How it Has Progressed. An interesting meeting was held last evening in the Trinity Methodist church, the main object being to allow the public to come in and learn something about the progress the little congregation has been making since its organization a little over three years ago. According to the report of the pastor, Rev. S. Alexander, there was no church organization in the southern part of the city three and a half years ago, and not a dollar's worth of property owned by any religious organization. At present the property owned by the Trinity Methodist church amounts to \$4,300, all of which is paid for with the exception of a mortgage of \$1,700 and a floating debt of about \$4.00.

and a floating debt of about \$600. There are on hand cash and subscriptions enough to more than pay the debt, after making all due allowance for possible bad subscriptions. There are now eightybad subscriptions. There are now eighty-four members, thirty-five of whom have been token in since last September. These facts, with others, were brought out by the reports the various officers made last evening After the reports short speeches were made by some of the leading church workers of the Refreshments were then served, after which the audience dispersed, having spent

an enjoyable evening. A very small pill, but a very good one DeWitt's Little Early Risors.

Old Settlers of Western Iowa Enjoy Their Annual Reunion.

FAIRMOUNT THE SCENE OF PLEASURE.

Whole Families V .- There and Everybody Carried Huge Baskets of Good Things from Home-Details of the Day.

The old settlers of Pottawattamie, Mills and Fremont counties held their annual reunion and picule yesterday in Fairmount park. The day dawned bright and beautiful, and the rain of the morning had left everything about the park in the condition most to be desired. The old settlers commenced to flock in early in the morning. Every train brought delegates from the various towns and cities of the three counties, and those who lived near enough to the city came in with rigs. By 10 o'clock, which was the hour appointed for the opening of the exercises in the park, about five hundred were gathered about the platform which had been constructed opposite the band stand. During the day the crowd grew, until not less than fifteen hundred people occupied the space in front of the platform or amused themselves by searching out cosy nooks about the park The old farmer with his wife and broad chested sons, the business man from the rural district, the lawyer, and in fact repre-

At 10 o'clock the exercises were opened by At 10 o'clock the exercises were opened by a selection from Dalby's band, which was followed by an innovation by Rev. G. G. Rice of this city. Mayor Macrea then made an address of welcome, in which he tendered the freedom of the city to the visitors. W. M. Brooks of Tabor college, the president of the day, responded to the welcome in a few well chosen words, after which the band played another selection. M. Harl was to have delivered the principle oration of the day, but

livered the principle oration of the day, but owing to his late bereavement be could not be present. His oration was there, however, and was read by Hon. L. W. Ross, It was one of Mr. Harl's characteristic productions, full of eloquent and stirring passages, and was read by Mr. Ross in a very pleasing style.

After another selection by the band dinner was announced, and the visitors commenced

to scatter in all directions to find places where they could open their baskets and make way with their contents with neatness and dispatch. When the dinner had been put out of the way the audience gathered put out of the way the audience gathered again before the platform and the toasts were responded to, President Brooks acting as toast master. The following is a list of the toasts: "Land Hunters and Land Buyers," D. C. Bloomer of Council Bluffs; "Religion of Forty Years Ago," Rev. John Todd of Tabor; "Real Life of Forty Years Ago," Shirley Gilliland of Glenwood; "The New Day," Judge Watter I. Smith of Council Bluffs; "The Second Relief," Hon. B. F. Clayton of Macedonia. The toasts were interesting and clicited much

toasts were interesting and elicited much laughter and applause. Reports of committees were then in order. The committee on constitution reported sev-eral changes in the constitution, which were made as as recommended. The committee on memorial resolutions requested that they be given more time in which to draft their resolutions, and their request was granted. The committee on election of officers and choice of location for the next reunion reported the following list of officers for the coming year, which was adopted: President, J. M. Kelly of Macedonia; vice president, Snirley Gilliland of Glenwood; secretary, E. J. Abbott of Council Bluffs; treasurer, L. J. Nettieton of Tabor. It was decided to hold the next reunion at Tabor, at a time to be fixed upon by the president and

secretary. The new president was escorted to the hair and presented with a gold headed cane, which is bestowed on each successive president of the association as a badge of his of-fice. After a few appropriate words from him, the toast of the day was announced, which was as follows: "The old settlers in helpfuness to one another and in writing the the memory of favors received in marble and of wrongs sustained in water have best illustrated the Christianity of our age and coun-

The band then led the audience in the lone meter doxology, after which the meeting ad-journed. It is the unanimous opinion of the visitors that the reunion was one of the most enjoyable affairs of the kind ever held. They left for their homes in the evening with many words of appreciation for the way in which they had been entertained.

Superintendent Sawyer's Report. The school board met last evening in special ession with Members Schoentgen, Stucy,

Waite, Shupert and Wells present. The committee on textbooks recommended that the president of the board be appointed to take charge of the books, make all pur-chases and receive all money without pay.

The report was adopted. The committee on supplies reported that D. W. Bushnell was the lowest bidder on erasers, pointers, slates and slate pencils. C. Brackett on penholders and call The report was concurred in and on motion of Shubert the committee was instructed to purchase 400 medium sized slates and 200 large sized,

manufactured by Couch & Haskell. Superintendent Sawyer then read his annual report, in which he made an ex-haustive review of the work done in the schools during the past year, the methods employed and the results obtained, and made ome practical suggestions for the future. Among his suggestions was that a short course in stenography and typewriting be added to the high school course in order to keep boys in school who would otherwise drift out into a business life. He also recamended that three or more recitations be eid each week in the high school depart-ient, on the subject of pedagogy, to afford the prospective graduates some proparation for the work of teaching. His report was listened to attentively by the members

with applause.
The rest of the evening was spent in the reading of a new set of rules of government for the coming year. But few changes were made in those of last year, and those were of teachers was not made, owing to a lack of

Several suits were commenced in the district court yesterday afternoon, as the result of the recent floods of Indian creek. In each oce the city and the Northwestern railway company were made co-defendants. R. C. Berner was one of the plaintiffs. He alleges that Indian creek is used as a public sewer by the city, and that the filth and garbage from the city is led into it. The creek is spanned by a low wooden bridge at the Northwestern depot, which is inadequate and becomes obstructed by the debris from the sewage at each time of high water. In June of 1890, he claims, the waters rose and were forced out of the creek banks by the railway company, who placed trains on the bridge to keep it from being washed away.

His well and cellar were flooded and the debris from the sewer covered his place, causing considerable sickness in his family. There was another flood last July, and the same thing occurred. He claims damages in the sum of \$1,500. Mary Ann Short also brings suit for \$1,500. J. Gilinsky for \$1,000, and L. Grell and William Bobning for \$500 each.

A suit was also commenced against the city vesterday by J. J. O'Brien and C. B. They ciaim that they made a verbal contract with Schluter in last December to grade Liucoln avenue at 9 cents per yard. Schluter was under contract with the city to do the grading, and his contract was assigned to them. They claim that they should have received \$709.74 for the work they did, but that they only received in reality \$463.80. They allege that the city has paid the rest of the money to parties who have no right to it, and they, therefore, ask a judgment for the remaining \$248.90. adgment for the remaining \$243.90.

Omaha. COUNTERFEITERS CAUGHT.

An Aged Couple Taken to St. Joseph to Be Tried.

An important arrest was made yesterday by Deputy United States Marshal Etheridge of Des Moines. A detective in the employ of the government has been here for several days past, apparently at work on an important case, but what it was could not be ascertained until yesterday morning, when Mr. and Mrs. Geerge Manning were arrested on the charge of counterfeiting. They were indicted more than two years ago in St. Joseph, Mo., for counterfeiting, but they got wind of the fact and before the government officials could make the arrest they skipped the country. They came to this city, it seems, about a year ago, and the government officials have been here dozens of times without learning that their furitives were so near at hand.

Manning and his wife have been living on East Pierce street, just above Casper's greenhouse, in a small house that stands well back from the road and is nearly hidden from sight by the thickly growing trees. Here they did a little gardening business in so quiet a manner that no one but their few intimate friends knew that they were here, and they did not suspect that a charge of so grave a nature hung over them. Manning is nearly sixty years of age and his wife but

slightly younger. The charge against them is that in August, 1889, they counterfeited 500 \$10 greenbacks and passed them off in various quarters of the country. They were not aware of the nature of the charge made against them until they had left the house in company with the officer and had been taken to the office of Commissioner Hunter, who showed them a copy of the indictment. They were taken at once to St. Joseph where they will have a trial.

MERRICK COUNTY.

One of Nebraska's Most Fertile Sections-Its Busy Towns.

CENTRAL CITY, Neb., Aug. 20,-[Special to THE BEE. |- Having been a constant sojourner in this valley for the past twenty years I have seen it in all its variance from infancy to the present, blooming with the finest crops the eye wishes to gaze upon. There is no fairer spot in the whole northwest than our little triangular county of Merrick. Its make up as an agricultural county cannot be excelled. Its natural growth, hay crop alone, which only requires the expense of cutting and putting up, equals the resource of many adjoining counties, while its grain crop will be on a par with all. I will not attempt to give figures here on the statistics of crops ra porous, thereby drawing into it the floating fertilizing deposits of nature's decay, keep-ing it always loose and loamy the year round. We have five nice towns within the county, as follows: Central City, the county seat, a town of 2,000 inhabitants -a fine brick town of which we are proud Its churches and schools cannot be excelled in towns of twice its size. The Methodist Episcopal church has one of the grandest school edifices in the state, capable of ac-commodating 1,000 pupils; its public school is equal to the best in the state, is graded and it requires eight teachers and one super-intendent to conduct the same. It has numerous small manufacturies and room for more; a fine 150-barrol flouring mill, two railroads, an elegant fair ground and the best half mile track in central Nebraska. A num her of fine horses are here now, in training for different parts of the state. Its inhabitants are principally American born and are a push-and-go-aheadative class. Minneapolis Flour Market

MINNEAPOLIS, Aug. 30. - The Northwestern Miller says: There was a small increase of 3,000 barrels in the flour output last week though had it not been for low water it would have been heavier. The shipments of flour for the week ended Saturday were the largest on record, being 198,000 barrels. The extreme fluctuations in wheat the past week have kept the flour market in a very unsettled state and at times millers have hardly dared to make quotations. Those who advanced their quotations any thing like in proportion to the appreciation in wheat, did a meagre business, while those who would sell at a lower range disposed of a quantity of flour considerable in excess of their current output Prices asked now are from 40 to 50 cent higher than a week ago. Patents have been taken up quite freely by domestic markets, and more or less bakers are going out in bar rels. There is a very good demand for buk-ers and low grades to export, though the

his her range of prices has retarded the trading in the former.
The export shipments were heavy again last week, being 60,345 barrels against 70,190 barrels for the proceeding week. Lon-

His wife and daughter are accessories to, if not accomplices, in the killing of thirteen infants. Medina, who has been forced to make a full confession to the commissary of police, Osvaldo Gueri, takes his detection very coolly, and says that he killed his own ten children because he was too poor to support them, and killed his three grandchildren to hide his daughter's shame. He has, in spite of his wholesale infanticide, six sons and one daughter in his family, and it appears that they all knew of his murders and deprecated them. But, although his people claim to have hated him, and although his neighbors in Lomos de Seamora,

The old man's confession tells in great detail the various ways in which he murdered each one of the thirteen infants from 1859 to 1891. He killed them all when they were less than five months old. Between 1874 and 1882, he raised the seven children he now

has. Excavations made on Medina's ranch have disclosed the skeletons of several of the babies. The brute's favorite method of
