Minneapolis... Sioux City.... Sansas City ... Duluth. MAHA managed to scratch out the last

game of the series with Denver, but it was as rocky an exhibition, cape of the on the part of the Tebeau family, as has been put up at vn the Omaha park this season. They hat the ball

behold, and the presumption is that they were recovering from a carousal of the pre-This, however, is only the presumption, and it may be that the boys were all tucked

in their little beds as early as sundown, but it is a 40 to 1 shot that they were not. Werrick and Beard, while they made several brilliant plays, deported themselves

generally like a couple of men from the Tebeau was the only man of the entire outfit who maintained his reputation as a ball player. O'Connor and McGarr batted well enough, but both were bunglesome and

no good in the field. For the Lambs a good word is coming for every man. They worked hard and energetically and should have won the game 'way up in the double figures, but the Nemesis of hard luck still clong about their necks, and it was the veriest scratch that they won at all. The fielding of Pop Smith and Joe Walsh was of the phenomenal kind, while the batting of Fianagan, Dungan and Mc-

Clellan was notably fine. Fee's pitching was weak, as the 1b column for Denver fully and incontestibly proves, vet his work was even better than that of Harry the Parisian or Peter McNabb. Fields was off in his lining 'em down to second, but otherwise behaved like a gentleman and a scholar.

Stien. Chicago's southern crack, has been signed and joins the team today in Kansas City, as also does Frank Day, who will re-lieve Whitehead at third. These two men will materially strengthen the team, and by the time it gets back here on the 22d, another new face or two will be within the

It would be a thankless and uninteresting task to attempt a detailed description of yes terday's game, and for the nonce the cranks must rest content with the score:

from Lincoln. Kansas City, Mo., Aug. 13.-The Blues made it three straight from Lincoln today. Burkett and Sowders did the twirling, and both were very effective. Roat lost the game for Lincoln by making a wild throw to first in the eight's inning, which let in two runs. Stafford spoiled two beautiful drives off Pickett's bat by wonderful running catches. What Do You Think of This?

DULUTH, Minn., Aug. 13.-The prospects of an early settlement of their financial troubles infused the Duluth team with unusual ability and they hopped on to the Millers of Minneapolis with a thud that made Pitcher Mitchell's hair stand. But for two rocky, very rocky, decisions by Um-pare Quest, which he afterwards prac-tically admitted were wrong, it would have been a frightful shut out. Minneapolis made nine very rotten errors and Ward made an exhibition of himself by kick. ing. Mitchell and Killen for the Flour City boys were hit tor twenty-four singles with total of thirty-seven bases. Inks for th bome team did fine work in the box. Score

MINNEAPOLIS, Minn., Aug. 13, -- | Special Telegram to THE BEE. |-It is possible the Minneapolis team will be disbanded again in the next forty-eight hours. The desertion of McQuaid, Darling and Rattger to St. Louis cansed the trouble. H. L. Hach, the owner of the team, sold out to Horace Libbey and Lewis H. Harrison for \$5,000. When Mr. Harrison discovered that Mr. Hach could not deliver all his players, he refused to put up his \$2,500, and declared the deal off as far as ne was concerned. Mr. Libbey has been unable to secure a partner, and Sam Morton wires from Duluth that he will bring the team back here from that city tomorrow, and the chances are that it will be disbanded at once.

Anyhow the Band Played.

PLATTSMOUTH, Neb., Aug. 13 .- [Special Telegram to THE BEE.]-When the Platts mouth team this afternoon came out bedecked in its new suits and the B. & M. band thrilled the audience with soul-stirring music, the cranks all exclaimed, "We are going to win today," and the locals would have won, had it not been for one thing-their opponents, the Lincoln Giants completely outplayed them. Six runs in the first, two of hem home runs, was enough to blanch the heek of a bronze statue, but the boys struggled manfully against relentless fate until the very last, but all unavailingly, and as the large audience slewly left the grounds the band played "Listen to My Tale of Woe."

Hubanks' batting was immense, and the visitors' battery, Kid Miller and Maupin, was almost invincible. It is a fact that Plattsmouth's pitchers are all lame and three had to make a trial today. Cuarley Miller's work on third base was out of sight. He made three remarkable catches and accepted each of six chances. Tom Patterson, at short, played in Lis usual form, while Yapp, Stephenson and Sam Patterson did the best work at the bat. Score:

MINNEAPOLIS, Minn., Aug. 13.-Mr. Pillsoury being asked as to the truth of the statement published under a Duluth date concerning his flour dealing, states that the general tenor of the dispatch is a most malicious falsehood, evidently promulgated by some one to do injury to his business. The figures are the grossest and wild exaggeration both as to cost and amount of wheat. He has parchased what wheat he calculated would e used for milling on the market every week in the year, and at an average cost below present prices. The total requirements of bis mills are over fifteen million bushels per annum if their mills were run uninterruptedly and their purchases have not been in ex-cess of this amount. All of the millers in Minneapolis put together have not purchased the amount stated in the dispatch during the past year and comparatively little of the wheat has been purchased at the price named. LURED TO A HOTEL AND OVERPOWERED

One of the Most Daring Roberries Ever Perpetrated in the South-The Criminal Escapes.

Memphis City banks, secretary of the Memphis railway company, principal owner of the Public Ledger, and one of the most prominent and wealthy citizens of Memphis, was this afternoon chloreformed and robbed at the Gayoso hotel by a man giving his name as John A. Morris and his residence as New Orleans. About 6 o'clock this morning a man who registered as John A. Morris, New Orleans, was assigned a room at the Gayoso, for which he paid in advance and occupied at once. During the evening he ordered a bottle of whisky from the oar and a bell boy secured a bottle of camphor for him from the house arug store. About 2 o'clock this afternoon Mr. Frayser, sitting in his private office at the Memphis city bank received a note signed "John A. Morris" requesting Mr. Fraysor to call on him at once on pusiness of importance. Mr. Frayser was at the hotel in a few minutes and was ushered into Mr. Morris'

The latter introduced himself as John A Morris of the Louisiana lettery company of New Orleans. He said the lottery company had been antagonized greatly of late in that state; that their investments had been unfavorable and lottery property generally was unsafe, and he wished to consult him in regard to it. Mr. Frayser gave him what information be could in regard to Memphis monied institutions, but would give no advice and turned to go.

At this juncture Morris asked him to have a drink. He declined, saying he did not drink out Morris insisted, and Mr. Fraysor, walked across the room to a window while Morris opened a satchel. "Here," said Morris, and Mr. Frayser turned around he was very greatly startled to find two revolvers one in each of Morris' hands, staring him in the face. Said Morris: "I am a desperate man; I have no money; my family in New Orleans are in destitute circumstances and I

must have money. You must endorse teleck for \$5,000." When Mr. Frayser had recovered from his astonishment he tried to argue with the man and telling him that he did not have that much money to give him. The New Orleans man stuck to it, however, and Mr. Frayser finally agreed to endorse a check for \$500. The check was then drawn on the Hibernian National bank of New Orleans and Mr. Frayser endorsed "R. D. Frayser," hoping the cashier at his bank would suspect some thing wrong and refuse to cash it as he al ways endorsed his checks "R. Dudley Fray ser." A belt boy was at once called by Mr. Morris and the check sent to the Memphis city bank, Mr. Frayser being kept a prisoner in the hotel after the boy had gone. Morris walked over to where Frayser was standing and clapped a napkin over his face, threw him on the bed and that is the last of his adventure Mr. Frayser can recall.

Mr. White, proprietor of the hotel, was notified about 6 o'clock this morning that there was something wrong in Morris' room, as cries of "murder, thieves," could be plainly heard issuing from that room. Mr. Frayser was found unconscious, tossing and turning on the bed. The dose of chloroform was overpowering him. His watch was gone and Morris was gone. The check lay on the table unpaid. The bell boy had taken it to the bank twice at Morris' request, payment, however, being refused each time. The po lice are greatly puzzled over the affair, and are searching every corner of the city for

Denver Man and Wife Seek Death

Hand in Hand. DENVER, Colo., Aug. 13,-Unhappy, har rassed and heart sick in life, Eugene H. Bonnick and his young wife today sought together in death relief from this world's fretting cares. The young couple lived at 911 Santa Fe avenue, and it was there at about 10 o'clock this morning that the door of their sleeping room was burst open. Mrs. Bonnick was dead and her husband was beyond human aid. He died shortly before noon. It is the old familiar story of domestic trouble, magnified by the interference of

relatives and meddling neighbors. Eugene H. Bonnick was a member of the firm of Bonnick & Co., tinners, and was con sidered a steady, industrious young man of more than ordinary business qualifications, the only thing that seemed to stand between him and absolute bappiness being his domes tie trouble. He attended closely to business and was always punctual in his habits with but few exceptions, and each time his delay was traced to some quarrel at home after which a truce had been patched up. The only word left was a note which reads

THE BANKS ARE TO BLAME.

Four and a Half Per Cent Bonds No. All Continued. Washington, Aug. 13 .- Inquiry at the

treasury department develops the fact that

Secretary Foster's plan for continuing the 1) per centican at 2 per cent has so far failed to meet with the favor that was anticipated by its advocates. On July 2, when the offer was made to continue the 416 per cent bonds at 2 per cent there were outstanding \$51,000,000 414 per cents, of which amount \$23,000,000 was held by nine national banks as a basis for circulation. Since then \$18,500,000 of the bonds have been continued. Of this amount \$34,080,000 came from private individuals and \$15,500,000 from 600 national banks, leaving \$7,500,000 434 per cents in the possession of 300 national banks and \$27,000,000 in the gating \$23,000,000, in order to be continued

or before September 2, the date on which their interest ceases. Otherwise the secretary of the treasury must be ready to redeen them on presentation or make terms with others for an extension of time at the present rate of interest, viz: 4½ per cent. The available cash balance in the treasury today, outside of fractional silver coin and deposits in national banks, is \$13,500,000, and is grad ually increasing. While there is no question of the government's ability to redeem these bonds at maturity, it is well known that it

would prefer to continue them.

There is no doubt that the \$\$,000,000 of bonds held by the national banks will be presented for continuance. The uncertainty is wholly in regard to the \$15,000,000 in the hands of individuals. The department had assurances that these bonds would be taken up by the national banks and used for the purpose of increasing their circulation. This was the argument that mainly induced the department to adopt the 2 per cent plan. So MEMPHIS, Tenn., Aug. 13.-R. Dudley far. however, it seems the assurances have not been made good. According to a promi-Frayser, president of the Security and the nent treasury official this is entirely the fault

of the banks.
"There is no sense," said he to an Associ ated press representative this afternoon, "in redemotion by the government at par when they are at a premium of % of 1 per cent of he market. They are either holding out fo a greater premium or the banks which were ostensibly so willing to take up the loan for the purpose of increasing their circulation, have gone back entirely on their prom-ises to the department, and are making no effort whatever to secure these floating bonds. Change in Civil -ervice Rules, WASHINGTON, Aug. 13.-President Harrison, upon recommendation of the civil service commission, has made important changes in the rules governing classified service. Under these amendments all promotions hereafter made in classified service will be upon strictly competitive examination, conducted under direct authority of civil service

commission. The amended rule in question reads as follows: "So far as practicable and useful competitive examinations shall be established in the classified civil service to test the fitness for promotion under such regulations as the commission may make. Until such regulations have been applied to any part of the classified service promotions therein shall be made in the manner

prescribed by the rule applicable thereto." The next in importance is the rule in regard to the markings of all examination papers, whether for appointment or promo tion. Heretofore the grade of each compet itor has been expressed by the whole number nearest the general average obtained, disregarding fractions. Under the amended rule the exact mark of each competitor, including fractions, will be entered on the registers Several other amendments to the rules have en made effecting the railway mail service They are not, however, of general interest.

"Since you invite it, I too will venture to lay this small laurel wreath on the bier of James Russell Lowell, I take my private share in the public grief for his loss, both as a humble citizen of that republic of letters of which he was the glory and also as an outside friend. I knew him as a man and in knowing him lost no jot in my admiration and affection for him as an author, which does not often happen. After Longfellow and Waiter Whitman I should rank him the best of your American poets, but he was even greater as a critical supreme udge of literature than as a writer of that magnificent commemorative ode and the inimical Bigelow papers. It is much when all the world must say that least of the many distinctions of this aweet and subtle naturedletter was that he held with a noble usefulness and perfect loyalty to 'both England's' so great a post as that of minister from the
