Hill City Will Favor Nebraska's Metropolis with Mine Products.

GREAT QUANTITIES OF TIN IN SIGHT.

South Dakota's Mammoth Industry

Will Develop Much Valuable Property-Will Turn Out Pure Metal Soon.

CHICAGO BURRAU OF THE BEE, | CHICAGO, Aug. 7,

H. Seton-Karr, member of the English house of parliament and one of the directors of the Harney Peak mining company, whose interests are in the Black Hills of South Dakota, is authority for the statement that there are 500,000 tons of tin ore, averaging 214 per cent, in sight and on the dumps at the mines at Hill City, S. D. Said he:

"Our mill will soon be on the ground, and soon after its erection 500 tons of ore will be crushed every day. The block tin which the mill will turn out contains 75 per cent of pure metal. We have not yet determined where the smelting is to be some, but the block tin the smelting is to be done, but the block the will probably be shipped to Omaha for that purpose. Persons who have been talking about there not being any tin at Hill City will soon discover their error, for we shall soon be producing pure tin. A large quantity of it will be shipped to Eng-land despite the output of the Cornwall mins."

TO AMALGAMATE RAILROAD MEN.

The local lodges, of the Switchmen's Mutual Benevolent association are busy electing delegates to the annual convention which assembles in Philadelphia some time next month. The project which was out-lined in THE BEE over a year ago for the formation of an immense organization to information of an immense organization to me clude all railway employes promises to take tangible shape in the near future. A move-ment is already on foot to smooth over the difficulties between the two orders of tele-graphers and the two orders of railroad conductors with a view to having but one organization in each business. In addition to this, strong efforts will be made to oust the present grand officers of the Brotherhood of Trainmen. This plan, if successful, will be followed by the readmission of the trainmen followed by the readmission of the trainment to the Federal Order of Railway Employes. The question of getting the locomotive en-gineers to join in the movement is being actively discussed. Many members of the order favor it, and Chief Arthur will have to fight hard to prevent the engineers from swinging in this direction. With the tel-egraphers in one body and the conductors similarly situated a creat advance will have similarly situated, a great advance will have been made. After that the men who are at the back of the movement think it only a question of time when a great railway feder-stion will be in existence composed of every class of workmen engaged in the railroad business in the United States and Canada.

AMONG THE PUGS.

Tommy White bested Tommy Morgan in a six-round fight at the Columbia Athletic rooms here last night. Tom Ryan and Billy McMillan, who are to battle tomorrow night for the weiter weight championalip and a stake of \$1,500, are both

on a feather edge.

SECRETARY RUSE'S POSITION.

Mayor William H. Rogers anys that the name of Jeremiah Rusk will not be pre-sented by the republicans at the next na-tional convention. Heretofore he has always had the full delegation behind him and was able to use it with telling effect. The fact that the Wisconsin republicans were solid for him and that that delegation was reached late in the call of states enabled him to hold the balance of power and place the presi-dential nominees under lasting obligations. In the next convention, according to Mayor Rogers, this will all be different. Uncle Jerry has offended and offended deeply all because of his testimony in the treasury scandal. He made the assertion that in the sale of the Madison City 5 per cent bonds there was collusion between the city treasurer and several prominent business men

there. The gentlemen said to be implicated are influential republicans and indignantly deny the accusation. Their indignation radiating out from the state capital is extending over the state and unless they cool off between now and convention time they promise to

Finley'S Decision on the Iron Ore Traffic Creates a Disturbance. CHICAGO, Aug. 7 .- Chairman Walker, on behalf of the board of commissioners of the Western Traffic association, handed down a decision today concerning iron ore from the peninsula of Michigan and Wisconsin to Chicago and Milwaukee. This subject was before the commissioners last June on an application for a reduction in rates by the Chi cago & Northwestern road, which gave as its reason for making the request, a general depression in the iron ore trade, and the competition with southern furnaces. The board declined to authorize a general reduction in rates, occause there was strong opposition to such a course by other lines, but it undertook to correct an alleged dissimilarity in rates be-

FREIGHT RATE TROUBLES.

tween a member of the association and an outside line by allowing the Chicago & Northwestern to reduce the rates 5 cents per ton to Escanaba.

The Milwaukee & Northern has recently asked for a reopening of the question, claiming that its all rail line to Chicago is placed at a disadvantage compared with the railway and water lines, and made application for a general reduction of 15 cents. A further hearing was accordingly given, but the commissioners decided they would not be warranted in granting the reduction unless in answer to a request united in by all or nearly an the interested carriers. They intimate that if the existing conditions are continued in the winter and if the competitive output of iron in the southern states is further relatively increased, some general readjustment involving further concessions may made, but for the present they believe t

former disposition of the case should be ad-hered to. Another decision by the commis-sioners authorizes a reduction in pig iron rates from Fond du Lac to Chicago to \$1.15 per ton, and from Fond du Lac to Milwaukeo to 75 cents per ton, taking effect September

PLATING TO ALTON MUSIC.

A flurry in western passenger circles was created by the announcement of the Chicago & Alton that its harvest excursion rates will be one fare for the round trip and that it will run three excursions instead of two. Yet the annourcement was not unexpected, for a majority of the general passenger agents had refrained from advertising their excur-sions in anticipation of some such step on the part of the Alton. Chairman Finley has called a special meeting of the Western Passenger association for tomorrow to determine what action will be taken and there is no doubt that the Alton's rates will be met. General Passenger Agent Heafford of the Chicago, Milwaukee & St. Paul will introduce a resolution proposing to adopt the Alton's rates and dates to all southwestern Missouri river points and the territory im-mediately west thereof, but to leave the pre-vious action of the association unchanged so far as it relates to points in Nebraska, Iowa, Minnesota, South and North Dakota. ATCHISON CALLS & HALT.

The officials of the Atchison, Topeka & Santa Fe are tired of taking the blame for the shortcomings of their ally, the Jacksonville & Southenstern, and have determined to call a halt. Passenger Traffic Manager White has notified General Passenger Agent Kent that if he does not immediately stop the de-moralizing tactics and maintain tariff rates the Atchison will no longer do business in connection with the Jacksonville & South-eastern. In four cases this morning the Atchison carried out its threat to honor no Grand Army of the Republic excursion tickets that were extended beyond the agreed limit. The passengers holding these tickets rode from St. Louis to Peorla, but when they struck the Atchison they were compelled to pay their fare to Chicago.

FREIGHT LINE MEETING.

The managers of the Grand Trunk, Erie, Lackawanna and West Shore fast freight lines will be held at Niagara Falls August 19.

Interferes with the Atchison. CHICAGO, Aug. 7 .- A bill was filed in the ircuit court by F. Harvey and Judge Driggs issued an injunction restraining the Atchi son, Topeka & Santa Fe railroad company from running dining cars upon its lines west of the Missouri river which are covered by contract with him; from feeding passengers

between any of the points upon this portion of the road and from refusing to stop its pas-senger trains at complainants hotels and lunch rooms. Harvey represents that his dred miles of railroad and has cost him \$150, 000; he is conducting twenty hotels and eat ing houses, and now the road threatens to put on during cars and give his places the go by. Railroad people say the contract does not debar them from putting on dining cars and will move the dissolution of the injunc-

CROPS ARE OUT OF DANGER.

Only Some Extraordinary Influence Can Affect Nebraska's Prospect for Plenty.

MOST BOUNTEOUS YIELD EVER KNOWN. What a Gentleman Who Has Been Over the Ground Says-lowa's

Latest Crop Bulletin Very Promising.

Lyman W. Case, who has been making frequent and extended drives through the state, and whose business for the past ten years has been largely with the farmers, is well qualified to give a reliable estimate of the present season's crops. In conversation with THE BEE yesterday he said :

"In general I have never seen a season when the matured crops in small grains showed up so well in a large area of country as they do throughout eastern Nebraska, and the prospects for a prodigious corn crop were never so general or so uniformly flattering. I am not especially familiar with any part of the state west of Hastings and Grand Island. The smaller cereais have been, of course, harvested. "And it is magnificent. In quantity, qual-

ity and market value it is undoubtedly without precedent. Some fields of oats, for in-stance, have a yield of 100 bushels to the acre. These small grains, oats and flax particularly, seem to be larger and sounder and better in the counties lying west of the first fifty or sixty miles, which country was most wholly without a crop last year. "The small grains show a good average

crop, too, in all the river counties, but on a recent trip through Cass, Saunders and But-ler into Polk and Hamilton counties the oats and flax seem to be heavier and better than they are in the east, or, in other words, they are better the farther west you on the corn is a little late, but promises

go. The corn is a little late, but promises exceedingly well. It is is of good color, good stand, and growing finely. With a continua-tion of this superb corn growing weather, the yield will be simply tremendous, and under any circumstances other than an un-heard of meteorological disturbance, an im-mense crop will be harvested.

"There has been a vast deal of uonsense on both sides in the farm morigage discus-sion. Undoubtedly a considerable proportion of the farms in castern Nobraska have been encumbered for either permanent improvements or for a portion of the pur-chase price. But to state that the farmers are either hopelessiy in debt, or that one or would be equally extravagant. But the present splendid prospects will end in-dustrious farmer in easy circumstances and on the best results on the best possible terms with himself and the world.

"In many instances old settlers who never "In many instances old settlers who never had a mortgage on their lands, but have developed and improved them out of the surplus of their products, have been induced, within the past tweive months or so, to mortgage for the pur-pose of purchasing additional adjacent territory in the approhension that Nebraska's contributed for the properties of artirapid strides forward in the science of agri-culture would necessarily raise the price of land. And this is strictly true, for there has been a steady advance in spite of the short crop of last season. This year's yield will set things booming again, for in many locali-ties there has already been an advance in the price of good arable land, from \$5 to \$8 per

"The reports of good crops, as I have them, are general and uniform, almost without parallel or exception. I haven't heard a single kick, or a murmur even, from any section of this broad state of ours on account of any fears of a shortage in the croos, and truly Nebraska is in a promising and prosperous and progressive condition."

10WA CROP REPORT. August Showing of the Condition of

Growing and Ripening Grain. DES MOINES, Ia., Aug. 7 .- The daily average temperature throughout the month of July was about 6 degrees below the normal, making it the coolest July within the past twenty years. This made it pleasant for nan and beast and favorable for work in the harvest fields, but the growth of corn was seriously checked, and the condition of that great staple crop has been set back a few points since the last report. Despite frequent showers, an unusual degree of cloudiness and occasional heavy local downpours, great progress has been made in securing the hay and ripened grain crops, and the yield has been exceptionally heavy in nearly all portions of the state. Thresh-ing operations have begun, and the returns are very encouraging. And even if the corn crop should be cut short by early frost, the aggregate value of the output of lowa farms will be fully up to the average of recent years. Comparison with the report made August 1, 1890, shows a very heavy gain in all crops. Corn-The condition of this crop as shown Corn--The condition of this crop as shown by 954 correspondents is 89% ner cent, a de-crease of 5½ per cent since July 1. The fol-lowing counties report its condition above 100, viz: Appanoose, 102; Davis, 119; Henry, 106; Jefferson, 103; Kossuth, 110; Keckuk, 105; Louisa, 102; Lucas, 100; Marion, 104; Van Buren, 106; Wapello, 103, and Washing-ton 105. Mahaska and Lee report 99 per cent. The lowest rating is 71 per cent, in Cherokee county, from the effects of heavy floods. Last year the condition of this crop for the state, at the corresponding date, was for the state, at the corresponding date, was

A CRYING SHAME. A Job Printer Brutally Assaults an Iuoffending Young Man.

The striking job printers, having failed to endist the sympathies of the public in their cause, have become desperate and have now resorted to the tactics of the common footpad or highwayman. Instead of trying to cultivate and gain the esteem of the public by a quiet and orderly canvas, they are send-

ing their bullies and aluggers onto the streets in broad daylight to assault and beat innocent people who happen to come in their way. They go in gauge and instead of acting like men assault and insult the people who know nothing and care nothing about their troubles.

At 6 o'clock last evening George Haynes, a young man who is employed in the Union Pacific headquarters, in company with Frank Harris, an old acquaintance and schoolmate, who works in Rees' printing house, were walking up Dodge street. They were on their way up town and as they

passed Twelfth street were stopped by a gang of some twelve or tifteen job printers. The leader of the party, a big, burly bully, stepped up to the young men and in an in-sulting tono said to Haynes, "What is your business." Mr. Haynes, not knowing the man, re-

marked, "I do not know as that is any of your business." The words were hardly out of his mouth

before the printer struck him over the head with a heavy loaded cane, knocking him down. As soon as he fell a number of the other printers closed in on him and com-menced kicking and striking him, while the balance of the gang turned their attention to Harris

Haynes was stunned for a moment. As soon as he realized that he was in the hands of a brutal mob he said that he was not a printer, after which they let him get up and at the same time made a stagger at an

The bully of the gang said that he was sorry and that he had made a mistake, as he supposed that he (Haynes) was a scab job printer.

Mr. Haynes informed them that he was a peaceable citizen and supposed that he had a right to walk the streets without being com-pelled to explain his business. He was in-vited to go to the hall of the union men. where the gang promised to square accounts, but having escaped from the band of human wolves, he regarded discretion the better in getting into their clutches again.

While Mr. Haynes' injuries again. Serious they are painful. He was beaten over the head and struck in the mouth until several teeth were loosened. His face was scratched and his hands and body bruised to a considerable extent.

Harris' injuries consist of cuts and bruises. which are painful though not serious. Mr. Haynes lives at 624 North Twentieth street. He has relatives who promise that the brute who assaulted him shall be brought speedily to justice and guarantee that that justice shall be ample.

DUN'S REVIEW OF THE WEEK.

Business in Many Lines Disappointing But Confidence Increasing.

NEW YORK, Aug. 7.-R. G. Dun & Co.'s weekly review of trade will say: "While business in many lines is disappointing, the feeling of confidence distinctly increases. The belief increases that the country will be able to sell such vast quantities of grain abroad and to draw so heavy upon foreign supplies of capital that all home industries will be greatly stimulated. Monetary difficulties are still in the future, for though at some southern points markets are tight, supplies at western centers are adequate, for legitimate business and mere speculation gets

less help than usual. Depression in some great industries continues and is real, but may be traced to causes obviously not permanent. Thus iron manufacture is much set back by the inability of railroads to make purchases because they fail to negotiate securities. Cotton manufacture, retarded by the extraordinary fall in the price of cotton, and consequent losses on goods made from materials purchased early in the past year, still finds a fairly large demand at some reduction in prices, and most

HOW TO SETTLE THE STRIKE.

Let Nine Councilmen and a Lawyer Arbitrate the Eight-Hour Difficulty.

GREAT SCHEME OF THE KICKERS' CLUB.

Resolutions Adopted at the Meeting Last Night-What the Members Think of the Situation

at Present.

For many months the Fifth warders have worn the belt and have been known as the boss kickers of the city. They have held their weekly meetings and have kicked at everything from the constitution of the United States down to ward politics.

These people held a meeting last night that was a rouser. It was attended by fully 150 persons, all of whom talked in a manner that

ndicated that they had the best interests of the city at heart. In the absence of Chairnan Redman, T. H. Dailey presided.

The committee appointed one week ago, brough its chairman Fred Schnacke, reported the following resolutions:

ported the following resolutions: Resolved. That a committee of one member from each ward of the elty be appointed to wait upon the proprietors of the Omain Grant smelling company and try to bring about an agreement, or a scitlement of the difficulties now pending. Resolved, That the committee shall further-more try to induce the former employes of the said smelling company to have the fires re-kludied under terms acceptable to both sides. All of this shall be done in the name of the well-meaning citizens of the city. The resolutions were adopted by a unar-

The resolutions were adopted by a unannous vote.

Imous vote. Mr. Dailey made a ringing speech, arguing that the smelter people should meet the work-men half way and work for an early adjust-ment of the trouble. He believed that if a committee of reputable citizens would meet

the two factions, an arbitration could be reached. Councilman Osthoff favored the appointment of the committee. He thought the gentlemen pamed should have power to act,

when they acted wisely they would have the support of the entire community. Mr. Dailey said the members of the coun-cil had worked hard for the city, and he knew that they would not fail if this work was placed in their hands.

was placed in their hands. Ou motion of Mr. Dailey the following councilmen were elected members of the committee: First ward, T. J. Lowry; Sec-ond ward, James Donnelley, sr.; Third ward, Richard Burdish; Fourth ward, W. F. Becnel; Fifth ward, Henry Osthoff; Sixth ward; Christian Specht; Seventh ward, E. Morcarty; Eighth ward, Theodore Olsen; Ninth ward F. Blumer The name of T. Ninth ward, F. L. Blumer. The name of T. B. Minahan was added to the committee. Mr. Osthoff was elected chairman and instructed to at once begin negotiations to bring about a settlement. He stated that he would work day and night to accomplish the

bleet expected of him. Mr. Schnacke urged that the commit-

the should at once take meas-ures to test the constitutionality of the eight hour law. He was of the opinion that the people of Omaha should demand an opinion from the judges of the district coart. If the case was brought in the usual way it would be two or three in the usual way it would be two or three years before a supreme court decision could be reached. Should the judges do their duty an opinion could be secured within a few hours. He feared that if the matter was patched up without a court opinion the trouble might break out at any time; but if an opinion could be secured from the courts

all difficulties would be settled. Mr. Specht thought that if the judge would not give an opinion a test case should be made and at once carried to the supreme

court. Mr. Schnacke opined that if the matter was laid before the courts they would not refuse. He then turned loose on the council and insisted that the members should be held re sponsible for all suits that might be brought on account of the police and firemen working overtime.

Mr. Osthoff denied that the council could be held responsible. He insisted that the two forces were appointed and managed by state officers, and that the council had nothing to do with the men.

Mr. Schnacke still insisted upon his point. Councilman Conway replied by stating

that the eight hour law was not a city ordi-nance, but a state law, and consequently the

Only Market in the West. William Parsons of this city, the veteran and unsurpassed hog buyer for J. P. Squires & Co., Boston, Mass., says that Kansas City has no hog market. "All it has is a couple of packers' buyers, but does not have a buyer on the market of good hogs at top prices." Mr. Parsons cites a sale Wednesday at Kansas City of 440 Nebraska Berkshire hogs averaging 325 pounds without being docked at \$5.10, while several sales of hogs, neither prime nor fancy, sold at \$5,15 on this market is on the same day. South Omaha market is a better market all the time for prime and fancy hogs than Kansas City and almost al-ways averages up a better market.

Ex-Governor Oglesby of Illinois, reported Ex-covernor ogress for the committee on the memorial hall at Decatur, Ills. The reports of the committees on the ad-jutant general's and other officers' reports were approved. Past Commander-in-Chief Burdett of Washington presented reports on a variaty of subjects domentating in

a variety of subjects, depreciating in particular the action of members in endeavoring to secure the influence of the organization toward any interference in ma-ters belonging to the various departments of the government by the Grand Army of the Republic.

The committee reported adversely on the communication from the Sons of Veterans desiring closer connection with the Grand Army of the Republic, An amend-ment to the rules and regula-tions was adopted by which posts can change their location by a two-thirds vote. An amendment was also adopted per-mitting department oncampments to be held as late as July. An amendment permitting the election of department officers in Decem-ber was defound. ber was defeated.

An attempt to change the rules so as to "Those who did not volun-bear arms against the United " are entitled to membership read. tarily States in the Grand Army of the Republic, was de feated

The per capita tax, which was vestergay established at 3 cents, was today reduced to 3 cents.

The grand officers were then installed. Commander-in-Chief Veazey, in turning over the command to Palmer, made a speech and presented him a new flag to take the place of the one which had been carried the past twenty-five year. The new commander-in-chief made year. The response.

The committee appointed to take action on the death of General Sherman, Admiral Por-ter, ex-Vice President Hamiln and Charles

Davens, reported appropriate resolutions. The council of administration met this morning and transacted some routine business. The annual salaries and expenses were voted the same as last year and approns made for keeping in repair the cottage at Mt. McGregor.

Horsford's Acid Phosphate

Relieves the Feeling of Lassitude common in midsummer, and imparts vitality.

Wants the Lumber.

John Harte, receiver of the defunct building firm of Richards & Co., has brought suit against B. C. Burbank to gain possession of lumber valued at \$350 that he claims belongs to the Richards firm.

year showed that even that low rating was too high. This year the corn is in a health condition as to color and stand, and its only hazard is the danger of frost before reaching its full maturity. It needs highly favorable conditions until the last of September to make a fair crop. Broom Corn-By 126 correspondents this

crop is 92 per cent. Sorghum-Six hundred and five corre-

pondents place the average at 91% per ent, a docline of one poin, within the month. Flax—The condition of this crop has advanced within the month from 97 to 99%, as reported by 469 correspondents. Buckwheat-Reported by 547 correspond-

ents, 95 per cent. Millet-Advanced from 9014 to 10214, as;raorted by 641 observers. Meadows-Nine hundred and forty cor-

respondents report meadows 101% per cent. Pastures-Nine hundred and forty-six reports place pastures at 1033%. Irish Potatoes-Nine nundred and forty-

nine correspondents give potatees a flattering showing, placing the average at 11016 per cent. Sweet Potatoes-This crop is rated at 98

per cent by 406 observers. Apples-The condition of this staple fruit is variable, ranging from 55 to 129 per cent, the average of 906 reports being 9216 per cent. Grapes-Reported by 864 correspondents,

Grapes-Reported by Sol correspondents, 101 per cent. Estimated average yield in bushels per acre of crops harvested and threshed: Win-ter wheat, $20\frac{1}{6}$; spring wheat, $14\frac{3}{6}$; winter barley, 25; spring barley, 28 1-10; winter ryo, 20; spring rye, $18\frac{1}{6}$; onts, $39\frac{1}{6}$; hay, $1\frac{1}{6}$ tons.

is are moving freely. facture is distinctly improving. In men's wear goods there is more encouragement, and western buyers now here have from many home advices that goods are selling more freely. Spring orders are still short of the usual amount, and last year's clothiers bought too much of cheap low grades. In dress goods a fair commission business h seen, domestic products largely taking the

is lower than a year ago, having declined is per cent the past week. Wheat has fallen as of a cent in spite of exports greatly exceeding last year's, and the enormous western re-

ally extreme, now allow from 585,000,000 bushels upward for the crop, while even

more moderate eastern estimates make 200,

000,000 busnels for exports. Corn is 11ge lower. Pork products are a fraction lower

and coffee an eighth lower. Financial prospects have not changed and,

crops begins to be felt by many banks.

TO ROB THE TREASURY.

templated Raid.

the treasury has been advised that a bold

attempt will be made the present month to

rob the treasury by a "strong and determined

band of men organized for that purpose.'

The plan is to start fires in various parts of

the city for the purpose of diverting the at-

tention of the police and then overpower the

vaults, This information is civen in a lotter signed by the "King of the Tramps," who said he was the leader of the band. The let-

ter was referred to the captain of the watch

with instructions to give the visitors

proper reception.

fuse to give bail. This would result in the issuance of a writ of habeas corpus and in place of foreign. Reports from other cities reflect a grow-ing confidence in the future. At Boston trade in merchandise increases and is very that manner the case could be brought before the supreme court within twenty-four hours. He thought the men would all be willing to return to work if an agreement was entered into by which both employer and employe would agree to good for boots and shoes, with factories we employed, and western and southern reports are quite favorable. With active trade in wool and better in goods the close money stand by the decision. The committee was instructed to take hold of the matter and use such judgment as the members might see fit to bring about an market causes some embarrassment. A Philadelphia in most trades there is much complaint and slow collections. At Pitts-burg manufactured iron is fairly activo and

early adjudication. the glass trade good, but collec-tions rather slow. At Cleveland trade is enlarging with confidence and at Clucinati the furniture trade is growing, but collections are only fair. Chicaro feels Another meeting will be held next Friday night.

PLAYING IN VERY HARD LUCK.

Strange Story of an Emigrant Which May Not Be True.

the effect of great crops, distinctly, wheat receipts being seven-fold over last year, ive five-fold, barley two-fold, wool nearly double, and in corn, beef, hides and butter some in-crease is had. Sales of clothing and shoes NEW YORK, Aug. 7 .- Driven from bis home in Russia because he was a Roman Catholic. persecuted by sickness in Bremen, his pasare larger than ever before at this season and in all lines collections are satisfactory. At other western points the crop prospects are almost everywhere mentioned as unsursage tickets to South America stolen from him by steamship agents, Apolinarius Skupka, with his family and four children, passed, and at St. Louis the demand for money in the interior grows more pressing wife and mother-in-law, arrived at the barge money in the interior grows more pressing and commercial borrowers are held closely to their needs. At Minneapolis, St. Paul, Omaha and Kansas City trade is generally good, at Louisville and Nashville improving, and at Montgomery the demand for goods is fair, but credits very conservative, while at Mem-phis and Savaunah reports of the trade are less favorable and at Jacksonville business is very dull. Unfavorable weather has strength. office on August 1 with \$1.10 in his pocket. The family presented such a forlorn appear-ance when they passed up the gangway among the passengers of the steamship Russia, from Bremen, that the barge office authorities placed them in the detention pen. Skupka said he was forty-five years old and a carpenter. With his sayings he had purchased tickets for Brazil, where he had rela-tives. Arriving at Bremen one of his chilvery dull. Unfavorable weather has strength-ened cotton at New Orleans, and the demand dren was taken sick and was in bed for two for sugar is good, with rice strong and money in good demand, but with supplies ample for the legitimate trade. Prices of commodities are going down and for the first time this year the general level months. On his arrival at Berlin an agent who represented himself as doing business for the firm of Louis Fries & Co., of Ham-burg, took Skupka's tickets, telling him that

America was the place he should seek as he would be given assistance and plenty of land to live on for nothing. The agent then gave him tickets for himself and family to New York. The family are in a healthy condition and look as though they could take care of themselves. General O'Beirne said he did ceipts make the constantly repeated assertions that the alliance can hold back wheat appear ridiculous. Western estimates, not unusunot believe the Russian's story. Further in-vestigation will be made before any decisive steps are taken.

MAY FIGHT FOR YEARS.

Neither Side Gaining Ground in the War in Chili.

though money on call is cheap, commercial loans are made with caution. Large failures have occurred, but hone threatening financial disturbance. The tone abroad is less strained SAN DIEGO, Cal. JAug. 7 .- The officers of the Juited States steamer Peusacola, which arrived from Chili yesterday, state that the and the bank of France has gained gold largely, but pressure in Europe must result if needs for breadstuffs are as large as progress made so far by either party in Chili is small. The congressional party has plenty of money, while Balmaceda is flooding the country with paper money. Should Balmaceda's new cruisers arrive from s supposed. Foreign imports of merchan-lise in New York in July fall 19 per cent below the year, while the exports largely in-crease. The demand for money to move Europe in good shape to enter an engage-ment, the insurgents will be beaten, but if anything happens to the ship it is impossibl The business failures occurring through-out the country during the last seven days numbered 231, as compared with a total of 247 last week. For the corresponding week of last year the figures were 208. to predict the outcome and the war may con-tinue for years. Both parties are well sup-plied with arms and ammunition. So far only three engagements have been fought, the insurgents being victorious each time. The insurgent vessels joined the expe-dition against Quoquimbo, and just before the Pensacola left Iquique it was reported Secretary Foster Warned of a Conthey were victorious. Three provinces now recognize the congressional party. WASHINGTON, Aug. 7 .- The secretary of
