IN THREE IMPORTANT DIRECTIONS. Omaha is a railway center of no mean consequence. Yet there are three great points with which she has no direct rail communication...

Some of the sympathetic windmills of this city should be retired from public service or hired to stop squeaking. Talk will kill a business organization quicker than anything else.

OTHER LANDS THAN OURS. It is promised that a bill providing local self-government for Ireland will be introduced at the next session of parliament.

DEMANDS OFFICIAL ACTION. Scheme to Have the Norfolk Asylum Management Investigated. DESPERATE LINCOLN HIGHWAYMEN.

CITIZENS Boldly Attacked in the Heart of the City—Two Arrests Made in Connection with an Assault.

"SHORT-HAIRED" CINCER. Kansas City Times: Perhaps the post-mortem of the Hall-Fitzsimmons fight at Minneapolis was one of the results of the recent Christian endeavor.

George B. Tschick, Notary Public. State of Nebraska, ss. I, J. B. Tschick, Secretary of The Bee Publishing Company, do solemnly swear that the actual circulation of The Daily Bee for the week ending July 18, 1891, was as follows:

Whose chests was Mr. Watson expected to pull out of the fire?

It was quite a spirited little political squall, but it is all over, and no harm was done.

The proposition to add a complication to the gubernatorial quandary in Nebraska does not meet with any general favor among the republicans of the state.

The collapse of the Rowley building in South Omaha, which the city officers have hitherto occupied, emphasizes the necessity for a new city hall in Packing town.

Brazil and Guatemala have exceptionally large coffee crops this year, and America tremendous cotton and cereal crops. It appears to be an American year.

The meeting at Lincoln July 29, called by the secretaries of the state board of transportation, is one of more than ordinary importance.

The chief danger from Italian immigration is the tendency of the natives of Italy to mass themselves in communities. If they were distributed throughout the union they would readily assimilate with our population.

GOOD feeling ought to prevail between the cities and citizens of Omaha and Lincoln. It is a small minded person in either who would be jealous of the other.

OMAHA people have in the national and state banks of the city to their credit subject to check the snug little sum of \$18,662,885.87, which is more than one-third of the total of the deposits in all the banks of Nebraska.

DENVER will shortly have in operation a paper mill employing 150 men. Manufacturing capital is seeking investment in the west. This fact should help the Real Estate Owners' association in its laudable endeavors to secure factories for Omaha.

IT PAYS to advertise a city or a state. The Financial, one of the leading financial papers of the country, devotes an entire page to the facts and figures relating to the wealth of Nebraska as published in a recent issue of THE BEE. Further comment is unnecessary.

JUDGE MCKAY, the recalcitrant district judge of Kansas, discovered to his chagrin that a judge on the district bench is subordinate to one on the supreme bench. He also probably found out what he ought to have known before that a knowledge of the principles of jurisprudence is quite convenient for a judge.

SEVERAL weeks ago the department of justice instructed United States district attorneys regarding the enforcement of the anti-trust law, and it is to be presumed that action will speedily be taken by these officials wherever there exists any trust or combination of the character prohibited by the law.

EVERYTHING looks favorable for Omaha's ambition to entertain the republican national convention in 1892. The field is clear of dangerous rivals west of Chicago. The world's fair will keep the big city on the lakes very busy. The political emergency is in our favor. The press of the country at large is by no means hostile. We are making friends for Omaha. We shall have a delegation at Philadelphia to urge our claims.

Both the senators have been invited to attend the meeting of the executive committee there and while that meeting does not determine the location it is a fine opportunity for doing preliminary work.

Every dollar expended in this enterprise is returned in the advertising which Omaha receives at once. It is worth everything to this city to cross words over the convention with Chicago and Minneapolis.

Omaha and Nebraska do not compete with any of the industries which are making the three sections named wealthy and prosperous. Duluth and the country tributary are anxious to exchange lumber, iron and copper for Nebraska agricultural and packing house products.

The packers of South Omaha still have facilities for packing 150,000 head of cattle more than they are able to secure from the vast region tributary to this market.

The report that Venezuela had rejected the reciprocity treaty with this country turns out to have been erroneous, and the gladness of those who welcomed the statement has given place to a wholly different emotion.

The Russian Jews who have been driven from the Muscovite provinces, and who are seeking homes in America, will not long remain paupers or become in any sense a menace to our prosperity if they shall be distributed throughout the union.

THE HOUNDING OF MR. BLAINE. The New York Sun very truly says that Giffenau went to work with no more murderous purpose than animates the men who seek a victim in Secretary Blaine.

THE NUMBER EMBRACES ALL CLASSES, FROM THE EXPERIMENT ACCOUNTANT TO THE DAY LABORER. DISAPPOINTED IN THEIR EXPECTATIONS THEY HAUNT CHEAP LODGING HOUSES AND RESTAURANTS.

COCKERILL CREW! CAUSTIC. If it be true that ex-President Grover Cleveland has consented to make a half dozen speeches in behalf of Campbell in Ohio, we are on the eve of a sensation.

OF GREAT ADVANTAGE. Harvest excursions seem to have been decided upon. After this is a wise move on the part of the railroads.

BEFORE THE GATE. They gave the whole long day to idle laughter. To fitful song and jest. To modes of sobriety as idle, after. And silence, as idle, too, as the rest.

IN VIEW of certain unfounded rumors it is perfectly proper to say once more that the Douglas street hog-back is on its way to the low grounds and the suit contesting the right of the city to assess Farnam street property for the improvement will in nowise hinder its progress.

RESTRICTION OF IMMIGRATION. Congressman Henry Cabot Lodge of Massachusetts, has contributed an article to the New York Recorder on the question of restricting immigration.

SPICE has a controlling influence in the board of public works, if indications point to facts. The city does not pay the board between \$5,000 and \$6,000 a year to enable its chairman or anybody else to work out his malice against other city officials, contractors or taxpayers.

THE unobtrusive railroad magnate who controls the present management of the Union Pacific must have keenly felt the want of passenger accommodations at Omaha. It is to be hoped he thought out a scheme for completing the union depot at an early day.

UNLESS the railways come to a better understanding about it the veterans will be able to go to Detroit and return at very trifling expense.

UNLESS the district judges can be persuaded to leave the city for a few weeks there will be no paving done this year. Injunjulia rise up in the face of almost every public improvement proposed.

THE loss of eminent domain which resulted from tinkering with the charter amendments last year promises to make itself felt in preventing the grading of Dorcas street.

THERE should be some way of compelling the water and gas companies to lay their mains without expediting delays, preventing important public work.

SOUTH OMAHA is ambitious to entertain Hall and Fitzsimmons. Some of her citizens regard a prize fight as an evidence of enterprise.

GENTLEMEN, if you postpone the excursion to Montana until October you may just as well abandon it altogether.

THE indices in the office of the register of deeds appear to point out more trouble than anything else.

THE Proper Designation. General Jural Early's war stories should be printed under the head of running remarks.

SIZING UP THE MAJORITY. Hamilton county will give the republican ticket over two thousand majority, and the state of Ohio will give more than thirty thousand.

STATING A FACT. John Sherman will be the next senator from the state of Ohio, and the democratic party in the state will have several ambitions to too, too large for the men who now own them.

MR. DEPEW IS OUT. No; the governorship is not what Mr. Depew wants. If he had been offered the senatorship if he had been called to represent his country at the court of St. James, or if the presidency were within reach, we have no doubt that Mr. Depew would have been found available, able and willing to meet all the requirements of the situation.

NO WORK FOR WILLING HANDS. Head Lines in Chicago Times. TALES OF HARD LUCK. HUNDREDS OF MEN WHO ARE WILLING TO WORK NOW SLEAVE IN CHICAGO.

It is now nearly ten years since Great Britain, for the sake of protecting threatened British interests in Egypt, took military possession of the country; and, with customary tenacity of grip, she has held it ever since.

While in possession of substantial power in the famous land of the Pharaohs and Ptolemies the British government has prudently refrained from meddling with the country.

Russia has a population of nearly one hundred and twenty million human beings under the absolutely despotic control of one man, and is a country which, with the exception of a few nihilists, who would be unable to avoid military service if called upon.

It is gratifying, therefore, to observe that the Hebrews of this country appropriate the situation and are taking steps to locate those destitute but industrious people where the conditions shall be favorable to their prosperity.

UNLESS some catastrophe not anticipated overtakes the crop Nebraska will crib 200,000,000 bushels of corn this year. The crop of 1889 was 150,000,000 bushels.

DESPERATE LINCOLN HIGHWAYMEN. Citizens Boldly Attacked in the Heart of the City—Two Arrests Made in Connection with an Assault.

LINCOLN, Neb., July 24.—[Special to THE BEE.]—It has been rumored that the board of public lands, three of whose members went to Norfolk yesterday, is about to investigate charges made by one John T. Lee against Dr. Wilkinson superintendent of the Norfolk hospital for insane.

THE board has evidence that Lee offered to make no complaint if he were given several months' employment, and some of the state officials also suspect that the matter is being agitated at the present time in order to help the officials of the Hastings hospital by making the comparison between the two institutions.

DESPERATE FOOTPADS made two fierce assaults last night upon parties they supposed to have cash. About half past 10 o'clock James Mooney and wife were on their way home from the fellows struck at Mrs. Mooney with a club, and she smashed him over the head with a pitcher.

PHILADELPHIA Press: When Governor Merriam of Minnesota refused to address the 5,000 anti-privilege memorialists who marched from their hall of mass meeting to learn his views, he made the greatest mistake of his political career, although he since tried to correct it. The American people have ever held the belief that the public man who cannot speak his mind has no mind to speak of.

MINNEAPOLIS Tribune: The output of one of the Minneapolis mills is 7,000 barrels daily of the best flour known to farmers bakers. The city output of the St. Paul mill is a world-wide advertisement, an expenditure of \$8,000 and the arrest of one or two of the employes. The milling mill of our sister village has burst and Minneapolis still holds the palm as the greatest milling metropolis on the globe.

ST. PAUL Pioneer Press: We deeply regret to say that not only the Minnesota Athletic club but the great religious and moral organization, the Young Men's Christian association of St. Paul, is involved in this unfortunate predicament of being law breakers with the difference that, while the coming prize fight is the first offense of the Athletic club, the Young Men's Christian association has been engaged in the habitual violation of the law ever since it was enacted.

NEW YORK Times: There is something rather ludicrous in the emphasis which some of the good people of St. Paul, Minn., have created over the sparring exhibition which a local athletic club has arranged to take place tonight. As we understand the matter, it is to be an exhibition match between two pugilists with gloves, in which neither of the combatants is likely to be much hurt. It is not a particularly exciting spectacle, but those who take an interest in it are not necessarily crutes and are not likely to be greatly brutalized.

CHICAGO Post: There will of course be scant sympathy for the pugilists who gathered at St. Paul to witness a mill between two of their idols and have been disappointed of their "fun." Even the ostensibly respectable citizens of the athletic club under whose protection the fight was to have been committed, and who, by the action of Governor Merriam, are said to have incurred a money loss of about \$12,000, will not receive a moiety of the compassion to which they seem to think they are entitled.
