and particularly to subscribers to THE WEEKLY BEE, the services of its new bureau which, we have no doubt, will prove of great advantage to them, both in prosecuting new claims to a successful issue and in

THE BEE BUREAU OF CLAIMS has frequently been referred to in these columns, but up to the present time, no reference has been made to the manner in which its important work is performed. This is one of the most interesting features connected with the enterprise.

expediting all claims entrusted to THE BEE

The Bureau's Counsel. To begin with, the services of three mos eminent councilors have been retained. These are A. L. Hughes, O. E. Weller, and P. J. Butler. They are denominated "gen-eral counsel." They are men of mature years and learned in the law. They have made a specialty of practising in the the United States supreme, circuit and dis-trict courts, the United States court of claims and before all the departments and bureaus of the government. They are qualified to pass upon the general merits of any ciaim as soon as it is presented. This saves a great deal of time, because, when a claim has been passed upon by them, it is generally one which is entitled to a standing in court. When a claim is rejected by them, it means that it is either outlawed or that it lacks certain elements which would lead to its fina approval.

Examiners and Experts. Besides these gentlemen there are also practising attorney, an examiner and expert in each department in which THE BEE pro poses to prosecute claims, namely, those opatents, pensions, postar and land claims and Indian depredations, in fact in any department in which a claim may arise against the federal government. These attorneys prepare the petitions and tend to the claims before the several courts, while the examiners and experts make aspecialty of searching the records and arranging the evidence neces sary to strengthen the claim. The gentleman charged with this duty re

garding Indian depredations has been the as-sistant chief examiner of these claims in the Indian bureau of the interior department for many years. His comprehensive knowledge of details, facts, status of and evidence in the cases heretofore filed or the outbreaks out of which others yet to be filed have arisen, renders his services extremely value

Then there is a general manager, John Wedderburn. For years he was private sec-retary to Senator Hearst, the father of Hou. William Hearst, the projector of the present enterprise. He has also been for years the Washington correspondent of the San Fran-cisco Examiner, with which The Bee is no v co-operating. He is a man of universal information and is especially adapted to the responsible position he now holds.

Than this force none more capable could be found in the country. Its services have been retained at great expense by the bureau, the salaries alone reaching at the resent time \$1,800 per month.

As has been stated, the San Francisco Examiner inaugurated the enterprise, and through it THE BEE was allowed to establish its bureau for the accommodation of ciaim ants in South Dakota, Iowa, Nebraska and This privilege was first, of all

papers in the country, extended to THE BEE be cause of its known pluck, enterprise and energy. The undertaking, however, has at-tracted so much attention throughout the country and been so greatly appreciated by old soldiers, Indian victims, and defrauded government claimants, that leading papers elsewhere have asked to be admitted to enjoy the privileges of the bureau. Among sota and others in Boston, Cincinnati, St. Louis, Atlanta and New Orleans, It is thought that Mr. Hearst, the proprietor of

augurated the system, will grant the applica-Claims Coming In.

THE BEE CLAIM BUREAU has not been existence one month and yet it has listed Indian depridation claims aggregating 882,000 and the amount is being constantly added to. This is a remarkable showing, and yet it is but a fraction of the claims which remain unrecorded and unpaid in the states controlled by The Bree Bureau of Claims, namely, South Dakota, Nebraska, Iowa and Kansas.

The Examiner, and the gentleman who in

On March 3, of this year, an act for the payment of Indian depredation claims was approved. To this act, it is necessary to direct the attention of every nant who has suffered at the hands o Indians. This refers to those victims whose Indians. This refers to those victims whose claims have already been filed as well as to those who still contemplate flying them. Up to the date in question, thousands of sufferers had filed their claims with attorneys in all parts of the country and were in most cases charged excessive fees. Many of the claims, too, had been pending for years. Satisfied that, in many cases, the claimints had contracted with the attorneys in question and, without fear of prosecution for annulment, could not transfer their claims to other agents or attorneys who might expedite the collection, congress undertook to afford the desired relief. This it did in the act in question.

Annulling Exorbitant Contracts. Jurisdiction in these matters was trans ferred to the court of claims where the ser vices of an attorney are addispensable. Under this law, all agreements made by claimants with attorneys, prior to March 3, 1891, are expressly declared null and yold. This was done as has been intimated to release claim ants from exorbitant fee contracts.

Every claimant is, therefore, free to employ as his attorney whomsoever he pleases. Under these circumstances, it would appear to be to the advantage of every person hav-ing a claim to place the same with the bu-reau guaranteed by such a reliable and re-

sponsible paper as THE BEE, rather than with unknown parties.

The disappointed attorneys whom the law in question has deprived of exorbitant fees have been flooding the country threatening their former clients with suit should they take their claims from them and place in the hands of other attorneys. uld not discourage claimants, because an act of congress is paramount to my and ail agreements entered into with any attorney prior to the time named in the said law.

To Recover for Indian Depredations Parties desiring to avail themselves of the benefits of the act in election regarding the recovery of claims growing out of Indian depredations should forward to THE BES BUREAU OF

CLAIMS power of attorney, gravting authority to appear in their case in the court of claims. They should also furnish a detailed

statement of loss, including each specific article lost, its value, date, county and state, band or tribe of Indians committing depredations, names and present addresses of witnesses whose testimony they expect to use in substantia-tion of their claim, and such other information bearing upon the case as they may

Upon receipt of this simple information THE BER BUREAU OF CLAIMS Will Immediately attend to the more intricate or difficult por-tion of the preparation.

The claims must not be based on depreda-

tions extending back beyond 1865. Readers of The Bee or those who may file claims for collection, are respectfully re-quested to furnish The Bee BUREAU OF CLAIMS with the names and addresses of any other parties who have suffered similar losses at the hands of Indians. Many people are as yet unaware of the recent favorable legislation by which these claims can now, if roperly prepared and presented be collected. But Indian depredation claims are not the only ones which THE BEE BUREAU OF look after any claim which any citizen has against the government or any department of the government. It will be specially service-able to soldiers of the late war.

Pensions for Aged Soldiers Strange as it may appear, there are thou-sands of veteraus of the rebellion, who are old, weary, infirm and beyond the skill o physician or surgeon to restore to health. Many of these are incapacitated because of exposure or injuries sustained in the late war nd yet, many of these are unprovided with Pensions for Infirm Soldiers.

There are thousands of poor fellows who are permanently disabled, having served at least ninety days in the war. They were also honorably discharged. These are entitled to a pension even though the infirmity from which they suffer was not the result of exposure in the war. The only condition is that their prostration is not the result of Pensions for Soldiers' Widows.

There are thousands of soldiers' and sail ors' widows in this country who do not know that they are entitled to pensions. And yet by writing The BEE BUREAU OF CLAIMS, whe their case is just, they will be able to secure those pensions. All that is required is that each widow show that she is without other means of support than hee daily labor are that her hashand served at least ninety days in the army and was honorably discharged; that she married the soldier prior to June 27, 1890. Proof of his death must also be advanced, but his demise need not have been the result of army service.

Pensions for : oldiers' Parents. There are thousands of soldiers' parents who are also ignorant of the fact that they are entitled to pensions. These must prove that their son died from a wound, injury or disease which, under prior laws, would have given him a pension; that he left no wife or minor child; that the mother or father is at present dependent upon his or her own man ual labor or the contributions of others not

legally bound for his or her support.

Besides these claims, The Bes Bureau will prosecute land claims growing out of disputes or appeals from local land offices to the general land office of the United States.

THE BEE FLYER.

It Travels at the Rate of Sixty Mile Per Hour. THE OMAHA BEE, on Sunday, in the western, northwestern, and many places in the southwestern part of the state, reaches its readers from eight to twenty-four hours ahead of all its competitors. In fact, when the latter reach their destination they are like back numbers. They are not used fo reading, but for wrapping and carpet padding purposes. In each of these respects

they are quite valuable.

How is The Bee able to so distance its ompetitors! Because it has established a number of norse routes throughout the state! Because it has its own special train which makes a run to Grand Island, 154 miles dis-

ant from Omaha, in four hours! Muking allowance for the stops at rail and crossings, this train travels at the reauthorities as soon as possible. mark able speed of sixty miles an hour. It stops at only two stations. The Bee, however, stops at every station. It is thrown from the train as the latter files past each town in bundles and quantities of all the way from five up to 500 copies. This Her contains every line of news dis

ributed to subscribers within the shadow of THE BEE building in Omaha, When the subscriber in this city is unfolding his paper at broakfast, the subscriber in Grand Island is doing the same thing, the great paper beingplaced in his hands at 7:10 This enterprise costs money. It is, how

ever, appreciated by THE BEE'S readers. No other paper in this section could stand the expense. No other paper could stand half he expense. Some of them have tried it and THE BEE alone sends out a special train.

This is something which is done by no other paper in the country.
This train leaves Omaha at 3 o'clock in the morning. It reaches the other stations on the Union Pacific as appears below. Cut out this time table and past it upon the wall. It will tell you when your Sunday paper is due. It will tell you also when to ok from your door or window and see Tu BEE Flyer rushing through your town with

At Columbus connection is also made with a train for Platte Centre, Humphrey, Madison, Norfolk, Wayne and Wakefield.
At Grand Island also a fast freight is caught which supplies Elm Creek, Gibbon, Gothenberg, Kearney, Lexington, Shelton, Wood River and North Platte. The Bee reaches the last mentioned place at 2:20 p. m. Its would-be rivals tumble in there at 9:25 at night, seven hours later! It is too late to read them then, and they are accordingly deivered next morning, when they are about twenty-eight hours old! At Silver Creek packages are thrown off for Stromsburg and Osceola which are transferred by special wagon route, giving Stromsburg and Osceola the only paper they can get on day of publication. At Clark's a large package is left for Fullerton which is carried by horse route giving Fullerton the only paper they

the claims of citizens of the United States for depredations committed by the members of the various Indian tribes since July 1, 1865. This act provides for the speedy hearing and determining of all such claims, and allows at-torneys presenting them to charge from 15 to 20 per cent. It is believed that the work can be done for from 5 per cent and upwards of the amount of the claims as allowed by the proper court, thus effecting a large saving to day house in the west. claimants who have in the past paid from 33% to 50 per cent for such work. By the terms Board and room from \$30 per of this law all claims must be prosecuted be-fore the court of claims within three years from the date of its passage or that they will forever be barred; so that it is desirable that persons who have suffered from Indian dep-redations in the states of Nebraska, Kansas, Iowa and South Dakota should at once com-municate with THE BEE bureau of claims and This Elegantly Appointed Hotel have the matter put in proper shape and pre-sented to the court immediately. Claimants should take notice that by the

terms of the law above alluded to, all con-tracts at present existing between themselves and attorneys, wherever located, are ren dered null and void; therefore, it will be necessary for them to engage other attorneys or make other contracts in accordanwith the terms of the law. THE BEE bureau of claims undertakes the collection of any such claims on terms infinitely more favorable than those offered by the attorneys and agents who have endeavored to make large profits from this class of business, as its desire is to benefit only a class of its readers who are illy able to afford to pay the exorbitant fees for such services, which require only honesty, intelligence and persistence in their presentation to bring them to a successful issue. Claims that are filed first under the new law will naturally have first attention in the court of claims, and therefore it is desirable to get them into the hands of the proper
