Not an Intentional Insult

Carductor Mitchell's side of the trouble but has arisen between himself and Charles Denny over an alleged insult offered to Mrs. Denny by the motor conductor was told in Justice Hammer's court yesterday afternoon It appears to have been an unfortunate misunderstanding all around, and has made a great deal of unnecessary trouble for all concerned. Mrs. Denny had asked for a transfer check to another line. When Conductor Mitchell handed it to her his attention was attracted to another portion of the car, and he unconsciously presented the ungracefu spectacle of handing the lady the check while standing with his back to her. She looked upon it as intentional and resented the insult it implied. It appears that the conductor's explanations were not made in as gentle manly a manner as they might or should have been, and the lady reported her dissatisfaction to her husband, who visited condign punishment upon the offending motor man

R'v. No. 16 Pearl street. The Entries Not Closed.

An impression seems to prevail among horsemen that the entries for the September races at Union park have closed. This is a mistake. The entries have not closed and will not close until August 31 for trotting and pacing races, and for all running races not until 5 o'clock on the evening preceding the

Pacific rallway company filed with the secretary of state its amended articles of Incorporation, in which the following language occurs:

"This company shall have power to construct and operate a railroad from Des Moines, the western terminus of its road as now fixed by the original articles of incorporation, to the western line of the state of Iowa, at such points as may enable it to connect with the Union Pacific railroad now in course of construction from Onaha in Nebraska territory so as to form a continuous line of railroad from the eastern line of the state of Iowa, at or near Davenport, to the western line of the said state at such points as will enable it to connect with the said Union Pacific railroad, and to transport persons and properts for hire over the line of the said Chicago, Rock Island & Pacific railway company.

February II. 86s, the twelfth general assembly of the state of Iowa passed a law providing for the early construction of the Chicago, Rock Island & Pacific railway from Davenport to Council Bluffs, which act was accepted by said company. Sections 2.6.9, 2.01, 2.01 of McLain's statutes prohibit railway corporations which by charter or otherwise lave their terminus at any point on the boundary or within the limits of Iowa from making any transfer of freight, etc., at any other place than in this state. These sections were declared void y the superence court of Iowa in the case of the city of Coun-il Bluffs against the Kansas City. St. Joseph and Council Bluffs railroad company. 43th Iowa, page 335. Sec also revised statutes of the United States is authorized to connect their roads with the Union Pacific railroad or any of its branches, and section 5.25%, in which provides that every railroad company in the United States is authorized to carry ubon and over its road, boats, bridges and ferries all passengers. Trougs, government supplies, mails, freight and property on their way from any state to another state, and to receive compensation therefor, and to connect with roads of other state The prospects are now that the September meeting will be the most successful ever held in the western circuit. The purses hung up amount to \$6.500, and it is probable that who are deeply interested in the success of the races. The determination is to bring th best horses in the west and big purses and fair conditions are the means to be employed in accomplishing it.

NEWS FROM COUNCIL BLUFFS.

Citizens Given a Percible Reminder of Explosion of Ten Years Ago.

CARELESS MEN FOOLED WITH DYNAMITE.

Six Sticks of Giant Powder Set Off in One Blast by Ambitious Dirt Haulers-The Results.

Residents of the southeastern portion of the city were given a fright yesterday forenoon about 10 o'clock that recalled the great dynamite explosion in the Rock Island railway yards ten years ago.

At the hour named buildings were shaken, dishes rattled and broken, and windows shivered on Main, Fourth, Third and Bluff streets between Ninth and Fifth avenues, and the people startled by a terrific concus-sion. People who had feit the effects of the concussion when the Rock Island car was exploded realized that the report had come from their old acquaintance. They rushed out of their houses to see where the dynamite had been fired. A billowy cloud of white smoke at the foot of the bluffs in the vicinity of John T. Stewart's residence indicated the tocation of the mine. Inquiry into the cause revealed the fact that it was a genuine dynamite explosion. A number of dirt haulers had procured the high explosive to blast down the high bluff. Half a dozen long cartridges of the stuff were taken to the top of the bluff

and one of them placed in the drill hole prepared for it. The other cartridges were left at what was supposed to be a safe distance, but when the charge was fired the concussion was sufficient to send them off also. The explosion of the blast and the cartridges lying on the surface was simultaneous. The result was astonishing. Half the side of the bill was torn down and great masses of dirt hurled in all alreetions. The workmen had a profound respect for the stuff and had gone a safe distance, or there would undoubtedly have been work for the coroner.

But little damage was done and the dirt haulers have acquired a great deal of useful knowledge about handling dynamite. How to Cure Pain in the Stomach.

The Republican valley is also noted for its mild winters, and this is a fact not to be overlooved by those desiring to engage in the cattle feeding business. Corn has averaged in the last ten years about 20 cents per bushel, and these two things make it the beau ideal place to fatten cattle. This mildness i not confined to any particular portion of the valley but arises solely from its obysical arrangement being nearly three hundred feet lower than the Platte valley. General Dennis Says Omaha Can Care for the convention. "Some people make a great mistake," said

General Dennis of the United States revenue office yesterday to a reporter for THE BEE, "when they imagine that Omaha should have a room in a good hotel for every man who is expected to attend the national republican convention or the city will fail to entertain the convention properly. Now such an idea is wholly erroneous. Detroit last week I occupied a small room with three other delegates to the Grand Army of the Republic encampment, and we man did not expect to get a room all to him self. It is unreasonable for people to expect or demand any such accommodations in any city where there is a great throng of people Omaha can take care of the republican con-vention just as well as other cities take care of similar gatherings."
