OFFICERS HAVE A NARROW ESCAPE.

Large Supply of Ammunition Secured by the Fugitives and They Declare They Will Never Sur-

render Alive.

JUNIATA, Neb., Aug. 30. - Special to THE Ber. J-Since Charles Triester was acquitted last spring of the serious charges againstbim there have been several disturbances in the neighborhood, and he has made threats against different persons that he was angry with. Not until Thursday night was evi dence enough against him secured to convict Then he shot at Clarence Vreeland and Lawrence Bobbio with intent to kill, and yesterday afternoon a warrant was issued for his arrest dead or alive.

It was reported that he was with Charley Ball, an accomplice, some three miles northwest of town, threshing. He was heavily armed and said he would never be taken. Hugh Moreland and Marshal Vanbuskirk armed themselves and started out to arrest him about 2 o'clock.

When they arrived there they had gone to Kenesaw. The officers followed and found they had purchased a big supply of ammunition and had said they were going to Minden, but Instead they turned south and returned through the country to just south of town where Clarence Vreeland and Mr. McGonigal live, and there hid themselves to watch for some of the boys.

Finally Clarence went home after some medicine and stopped in front of his house. While Miss Cora Beech, who was with him, held the horse, he went in. Just Clarence reached the house he was fired at, the bullet going over his head into the house. He jumped into the house, got a revolver and came out. Then several more shots were fired but owing to the darkness they failed to hit him. They they then fired at Mr. McGonigal, who had run out from the house opposite, barely missing his head.

Several militia boys with guns run out from town but failed to find the fugitives. They shot some eighteen times but failed to been wired but has not arrived yet. A party will go to hunt for them tonight.

Triester has declared he will not be taken and also says he will burn the armory.

#### Wild Grass Damaged.

NORTH PLATTE, Neb., Aug. 30 .- [Special to THE BEE.]-The cold weather of the last veek has delayed threshing very much, and revented the stacking of the crop of small grain which is the largest ever raised in this county. On the irrigated lands wheat is running thirty to forty bushels to the acre and oats as high as seventy bushels; barley fifty to sixty bushels and in the uplands an equal amount. Owing to the wet weather the crop of wild hav will be entirely lost. Colonel Hupfer, who is one of the largest owners of hay lands in the Platte valley, has lost his entire crop by the continual rains. The stand is good, but it is impossible to harvest it on account of rain.

e crop of corn is exceptionally good, but is ten days late on account of the weather Corn has the finest stand it ever had in the county and if frosts do not come too soon will make the targest yield in the history of the county. MIDIAND, Tex., Aug. 30.-The rain-making experiment inaugurated by the government, and which has been in operation in the Morris ranch twenty-five miles from this place is to be pushed to a final and thorough test regardless of what the operations or results of the Dyrenfurth party have been. R. J. Kleberg, of Corpus Christi, Tex., and Ex-Senator Collins, of San Diego, Tex., are here, to ascertain what the Dyrenfurth party has done, A reporter called upon them and the following is their statement, in substance: This thing must not be dropped now as hit any one. The sheriff at Hastings has | it is too important we are here to investigate and to learn and not !make statements. We realize that the government appropriation for this purpose was small and probably not enough to carry it very far. We shall wait till after this party makes their final test at El Paso, and if it is not then further demonstrated as one absolute fact we propose as individuals, backed by our own counties and many visiting financial interests, to make a similar and conclusive test. We realize that it is necessary to remove every doubt before the government can be expected to lend any further assistance, and that is what the indi-viduals we represent propose doing. We go direct to Austin and shall interview Governor Hogg and seek to further enlist his in-fluence in the furtherance of this undertaking, with which he is already deeply inter-ested and favorably impressed. The gentle-men represent the great King estate and others of the most extensive ranch and land owning concerns in the state. INTERESTING STORY OF A PROFLIGATE.

Twice a Millionaire He Dissipates His Fortune in Riotous Living, and Now in Honest Labor Meditates on ' Life's Uncertainties.

New York, Aug. 30.-Constantine Ashargan, once a millionaire, now a ten dollar a week clerk, called upon Interpreter Arbety, ex-consul to Jerusalem, at the Barge office today. Constantine inherited \$1,000,000 upon the death of his father, a wealthy manufacturer of Athens, whose only son he was, and he proceded at once to take all the enjoyment he could out of it. He built a large amphitheatre in the supurbs of Athens, and, besides introducing all the sensual revelry of eastern continental cities, he tried to revive the games known to his ancestors. His money went in streams and one morning, after a week's debauch, when he was about 25 years old, he came to his senses, a penni-

ess bankrupt. Shortly afterwards his mother died and left him another \$1,000,000. It took him seven years to squander the first; it took him eight years to squander the second. He purchased a costly steam yacht, furnished it gorgeously, employed a retinue of servants and proceeded to Constantinople, where he emulated his career in Athens. He fought a duel with a young Russian nobleman and then, tiring of Constantinople, wont to

#### IN EXTRA SESSION.

#### Tennessee's Legislature Will Assemble to Pass Some Needed Laws.

NASHVILLE, Tenn., Aug. 30 .- The extra session of the Forty-seventh general assembly of Tennessee will convene at noon tomorrow. The chief business to come before the body is the settling of questions that have grown out of the recent trouble between the miners and convicts at Briceville, referring to the abolition of the lease system and to the removal, rebuilding and enlarging of the state prison. The lease system as now operated vields the state \$100,000 per annum, and if it is abolished the tax rate of the state must be increased. There is a strong sentiment among the members of the assembly against a change.

The military laws are to be changed, so as to give the executive more power in emer-gencies like that at Briceville. The criminal laws are to be revised, so as to send fewer offenders to the penitentiary, probably establishing the whipping post for

misdemeaners or establishing houses of cor-rection for youthful offenders.

A World's fair appropriation is to be voted upon and the election laws, which were left n a faulty condition by the regular will be corrected.

The body will be in session twenty days but it is not thought that the work before it can be attended to in that time. If it cannot m extraordinary session will be called A committee representing the miners of the state will be in constant attendance dur-ing the session, their object being the abrogation of the lease system, or the passage of such laws as will keep convicts from being subleased to any mining company that will pay for their services.

Everybody is talking of the enterprise of the Herald in sending a correspondent to Chili, who was the only man able to send accurate information from the seat of war. It is considered most surprising, in view of the large amount of English money invested in Chili, that no English newspaper is represented there and that the English public is compelled to depend on the Herald for its information.

# IN FOYER AND ON THE STAGE

Stories of Actors and Their Movements Interestingly Told.

GLADSOME AND PLEASING AND SAD.

# Bright Scintillating Stars from Euro-

pean Firmaments Who Will IIlume the American Stage-A Journalist-Actor.

LONDON, Aug. 30 .- The event of the week, so far as the theatrical world is concerned, was the first appearance on a London stage of Mr. David Christie Murray, the much discussed, popular journalist-novelist-dramatistactor. Mr. Murray made his first obeisance to a metropolitan audience at the Globe theater on Thursday evening, and everybody connected with the drama who was still in town was present. The stalls were chiefly monopolized by the dramatic critics of the various newspapers, by well known actors and by even better known dramatists. "Ned's Chums," the newly developed actor's own play, which has undergone so many changes of name, was the piece produced, Mr. Murray sustaining the principal part, that of "Square Jack." Mr. Murray undoubtedly made a successful debut, his capital, vigorous impersonation of the burty villian of the play being a pleasing experience to the critical audience assembled to witness his dramatic efforts and a surprise to the general public. Consequently, although only pilled to appear for one night, there is no doubt that "Ned's Chums," with Mr. Murray as "Square Jack," will continue to run throughout the coming winter season.

The new dancing school for girls, conducted under the auspices of Sir Augustus Harris at Drury Lane theater, is pronounced to be a success. Mme. Pheasey is the instructor of these young lady, ranging in age from 16 to 20 years, who, in order to be admitted to the school, have to enter into contract for three years, beginning at a salary of \$2.50 per week. After having attained the necessary skill and grace, these courageous pupils are to be provided with engagements at Drury Lane or Covent Garden, or anywhere else Sir Augustus may select, and then they will receive "remunera-

ation commensurate with their ability." The season of Augustin Daly in Paris promises to be another success. Many of the leading theatrical people of France are going to Paris from the seaside, mountain and other summer resorts in order to be present at the opening night. Daly's company opens on Monday next in "As You Like It." At any rate, without in any way trusting to French patronage in order to make the venture a success, there are a sufficient number of English and American residents and tourists in Paris to insure good paying houses. The English and American tourists in Paris alone are numerous enough to more than fill the Vaudeville theater, where the Daly company appears for some time to come.

Her death occurred at the

Chateau Aigen, near Tull, on the Danube seventeen miles from Vienna. "A Sailors Knot," with which Drury Lane will reopen, will embrace the period from Napoleon's escape from Elba to his fall at Waterloo. The action of the play will com mence at Wapping Old Stairs, and the deci of the Victory and the march of the troops for the great battle will be seen. Mr. Charle Glerny will play a juvenile hero to Mr. Charles Warner's lead. There are only five mportant male characters in the drama.

A New York manager is said to be trying to engage the services of Mabel Love, popular 'galety girl,' for a season in New York City and elsewhere. Mabel, when only a ballet gir!, jumped into notoriety by plung-ing into the Thames in an attempt to commit suicide. Hor genius in the ballet was appreciated to the degree she thought it should be after her cold bath and rescue and the un folding of her pitiful tale in a police court Mabel blossomed into popularity, for that dramatic debut made her the idol of the "Johnnies" who convert the Gaiety theatre into a gold mine. It is whis-pered that the inducement held out to Mabel is not sufficient to make her desert the Gaiety brigade. A weekly salary of \$125, to take the role of La Fravioline, is the sum men-

tioned as the bait offered by the New York manager. Minuic Hauk sailed for New York today Miss Eastlake has determined to make tour of the United States as her own man-ager, instead of joining Wilson Barrett's

ompany, as at first announced. Mrs. Langtry has signed an agreement to make another tour of the United States. This venture will commence in January next W. S. Gilbert, Sir Arthur Sullivan's for mer partner in so many prilliant and musica efforts, has finished the libretto for a comic opera composed by Alfred Geilier. This new production is quite ready to be put upon the stage, but it will not be exposed to the fire until "La Cigale" ceases at the Lyric theatre.

Geraldine Ulmar is still playing the lead ing role in "La Cigale." Mr. Gilbert has also undertaken to write a farcical musical comedy which will be produced at the Prince Wales' theatre.

In response to a demand by the Wagner ocieties a minor festival may very likely take place next year, the operas' represented being "Parsifal," "Die Meister Singer," and "Tannhauser," and possibly "Rienza."
Harnish McCann's new cantata, "Queen Hindee of Calydon," is highly spoken of. It has been accepted by the Glasgow Choral

union for performance during their winter During the past season, ten months, at the Opera Comique, Paris, the works of no less than twenty-seven composers were given. Gounod headed the list, with sixty-six performances; Massager came next, with forty-seven, and then Bizet, with forty-four; Am-brose Thewas, Victor Massie and Harold

were all played a nearly equal number of times, between thirty and forty, whereas Rossini has only been heard seventeen times and Donnizett but twelve times.
Rudyard Kipping has just finished a new lovel, written in co-operation with a young American, Welcott Balestier, now livi It is a story of America and India and will appear in the Century.

Cable-Special to THE BEE. |-Sally, the famous chimpanzee of the Loudon zoological gardens, is dead. She was the most popular figure in the gardens since Barnum took Jumbo to America. Sally could actually count up to the figure 7, and would take the arm of any person with whom she was ac quainted and walk up and down in public. Scores of scientific men have studied her. The late Charles Darwin was well acquainted with the lady. She died ignorant of the joys | north and will remain two or three days.

[Copyright 1891 by James Gordon Bennett.1] BRUSSELS, Aug. 30.—[New York Herald Cable-Special to THE BEE. |-The Chicago commissioners, Messrs, Butterworth, Handy, Lindsay, Bullock and Grosvenor and Secre tary Sprague, arrived here yesterday from Russia. At Berlin they were received successively by the Prince Dechimay, minister of foreign affairs, and M. Debruyn, minister of public works, who introduced them to the following named gentlemen, members of the Belgian royal committee on the Chicage show: D. Hoveine, manufacturer; Fred Simonis, vice president of the senate; M. Vererayss, a member of the house of representatives; M. Slingeneyer, a member of the house and a well known painter. These gentlemen invited the commissioners to a breakfast, at which Minister Debruyn was present. The Americans ex-

#### Lake Erie & Western Managers Accede to the Strikers' Demands. Indianapolis, Ind., Aug. 30.—The Lake Erie & Western management promulgated

its new wage schedule this afternoon, which was sent to the various division headquarters at once. The new scale gives the local freight conductors 40 cents additional per trip in districts of three crows, and where two crews run in a district the conductors are to receive an advance of 25 cents over the old schedule. The brakemen in those classes, respectively, receive 15 and 10 cents more than under the old arrangement. In work or wreck trains the conductors and brakemen are granted an advance of 10 cents a trip. No advance fare is made to the through freight men. Overtime, beyond twelve hours and sixteen hours, in the two classes is paid to conductors at the rate of 30 cents per hour, in the two classes is paid to conductors at the rate of 30 cents per hour, brakemen 20 cents. The same overtime is allowed to trainmen on through freights where there is an excess of time necessary to complete the run at a ten mile an hour speed. At the same rate on work or wreck trains overtime above tweive hours will be allowed. It is expected that this schedule will be satis-factory as the overtime allowed is based upon the schedules now in vogue hereabouts, and overtime is what the strikers demanded.

Amusing Incident Revealed in the Career of Ex-Governor Irwin.

HOW HE HELPED THE "CONSCIENCE FUND"

Refused to Receive Money to Which He Felt He Was Not Entitled

# and it Was Credited to Defaulters.

Washington Bureau of The Bes, 513 Fourteenth Street, Washington, D. C., Aug 80, Governor John L. Irwin of Arizona is in Washington. He was formerly of Keokuk, Is. His visit here has revealed an amusing incident connected with his resignation as governor of Idaho when it was a territory. It seems that after his resignation he went emmediately to Keokuk and lived there, but owing to the delay in the appointment of his successor the salary went in Mr. Irwin's

favor and a check was sent him for \$1,800.

He refused to accept it because he had not per-

formed official duties and returned it to the department. Judge Lawrence of Ohio was the first state comptroller of the treasury and in classifying Mr. Irwin's remittance ne ruled that it should be placed in the "conscience fund." Governor Irwin objected to have his contribution placed in the fund with those from conscience-stricken thieves and defaulters and insisted that the money was not returned because his conclude had smitten him, for he had never signified a willingness to accept it. He returned the eneck as soon as he received it because he felt as a sense of justice that he was not entitled to it, but notwithstanding his protests. Comptroller Lawrence stood firm an the \$1,800 which Governor Irwin so magnon mously returned has been put to the creder of his conscience. Governor Irwin has never forgiven Judge Lawrence for this act and has tried repeatedly, but in vain, to have the matter righted since. P. S. H.

Dispatches also say that Balmaceda resigned in favor of General Baquedano. Washington, D. C., Aug. 30.—The dispatch from Admiral Brown to the Navy department was the only information received here today by the government officials of the Chill. Nothing fur been heard from the consul at Valparaiso since his dispatch announcing the surrender of that city to the insurgents. Nor has anything been received from Minister Egan at Santiago. It is believed by officials f the State department, notwithstanding the dispatches to the contrary, that Santiago is still in the hands of Balmaceda. They base this opinion on the fact that the department has not been informed by Minister Egan of its capture. They say ne would cortainly have notified the department had

the city been surrendered, as there is no in-terference with the cable line vin Beunos Avres so far as the department knows. The Chilian minister declined to receive any one tonight. It is reliably reported that he received word today that Balmaceda was

#### Reciprocity With Venezu la. Washington, D. The treaty was not rejected, but the government of Venezuela sent is back and asked that certain modifications be made, for the reason that the concessions contemplated would decrease the national revenues at least 30 per cent.
