Omaha's Revived Team Had a Streak of Very Hard Luck Yesterday.

O'CONNOR'S HOME RUN WAS THE THING.

Great Crowd Out to See the Team Drop Its First Game at Home-Other Ball Games.

The resuscitated Omahas made their debut on the home grounds vesteriay afternoon before the largest Monday crowd ever seen here. The grand stand was nicely filled, a good proportion of the crowd being ladies. The bleachers, of course, were barren, for a man could have watched the game with as much comfort from a seat on a redhot stove as he could in the torrid sun on the uncovered sents

For an hour before the game the Musical union band rendered a spirited programme, and altogether the occasion partook of the air of a gain day.

The Denvers had their strongest team on the field, and yet, the locals took hold of them with a degree of familiarity that was very disgusting to White Wings, and had it not been for a couple of unfortunate errors in the ninth inning they would have been handsomely walloped.

Up to this critical point Leadiey's men had a tight grip on the game, and just as it looked as if they had it good and safe, Dame Fortune switched her smiles and the Mountaineers caverted then like so many yearlings at a country fair.

The new team showed up well, barring a noticeable nervousness at critical times, and with a little more work together will be able to hold its own with the most of them. The big crowd, which was as enthusiastic and noisy as any crowd that has assembled at the park this season, gave numerous testimonials of its approbation, and showed that it was not inclined to be hypercritical.

But the game. It was an unovation to see the visiting team go to but first, but that is what Denver did yesterday, and the crowd sort o' liked it. Jimmy Burns inaugurated the proceedings by laying out a couple of sacks and every body thought that the Tebeaus were in for a picule with the slender Mr. Keefe. But their fears were quickly dissipated for the next three men went out in rapid succession.

McClellan led off with a clean one to center for the Lambs on the first ball pitched, and the wierd sounds that emanated from the grand stand made Mr. McNabb nervous, and the second one he tried to hire went over the

shed and Mac galloped round to third. Then Old Pop Smith, who looks a little attenuated to what he did during the revolutionary war, sent another beauty out into the cold and uncharitable world, and McClellan ran in. This caused much jubilation in the stands, and when Pop stole second and kept right on home on the lubberly Lobbeck's wild throw,

the fans arose and howled with give! Ollie Beard and White Wings took good care that Coionel Flanagan went back to the bench, but Dungan took the first bag because McNabb refused to "trun over de can." Then the Texan made another wild pitch, and Lohbeck two successive passed balls, and Dun brought in the third tally.

and Dun brought in the third tally.

White Wings at this juncture walked into the diamond and up to McNabb and with a significant twirl of his tinger, said: "What's der madder wid ye, Nabb, you tryin' to trow de game! Now, vou git down to business or I'll lop off a couple o' weeks' salary. See!" and White Wings returned to first.

Jack Fields made three virious stabs at the Jack Fields made three vicious stabs at the

gyrating sphere, and as he went back to the bench, White Wings patted McNabb metaphorically on the back. Coleman got first on four more wide ones, and when Waish stepped to the plate he was greeted with a salvo of applause. He doffed his cap, then smashed out a nicely laundried two bagger, and the crowd went wild. Whitehead also hit safe, and the fifth run

crossed the plate.
Chippy McGarr made a circus stop of Keefe's hot grounder and the inning was

In the second, after Werrick bad perished from Walsh to Flanagan, the Chippy got his base on balls and scored on Kennedy's threebagger, Kennedy fellowing him in a mo-ment later on Lobbeck's sacrifice. McNubb furnished the third out. In her half Omaha drew a blank

Again in the third the Tebeaus gathered in a couple of more, the Poet lifting the globe over the left field fence for a homer, and Jack O'Connor scoring on his own single, another one by Beard, and Fields' wild throw, Again Omaha held a losing ticket, and in the fourth Denver tied the score. Lobbeck began with a single, and after Mc-Nabb's retirement, was followed with a safe

one by Burns, and a two sacker by Beard, one by Burns, and a two sacret by Beard, and everything was new again.

Only for a brief period, however, for in their half of the fifth, the Lambs jumped into the van again with a margin of three the base on balls. runs. Flanagan got his base on balls, Dungan bunted safely, but Fields went out to Tebeau; then Coleman drove one down to Beard, and Flanagan was caught at the plate, and affairs didn't look so promising But after Coleman had stolen second Walsh made a pretty single, and Dungan scored. Walsh started to steal

and Lobbeck made a wild throw which not only let Coleman in, but Waish That was clever, wasn't it, and when Joe reached the beach he pitched up a bushel basket, more or less, of big John dellars. Whitehead went out to White Wings, and there was no more runs made until the ninth when Denver made four and won the game.

Lohbeck opened with a bit, and on Whitehead's wild throw of Fournier's grounder, he run across the plate, and Harry
reached third. Walsh made a wide throw of

the Poet's hit and Flanagan muffed it, and O'Connor, the Irish patriot, following with a homer, the thing was done Wasn't that tough, though? Omana made a gallant struggle to regain her lost ground, in her half, but it was no go.
McClellan led off with his second safe hit. McClellan led off with his second safe and Smith got his base on balls, but that was all there was of it, for Flanagan and Dungan furnished easy outs, and Smith was forced out at second by Fields, and the day was gone beyond recall. The same teams meet again this afternoon.

This much is said: That the Milwaukee team will not remain in the present circuit

with Minneapolis out of it. Another fact is this: That if this city sees any more baseball in the future it will be the American association article. Though the news of the Minneapolis club's decease came as the proverbial thunderbolt from a clear sky, it was no news to President Gillette of the Milwaukee club. Ten days ago he received a straight tip from Baron Hach of what was coming. Forthwith the Milwausee official opened up negotiations with the American association people. Were it not for the fact that Louisville raised the necessary cash, Milwaukee would have played ball tomorrow with the Baltimore team. Louisville's unexpected rally knocked all calculations in the head, nowever. Gillette had the whole deal cooked up with President Kramer and Chris Von der Alte of the St. Louis club.

"There is only one salvation for us now," said the Milwaukee magnate today, "and that is the purchase of an American Asso-ciation franchise. If the present stockholders will not consent to a reasonable outlay to bring about such a result, there is enough capital at my command in the hands of solid business men

to accomplish the object desired."

The news of the impending collarse of the association was soon noised about town, and created a profound sensation. Manager Cushman was dumbfounded when apprised of the facts. With such a nice lead for the pennant the prospect of being thus shaken out naturally created the same effect on "Cush" as a blow from a meat axe would have caused. Still Cushman does not despair. He believes the season can be played out with four clubs if that is the best that can be done. He does not believe that any of the players can be sold. President Gillette has wired President

Krauthoff at Kansas City asking what is to be done. He is also in communication with the American association president in regard to securing a franchise.

The Sioux City team arrived here tonight and will play ball tomorrow afternoon and Wednesday and Thursday per schedule. What will be done after that is guess work. It is rumored here tonight that if a six-club circuit is arranged, Lincoln will not be in it, as the club is said to be in a tottering condition.

The Looking Glass Stars were defeated at Mr. Rosseck said: "I have lived in Omaha Coen Prairie, Score, 16 to 5. Battery for Looking Glass Stars, Eckman, Stiner and Jacobson for Coen Prairie, Froestal and Thiestimer, Umpire, Funk Knutesen. Time,

a long time. I am a Bohemian, and I have property here. I have a family and I want to be respectable and see my brother Bohe-mians become respectable citizens. For that reason I don't like to hear a man advocating the doctrine of the anarchists here in Omaha. I protested against the language he was using t was not right to talk that way and he knew it, but they would not listen to me. They put me out. Kretchmeyer don't own any property here, and he don't care, but there are Bohemians in Omaha who don't like to hear that kind of talk."

Some other Bohemians were seen by a re-porter for The Bee who denied that Kretchmeyer used incendiary and anarchistic language. They said that Rosseck misunderstood Mr. Kretchmever.

AUGUST CROP BULLETIN.

Wheat and Small Grains Up to the willing to fight Stavia or Mitchell for \$10,000 Average, but Corn Somewhat Back-Washington, Aug. 10.-The August returns to the statistician of the department of agriculture makes the condition of corn 90.8; sgring wheat, 95.5; spring rye, 89.6; oats, 89.5; barley, 93.8; buckwheat, 98.3; potatoes, 96.5; tobacco, 88.5; hay, 90.9, Corn has fallen off 2 per cent during the

ionth, the decline being almost entirely in the states of the Ohio valley and the northwest. The decline was due to dry weather. approaching drought in portions of Indiana and Illinois and low temperature in all sections of the corn surplus districts. There was sufficient rainfall in Kansas and Nebraska, with some local excesses, and the month was fairly favorable, notwithstanding the low temperature. East of the Allegheny mountains and in the south, the conditions were favorable and averages advanced. The crop continues late in most sections, the result of a poor start and ab-sence of hot, forcing weather during July. Unless August should prove unusually favorable and the season be a long one there is danger that corn may not mature properly. While the general average is reasonably high correspondents qualify by emphasizing the necessity for a favorable season from this date on.

this date on.

In the surplus states, the averages are:
Ohio, 93: Indiana, 88; Illinois, 83: Iowa, 90;
Missouri, 87: Kausas, 88: Nebraska, 89. It
should be noticed that but one of the surplus states returns an average more than the average for the country.

Wheat returns relate to spring wheat only, the average for the whole breadth advancing

somewhat during the month. The improve-ment is general, except in Washington, where het winds injured the prospect in some districts of the state. Returns outside of this state and Wisconsin closely approach the standard for comparison.

The principal states are: Wisconsin, 79;
Minnesota, 98; Iowa, 95; Nebraska, 97;
North Dakota, 90; South Dakota, 98; Wash-

ngton, 90.

Oats have improved 2 per cent during the nouth and the figures of the condition indiicate a medium yield per acre. The blight which ruined the crop last year and which was feared again at the date of the July re-port has appeared but in few isolated locali-ties. The weather at the close of the growing season and during harvest was generally favorable and late growth was sufficient to largely offset poor state and deficit land, Cooler weather which retarded the corn growth in the upper Mississippi valley was favorable to this cereal, materially advanc-

favorable to this cereal, materially advancing state average. The averages in states of larger production are: New York, 92; Pennsylvania, 91; Ohno, 86; Michigan, 86; Illinois, 86; Wisconsin, 89; Minnesota, 91; Iowa, 18; Kansas, 90; Nebraska, 96. Barley shows improvement and promises a large crop in most of the districts of heavy production. The California returns condition at 100, or practically perfect. In New York and Wisconsin, however, the prospect is less favorable. The first return for buckwheat is the highest for eight years past,

with a slight increase in acreage.

Condition of potatoes is returned remarkably high, scoring gain of a point over last month. In fifteen years previous the recent season, August shows condition higher than

July but once. Should the present prospect be continued the crop will be one of unusual proportions.

Wheat in the Northwest. MINNEAPOLIS, Minn., Aug. 10.-Piguros compiled by the Northwestern Miller show the stock in the private elevators of Minne sota to be 2,304,000 bushels, 292,000 bushels sota to be 2,304,000 bushels, 282,000 bushels less than last Monday. This makes the total stock at Minneapelis and Dulath 6,469,000 bushels, a decrease of 1,285,780 bushels compared with a week ago. The Market Record places the stock in country clevators of Minnesota and the two Dakotas at 637,000 bushels, a decrease of 17,000 bushels. The appropriate stock in the porthypast is thus

Serious Situation in Russia. The smelting works strikers held another Sr. Perensuras, Aug. 10.-The grave sitation created by the failure of crops in Russia is causing the greatest apprehension in all circles. The Grashdanin declares that local administrations will be unable to make provision for the inhabitants of the distressed provinces if speculators are allowed to export corn or lathe artificial rise in the price of corn is not checked. The paper demands that the government immediately place a heavy duty on export corn. The Financial Messenger deciares that it will be almost impossible for Russia to export corn this year.

Camp Douglass in Ruins.

New Lisson, Wis., Aug. 10.-Camp Douglass is in ruins. At about 9 o'clock this evening the cry of file was raised. A lamp exploded in Cuffmare's saloon, but the flames had been nearly smothered. The fire took a new start, however, and in about ten minutes was beyond control. The fire spread rapidly through the business houses reached the Camp Douglass hotel. I crossed the Omaha tracks and set fire to the

Many dwellings were burned, there being nothing left but a few residences in the southwest part of the town. The total loss is estimated at \$150,000.

Soldiers who were encamped near by as-sembled and succeeded in saving nearly all the goods in the hotels and stores, and most of the business part of the village. Many dwelling houses were burned. The wind blew from the south and kept the fire moving very rapidly, and when the engines arrived from Mauston and Tomah they could do little. The losses aggregate \$150,000 with small insurance. Telegraphic wires passing through the town were destroyed, and the railroad track is budly warped

Fire at New Orleans.

New ORLEANS, La., Aug. 10 .- This evening at 7:25 p. m. a fire was discovered in the St. Lawrence block. The entire fire departent was called out but the flames had gained such headway that it was impossible to put the flames out before they had done considerable damage. The whole building was damaged to the extent of \$125,000; in-surance, \$100,000.

Chicago, Aug. 10.—Some excitement was created this evening by the fourth alarm of fire from the great lumber district. Fiames were discovered in the drying house of I. B. Barker & Co. The marshal in charge soon had twenty-five engines and two boats work

nad twenty needings and twenty needing and the fire was extinguished, after about \$20,000 damage had been done.

FIVE DEATHS ALREADY REPORTED.

Scenes in New York That Beggar Description-Tho :sands Desert the City-Grave Forebodings for Today.

New York, Aug. 10.-New York today has

been a furnace seven times heated. This has been the third day of the heated term in the city, and there is no prospect of a change tonight. The mercury bids fair to touch the 100 mark tomorrow. By a thermometer which registers the actual degrees of heat on the street, 97 " was reached at 3:30 p. m. At 9:30 a. m., without a suspicion of a breeze and the mercury steady climbing upwards, the air was stiffling. At noon it was unbearable, and between that hour and 4 o'clock in the evening the ambulances were ousily engaged in carrying to their homes the many people who had been prestrated by the heat. Nothing like it has been recorded at this time for twenty years and a continuance during the week means an increase of fatalities. Several deaths have occurred and many more victims are in a bad condition. The deaths oo far reported are:
Jeanua Seit, fifteen years old, at No. 318
East Seventy-third.

Mrs. Mary Minnagh, fifty years old, at No. 34 East Sixty-second street.
James O. Flaherty, three months old, at 441
West Twenty-sixth street.

John Gleason, thirty-four years old, at 534 West Thirty-fifth street. H. Jermania, twenty-two years old, at No. 13 Washington street. Inspectors Steers and Conlin of the police

are prostrated and a number of the police force had to leave their posts today. The theaes tonight are almost deserted and thousands have left the city to escape the heat. Sev-eral persons are reported to be insune from the heat.

The heat was particularly hard on horses, and many of them succumbed. The scenes tonight are beyond description. Many people living in tenement houses have left and are sleeping on the housetops. Little relief is afforded them, however, as the prick walls are sending forth heat accumulated during the day They are looking with foreboding for the

British Grain Market. LONDON, Aug. 10.-The Mark Lane Ex-

press says: The late dry heat has caused the harvest to be late. The next fortnight is the critical period for failure or success of crops, English wheats have been in slow sale at 38 to 39 shillings for red and 40 to 41 shillings for ordinary white. Many exchanges are almost empty, and business has been extremely limited. Foreign wheat has advanced slightly. In spring grain trading favors holders for barley oats, pulse and corn, while lentils and rice are stronger. Today English wheat is so scarce as to be practically unquotable. In foreign wheat there was a small advance for spot. Russian wheat was stiffly supported. soot. Russian wheat was stiffly supported.
Samples of American red winter wheat were received today by post and eagerly scanned, as a large surplus of that quality wheat is expected, and has greatly affected markets. Good milling usually shown. Flour is dull. The scarcity of barley prevented a decline in that cereal, but the market could not be called firm. Swedish outs are firm and English alfirm. Swedish oats are firm and English al most unobtainable. Corn firm, but inactive.

The Heat in Connecticut. PLAINFIELD, Conn., Aug. 10,-Today has been one of the hottest days in years and the drouth is startling. All the crops are burning up on the ground and the early ones which have ripened by the drouth so quickly are badly retted. Mill streams have mostly gone dry all through the valley. The Quinneoaugh Shetaucket river milis are idle. Pachaug lake that covers 14,000 acres, is

loss to crops and in wages will be great. In Iowa and Illinois CHICAGO, Aug. 10 .- Dispatches from many points in Illinois and Iowa report excessively hot weather today, the thermometer ranging from 93 to 103 degrees. In some sections the heat was intense.

JUST LIKE VIKINGS.

Days of King Olaf Revived by Same of His Degenerate Descendants.

A half dozen Swedes went into John W. Green's saloon, 1415 Farnam street, about 8:15 o'clock last night with a good sized cargo of beer aboard. They wanted to play pool, but Mr. Green saw that they were too drunk and declined to let them have the balls. Words followed and the party was put out. They came back and started a fight. Mr.

Green was hit twice, once in the right and once in the left side of the head. Two cuts were made, but just what the weapon used was could not be determined, though it was thought to be a knife. A great crowd collected in front of the

saloon and jammed the doors. Swede curse words and blows flew thick and fast for a lime. Detective Mike Dempsey and Officer Meals came along and started in the Farnam street entrance, but the crowd was too thick, so they run to the rear door.

The officers stopped the fight and each one took a man and started for the jail. The crowd followed along and scattered consider-

able on the way.
At the corner of Fifteenth and Howard a man stood behind a telegraph noie, and when Officer Meals came along with his prisoners threw a brick at him. The missel struck the police-man over the right eye cutting a deep gash and stunning him for a moment. Meal's prisoner broke away, so did Dempsev's. Both ran west on Howard street and at Sixteehth

Separated.
Paul Blumquist was the man who assaulted the officers. He ran south on Sixteenth to an alley between Howard and Jankson and struck out west. He was caught on Seventeenth street.

Carl Humquist started down Jackson street from Sixteenth and was hit with a plank by some unknown person who had aken up the chase. Both men were taken to police headquarters and locked up. A great crowd followed the officers and caused usiderable excitement for a few moments. Dr. Gapen took five stitches in Officer Meal's bead and Mr. Greene had double that umber taken in his.

No one was seriously hurt. The whole affair was the result of two much beer on the part of the Swedes.

Boils and Pimples

Are nature's efforts to eliminate poison from the blood. This result may be accomplished much more effectually, as well as agreeably through the proper exerctory channels, by the use of Ayer's Sarsaparilla.

"For several years I was troubled with boils and carbuncies. In easting about for a remedy, it occurred to me that Ayer's Sarsaparilla had been used in my father's family, with excellent success, and I thought that what was good for the father would also be good for the son. Three or four bottles of this medicine entirely cured me, and I have not since—in more than two years—had a bott, pimple, or any other eruptive trouble. I can conscientiously speak in the highest terms of Ayer's Sarsaparilla, and many years' experience in the drug business enables me to speak intelligently."—C. M. Hatfield, Farmland, Ind.
