visible mark. The Mecca is not a patential article, but is a simple pre-paration with the formula for the use of the physician. There is no question that if it is applied at once a majority of the cases of severe hurning which terminate fatally would be saved. This can only be done of course where it is kept in the house ready for instant use. If Mr. Foster were disposed to ac so he could publish more genuine testimonials than any of the much genuine testimonials than any of the much valuated patent medicines, but he is a modest, conscientious Christian gentleman, very re-luctant to resort to any method of advertis-ing, but still anxious to do all he can toward saving life and preventing suffering. But without advertising or any effort made to push it the Mecca is making its way. Yes-teriate orders adverting advertised or grass

Fighting Over Crops. A special session of the district court was held yesterday with Judge W. I. Smith on the bench. The object of the session was to hear the case of Peter Wiese, John Clausen and H. Cornelson against Matthias Kuhl, Gertrude Kuhl and J. B. Sweet, in which the plaintiffs have made application for the appointment of a receiver for the property of Mrs. Kuhl. Mr. and Mrs. Kuhl have been before the public before recently, a divorce suit having been commenced by the latter

its next encampment with Washington, Lincoln and Counci Bluffs are the three prominently mentioned He regarded Lincoln as practically out o In 1888 Kuhl gave a note for \$200 to Wiese and Clausen and Cornelson signed the note with him as surctices. Last May be left his wife and stayed away for a month or more. When he returned Clausen and Cornelson immediately took him in hand and induced him to give a mortgage the race, so far as any opposition to Council Bluffs was concerned, on account of the stand Iowa had taken with reference to the demand of Omaha and the state of Nebraska for the republican national convention in 1892. Washington, so far as could be judged on his crops in favor of them and Wiese, to secure the payment of the note. This mort-gage was executed July 17, and four days later Mrs. Kunl executed a similar instru-ment on the same property, in favor of J. B. 1892. Washington, so far as could be judged from newspaper accounts, was showing no particular enthusiasm in the matter. Coun-ell Bluffs accordingly stood a capital chance of getting the encampment herself. Wisconsin, Indiana, Michigan and Iilinois could in all probability be relied upon to assist Council Bluffs in her efforts. Judge R. C. Hubbard was then called upon. In a short, though alcount and enthusiastic Sweet, who was her attorney in the divorc suit which had been commenced a short time before. She suit as it stands at present, is a fight

In a short, though eloquent and enthusiastic speech, he showed the benefits that would to see which of the parties are entitled to the mortgage on the crops. Wiese, Clausen and Cornelson have the mivintage so far as pri-ority of claim is concerned, but Sweet claims cerue to the city from a national meeting of the kind under consideration and urged the citizens to get to work. Hon, B. F. Clayton, Judge W. I. Smith and Dr. C. H. Further Slashing of Rates to the Detroit En-

campment. WABASH AND OTHERS MAY WITHDRAW.

Indication That the West rn Passenger Association Has Finally Struck the Rock on Which it Will Be Wrecked.

Chickson, July 24.-The situation in regard to rates for the Grand Army encampment at Detroit seems to be growing worse every day. When the Western Passenger association meets tomorrow it will find that the complications have increased and that it will be no easy task to straighten out the snarls resulting from the controvercies between Chairman Finley and the Chicago & Alton management: General Passenger Agent Charlton ex-

ploded another bombshell today in the following brief note to Mr. Finley: "Tho Wabash has notified us that it has male a rate of \$5 from St. Louis to Detroit. and return and under the rules of that company all tickets reading via the direct line in either direction between St. Louis and Detroit, may be honored via Chicago. To meet this we shall have to make a rate from St. Louis to Chicago and return of \$5, tickets to be sold July 31 and August 1 and , good going on date of sale and good for return passage to August 18 inclusive. The rule of the Wabash, that its excursion tickets to Detroit and return are good either direct or via Chicago, is prominently aunounced in circulars issued by Grand Army posts in St.

Chairman Finley has authorized the asociation lines to meet any rates made by the Alton. The Atchison gave notice today that t would make a round trip rate of \$5 between Alton. A report was current to the officer that both the Illinois Central and the Wabash had decided to withdraw from the Western Pas-senger association, but the officials of these

roads deny that there is any truth in the story. EXPLANATIONS OF THE WARASH.

The Wabash has withdrawn the coal tariff The Wabash has withdrawn the coal tariff by which it made a rate from Toledo to the Missouri river 50 cents per ton less than the rate via Chiago. The publication of the fact that there was such a tariff in existence caused the Wabash people to send a hasty message to Chairman Finley of the Western Freight association assuring him that the tariff would be shortly withdrawn and that a mistake hast been made. He existence that mistake had been made. He explained that the tariff had been issued as long ago as last September and that when new rates were agreed upon in January, they forgot to with-draw the old rates.

### Discriminating Against Omaha.

The general passenger agents of the roads n the Western Passenger association met Wednesday, says the Chicago Tribune, to consider the advisability of meeting the Alton's round-trip \$10 rate between Kansas and Chicago It was decided that inasingch as one of the association roads had met the Alton's rate the \$10 rate should apply on all lines between southwestern Missouri points and Chicago, but that no necessity exists at present for applying that rate between Omaha and Chicigo. This action will arouse bitter feeling on the part of the Omaha peo-

ple, and it is not probable the discrimination against them will be allowed to exist long. There was also a discussion regarding the notice of the Santa Fe that it would make a \$7.50 round-trip rate from Peoria to Niagara Falls, via Chicago, August 9, to meet the rate announced for that date by the Lake Shore and Big Four. Efforts were made to induce the Santa Fe to withdraw that rate, escapes and fire alarms throughout the buildbut without avail. The Alton announced vesterday a rate of \$5.50 for the round trip between Kansas City and St. Louis. The Missouri Pacific asked that this rate be made and the Alton was willing. ing. ### Geese Lost in the Fog.

The fog from the Pacific was so thick Thursday that millions of wild geese besame bewildered and lit in Bartle's meadow, where they were caught by the sackful, says the McCloud River Pioneer. The fog was so thick a man's hand could not be seen before his face, but everybody caught large numbers of geese, being attracted to them by the panting of the exhausted birds. By evening a cold snap occurred, and the next morning the geese were found in vast quantitics, their feet frozen to fences, trees, etc., on which the birds had iit. Bartle and Uncle George Cox estimated they had nine miles of rail fencing broken down by the weight of the geese

### Police Court Pickings.

A hard looking crowd was arrested about 4 o'clock yesterday morning by Officers Bexwick and Harrington in the vicinity of the Northwestern round house. It consisted of nine men and a small boy who gave his name as Sam Jones. The boy told a horrible story of the indignities to which he had been sub-jected by some of his comparions. He claimed that some of them had knocked him down and stolen some money from him, and two of the men, James Clark and James Kernan, were slated with the charge of highway robbery, but after Jones had had a chance to think the matter over he decided he could pot tell positively whether it was they that had done the deed. ## It Saved His Life

The appearance on the streets yesterday of H. O. Mead, the plumber who was so frightfully burned by an explosion of a gasoline furnace in the Council Bluffs plfmbing company's establishment two weeks ago, caused pretty nearly a sensation among bis fellow workmen and acqurintances. When it was seen that he was without a scar or mark and was as smiling as ever and ready to go to work the wonder partook somewhat of a su-perstitious nature, and the boys eyed the vic-tim of the treacherous gasoline, whom they with this organization, that they will leave more money in Omaha than they take away from it, no matter how great their business may be. The company has paid the various city hotels, in-cluding the Millard, Paxton, Richelleu and Barror about 21000 for beaut the America supposed to be still hovering between life and death, with a chilly, uncanny feeling. The nature of Mead's injuries can only be appreciated by a physician, and the medical men who examined nim a few hours after the Barker, about \$2,000 for board, the American tailors \$1,250 for costumes, Kraesel, the boot and shoe man, \$162 for foot wear, carpenter's accident could give his friends but little en ouragement to hope for his recovery. and lumber merchants \$35 for material for scenery and properties; dry goods houses reasoned according to the old rule that where one-third of the surface of the body is burned \$150 for goods, and at the small average of \$1 medical science is helpless and death is the almost inevitable result of the few days of per head per day, about \$600 of ordinary spending money.
