## THE SPECULATIVE MARKETS.

Everything on 'Change Acted Irregularly with Grain Averaging Weaker.

TRADE FEARS IMMENSE RECEIPTS.

Frost Damage In the Northwest Reported to Be Much Greater Than Generally Supposed-Activity in Stocks and Bonds.

Chicago, Ill., Aug. 26.-The speculative markets on change today acted irregularly with grain averaging weaker and provisions firmer. Trading was fairly active and the local feeling in corn and wheat bearish but easily startled on receipt of any bullish news. Lower cables from Liverpool, a weak domestic market together with the nervous fear of immense receipts were weakening factors and caused a weak and lower opening for wheat. December started at \$1.04% to \$1.04% and sold off to \$1.04%. New York was credited with being a liberal seller, as also the northwest in anticipation of big deliveries in that quarter. Offers were readily absorbed however, and early sellers were soon fighting to get back the wheat they had parted with and given the bulls a chance

to get in their work. A Paris cable quoted that market higher and a report was started that there were liberal buying orders from the continent. The state inspector of Minnesota was reported as saying that the frost damage in the northwest thought. Bradstreet reported that the available supply of wheat east of the Rockies had decreased 937,000 bushels during the week though the supply on the Pacific coast had increased 8.0,001 bushels. These were re garded as bullish factors and the market soon began to display much strength and Decemthen broke and fell to \$1.05%, back and forth, a nervous feeling being apparent on the part of traders, who were apprehensive over the effect of the impending large deliveries of grain in the northwest. Another cold wave was reported from the northwest with the mercury hovering near the frost line. Wheat again had a builge. December selling up to \$1.05%, off to and closing at \$1.01%.

cember selling up to to at \$1,014. The action in core today was almost a repe The action in core today was almost a repetition of yesterday though on a smaller scale. The clique let the crowd sell themselves very short, then supplied their necessities at higher prices. The market was quiet and easy during the first hour. The anticipation of hig receipts and the fact that today's arrivals exceeded the estimate, being 7% cars, and lack of stimulating news and frost talk were the weak factors. September started at \$3\cdot c} and October at \$5\cdot c}. October sold down to \$5\cdot c} early, rallied and held steady until later on when a sudden jump in the wheat caused a scare among the corn shorts and September made a quick spurt to \$6\cdot c\$ and October went up to \$6\cdot c\$ c. The clique then began to sell and there was a rapid break to \$4\cdot c\$ osed at \$6\cdot c\$ and October at \$5\cdot c\$ and October went up to \$6\cdot c\$ osed at \$6\cdot c\$ cand October osed at \$6\cdot c\$ and October osed at and October at 5 %c.
Onto were again weakened by large receipts, the arrivals being 3/2 cars. The market was rather quiet with sales of September at 30%c to 19%c closing at 30%c; May sold at 33%c to

344c.

Rye ruled quiet with each lot firm and options weakening about half from yesterday's closing figures, receipts continue heavy. 165 cars being reported today. No. 2 sold at 914c to 944c and September, 534c to 94c and closed at 534c.

914c to 944c and September, 534c to 94c and closed at 534c.

Provisions were only fairly active and prices were generally easier. Lard and ribs as well as pork sold considerably lower early, hogs being 5c to 10c cheaper, but subsequently values rose in response to a better inquiry. Poole changed fully 19,000 barrels of pork, buying September and selling October, Armour and Cudany were sellers of January pork. October pork opened at \$10.25, sold to \$10.274, broke to \$10.174, back to \$10.274, and at 12 o'clock was \$10.25. Lard was quotably firm at \$6.55 to \$6.794 for October.

Receipts—Wheat, from 116 points, 2,151.623 bushels; corn, 24.361 bushels.

Shipments—Wheat, 1,421,726 bushels; corn, 249,436 bushels. Estimated receipts here tomorrow: Wheat, 360 cars; corn, 750 cars; oats, 344 cars.

STOCKS AND BONDS.

NEW YORK, Aug. 26.-The stock market was again active and strong, making a substantial progress toward higher figures in all portions of the list with at times a buoyant tone to the dealings. The market gives evidence of broadening from day to day and its stubborn strength in the face of the most strenuous efforts to check the rise or to bring about a reaction shows the growing of confidence of outside investors and speculators in the fu-ture of prices. The feature of the last two days' dealings has been the evident disposition to take up the most promising of the low priced shares and while a few of these have forced to higher figures than the times warrant all have been placed apparently upon a permanently higher level.

The money situation seems to be easier as far as can be foreseen and with the surplus now in the banks and the disbursements of the government, including the payment for the 4% per cents to be redeemed, there is little ikelihood of a squeeze in money for some

time to come. In today's markets the grangers were again in the first place as far as activity goes and the realizations assumed large proportions, induced by the high figures to which they had attained, while the efforts of the bears to force a reaction of substantial proportions aided in weakening the entire list during the afternoon. The foreign purchases were the feature of the forenoon's business, and while realizations were even then beavy the impression made upon prices was measured by small fractions only and a full and free recovery took place under the urgent demand for stocks. London prices this morning were materially better than ours of last evening, and the early demand made an active and decidedly strong opening, and while the pressure to sell was sufficient to force a reaction to the level of the opening figures, prices could not be kept down, and later marked advances were made. The final dealings, however, again developed considerable strength in the list and the market finally closed fairly active and firm at only slight changes for the day in most cases. The transactions reached 315.818. Raliroad bonds were also remarkably active and many of the speculative issues were specially prominent. The Atchison and Reading incomes. Wabash debentures and Kansas & Texas seconds being most conspicuous. Many of these scored handsome gains and the market remained strong until the close.

Government bonds were dull and steady.

New York, Aug. 26—The Post says: Large buying orders for London account gave special strength to a few stocks, notably Burlington, Louisville & Nashville and Union Pacific. There was some hesitation in the movement of the market shortly after the opening, but stocks soon gathered strength. There was a few conspicuous instances of strength and a comparatively weakness. Of the first class was the Union Pacific, which, under the influence of London buying and the covering of shorts on this market, was advanced 14 per cent above yesterday's closing price. The assurance that Mr. Morgan has so identified himself with the project to save the property, and that there is no hitch in this execution, no doubt helped to drive the shorts to cover. The Gould stocks as a group were notably strong. Of the Vanderbilts, Chesapeake & Ohio stocks were buoyant. Financial Review.

CHICAGO. III. Aug. 26.—Swartz, Dupree & McCormick to F. C. Swartz & Co.: Our wheat market today has been rather quiet trading being chiefly among local scalpers. The endertone of the market has been weak Cables from the United Kingdom were disappointing and lower. Herlin was quoted 4 marks higher but that is such a speculative market that its fluctuations influence trading but little. The receipts at eleven primary points were large 2,164,000 bushels while the shipments showed a marked falling off amounting to only 1,422,000. No confirmation was received of the Russian export duty and it is not generally credited today. Some news comes from the northwest of danger to wheat, but so much of spring wheat is out of danger that there is but little unessiness feit. Bradstreet's report of the available supply shows the somewhat remarkable fact that stocks east of the Rockies have decreased 957,000 bushels, west of the Rockies have decreased 957,000 bushels. West of the receiving weeks of the year. The receipts of corn overran the estimates, 147 cars which induced considerable short selling during the early part of the session. When wheat advanced corn synrpathized with wheat, but it is evident on every advance an effort is being made to market town. October was relatively weaker than September and there was free selling of that future by the same parties who have been buying September largely for the east. In sympathy with a lower hog market provisions opened easier, but on the decline there was good buying by shorts and for local long account, reacting sharply before the close. It begins to look as if there was a somewhat overgrown short interest existing and there is a notable change to the buil side among one or two of our local professional traders. While we see no reason to expect any higher permanent advance some further upturn is not improbable if the corn market holds irm.

New York, Aug. 26.—Kennett, Hopkins & Cu to S. A. McWhorter: Brokers offices were npturn is not improbable if the corn market holds firm.

New York, Aug. 26.—Kennett, Hopkins & Cato S. A. McWhorter: Brokers offices were full of orders to buy stocks at the opening of the market this morning. Many of these were received from their customers in this country, but there were also large orders from London. It is thought London bought fully 4,000 of stocks covering quite a range of securities, from Lake Shore to Wabash preferred. Traders supplied the demand. They were liberal sellers to take profits with the expectation of buying lower, and these opposing interests have been the feature of the market all day and have kept it with a steady undertone without

have kept it with a steady undertone without making decided advances. There is no doubt that a good many stocks have been sold by parties who bought at lower prices, but this

same operation was gone through with last week and sellers were not able to get stocks back cheaper and came in at higher prices.

Possibly there may be a repetition of the pro-

Chicago Live Stock Markets. Chicago III. Aug. 26.—[Special Telegram to THE BEE.]—CATTLE—Hange cattle monopo-lized the market today. There was close to 11,000 of them, the western ranges alone being credited with no less than 7,000 head. As a consequence of these enormous receipts of common and medium cattle the firmness

cess in this case. The Pennsylvania railway statement for July published today shows an increase in net earnings of \$510,000.0 This is a good showing and should not only strengthen securities of that road but also encourage buying of Trunk line shares generally, as no doubt other lines are greater and making fine gains in earnings. The market had a reaction of 's to 1 per cent from highest prices early in the afternoon, but towards the close again became weak and final prices were in many cases the best of the day. The market is a growing one and has add indications of becoming broad.

Ontcago, Aug. 26. Kennett, Hopkins & Co. characterizing the market on the preceding two days vanianed. The advance of 10c to 15c gained during Monday and Tuesday was about lost. The weakness did not extend to good native cattle. They were again in seanty supply and regained firm selling a little stronger. If anything than yesterday. The demand developed considerable activity and the indications were that all the offerings would be taken before the close of business. The range of prices were: Natives, \$1.25@4.25; westerns, \$1.75@4.65; Texans, \$1.50@4.52. Saies largely at \$2.00 to \$5.40 for natives, \$1.80 to \$2.75 for Texans and at \$1.00 to \$4.00 for western. Stockers and feeders were strong and veni calves were firm for natives, \$1.80 to \$2.75 for Texans and at \$1.00 to \$4.00 for western. Stockers and feeders were strong and veal calves were firm at yesterday's advance. The hog market had a fairly steady look at the outset. Shippers and packers both bought freely and for a while in the morning yesterday's prices were realized. A little latter a weak feeling cropped out and before 9 o'clock salesmen found some difficulty in effecting sales at from 5c to 10c off. Later in the day the tone of the market was still more depressed at the close 10c per 100 pounds scarcely covering the decline. The late sales were on a basis of \$4.40 to \$5.10 for common to choice light. There were no sales of heavy at over \$5.15 and singers were quoted around \$5.55. Grassers were not wanted at 25c to 50c off from these quotations.

The Evening Journal reports: Cattle—Receipts, 17,005; shipments, 4,000; market firm and steady; choice to extra natives, \$5.0062.50; tothers, \$2.5062.40; rangers, \$1.0004.50; native cows, \$2.556.100.

Hoos—Receipts, 19,000; shipments, 10,000; market active, irregular; rough and common. \$1.756.4.15; mixed and packers, \$4.5062.50;

cases the best of the day. The market is a growing one and hastat indications of becoming broad.

CHEAGO, Aug. 26.—Kennett, Hopkins & Co. to S. A. McWhorter Lower cables, better weather abroad and admini of the imposition by the Russian government of an export duty on wheat gave the bears an excuse for hammering the whent market which they promptly accepted. The opening was about it off from the close and 2e from late curb prices. These sales by the bears were generally covered from '4 to it higher and they were caught a second time in the same way but finally succeeded in closing the market at near bottom figures. Foreign market advices were generally discouraging to holders, but press dispatches in the morning papers were gloomy indeed in the accounts of the starving peasantry in parts of Russia and great destitution in many sections, owing to deficient harvests. Foreign speculators are apparently working for lower prices but all offerings on soft spots are so readily absorbed as to suggest the suspicion that they may be sending in the near options of corn have been attended with no little excitement, and it seemed at times as if the the "man in the air" might force August and September to a very uncomfortable height for shorts. There is so much manipulation it is useless to guesson the market from hour to hour, but the situation does not favor thelong side unless frost should come to add it. Receipts are large. Although large shipments are being made out of store, there is an impression that the clique are doing something in this line to prevent unwieldy accumulations at this point, and grain thus shipped may find a lower market eisewhere. No leatures of importance in outs. Provisions opened weak with wheat and a lower market at the close. Purchases on breaks generally show a moderate profit very soon.

buying rallied the market at the close. Purchases on breaks generally show a moderate profit very soon.

Chicago, Aug. 25.—F. G. Logan & Co., to the Bryan Commission Co.: The wheat market opened quiet, becember seiling at \$1.4% to \$1.04%, and on some rumor of continental demand sold up to \$1.05%, closing at \$1.04%. Foreign advices are dull and a sinde lower. With improved weather, the reports of damage in the northwest are less ainraing, still the damage to quality may be considerable. The demand for cash offerings is not brisk. The principal buyers are the clevator companies. Values in the near future will depend on the movement of the northwest crops and foreign demand. This last must keep up to maintain prices. The market is weak at the close. Corn was very active throughout the whole session Weather predictions in the corn belt are for coller and wet weather, followed by frost Should these predictions come true we may look for some advance. A one-man power gets credit for the sudden changes from a half cent to I cent at a time. The cash demand keeps up at about I cent premium over September. Oats steady, trade lignt, We think oats cheap. Provisions, in sympathy with corn, advanced about 20c on pork and 5c on lard, ad ribs, Should the frost come and damage corn, hog products will, bigher. WILL FURNISH FACTS.

Mr. Berlin Willing to Meet the Proposed Investigating Committee. Commissioner Berlin returned yesterday from Lincoln and expressed undisguised surprise when his attention was called to the article in The Bee of yesterday giving Mr. Frank Ransom's version of the dismissal of the now somewhat famous Thir

teenth street grade injunction case. Said Mr. Berlin to a reporter for THE BEE: "If the Real Estate Owners' association is really investigating the whys and where fores of that injunction suit I am glad of it. began that suit in earnest, and it was dismissed without my knowledge or consent. will gladly furnish the investigating commit tee of the Real Estate Owners' asso-tion all the papers and data in my possession referring to that injunction and these documents will convince the com mittee beyond the shadow of a doubt that my actions in that and all other matters before the board have been and will continue to be in the interest of Douglas county and Omaha." Mr. Ransom is Willing.

OMABA, Aug. 26.-To the Real Estate Owners' Association, Omaha: Gentlemenread in this evening's BEE Mr. Berlin's the suit brought to enjoin the grading of South Thirteenth street. I was Mr. Berlin's attorney in that suit and dismissed it under his direction and at his request. Mr. Berlin says in this evening's Ben that the suit was dismissed without his knowledge or consent. Your association has been asked by The Bre to investigate the matter, as the suit was one in which the public was interested. I cheerfully join in that request and ask that you at once appoint a com-mittee to investigate fully every fact attending the commencement and dismissal of this suit. I will meet the committee at any time and place they may suggest, and will prove to their satisfaction and that of the public that this suit was dismissed with Mr. Berlin's knowledge and consent, and at his request.

Mr. Berlin's statement has been made in a
newspaper, and I have therefore given to the press of the city a copy of this letter. FRANK T. RANSOM.
