They claim they will be able to show what kind of people they are when they have a chance. In the meantime they are lying in fail. time they are lying in jail.

J. G. Zimmer of Ida Grove met with a narrow escape night before last while trying to board a moving train as it was passing Broadway on the Northwestern tracks. As he grasped the platform he stumbled and fell, striking his head on a stone and receiving a severe cut on his forchead. His feet were swung around so that they lay across the track, and in another instant the wheels would have passed over them had not the truck caught his clothing and thrown his limbs off the track in the nick of time. He was taken to a hotel for the night, and left for home vesterday morning.

. The Dodge Light guards at a meeting held Tuesday night decided to enter into a contract with Captain Scharff of Omaha by the terms of which he shall act as drill master for the coming year. If it were not for the army regulation that the captain must be a resident of the state where he holds office for six months previous to his election, he would have been tendered the position at once, but the present contract will insure the boys the services of one of the best drill masters in the west, and as soon as he has finished the required six months' residence in Iowa he will be elected to the captaincy.

The total bonded indeptedness of the district is \$10,000. The bonds bear interest at 5 and 6 per cent and are payable at the op-tion of the school board.

One occuliarity of the financial affairs of the board is that there has been a surplus in the teachers' fund of not less than \$30,000 all during the past year. This fact is called attention to by Chairman Hunter in connection with his report, and the recommendation is made that in the future the assessments be reduced 30 per cent and a like amount added to the building fund to be used in liquidating the benefit in the future as fact as reashed. the bonded indebtedness as fast as possible This, he says, will not increase the burdens of taxation, but will reduce the teachers

spoiled a Lot of Domestic Unity and Put Cupid to Flight.

An exciting time was had yesterday morning in the court of Justice Swearingen, who was hearing the trial of the case of Mary Peterson against Charles Thyrkeil, in which the plaintiff was seeking to get possession of a cow which she claimed was hers, but which was in possession of her brother, the defendant in the case. J. G. F. Peterson was married to the plaintiff only a few weeks ago, and he was really reponsible for the bringing of the suit, his wife being contended to leave her cow in the hands of her brother.

Mrs. Peterson was put upon the stand, and after she had testified she went across the

room and commenced to talk to her father and brother. Her testimony had apparently not suited her liege lord, for Peterson rushed across the room, seized his bride by the arm across the room, seized his order by the arm and pulled her down stairs after him in spite of the efforts of the male relatives of the woman, assisted by some of the by-standers, to prevent him from doing her any injury. At the same time he proclaimed in a loud tone of voice that the father and brother were trying to win his wife away from him and he didn't propose to stand it. At the foot of the stairs the brother of the plaintiff met him and some angry words were exchanged, which seemed likely to result in a fight. During the quarrel Mrs. Peterson ran up stairs, her husband shouting to her as she disappeared behind the door of the ins tice shop that he was going home and she need not raind about following him, as he had had enough of her.

The transaction and its romantic ending attracted a large crowd, which was evidently anxious to see a fight. At the conclusion of the trial Mrs. Peterson was given possession

Rowing Over a Boy. Paul Giles was arrested yesterday on an information filed in Justice Hammer's court charging him with committing an assault and pattery on Elizabeth Blackburn, who is plaintiff in the suit for the possession of her child alluded to a day or two ago. The offence is alleged to have been committed last Sunday, and seems to have been the result of a family row which took place at the Glies residence east of the city. Mrs. Blackburn and her husband went to Giles' house and tried to get possession of the boy, whereupon Giles and a woman named Lucy who live at the house, tried to pre vent them from taking him away. Will Meet Here,

The Bluffs delegation to the reunion of the Twenty-ninth Iowa infantry at Glenwood returned home last evening. About 125 veterans were in attendance, but a large number of outsiders were there. Yesterday's festivities were nipped in the bud by a heavy rain storm that feil continuously from early in the morning until 1 p. m. It was the in-tention of the soldiers to have a big demonstration of the soldiers to have a big demonstration yesterday, but it was found impossible. The only thing of any note was the business session, at which Captain E. M. Beyers of Glenwood was appointed colonel of the regiment for the coming year. It was decided to hold the next reunien in Council Bluffs a year from the present time.

Council Bluffs, Ia. Landed on His Head. The carelessness of the average small boy

in jumping on and off motor trains while in motion is made the subject of remark every month or two, when some new victim to his own recklessness comes to light. Eddie Conley, a boy living with his parents on Vine street, is the latest. Tuesday evening he was playing with some other boys of his own age, jumping on and off the trains, when he made a misstep and was thrown to the ground with terrific force, landing on his head on the hard payement of the street. He was picked up and carried home unconscious, where a physician was summoned to attend him. He finally came out all right, but with a sore head—that—will remind—him for some days of the foolishness of trying to ride on the motor without paying.

Going After Money. F. W. Huditch, the expert accountant, leaves next Sunday for a six months' trip through Europe. During his absence he will visit London, Liverpool and Birmingham, England, besides a number of cities on the continent. The object of his journey is to make arrangements for the securing of \$500, 000 which he will bring back with him and invest in an enterprise the nature of which he has not yet made public. At all events he states that it is an enterprise in which all the citizens will be deeply interested, and which will do much for the city in general.

Manawa's Mineral Water.

The artesian well at Lake Manawa is attracting a good deal of attention and many remarkable cures are reported as having been made by the use of its waters. Last spring the well was sunk to a depth of 185 feet, and a handsome pavilion built around it. The well was originally sunk in 1886, when the hotel was being built. Its strong mineral qualities were at once discovered and a quantity of the water was sent to Prof. lugust Bode of Milwaukee, with the following result:

Sulphate of iron, 6.9. Sulphate of magnesium, 4.5. Phosphate of magnesium, 3.8. Chalybeate, 3.4. sulphate of sodium, 3.6.

MONEY IN THE TREASURY.

Trouble Which the Personal Rights People Have of Hand.

The Douglas County Personal Rights league is still in the ring. The idea entertained by some people that the defeat of prohibition ended the occupation of the Personal Rights league was shown last night to have been entirely erroneous. About sixty members of the Douglas County league met at Germania hall and proceeded to form a permanent organization by the adoption of a constitution and bylaws.

All German speaking citizens may become members of the organization. The intention is to have the organization made permanent all over the state, so that in case the prohibi tion ghost should again show its head a de-cisive attack can be made by those who assisted so energetically and efficiently in de-feating the amendment last year.

There was a lively discussion—last night in

the league when some of the members wanted vote some of the funds now in the treasury to assist in bearing the expenses of the German day demonstration.
President Lund was stoutly opposed to the

idea of using the funds for that purpose. He held that the funds had been largely contributed by people who were not Germans and they understood when they contributed and they understood when the funds that the money was to be used in the anti-prohibition campaign. He thought, therefore, that it would not be right for the eague to divert the funds to some other use. Other members of the league said that the prohibition fight was over, there was a fund of about \$7,000 in the treasury and they did not believe that anybody who had co tributed to the league would feel offended if some of the money should be used to defray the expenses of German day. Some of the members hinted that the funds were being kept for the fall campaign and if that was the intention of the democrats in the league who objected to using the funds for German day, there would be several different varieties of music floating through the at-mosphere about the time the attempt was made to use the funds in a local, political

campaign.

After discussing the matter for some time was finally decided not to use the funds for Jerman day. league will meet again on the first Wednesday in September.

PROCEEDING SLOALY. Secretary Rusk's Weather Depart ment is Making Its Work Sure. Senator Manderson is putting forth con siderable effort to secure the location of a local forecast station at Omaha. He believes

that Omaha is an excellent climatic point and that the location of such an office here will be advantageous to a very large scope of agricultural country deeply interested in the very best weather bureau service that an be furnished.

He received the following encouraging

He received the following encouraging letter upon the subject yesterday:

DEPARTMENT OF AGRICULTURE, WASHINGTON, D. C., Aug. 22—Hon. Charles F. Manderson. United States Senator, Washington, D. C.—Dear Sir: Your letter of the 2 th instant is at hand in regard to the establishment of a local forecast station at Omaha.

I have referred your letter to the Weather bureau for consideration. The policy of congress in turning over the Weather bureau branch of the signal office to this department was, no doubt, intended to enhance its usefulness to the agricultural interests of the country, and it is the object and purpose of this try, and it is the object and purpose of thi lepartment to attain, as far as possible, tha

desired result.

We are now carefully studying this question of the location of the forecast stations. Applications have been coming in desiring that they should be placed at various points in the district west of the Missouri, on behalf of which you write, and of course it is necessary for the Weather bureau to consider carefully where the service can be best proposed. It is where the service can be best promoted. where the service can be best promoted. It is important to place some of them at least a what might be considered climatic points, and the location of these points requires much consideration. Only a portion of the loca forecasters have been appointed or the stations designated, and we are proceeding slowly so as to make no mistakes in the matter. On the 18th instant we received a tele slowly so as to make no mistakes in the matter. On the 18th instant we received a telegram from Mr. W. N. Nason, secretary of the Omaha Board of Trade, upon the same subject. We have written to him and referred his message to the Weather bureau.

We appreciate the situation, as you have so admirably stated it, and I can assure you that the Weather bureau will give the subject careful and thoughtful consideration.

LAMBERT-STEES CASE ENDED.

st. Paul's Big Land Steal Finally Decided.

pert-Stees land case, involving \$500,000 worth of real estate in the heart of St. Paul, which has been in the Minnesota courts for ten years, has been decided by the supreme court, which awarded the property to Wash ngton M. Stees. The piece of land involved is 360 acres along Lake Phalen. Tellmadge Lumbert, who is defeated in the suit, is a young man of Washington city. The facts are unusual. In 1849 Andrew Bell Patterson, an Episcopalian clergyman, came to St. Paul with a number of land warrants which he gave to David Lambert, a lawyer, to lo cate for him on government lands. Lambert proceeded to locate the warrants in his own Within a week thereafter he died 'he administratrix of his estate, his mother petitioned the probate court and attempted o transfer the land to Patterson, and never claimed it as a part of the estate of David Lambert. They Must Go at Cost
There is no use of your endeavoring to get
along and economize by doing without a refrigerator. Health and comfort cannot be
maintained in the hot summer weather and
food properly preserved without some means
of preserving a cool, dry atmosphere. The
new Guernsey refrigerator is the world beater
in every essential point, and from this time
on we propose to put them into your houses at
absolute cost. This is a bona fide offer that
it will pay you to investigate.

Bells, Burglar Alarms, Announciators and Incandescent Wiring. WALTER V. COOK,

St. Paul, Minn., Aug. 26.-The great Lam-The negro chased him back into his private ice and again seized the woman and drove a knife into her breast. Just then Officers Sioan and Campbell en-tered. Sloan tried to shoot the desperate man, but the latter cut the officer's face open in a shocking way. Campbell was cut from the base of the ear to the forehead. The negro got out and ran two blocks, waving his bloody knife and threatening the lives of all whom he met. Officer Slever intercepted him and knocked him down and before he could rise the patrol wagon was driven over im. The only serious wound the negro re ceived was a cut over the eye where one of the patrol horses stepped on him. All of his
