Eight Hundred Dollar Roll Successfully Sneaked from a Pullman Car Passenger.

BUT THE THIEF WAS ALSO A BIGAMIST.

And When His Wives Found it Out They Helped the Police-Trying to Patch Up Democratic

Peace in Chicago. CHICAGO BUREAU OF THE BEE, CHICAGO, Ill., Aug. 26.

H. B. Weston, of Fargo, S. D., claims that while on a sleeping car on the Chicago, Milwaukee & St. Paul railway, which ne boarded at Dubuque, Ia., for the purpose of proceeding to Cincinnati, \$800 of his money disappeared while he was asleep in borth, Upon the arrival of the train in Chleago, John Cooper, the porter, was arrested. It was found that at Savannah, Ili., Cooper had mailed a large newspaper package, which was traced to his wife, Mrs. Effic Cooper, at No. 270 State street. This package is supposed to have contained the stolen money. In the course of their investigations the officers claimed to have found that Cooper was the possessor of two wives, No. 2 being located at No. 2110 Armour avenue, each of whom was ignorant of the other's existence. When informed of the facts each hastened to give the police all the information in their power. Cooper was held to the criminal court in \$3,000 bonds.

PATCHING UP POLITICAL QUARRELS. The report that the two warring wings of the democracy in Chicago had settled their differences appears to have been premature. Harmony has by no means been restored and there is even talk of the Harrison men joining the republicans. The Harrisonites were last June greatly strengthened by the decisive victory at the election and would gain indicial more prestige by an important victory this fall and would be in a position to dictate terms to the humbled Cregerites. However Adolf Krans and others think that the war has been carried far enough and that any refusal to join with the late enemy, now that it is contrite and humble, would amount to a withdrawal from the democratic party. A special meeting of the Harrison people to consider the subject will be held at the Grand Pastle trainer. Pacific tonight.

WORLD'S FAIR NOTES. The press and printing committee of the world's fair has adopted a resolution asking the grounds and building committee to reserve a space of 8,000 square feet for a newspaper building on the exposition grounds. This building is intended for the use of editors who may visit the exposition and for the accommodation of the newspapers of Chi

Henri P. Omaged of Monte Carlo, laid before the ways and means committee a proposition to reproduce the famous resort with all its dazzling attractions for the world's fair, but in spite of the proposed purchase of \$1,000,000 in stock, and the prospect of another million from the rake off, it was de-

ANOTHER RAIN PRODUCER. A Chicago genius named Gathman has a plan for producing rain by the use of carbonic acid gas. His plan is to explode cylindrical shells filled with the gas at a distance of four to five thousand feet above the earth. four to five thousand feet above the carry.
The throwing off of such a tremendous amount of carbolic acid gas at the lowest pos-sible degree of temperature would produce a very large cloud, says Gathman. Being heavier than the surrounding air it would descend, at the same time enlarging and accumulating moisture. This would continue until the cloud became so heavy that precipi-tation would result and a gladsome shower would follow. FOUGHT A DUPL.

News reaches Chicago via Milwaukee that a duel took piace there about two weeks ago between two men named Dr. Lee and Lieutenant Fairchild. The encounter is said to have been the result of a quarrel when both gentlemen were neated with wine, and to have taken place in the doctor's house. Both were slightly wounded, one in the arm and the other in the breast.

ODDS AND ENDS. The directors of the Masonic temple have been offered \$500,000 for a ten-year lease of the Casino in New York. There will be about sixty thousand square feet of space in the roof when completed. Alderman Haynes, it is said, will introduce a resolution at the next meeting of the council to allow the mayor and comptroller no salaries for the time during which they have been absent on their summer vacation.

A Milwaukee avenue grip car, heavily loaded with passengers, broke loose from the cable vesterday and dashed into the Washington street tunnel at the rate of forty miles an hour. A score of people were bruised up, but nobody was hurt seriously. KEAN'S CREDITORS ANXIOUS.

Some creditors have refused to join in the 85 per cent settlement in the S. A. Kean & Co. voluntary assignment case. It was so announced by a motion for a receiver today for the entire assets, amounting to \$500,000. It is alleged that there is a conspiracy between Kean, Jacobs and Warren to defraud the creditors who object to join in the settle-ment. Ex-Governor Hamilton, representing the complainant, said the county court had exceeded its power in authorizing the sale, that the property was being wasted and squandered to the detriment of unsecured creditors, and that something ought to be done to prevent a disposal of the property. The motion went over until September 21.

(MANY AFTER THE SHORT LINE. When the Pacific Short Line is to be put up at auction next Tuesday by the order of the United States circuit court it is expected that there will be many bidders in the field and that the bidding will be keen and animated from the outset. Among the more prominent, it is understood, will be the Chi cage & Northwestern, the Milwaukee & St. Paul, the Illinois Central and syndicates among the original bondholders. There is among the original bondholders. There is little likelihood that the road will be allowed to go for a song. Should the Northwestern be the purchaser it might ultimately com-plete it to Ogden and extend it from that place to some suitable point on the Pacific coast. The Illinois Central wants it to give It a transmissouri line and access to the Black Hills territory. The Milwankee & St. Paul covets it on account of the traffic it can

give any road in control of it. WESTERN PEOPLE IN CHICAGO. The following western people are in the

Don't Feel Well,

And yet you are not sick enough to consult a doctor, or you refrain from so doing for fear you will alarm yourself and friends—we will tell you just what you need. It is Hood's Earsaparilla, which will lift you out of that uncertain, uncomfortable, dangerous condition, into a state of good health, confidence and cheerfulness. You've no idea how potent this peculiar medicine is in cases like yours

Injured in a Runaway. The 5-year-old son of M. V. Gannon was thrown from a buggy yesterday morning and

sustained a broken arm. Miss Ada Gannou, who was driving the horse, left the little fellow in the carriage

and went into the Donglas County Bank block at Sixteenth and Dodge streets. When she returned the horse and carriage had disappeared and the child was lying on the pavement. The horse took fright at a passing motor train.

PERSONAL FIEW OF IT.

Nonroux, Neb., Aug. 26.-To the Editor of THE BEE: At the meeting of the State Board of Transportation held at the Paulic hotel yesterday, there was a very full representation of the business interests of Norfolk and of the towns in its vicinity. The business men affected directly by railroad rates displayed great interest in the meeting. From the statements of the business men who have for a number of years done business in this section of the country it clearly appeared that there has been a very marked decrease, aggregating about 25 per cent in all freight rates into and out of this section. Especially is this noticeable on the particular products of the state, grain and live stock, on which reductions to the above extent have een made to the eastern markets at S

Louis and Chicago during the past five The only complaint presented by any bust ness man was that of Mr. Johnson, dealer in furniture, who insisted that the rates made upon his line of goods at Norfolk were not such as to enable him to distribute in territory which he thought he aught to be able to tory which he thought he aught to be able to reach as against eastern competitors, particularly at such points as Fremont, Lincoln, Missouri river and east thereof. The railroads, in answer to his complaint, showed that distance was not by any means the only factor to be considered in the prepar-ation of tariffs, and admitted that the effect of the interstate law was naturally to make Norfolk rates the maximum at all points east, and the same principle was equally true t points on the Creighton branch of the Elkhorn and the main line to O'Neill, resulting in Verdigree and O'Neili rates being the maximum at points between those places and Norfolk, and the rates at these two points were controlled largely by circumstances beyond the power of the Elkhorn road to control. The milroads evinced a disposition to treat all pusiness interests fairly and seemed willing o confer with Mr. Johnson with a view to naking such changes in the tariffs as circumstances will permit.

Mr. Carberry, a farmer, insisted that rates upon farmers' products were entirely too high and that they resulted in lower prices being received by the farmer. He made some very happy hits in presenting his side of the natter and seemed to be a fair-minded man who would fairly consider the question in all its bearings. It was shown by the sworn statements as to the results of business opera-tions in Nebraska as to the Omaha & Repubican Valley Railway company, comprising about 410 miles of road, running through the counties of Saunders, Lancaster, Gage, Butcounties of Saunders, Lancaster, Gage, Butler, Polk, Platte, Boone, Madison, Hall,
Howard, Sherman and Vailey, that
for the past two years and a
half ending June 30, 1891, which period
includes the handling of the crops of 1889
and 1890, this road did not pay operating
expenses and taxes, saying nothing whatever
about interest on the fund used in the construction thereof. The Kansas City & Omaha
Railroad company makes an equally bad Railroad company makes an equally bad showing for the same period of time. It has 103 miles of road running through a splendid agricultural country. The St. Joseph & Grand Island Railroad company, with about 135 miles of road, shows that during the same period it is something like \$200,000 behind in the payment of its taxes, operating expenses and the interest upon its bonded dot. It is remarkable that these results should follow, but it was claimed by the railroads that a Nebraska railroad operating between points in this state and handling and carrying Ne-braska products and Nebraska business cannot stand alone under the present tariffs, and that if they depended upon themselves they certainly could not be operated. These lines of road above named are all operated by the Union Pacific Railway company, which tands behind their losses; it being shown that it was able to do so by reason of traffic handled by it from and to sources entirely outside of Nebraska. The Nebraska busi-ness of the Union Pacific Railway company

braska done for that period upon the present rates was unremunerative. It was stated that the Burlington system had a similar experience during the same period. The Elkhorn and Northwestern systems in like manner showed a corresponding

shows the same startling results; that is to

condition of affairs.

It is a startling situation which confronts the people and the railroads which, we fear, will have a tendency to further discourage eastern capital from coming into this country, and any one who has bad experience during the last year in trying to negotiate bonds ed securities in the east knows how difficult it has been to induce investors to put any noney into this state for any purpose. It i to be hoped that as the result of the various meetings held by the board at Lincoln, Kearney and Norfolk that a most careful and dili gent inquiry will be made into the true situa-tion, for it is not believed that the people of this state really wish anything unfair at the hands of the railroads; on the contrary we believe they wish them to enjoy a reasonable return upon their investment the same as is accorded any other business. SUGAR FACTORY NEEDED.

Douglas County Can Raise Sugar Beets of Fine Quality.

Mr. A. W. Fullried, who owns a small farm one mile west of Dundee Place, seems to have answered the question as to whether the soil in the vicinity of Omaha is suitable for the cultivation of the sugar beet, and he has answered it in a no less practical way than that of raising a small field of the vegetables in question.

Mr. Fullried took a Ben reporter out yesterday to view his crop of suger boots. has about one and a quarter acres now almost fully grown. The beets appear to be of good size and quality, although the rows are rather too close together to produce the very best results. Several beets were pulled up that weighed from half a pound to a pound after the tops were cut off. The vegetables will grow for some weeks yet and Mr. Fullried thinks that he will harvest about forty tons

thinks that he will harvest about forty tons of beets from the field.
"I may ship the beets to Norfolk or Grand Island," said Mr. Fullried, "but if I do not get a pretty good price for them I shall feed them to my cows. They are worth \$5 a ton for cow or hog fodder.

Mr. Fullried has kept an accurate account of the expense of planting and cultivating the vegetables and he estimates that by the time the field has been harvested it will

the time the field has been harvested it will have cost him in all about \$50, in addition to the interest and taxes on the land. "If these beets turn out as I think they ill," said Mr. Fullried, "I believe it will pay to raise them on land that is worth \$1,000 per acre. If I get forty or even thirty tons from my field, and they could be sold at \$5 a

ton, you can see that there is quite a profit in the crop. With improved machinery and going regularly into the business, a large field could be planted and cultivated at less expense, proportionately, than the small field 1 have realised."

raised."
The Douglas County Agricultural society has offered five prizes for the best acre of sugar beets raised in this county, and Mr. Fullried will enter his field in the contest. Mr. E. Stoddard, who lives five miles west of the city, has a field of three acres that will also come into the competition. The first prize is \$100, second prize, \$75; third prize, \$60, and fourth prize, \$50.

Dr. Birney, hay fever and catarrh. B bldg

Clark Woodman's Will. The petition to probate the will of the late Clark Woodman was filed in the office of the probate judge by the wife of the deceased yesterday afternoon. The hearing has been set for September 19, and the personal prop-erty is estimated at \$110,000. The heirs and parties interested are Sarah A. Woodman, Daniel W. Woodman of Omaha, Helen A. Fleherty of Arlington, Neb., and Charles M. Woodman of Colorado.

Some people are constantly troubled with bolis—no sconer does one heal than another makes its appearance. A thorough course of Ayer's Sarsaparitia, the bost of blood purifiers, effectually puts an end to this annoyance. We recommend a trial.

DENOUNCED OLD

State Grand Lodge of Good Templars in Annual Session.

PROHIBITION LAUDED FOR ITS VIRTUES.

Scenes at the Blue Grass Palace-South Omaha's Day Celebrated

With Great Ceremony-Other General Notes.

DES MOINES, In., Aug. 26 .- [Special Telegram to THE BEE. |-The thirty-seventh annual session of the grand lodge of Iowa Good Templars began this morning with about two hundred delegates present. The grand lodge degree was conferred upon 130 new members. Grand Chief Templar Hutchins in his annual address said, among other things, that, "With many of the municipal and county officers openly opposed to both the principal and practice of prohibition, encouraged perchance by those still higher in authority, lavishly supplied with ample means pouring into its inp from the lowest elements of society in and out of lowa, we certainly are facing a dangerous for and treading upon dangerous ground. No form of cunning deceit will escape the use of this enemy in our next battle. No money will be spared by them. No corrupt means of carrying their side to victory will defer them from its use. Revictory will deter them from its use. Remember it is the liquor traffic that arrays itself against us and with that traffic belongs as its comcomitants all that is debasing, cor rupting and vicious. Such is the enemy Good Templary confronts today in lowa." The report of Grand Secretary Porkins showed 11.069 members in good standing, a net increase during the year of 1911. Seventy two new lodges were organized, seventeen reorganized and seventeen revived. The receipts during the year were \$5,408.05 and the disbursements \$3.87 less. Sixty-five new juvenile temples were organized and ten revived. Working committees were appointed and secret work done this afternoon. Public meetings were held

this evening. Rain Interfered at the Palace. CRESTON, Ia., Aug. 26 .- | Special Telegram to THE BEE. |- This has been a dark day for the Blue Grass palace. A steady fall of rain started early in the morning and continued until evening. The attendance, however, was very fair, it being South Omaha's day at the palace. Nine train loads of excursionists came in today, the largest being from South Omaha. Southwest Iowa firemen were also here, but owing to the mud and rain no contests were held.

The city has been crowded all day, owing to the bad weather, and the speed ring has been a dead letter. Tomorrow will be Decatur and Montgomery counties day at the palace and will also be a good day on the race course, the premiums running to \$2,000.

Burlington Suspect Arrested. BURLINGTON, Ia., Aug. 26.-[Special Telegram to THE BEE. |-George Ramsey, an emplove of Guest's music house of Burlington, is under arrest charged with defalcations extending over a period of years. He was once detected in a defalcation amounting to \$1,000, but on account of his employers the offense was overlooked. Ramsey's alleged defalcations are not estimated, but are said to be extensive.

Serious Fire at Fonda. FORT DODGE, 1s., Aug. 26.- Special Telegram to THE BEE. |-The business portion of the little town of Fonda was almost entirely destroyed by fire last night. The fire originated in Ballard's drug store. The total loss will amount to \$30,000. The heaviest losses are J. B. Ballard, \$4,500; M. S. Patterson, \$1,900; F. M. Conway, \$6,000. The origin of the fire is a mystery.

MAJOR FURAY'S SUCCESSOR.

His Selection Promises to Smash the Democratic Combine.

The fight over the confirmation of a man to sit as a third on the Board of Public Works, has turned out to be a pattle of the giants Tuesday night the contending forces in the city council surged back and forth and the names of John B. Furay and W. A. L. Gibbon were passed around like a couple of foot balls until they were safely kicked into the hands of the committee on paving, curbing and guttering. The work of this committee is looked after by Messrs. Donnelly,

Morearty and Elsassor.

This committee has a deep laid and cold blooded scheme that was divulged yesterday morning. At the meeting next Tuesday night most of the democrats who went into the caucus that was held in the wine room of a Fourteenth street saloon last January will try and whip the dissatisfied democrats into line. They will ply the party lash and insist that all of the ten democrats shall stand by the mayor and vote for the confirmation of

W. A. L. Giobon.

If this whipping process can be accompiished successfully. Councilman Morearty will report back the name of Gibbon and recommend that his appointment be confirmed. This action will not be taken until after a count of noses has been made. Should the committee discover that enough of the democrats will not stay for the purpose of carrying the nomination, Gibbon's name will be buried in the pocket of the chairman and Furay's name will be reported back. In this event, the committee and the Gibbon democrats will join forces with the republicans and confirm Furay.

Mr. Morearty of the committee, speaks in

very uncomplimentary terms of President Lowry and the other democrats who voted against Gibbon's confirmation Tuesday night. He states that they allow their hatred to run He states that they allow their hatred to run away with their judgment and democratic principles. They hate Mayor Cushing and his style of democracy and to slap him in the face would be perfectly willing to sacrifice the democratic party, body, boots and breeches. He states that because they oppose the mayor they would be willing to disrupt and sell their party for a mess of the thinest pottage known to the mess of the thinest pottage known to the

The republicans in the council, with the exception of Mr. Bruner, know what is com-ing and are urging both factions of the democratic side of the house to knock off the chip that reposes upon Mayor Cushing's shoulder. While they are doing this urging they are having considerable fun and are industri-ously pounding the wedge into the split in the democratic ranks.

Furay May Stick. Mayor Cushing is in high glee and he chuckles to himself when he thinks of the action taken by the council in reconsidering the vote by which John B. Furay was ap pointed to succeed himself as a member of the board of public works. The mayor opines that he has the laugh on his democratic friends in the council and that they will realize the error that they made. He holds to the idea that when an

appointment has been confirmed that that settles it for all time to come, or at least until the appointee has been removed by the mayor, or until charges have been preferred and sustained against him.

The mayor will take legal advice upon this question and if his position is right he will

make the democrats swallow Furay. Constipation poisons the blood; DeWitt's Little Early Risers cure constipation. The cause removed, the disease is gone.

GAME AT 4 P. M.

DR. C. GEE WO,

The Great Chinese Panaceis**t**

Wishes to give a few reasons why he is working such wonderful cures where other doctors fall.

China has about half the population of the globe. They have been practicing and perfecting medicine over 4.000 YEARS. Chung Nung (see Ency. Brit.) discovered seventy-two poisons and their antidotes 2.458 years before Christ, and Marco Pola, who brought the compass.

Campini, one of the first Europeans who entered China, says: "Their physicians have a thorough knowledge of the nature of herbs and an admirable skill in diagnosing by the pulse." (See Willard's Middle Empire.) It is well known that gunpowder, steam and electricity are old in China, and that the Chi-nese were printing their delicate books 900 years before Guttenberg was born.

But it was to medicine the Chinese cave their attention, and when the emperor Chin Wong ordered all the books to be burned be excepted the medical works, and it was only by the merest accident that the great works of Confucius bimself were saved, he having placed a set of his works in the corner-stone of his residence, which was found 2,000 years after.

placed a set of his works in the corner-stone of his residence, which was found 2000 years after.

The celebrated Dr. Hobson states that one of the Chinese dispensatories gives 1443 HERBAL REMEDIES alone. Can you wonder then at the doctor's success?

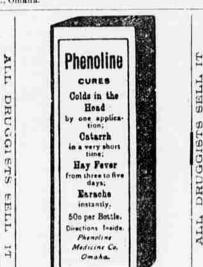

The Caucasian physicians all use the very same Remedies and when you change doctors, in your disappointment and disgust, you merely change faces and assertions but not medicines. When an American doctor discovers a new remedy all the other doctors know about it immediately. Now, you know the Chinese Doctor comes from an almost unknown country, containing nearly buil of the people of the world, where all the medicines are entirely different, and br. C. Gee Wo offers a reward of \$500.00 to any one who can duplicate any one of bis Chinese Medicines. Do you now comprehend that after giving up all hope of being cured by your doctors that in taking the Chinese Doctor's Remedies 4,000 in number and absolutely unknown outside of China, that he has a wonderful advantage over all other physicians. His new remedies have never before entered your blood and set on it as if by magic, curing the disease and rendering the complexion clear as a child's.

A MOTHER'S STORY.

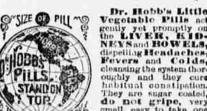

I sm 62 years of age and have suffered indescribable agany from asthma for many years. I could not sleep and had to sit up all night in a chair. I tried doctor after doctor but without help, and thought some night I would choke to death. As a last hope I tried Dr. C. Gee Wo, the Chinese doctor, and was cured and have never since been troubled. I have reason to biess Dr. C. Gee Wo.—MRS. P. O. HIRSH, 24th St., bet. J & R. South Omaha. In order to convince the public that Dr. Q. Gee Wo can care any discuss, he makes the following offer: A GUARANTEE to return the money if after a fair trial the patient is in any way disastisfied with treatment. DR. Gee Wo can care any discuss, he makes the following eight remedies: Blood. Female Weakness. Rheumatism. Indigestion, Lost Manhood, Sick Headache, Catarrh, and Kidney and L
