CHETE, Neb., Aug. 7. [Special to THE Bas. |-A shooting affair, in which no one was injured, was the excitement in this city this morning, the participants being John G. Ligget and John L. Morrison, editor of the Ripsaw. The latter has been making a series of personal attacks upon the former through the columns of his paper which culminated this week in one of unusual virulence

and abuse. Ligget met Morrison this morning near the Cosmopolitan hotel. Each carried a heavy They at once engaged in a combat revolver and shot at his adversary, missing aim, and Ligget then fired with a similar result.

Both parties then became separated by mutual consent though each made dire threats against the other. They were after-wards arrested by the marshal and taken before the police judge. Ligget was fined \$10 and Morrison's case will be beard tomor-row. Ligget has sworn out a warrant charging Morrison with criminal libel and the end is not yet.

No one appeared to care to prevent blood shed and hundreds of people were out to watch the contest. Morrison has lew symers in Crete owing to the course be has taken with his paper.

New Line of Railroad. KEARNEY, Neb., Aug. 7.- Special Tele-gram to THE BEE. - An informal meeting of the chamber of commerce, real estate exchange and citizens was held at the city hall this evening to discuss the question of urging the B. & M. to build a cut-off to Holdrege, a distance of thirty miles, which would place Kearney on the main line. A purposer of gentlemen spoke in favor of the proposition, and pointed out the advantages that would accrue to the city and the B. & M. if this cut-off should be built. The dis-tance from Hastings to Holdrege is less than three miles shorter than by way of Kearney. Another proposition was that a connection from the north main line could be made from Broken Bow to Callaway, a distance of six-teen miles, thence to Kearney over the Kearteen miles, thence to Kearney over the Kear-ney & Biack Hills, thus saving the long hani of Denver freight by way of Aurora. It was the general expression of all the business men present that the scheme bould be of incalculable benefit to all con-cerned. It was suggested that it was time the ments of Kearnes should favor most the

Statement of the Value of Those from Berlin's Consular Jurisdiction. INTERESTING STATISTICS FOR PERUS'L.

EXPORTS TO THIS COUNTRY.

Impossible as yet to Judge the Effect of the McKinley Bill from the Figures Given-Other Foreign News.

BERLIN, Aug. 7 .- Consul General Edwards has just finished his statement showing the value of declared exports from the Berlin consular jurisdiction to the United States during the flacal year ending June 30, 1891. The Berlin consulate general comprises the consulates at Berlin, Bremen, Breslau, Brunswick, Chemnitz, Dresden, Hamburg, Leipsic, Madgeburg, Plauen and Stattin. It is interesting to note figures and compare some of the most important items with those of the preceding year, especially as the Mc-Kinley bill has been in force during the last nine months of the fiscal year. A synopsis of the exports from the Frankfort consular district will also be given

below, but as the Frankfort consulate general issues only annual reports at the end of each calendar year it is possible now to give only the statistics of the first six months of 1891. The total exports from the Berlin consular district during the year ending June 20 1891 amounted to \$59 753 201 as compared with \$96,056,987 for the preceding year, thus showing a decrease of nearly \$6,500,000. Among the more important items are albums, of which \$591,431.44 were exported this year, as against \$815,633.16 the provious year. On the other hand books and printed matter on which, just as on albums an increased tariff was placed, amounted to \$1,020,770,71, there is an increase of \$3\$1,048,04 over the previous year. Buttons and button covers showed year. Buttons and button covers showed only \$44,157.76, as against \$187,183.70 in 1889– 90, a decrease of almost 75 per cent. Dress and piece goods fell from \$6,719,379.46 in 1880–90 to \$4,945,905.56 in 1880–1. Gloves and hostery show heavy decreases, the latter especially in the Chemnitz district. Sugar fell from \$15,232,616,75 to \$11,683,386,42, a de-

crease of over \$3,500,000. Tobacco about held ts own The Frankfort consulate general comprises the consulates of La Chapelle, Barmen, Cologne, Dusseldorf, Frankfort, Kehl, Mann-heim, Mayence, Munich, Nuremberg, Sonneborg, Stuttgart and the commercial agency at Fuerth. In the Frankfort consular jurisdiction the value of de-

clared exports during the six months ended June 30, 1891, was \$18,400,301.87, as against \$21,307,600.67 in the corresponding six months of the preceeding year. Braids, bindings and trimmings decreased from \$783,548,53 to \$616,265.99. Bronze powders and leaf metal were exported to the value of \$312,944.80, \$145,651.97 less than in 1850. Of china, glass, porcelain and stonoware over \$700,000 worth was exported, only a little less than last year. Of eu de cologne \$8,000 worth was exported as against \$10,000 in 1890. Dies, drugs and chemicals amounted to \$3,105,523.60, an increase of \$285,472.80. Fancy goods and toys were \$61,785.80 less in value than in the first six months of 1800. Plate glass, window and mirror glass also Find glass, which and initial glass disc fell from over \$1,000,000 in 1590 to \$200,000 in 1891. America imports from south-ern Germany \$185,000 worth of hair and over \$500,000 worth of hops. The latter article has increased about 33 per cent the source latter initial and authory bars this year. Iron ware, steel and cutlery have

fallen from \$1,640,548.84 to \$302,365.02, a decrease of nearly 50 per cent. Linen, cotton and woolen goods amounted to \$1,807.986.11, an apparent increase of \$219,284.24, but as the item of cloth bas disappeared from this

year's statement, whereas last year

Not Believed in London. [Copyright 1891 by James Gordon Renact.] LONDON, Aug. 7.-[New York Herald Cable-Special to THE BEE.]-There is great disgust here at the brutal invasion of the home of Julian Storey and his newly married wife, Miss Eames, by a scurrilous New York newspaper. Both left London yesterday without leaving their address. They wish to be out of reach of the sensationalists who have outraged their privacy. Every one who knows Miss Eames laughs at the yarn that Storey hypnotized and then married her. Miss Eames has talked of her engagement for a long time as a settled thing. There has been no question and no secret about it. The date of the marriage alone was not known. July 4 Miss Eames attended the reception at the American legation and spoke freely to her friends of her approach-

ing marriage with Storey, Miss Eames' mother has opposed the marriage because she thought it would interfere with her daughter's career on the stage. Storey's private life had nothing to do with the matter. He is no better and no worse than most young men about town.

BLOODY WHITECHAPEL.

Another of London's Unfortunates Cut and Ripped.

LONDON, Aug. 7 .- Early this morning on of the denizens of Whitechapel, an old woman named Woolfe, was seized by an unknown man, who cut her throat and stabbed her repeatedly in the body. She cannot live. The police as usual are unable to find the murlerer, who disappeared. One man has been taken into custody on

suspicion of being the assassin, but the evi-dence against him is very weak. The woman was taken to a hospital and re-

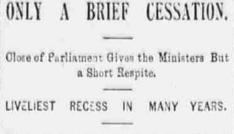

covered enough to tell what she knew. She is a German and was not in the company of the man who attacked her, but was passing along the street when, without werning, the assassin sprung on her. The saw the glitter of the steel blade, but was unable to escape from the grasp of her assailant. She raised her arm to defend her throat from the sweeping blow aimed at it, and it was through this movement that the wound on her arm was received. When the assailant released her from his grasp she fell upon the door step. Despite the terrible injuries she received she still retained possession of her sentes and though the wound in her throat was bleeding profusely, she was able to articulate, the weapon not having reached the wind pipe.

Talk About London's Lord Mayor Paying a Visit to Chicago-Prep ring to Receive the French Fleet.

Copyright 1891 by the New York Associated Press.] LONDON, Aug. 7.- The close of the session of parliament brings to the ministers only a brief cessation of work and to politicians only a short respite of speechmaking. The recess will be the liveliest experienced in many years, each side working in view of the fact that it will be the last campaign before the dissolution of parliament. Mr. Bal four will open the campaign on Monday at Plymouth, when it is expected he will give a further inkling of his solution of Irish county government to which the cabinet is now distinctly piedged. Since the prorogation speech announcing that the committee would deal with the questions already elaborated all rumors of a general election have ceased. The mem bers know that the legislative programme mentioned in the queen's speech in November last is left incomplete and will be resumed next year.

It is possible even now to predict what legslative achievements the cabinet generally hopes for. Besides the Irish local bill the ministers have perfected an important English measure for developing the existing system of local government by creating district councils, and bills to assist the purchase of land in small allotments, and amending in favor of workmen the law affecting the llability of employers. The opposition is quite prepared to assist the government in

upon Mr. Balfour. In his Irish local govern-ment bill it is understood the feature will be a franchise, the electors of the county boards being confined to persons actually paying rent. The measure will be for the smallest rent. The measure will be for the smallest possible resemblance to a home rule measure.

If the presence of royal persons can ensure the success of the world's fair in Chicago its success now seems to be assured. It is cer-tain that several members of the English royal family are showing such an in-terest in the progress of the terest in the progress of the preparations as indicates an intention on their part to visit the fair, and communica-tions have reached London from Berlin which ieave little doubt that if Europe is at peace at the time of the fair the German emperor will induige himself in the greatest voyage of his life in seeing America. The keen and growing interest taken in London in the fair renders it probable that an invitation from the mayor of Chicago to the lord mayor of London, asking him to inspect the site and proparations for the fair this year, would fin-acceptance. The queen is discussing among the members of the council whether the lord mayor could take a protracted leave of ab-sence from office to go in state to America. Precedents for visits of the lord mayors of Precedents for visits of the ford mayors of London support the proposal. If the pend-ing arrangements result favorably the lord mayor will be enabled to see Chicago ext spring, probably in a semi-private capacity, and his visit will be a prelude to the presence

and watchfulness. To Consul General Edwards much of the credit of this achievement is due. He started his reform in spite of all opposition and car-ried them through. He was manifully as-sisted therein by every consul in his district. In the southern districts under Consul Genral Mason a similar spirit prevails.

Ingall's Welcome in the South.

ATLANTA, Ga., Aug. 7.-Ex-Senator Ingalls lectured at the Piedmont Chautauqua last night on the social and political problems of the presennt century. He was greeted by a great crowd. Mayor Hemphill of Atlanta, introduced him, saying:

"Ladies and gentlemen : The war is over and the bloody chasm has been filled. I want to tell you in a few words why this is true. When a confederate soldier in the heart of the south under the star spangled banner can introduce with warmth and cordiality to a southern audience Hon. J. J. Ingalis of Kan-sas, the man skeptical in this nation may know and feel that peace, brotherly love and kind feelings reign all over the broad land. The warmth and cordiality of this greeting is increased by the knowledge of Senator Ingall's course against the infamous force bill when that infamous measure was before the United States senate. I have the pleasare of introducing to you an orator who has electrified this country from Maine to California, a gentleman whose gonlus and ability are respected and admired by the whole American people the Hon. J. J. lagails of the great state of Kansas."

Complicated the Backer Case, NEW YORK, Aug. 7.-Counsel for H. Meyers & Brothers of Sayannah, Ga., has obtained an injunction against the Merenants' National bank, the Central National bank, Abraham Back and his assignce. The banks are enjoined from disposing of bonds and notes, pledges with the bank by Backer. The cases in which injunctions were granted today show strange conduct on the part of Backer, who failed for \$4,000,000, and gives currency to the rumor that oriminal proceedings may be taken against him. It appears that Myers & Brothers of Savaunah were in the habit of sending Backer notes to be discounted. They sent him notes aggregating less than \$72,000 and sent bonds, notes and stocks worth \$72,000 col-lateral. Instead of using the collateral he had the notes discounted on the strength of Myers & Brothers credit. He informed them, it is averred, that the collateral was pledged for discount. He, however, pledged the collateral on his own account and pock-eted the proceeds. Myers & Brothers must therefore pay the notes and in order to get back their collaterals must also pay the sum secured by Backer on them,
