It Will be a Strange Sale.

Think of it! A blanket sale in dog days, when the mercury is trying to climb out the top of the tube! Did you ever hear of such a thing? Yet that is just what Messrs. Fotheringham, Whitelaw & Co., the Boston Store people, are preparing for a surprise in the way of a special sale next week. During the early part of the season they purchased at a big discount the largest stock of blankets and comforters ever brought to the Missouri valley, and just for the fun of the thing they are going to see how many people can be induced to buy such things for winter use, as they buy their coal-at a big cut in price in hot weather. The date of the sale is not fixed yet, but when it comes off it will be the most sensational affairs of the kind ever heard of in Council Bluffs,

NEWS FROM COUNCIL BLUFFS.

Chautaugna Stockholders Hold a Meeting and Discuss Important Business.

NO FAULT FOUND WITH THE AFFAIRS.

Indebtedness of the Association Into the Thousands, but a Few Successfull Seasons Will Settle Matters Satisfactorily.

An adjourned meeting of the Chautauqua stockholders was held last evening in the poard of trade rooms. Only a small number were present, and there was nothing very exciting in the way things went off. The main object of the meeting was to hear the report of the treasurer for the year 1890-1. According to this interesting document the indebtedness is as follows: Notes, \$7,700; mortgages, \$6,250; accounts, \$1,380; real estate contracts, \$13,834,67; interest on the same, \$1,700. Besides these sums there will be due the manager \$850 January I for salary The total indebtedness is \$32,704.

The report was adopted without remark, after which the meeting adjourned. There was nothing in the way of complaint on account of the way things were run during the past year, as all the complaint that any one rad to make was made at the last meeting. The item of indebtedness under the bead of "accounts" above given, includes the deficit on the last season's programme some of the lecturers still being unpaid Something will probably be done toward making up this amount at the next meeting of the trustees, which is to be held next Monday night. The motor line scheme is worked upon quietly, and some de relopments are promised soon,

May Soon be Settled. S. E. Maxon filed a petition in district court vesterday that recalls an old sensation that was sprung on the citizens several years ago. Maxon entered into a contract with the councel to draw plans for the lower Broadway engine house, and after the plans had been drawn he sent in his bill for \$112. Some one started a report that Maxon had been implicated with an exmember of the council whereby the latter was to receive a part of the proceeds in re-turn for his influence in getting the job. This story gained enough credit among the derman to bring about an investigation, and in the meantime the council refused to pay the bill. In the midst of the investigation Alderman Patrick Lacy died, and as be had taken the lead in ferreting out the trouble, most of the information on the subject of the alleged deal died with him. There seems to ne no one else who knows anything about the matter, and the probability is that the claim will be settled without the case coming to trial.

Seining in Manawa.

At 3 o'clock yesterday morning Officers Micholson and Elsehberger at Manawa were notified that some one was trying to catch all the fish in the lake by means of a seine. They went to the south end of the lake and caught Joe Scott and Fred Mowery, who live near the corner of Eleventh street and Seventeenth avenue, in the act of driving the fish toward a auge net which they had stretched out in the water. They were arrested and brought to the office of Justice Hammer, where an information was filed against them. They pleaded not guilty to the charge and their ease was continued until tomorrow morning clock. They gave bonds for their appearance.

Orders were received yesterday notifying all the United States express messengers to make their headquarters and homes in Council Bluffs. This is in accordance with the other changes brought about by the recent decision in regard, the Chicago & Rock Island being allowed to run its trains over the Union Pacific bridge. Council Bluffs is made the terminus of the Nebruska division of that railway, and the change will cause about fifty more families to be added to Council Bluffs, eight full crews of trainmen having been ordered to

make this headquarters.

Can't Run that Church. A number of young men have been in the habit of going to the Walker mission in the northwestern part of the city, where meetings are being held every night of the Salvation Army variety. They did not go from a pure and devout purpose, but with a view to raising as large and varigated crop of cain as

possible. A man named Sam Shanker was one of those who attended the meeting Sunday night with this purpose in view, but he unexpectedly ran against a snag. A large mouthful of profamity escaped him and collided with the ears of a lady who sat near by Yesterday an information was filed in superior court by Mr. C. Walker, charging him with disturbing the peace, and a warrant was issued for his arrest.

Flew Out the Safety Valve. A loud bissing noise attracted the attention of people ail over the city yesterday afternoon at half past one o'clock. It came from the canning factory, which was started up yesterday for the season. The factory was surrounded by a hundred or more women and girls who were waiting for a chance to go to work, and about the same number of men and boys who had come to ok on and see their sisters and sweathearts begin their summer's toil. The engineer was busy getting up steam, and everything was progressing finely, when suddenly the safety valve blew off with a loud report, and the es nely, when suddenly the safety caping steam caused the loud hissing re-

Several teams which were standing near became frightened and started to run, and the crowds about the factory did likewise, and in the melee a number narrowly escaped being transpled on and severely injured. The engineer left his post and took to his heels for safety, thinking that the whole building was likely to come down around his ears. When it became evident that there was no danger everything quieted down and the work went on as usual, as soon as everyone had recov ered from his fright.

Cleaning the Sewers. City Engineer Tostevin has had a force of men at work for some time past cleaning out the sewers in various parts of the city. In some places the sediment has reached a depth of three feet in the bottom of the pipes, and this is being removed by the men who creep through the large sew-ers armed with hose, with which they drive out the sediment ahead of them. It is not a very attractive job, but the men who do i get \$2 a day and are satisfied. The Thir-teenth street sewer has already been put in proper shape, and the men are now at work on that on Ninth avenue, with the prospects that in a short time it too will be completed. From the present indications the city surveyor thinks his first pointon, that that sewer system as now being revised will be sufficient for all the city's needs, will be vindicated All the sewage of the city and all the waters of Indian creek from the corner of Fifth avenue and Thirteenth street run through the closed sewer to its outlet.

This session of congress has now recognized the right of these claimants to indemnity from the government and to compensation for these losses in the earlier years by the hostile or depredating Indians But few of these people had a hope that the day of compensation would ever come, as since 1859 but little positive assurance was ever given them by congress of final pay ment. In the meanwhile, many claim agents taking advantage of the discouragement of hese claimants, easily persuaded them to enter into contracts and fee agreements whereby \$3\frac{1}{2}\text{ and even 5.9 per cent was agreed to be paid in the event of the payment of the claim, thus enriching these gents and diminishing the payment of he claimant to this extortionate and unjustihable amount. This manifest injustice was apparent to congress, and it became our to the claimant, also to protect him against the Shylock attorneys and claim agents, and to this end we provide in the new way.

"That all sales, transfers or assignments of any such claims heretofore or hereafter made, except such as have occurred in the due administration of decedent's estates; and all contracts heretofore made for fees and allowances to claimant's attorneys are here by declared vold, and all warrants issued by the secretary of the treasury in payment of such judgments shall be made payable and delivered only to the claimant or his lawful heirs, executors or administrators or transferee under administrative proceedings, ex-cept so much thereof as shall be allowed the claimants' actorneys, by the court for prose-cuting said claim, which may be said direct to such attorneys, and the allowances to the claimants' attorneys shall be regulated and ixed by the court at the time of rendering adgment in each case and entered on record is part of the findings thereof, but in no case shall the allowance exceed 15 per cent of the adgment recovered, except in claims of less han \$500, or where unusual services have been rendered or expenses incurred by the laimants' attorneys, in which case not to ex-

ceed 20 per cent of such judgment shall be allowed by the court.' "It will be observed that this is a maximum limitation for the court, and to know what will be a reasonable compensation for the attorney within these limits the court will ascartain what services the attorney has rendered and nake the fee allowance actordingly learn from your communication that it is in contemplation by you to organize a special bureau in Washington city for the collection of these claims and to do so for a merely nominal cost to the claimant. Ghastly Discovery by South Omaha

Lads in the Missouri. About 5:30 last evening Frank Byers and two lads named Frank Belding and Willis Mulieu discovered floating in the Missouri river the body of man. The scene of the discovery was just east of Albright, where the South Omaha sewer empties into the river. They separated the body from the driftwood and towed it to the shore, and after securing it came to the city. notified the authorities, Coroner Harrigan gave Morgan Heafey instructions to secure the body and take it to his undertaking establishment, which was done.

The body was in a bad state of decomposition and to all appearances had been in the water at least two weeks. There was no article or mark upon the body to establish the identity of the dead man. To all appearances the deceased was perhaps thirty years of age, about 5 feet 7 mehes in height, dark hair and eyes. The body was so badly decomposed that it was impossible to tell anything of the features of the dead one, and the thing of the features of the dead one, and the stench arisising was very strong and sizacting. THE GRAND

FORCE THEM OUT.

CWIFT'S SPECIFIC is a remedy which is far in advance of medical science, as it has been expelling Microbi from the blood, and curing the worst diseases for 50 years, and it is only recently that the medical world have concluded that

THE ONLY WAY

to cure disease is to force out the baccilli through the PORES OF THE SKIN. S.S. Never Fails to do this. AN Mn. W. C. Curris, Editor of the Mccklerburg News, at Boydton, Va., says that he has been entirely relieved from an absects which formed in fils throat, and caused intense pain, almost choking him. He could not swallow solid food, and was in a most painful condition. He says that he took only three bettles, and that it effected a complete cure.
